COMMISSION

WESTERN AUSTRALIA, } By His Excellency Colonel Sir William
TO WIT. } Robert Campion, Knight Commander
of the Most Distinguished Order of St.
Michael and St. George, D.S.O., Gov-
ernor in and over the State of West-
ern Australia and its Dependencies in
the Commonwealth of Australia.

[L.S.]

To the Honourable William Charles Angwin.

Greeting:

KNOW you that I, the said Governor, acting with the advice of the Executive Council, do by this Commission under my hand and the Public Seal of the said State, and by virtue of the provisions of "The Agent General Act, 1895," re-appoint you, the said the Honourable William Charles Angwin, to be Agent General for the State of Western Australia in the United Kingdom, and I do authorise and empower you to undertake, exercise, and perform, on behalf of the State of Western Australia and the Government thereof, in the United Kingdom and elsewhere, in relation to Western Australia, all and every such duties as are prescribed by the said Act, and all powers incidental thereto, as the same are usually exercised and performed in England by the Agents General of the States of the Australian Commonwealth, and generally to act in the premises on behalf of the said State for a further period of three years from the termination of your present appointment, or for any renewal thereof that may be arranged.

Given in Executive Council, under my hand and the Public Seal of the said State, at Perth, this 4th day of February, One thousand nine hundred and thirty.

By Command,

(Sgd.) P. COLLIER,

Treasurer.

IN THE LICENSING COURT FOR THE CANNING DISTRICT OF WESTERN AUSTRALIA.

In the matter of an Application for a new Australian Wine License within the Licensing District of Canning, in Western Australia, and in the matter of "The Licensing Act, 1911-1922," Section 47.

To His Excellency Colonel Sir William Robert Campion, Knight Commander of the Most Distinguished Order of St. Michael and St. George, D.S.O., Governor in and over the State of Western Australia and its dependencies in the Commonwealth of Australia.

THE humble petition of the undersigned, being a majority of the Electors living in the area hereinafter defined, sheweth as follows:—

1. It is for the advantage and convenience of the residents of Victoria Park that a new Australian Wine License should be granted within the Licensing District of Canning, in the State of Western Australia.

2. The land, being portion of Swan Location 2, and being Lot 12 on Plan 1734, Certificate of Title, Registered Volume 746, Folio 44, situate in Albany Road, Victoria Park, is a suitable place in respect of which such license be granted and is the site of the proposed licensed premises.

3. For the purpose of this petition the area prescribed by Section 47 of "The Licensing Act, 1911-1922," and hereby defined, is an area comprised within a circle having a radius of 40 chains from the site of the proposed licensed premises.

4. That since the 31st day of December, 1922, there has been an increase in population in the said area and such increase is likely to be permanent.

5. There are insufficient licensed premises to meet the public requirements within the said area.

6. There is only one Australian Wine License in the said Licensing District of Canning.

7. We, the undersigned, are all Electors living within the said area comprised within a circle having a radius of 40 chains from the said land.

Your Petitioners, therefore, humbly pray:—

That the Licensing Court for the Canning District of Western Australia may have authority to grant a new Australian Wine License within the said District.

LAND OPEN FOR SELECTION.

IT is hereby notified, for general information, that the areas scheduled hereunder are available for selection under and subject to "The Land Act, 1898," and its amendments, including such further amendments as may be made by Parliament during the current year.

All approvals shall be subject to the residence conditions as prescribed by Section 55 of the said Act.

The areas marked "A" shall be open for selection by the special classes of selectors hereinafter named in the following order of preference:—

- (1) Under "The Discharged Soldiers' Settlement Act, 1918," by "Discharged Soldiers" within the meaning of paragraphs (a), (b), and (c) of the interpretation of the term in Section 3 of that Act, and "Dependants" within the meaning of that term in the said section.
- (2) Under "The Land Act, 1898," by ex-British Soldiers who were on active service in the late war.
- (3) Under "The Land Act, 1898," by Munition Workers in the late war.
- (4) Under "The Land Act, 1898," by ordinary selectors.

(In the event of an applicant other than a Discharged Soldier under subparagraph (1) obtaining a block within a Repurchased Estate, the term of the lease and conditions of payment will be subject to re-adjustment in accordance with the provisions of "The Agricultural Lands Purchase Act, 1909.")

The areas marked "B" are not subject to such order of preference.

Applications must be lodged at the Local Land Office for the district in which the land is situated, not later than the date specified, but may be lodged before such date if so desired.

All applications lodged on or before such date will be treated as having been received on the closing day, and if there are more applicants than one for any block, the application to be granted will be determined by the Land Board, except in cases where it is already determined by the order of preference set out above under "A." Should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, the applicants for the blocks will be duly notified of the date, time, and place of the meeting of the Board, and there shall be an interval of at least three days between the closing date and the sitting of the Board.

If an applicant wishes to appear before the Land Board in person he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof, if any, under Conditional Purchase.

The prices quoted hereunder (exclusive of the value of improvements, if any, and survey fees, and land acquired by the Crown under "The Agricultural Lands Purchase Act, 1909," or otherwise for settlement) are reduced by one-half to Discharged A.I.F. Soldiers only.

Under Secretary for Works and Labour,

MUNICIPAL CORPORATIONS ACT, 1906.

Municipality of Geraldton.

BY-LAWS of the Municipality of Geraldton, made under Sections 179, 181, 335, and 447 of "The Municipal Corporations Act, 1906," and numbered 1 to 35, for regulating the matters entrusted to the Municipality by various Statutes, also including By-laws made under "The Cattle Trespassing, Fencing, and Impounding Act, 1882": In pursuance of the powers in that behalf contained in "The Municipal Corporations Act, 1906," and the Acts amending the same, the Mayor and Councillors of the Geraldton Municipality do hereby repeal all By-laws of the Geraldton Municipality heretofore made in reference to the several matters dealt with in the By-laws hereinafter set out, and do make and order the following:—

By-law No. 1.

In these By-laws "Council" means the Council of the Municipality of Geraldton.

"Municipality" means the Municipality of Geraldton, or the District thereof, as the context shall require.

"The Act" means "The Municipal Corporations Act, 1906," and its amendments.

All reference to officers by name of office are, where the context or the circumstances so permit, to the officers of the Municipality.

By-law No. 2.

Standing Orders.

The proceedings and business of the Council shall be conducted according to the following rules, which shall be called the Standing Orders:—

Count out.

1. If at any time during any meeting of the Council a Councillor shall call the attention of the Mayor to the fact that a quorum is not present, the Mayor shall thereupon suspend the proceedings of the meeting for a period of fifteen minutes, and if a quorum be not present at the expiration of such period, the meeting shall be deemed to have been counted out, and the Mayor shall adjourn it to some future date.

Record of Councillors present.

2. If at any time a meeting shall be deemed to be counted out as a result of a Councillor or Councillors who have been present retiring from such meeting, the names of the Councillors present at the time when the meeting shall be so deemed to be counted out shall be entered in the Minute Book as a separate entry from the entry required by Section 176, Subsection (1) of the Act.

Open Doors.

3. Section 163, Subsection (4), of the Act shall apply to special as well as to ordinary meetings of the Council.

Reporters.

4. If any part of the Council Chamber has been set aside for the accommodation of newspaper reporters, during meetings of the Council, such part shall, during such meetings, be used only by newspaper reporters accredited to the satisfaction of the Council. Such accredited reporters shall withdraw upon the passing of a resolution under Section 163, Subsection 4, of the Act, unless the resolution shall be in such form as to exclude them from its terms.

Disturbance by Strangers.

5. Any person, not being a Councillor, who having been admitted to any meeting of the Council, is guilty thereof of any improper or disorderly conduct, or who does not leave when lawfully requested by the Mayor so to do, shall be deemed guilty of an offence. Any such person who, being lawfully requested by the Mayor to leave any such meeting, may be forthwith removed, and any constable or any person requested by the Mayor so to do may remove such person.

Business of Council Meetings.

Order of Business.

6. The order of business of any ordinary meeting shall be as follows, or as near thereto as shall be practicable; but for the greater convenience of the Council

at any particular meeting thereof, it may be altered by resolution to that effect:—

1. Confirmation of minutes.
2. Announcements by the Mayor without discussion.
3. Questions of which due notice has been given without discussion.
4. Correspondence.
5. Petitions and memorials.
6. Tenders.
7. Reports of Committees and Officers.
8. Order of the Day, including considering and ordering upon business left over from the previous meeting, and any business the Mayor may think desirable to bring under the notice of the Council and may have directed to be entered as an order of the day.
9. Motions of which previous notices have been given.
10. Ordinary business.
11. Notices of motion for consideration at the following meeting if given during the meeting.

Order at Special Meetings.

7. The order of the business at any special meeting of the Council shall be the order in which such business stands in the notice thereof.

Minutes of Meetings.

8. At every ordinary meeting of the Council the first business thereof shall be the reading and putting of a question for the confirmation of the minutes of the proceedings at the preceding ordinary meeting, and no discussion shall be permitted thereon, except as to their accuracy as a record of the proceedings, and the said minutes of the proceedings at the preceding ordinary meeting shall then be signed as by the Act required.

Questions.

9. Any Councillor desiring to ask a question at any meeting of the Council shall give notice thereof in writing to the Town Clerk, at least eight hours before the hour fixed for the meeting.

10. All questions and answers shall be submitted as briefly and concisely as possible and no discussion shall be allowed thereon.

11. Notwithstanding Clauses 6, 9, and 10 of this By-law, the Mayor may permit any question to be asked at a meeting notwithstanding that no notice shall have been given.

Notices of Motion.

12. Any Councillor may bring forward such business as he may consider advisable, in the form of a motion of which notice shall be given in writing to the Town Clerk, either at the meeting previous to the meeting of which it is intended to move the same, or at any time thereafter, being not less than three clear days before such last-mentioned meeting. Provided that, in cases in which special notice is required by the Act, no additional notice shall be required under this clause; and provided further, that this clause shall not affect any provision in these By-laws contained for motion without notice.

Motion to Lapse.

13. Every such motion shall lapse, unless the Councillor who gave the notice thereof, or some other Councillor authorised by him in writing be present to move the same when such motion shall be called on.

Deputations.

Reception of Deputations.

14. Deputations wishing to be received by the Council shall be requested, in the first instance, to send in a memorial in writing, and the Town Clerk shall bring the memorial before the Committee concerned, which shall be authorised, if it see fit, to receive the deputation, and to report to the Council. If the Committee is of opinion that the memorial is one that should be brought before the Council, the Committee shall so report, and if the Council shall so order, the deputation shall be invited to attend.

Number of Deputation.

15. A deputation shall not exceed six in number, and only two members thereof shall be at liberty to address the Council or a Committee of the Council, except in reply to questions from members of the Council or Com-

mittee, and the matter shall not be further considered by the Council or the Committee until the deputation shall have withdrawn.

Conduct of Debate.

Councillors to address the Chair.

16. Any Councillor moving a motion or amendment, or taking part in the discussion thereon, shall rise and address the Mayor, and shall not be interrupted unless upon a point of order, when he shall resume his seat until the Councillor raising the point of order has been heard thereon and the question of order has been disposed of, when the Councillor in possession of the Chair may proceed.

Nature of Motion to be stated.

17. Any Councillor desirous of proposing an original motion or amendment shall state the nature of same before he addresses the Council thereon, and, if so required by the Mayor, shall put the same in writing.

Motions to be Seconded—Enforcement of Standing Orders.

18. No motion or amendment shall be discussed or put to the vote of the Council unless it be seconded, but a Councillor may require the enforcement of any Standing Order of the Council by directing the Mayor's attention to the infraction thereof.

Use of Titles.

19. At meetings of the Council, speakers in referring to others present thereat shall designate them by their respective titles of Mayor or Councillor, as the case may be.

Priority of Speakers.

20. If two or more Councillors rise to speak at the same time, the Mayor shall decide which is entitled to priority.

Interruption of Mayor.

21. Whenever the Mayor rises during a debate any Councillor then speaking or offering to speak is to sit down, and the Council is to be silent so that the Mayor may be heard without interruption.

Councillor not to speak twice.

22. No Councillor shall speak twice on the same question, except by way of explanation or in reply upon any original motion of which he may be the mover.

Mayor may call to Order.

23. The Mayor shall, without waiting for the interposition of the Council, call to order any Councillor proceeding to speak a second time on the same question.

Mover and Seconder speaking upon Motion.

24. A Councillor moving a motion shall be held to have spoken thereon, but a Councillor merely seconding a motion pro forma shall not be held to have spoken upon it.

Speaking after Motion put.

25. No Councillor may speak upon any question after the same has been put from the Chair.

Time Limit.

26. No Councillor shall speak or address the Council upon any motion or amendment before the Council, or in reply, for a longer period than ten minutes, without the consent of the Council, which shall be signified without debate.

Speaking in Reply.

27. It shall not be competent for any new matter to be introduced by the mover when speaking in reply, but he shall strictly confine himself to answering previous speakers.

Division of complicated Motion.

28. The Mayor, at his discretion may, or the Council may by motion without debate, order a complicated motion to be divided and put in the form of several resolutions.

Withdrawal of Motion.

29. No motion or amendment shall be withdrawn without the leave of the Council, which shall be given or refused without debate. After such leave has been granted and the motion or amendment withdrawn, no Councillor shall speak upon the subject-matter of such motion or amendment.

Production of Documents.

30. Any Councillor may of right require the production of any of the documents of the Council relating to the question or matter under discussion.

Reflection upon Vote of Council.

31. No Councillor shall reflect upon any vote of the Council, except for the purpose of moving that such vote be rescinded.

Digression—Personal Reflections.

32. No Councillor shall digress from the subject-matter of the question under discussion, nor impute improper motives to any other Councillor, and all personal reflections upon any Councillor shall be considered highly disorderly.

Record of Words used.

33. Any Councillor may require the Town Clerk to take down any particular words used by a Councillor immediately upon the same being used.

Mayor's Ruling.

34. The Mayor, when called upon to decide a point of order or practice, shall give his decision, and no argument or comment shall be permitted thereon, and his decision shall be final in that particular case.

Withdrawal of Offensive Expressions.

35. Any Councillor who shall use any expression which in the opinion of the Mayor reflects offensively on any member of the Council shall, when required by the Mayor, unreservedly withdraw such expression and make a satisfactory apology to the Chair, and if he decline or neglect to do so, the Mayor may refuse to hear such Councillor further upon the matter then under discussion and call upon the next speaker, or may direct the offending Councillor to withdraw from the Council Chamber for the remainder of the then sitting of the Council.

Disturbance.

36. No Councillor shall make any noise or disturbance, or, except to raise a point of order, converse aloud or interrupt whilst any other Councillor is speaking or whilst any matter is being read or opened.

Continued Irrelevance.

37. The Mayor may call the attention of the Council to continued irrelevance, tedious repetition, unbecoming language, or any breach of order or decorum on the part of a Councillor, and may direct such Councillor, if speaking, to discontinue his speech, and thereupon such Councillor shall cease speaking and resume his seat.

Crossing Council Chamber.

38. When the Mayor is putting any question, no Councillor shall walk out of or across the Chamber, nor shall any Councillor whilst any other Councillor is speaking, pass between the speaker and the chair.

Mayor may call to Order.

39. The Mayor shall preserve order, and may on his own motion call any Councillor to order whenever, in his opinion, there shall be cause for so doing.

Definition of Order.

40. Any Councillor who shall do anything or behave in any manner which is forbidden by any section of this By-law shall be deemed to be out of order.

Decision on Points of Order—Apologies.

41. Whenever it shall have been decided by the Mayor that any motion, amendment, or other matter before the Council is out of order, the same shall be rejected, and whenever anything said or done in Council by any Councillor shall be similarly decided to be out of order, such Councillor shall be called upon by the Mayor to make such explanation, retraction, or apology as the case may require.

Councillor to withdraw from Chamber.

42. Any Councillor who shall persist in any line of conduct which the Mayor shall have decided, or which by any section of this By-law is declared to be out of order, or who shall refuse to make any explanation, retraction, or apology required by the Mayor as aforesaid shall, upon the request of the Mayor, withdraw from the Council Chamber for the remainder of the then sitting of the Council.

Removal of Councillor.

43. In the event of any Councillor refusing or neglecting to withdraw from the Council Chamber when requested or directed by the Mayor so to do, the Mayor may order such Councillor to be removed from the said Chamber and to be excluded therefrom during the remainder of the then sitting of the Council.

Order in Debate.

Motions and Amendments.

44. When a motion is under debate at any meeting of the Council, no further motions shall be received, except of the following nature:—

1. That the motion be amended.
2. That the Council do now adjourn.
3. That the debate be adjourned.
4. That the question be now put.
5. That the Council do proceed with the next business.
6. That the Council do resolve into Committee of the Whole.

- 1.—That the motion be amended.

Relevancy of Amendment.

45. Every amendment shall be read before being moved.

Amendment to be read.

46. Every amendment shall be read before being moved.

One Amendment only at a time.

47. One amendment only shall be discussed at one time, if lost, but another may be moved before the original question is put to the vote, but upon any amendment being carried it shall be competent for any Councillor to move one other amendment thereon, but no more.

Amendment to become the Motion.

48. Upon any amendment being carried the original motion as amended shall, for all purposes of subsequent discussion, be deemed to be an original motion, subject, however, to the provisions of the last preceding clause.

- 2.—That the Council do now adjourn.

Time to move Motion.

49. A Councillor may, at the conclusion of the speech of any other Councillor, or on the conclusion of any business, move without notice that the Council do now adjourn; provided that the mover may speak for not more than five minutes, the seconder shall not speak beyond formally seconding, and the mover of the question (if any) under debate, on the motion for adjournment being made, may be heard in reply for five minutes, but no further debate shall be allowed.

Discussion—Procedure before further Motion.

50. Subject as aforesaid, no discussion shall be allowed on any motion for adjournment of the Council but if on the question being put the motion be negatived, the subject then under consideration, or the next on the notice paper, or any other that may be allowed precedence, shall be discussed before any subsequent motion for adjournment shall be entertained.

Adjournment of Question under Debate.

51. On a resolution for adjournment, the question (if any) under debate when motion for adjournment was made shall stand adjourned to next meeting.

One Motion only.

52. At the same sitting no Councillor may move or second more than one motion for the adjournment of the Council.

- 3.—That the Debate be Adjourned.

Time to move Motion.

53. Any Councillor may, at the conclusion of the speech of any other member, move without previous notice that the debate be adjourned to a later hour of the same day or to any other day.

No discussion on Motion.

54. No discussion shall be allowed upon a motion for the adjournment of a debate.

Mover to speak first.

55. On resuming an adjourned debate, the Councillor who moved its adjournment shall be entitled to speak first.

One Motion only.

56. At the same sitting no Councillor shall move or second more than one motion for the adjournment of the same debate.

Resumption of Debate after Count-out.

57. If a debate on any motion moved and seconded be interrupted by the Council being counted out, such debate may be resumed at the next meeting at the point where it was so interrupted, on motion with notice.

- 4.—That the Question be now put.

Time to move Motion—no Discussion.

58. A Councillor may, at the conclusion of the speech of another Councillor, move without notice, that the question be now put, and upon such motion being seconded, the same shall be immediately put without debate.

Speaking in reply.

59. Whenever it is decided by the Council that the question under consideration shall be put, the mover of the question under consideration shall, if debate has ensued, and, if otherwise entitled to do so, be permitted to speak in reply for not more than five minutes before the question is put.

Motion to be put forthwith.

60. Should the motion be carried, the motion or amendment under debate shall, subject to the last preceding clause, be put at once.

Question includes Amendments.

61. Whenever it is decided by the Council that the question under consideration shall be put, the question to be so put from the Chair shall be construed and taken to mean and include the main question as well as any amendment thereto. The question and the amendment to be put in their proper order.

- 5.—That the Council do proceed to the next business.

Time to move motion.

62. It shall be competent for any Councillor at the close of the speech of any other Councillor to move without notice that the Council do proceed to the next business, and if the motion be seconded, it shall be put forthwith.

Question to be dropped.

63. When a motion be carried that the Council do proceed to the next business, the question under discussion shall be considered as dropped.

Further Motion.

64. During the same debate, a second or subsequent motion that the Council do proceed to the next business shall not be made within one hour from the putting of the last motion of the same nature.

- 6.—That the Council resolves into Committee.

Decision of Council.

65. The Council may determine that any question shall be considered in Committee of the Whole, and a motion to that effect may be moved without previous notice.

Matters to be considered in Committee.

66. Each Committee shall consider such matters only as shall have been referred to it by the Council.

Conduct of Committee.

67. In Committee of the Whole the Standing Orders of the Council shall apply, except that Councillors may speak more than once to the same question.

Adoption of Committee's Resolution.

68. The Mayor shall report the resolution arrived at in Committee of the Whole to the Council at its next ordinary meeting, or upon the resumption of the meeting, as the case may require, but such resolutions shall be dealt with as the Council may think fit.

Confidential Business.

69. All matters dealt with or brought before the Council in Committee, or before any Committee of the Council, shall be treated as strictly confidential, and unless or until the Council or a Committee appointed by the Council otherwise determine, no information whatever in relation to the proceedings thereat shall

be disclosed to any person outside the Council prior to the issue of the business paper containing the items to be submitted to Council for confirmation.

Suspension of Standing Orders.

How Moved.

70. In cases of urgent necessity, any Standing Order or Orders of the Council may be suspended by resolution of the Council, upon motion duly made and seconded, without notice.

Object of Suspension to be stated.

71. Any Councillor moving the suspension of any Standing Order shall state the object of such motion, but no discussion shall take place thereon.

Voting.

Method of taking Votes.

72. The Mayor shall, in taking the vote on any motion or amendment, put the question first in the affirmative and then in the negative, and he may do so as often as is necessary to enable him to form and declare his opinion from the show of hands as to which party has the majority.

Division.

73. The Council shall vote by a show of hands, but any Councillor may call for a division upon any question, in which case the Councillors voting in the affirmative shall, until the vote is recorded, stand up, and those in the negative retain their seats. All division lists shall be entered on the minutes.

Committees.

Standing Committees.

74. In addition to such Special Committees as may from time to time be appointed, there shall be four standing committees appointed under the powers contained in the Act, namely:—

- (a) a Finance Committee;
- (b) a Lighting Committee;
- (c) a Works and General Purposes Committee;
- (d) a Health Committee.

75. Each Committee shall consist of at least three members (in addition to the Mayor as ex officio member and Chairman, in accordance with the Act) and, if possible, shall include one Councillor from each Ward of the Municipality. Each Committee shall be appointed in each year at the first ordinary meeting of the Council after the annual election.

Powers and Duties of Committees.

76. The powers and duties of the said Committees shall be as under:—

(1) Finance Committee:—

- (1) To examine and check all accounts and generally supervise the collection and expenditure of municipal revenue;
- (2) To inquire into and report to the Council from time to time upon all matters which they may consider to affect, or be likely to affect the finances of the Municipality, or which the Council may by resolution direct them to inquire into and report upon.
- (3) To have control of all matters affecting the staff of the Council;
- (4) To exercise all powers conferred on the Council in respect to expenditure under Section 476 of "The Municipal Corporations Act, 1906."

Lighting Committee:—

- (1) To have the direction of all matters in respect to which the Council is empowered by law, relating to the supply of electricity and gas for public or private purposes.

Works and General Purposes Committee:—

- (1) To have the general direction of all works ordered or sanctioned by the Council, and of all streets, roads, ways, drains, bridges, and other public places under the care and management of the Council;
- (2) To have the management and general direction of sweeping and watering, the resumption of land for the formation of new streets, the widening of existing streets, and the general administration of the Building By-laws;

- (3) To inquire into and report to the Council from time to time upon such improvements and repairs as they may think necessary, or which the Council may, by resolution, direct them to inquire into and report;
- (4) To have the control of all parks, reserves, and tree planting, bathing, Municipal Chambers, Town Hall, and other municipal buildings;
- (5) To have the administration of matters relating to traffic, motors, and licensed vehicles.

Health Committee:—

- (1) To supervise the carrying out of the provisions of any Act of Parliament or Municipal By-laws affecting public health;
- (2) To deal with petitions and complaints from persons affected by those Acts or By-laws;
- (3) To deal with all matters relating to the collection of nightsoil and refuse, the supervision of places of amusement, the sale of food and drugs, the licensing of noxious trades, private hospitals, lodging houses, milk purveyors, morgues, etc., and generally control all matters affecting the health of the citizens;
- (4) To have the administration of all matters relating to abattoirs, markets, hawkers, dogs, goats and pounds.

Occasional Committees.

77. Occasional Committees may consist of any number of members, and may be appointed for the performance of any powers and duties which may be lawfully entrusted to a Committee, and for the performance of which, in the opinion of the Council, an occasional Committee ought to be appointed. No standing Committee shall interfere with any matter which may for the time being have been entrusted to any occasional Committee.

The appointment of an occasional Committee shall be made by resolution of the Council, which shall state the duties proposed to be entrusted to such occasional Committee, and may either state the number of Councillors to be elected, or shall name the Councillors whom it is proposed shall constitute such Committee. Every standing Committee shall hold office until the thirtieth day of November following its appointment.

Convening Committee Meetings.

78. The Town Clerk shall call a meeting of any Committee when requested to do so by the Mayor or the Chairman, or the Chairman of such Committee, or any two members of such Committee.

Standing Orders.

79. Where applicable the Standing Orders of the Council shall be observed and apply in Committees, except the order limiting the number of times of speaking, and except as to Committees being conducted with open doors.

Quorum.

80. At a meeting of a Committee a quorum shall consist of not less than two members. Every meeting shall proceed to business so soon after the time stated, or there shall be a sufficient number of Councillors in attendance to constitute a quorum.

Minutes and Adoption.

81. Each standing Committee shall keep a book, to be called the Minute Book, in which shall be entered minutes of all its proceedings and transactions.

Approval.

82. Unless otherwise from time to time ordered by the Council, the proceedings of every Committee shall require the approval of the Council. The adoption of the minutes of a Committee by the Council shall be deemed to be an approval of the proceedings shown in such minutes.

Penalty.

83. Penalty: Twenty pounds (£20).

By-law No. 3.

Officers of the Council.

1. No appointment to any permanent office at the disposal of the Council shall, except where the appointment is made at a commencing salary not exceeding

£150 per annum, take place until ten clear days' public notice has been given by advertisement in one or more newspapers circulating in the Municipal district inviting applications from qualified candidates for the same.

2. The salary or allowance attached to all offices and places at the disposal of the Council shall in all cases be fixed before proceedings are taken to appoint any person to fill the same, and before the advertisement inviting application as aforesaid, and shall be specified in such advertisement (if any).

3. Notwithstanding anything contained in the last two preceding clauses, it shall be lawful for the Council in its discretion to promote any officer from one position to any other office at the disposal of the Council without advertising or otherwise inviting applications for such office.

4. At the next ordinary meeting of the Council, or at a special meeting called for the purpose after the notice as before mentioned has been given, all letters of application for the office shall be opened, and the names read aloud, and the appointment may then be made.

Town Clerk.

5. The Town Clerk shall be the chief executive officer of the Municipality and shall, subject to the directions of the Council and any Committee having authority in the circumstances, have authority over every officer and servant of the Council as such, and every officer and servant shall, in the absence of contrary directions and instructions from the Council, or any such Committee, accept the lawful directions and instructions of the Town Clerk as those of the Council and act upon them accordingly.

Instructions to be in writing.

6. The Town Clerk shall, as far as practicable, convey in writing to the principal officers and Heads of Departments all directions of the Council, and other special and important instructions concerning them, but nothing in this clause shall entitle such officers and Heads of Departments to disregard the verbal directions or instructions of the Town Clerk.

Town Clerk may suspend Officer or Servant.

7. If, in the opinion of the Town Clerk, the suspension from duty of any officer of the Council, until the Council shall have decided either to reinstate or to remove such officer, would be in the best interest of the Council, he may by written notice suspend such officer accordingly: Provided, that no suspension which would be a contravention of any Act of Parliament or industrial award shall be made under this clause.

Town Clerk to report Suspension.

8. Immediately any officer has been suspended as aforesaid the Town Clerk shall report such suspension to the Council, and such report shall set out the reason for and the facts relating to such suspension. No member of the Council nor the Town Clerk shall make public the contents of such report or otherwise communicate such contents or any part thereof to any person other than a member of the Council, without the express authority and approval of the Council.

Effect of Suspension.

9. Every officer who shall be suspended as aforesaid shall forthwith deliver to the Town Clerk, or some person appointed by the Town Clerk to receive the same, all papers, books, documents, records, moneys, valuables, keys and all other articles and things, the property of the Municipality, which may be in his possession or under his control.

Officers as Sureties.

10. Every appointment of an officer or a servant of the Council shall be deemed to be upon the express condition that such officer or servant shall not become surety for the payment of any money, or the performance or non-performance of any act by any Councillor, or any other officer or servant of the Council, and shall not engage in any loan transaction with any Councillor or any other officer or servant of the Council.

11. No officer of the Council shall show, lay open, or expose any of the books, papers, or records of the Council without leave from the Council.

Mayor may suspend Town Clerk.

12. The Mayor may in writing under his hand suspend the Town Clerk from duty for any misconduct or punishable offence, and shall immediately thereafter call a special meeting of the Council to deal with such suspension.

By-law No. 4.

Discount on Rates.

1. The Council may allow to any person liable to pay any rates, who pays such rates within thirty days after notice given to him to pay the same, five pounds per centum of the amount of such rates by way of discount.

By-law No. 5.

Pounds and Poundage Fees.

1. There shall be a Pound, situated on Reserve 1693, Augustus Street, Geraldton.

2. The following fees and fines shall be charged and taken and received by the Poundkeeper of the Geraldton Pound:—

By-law No. 28.

Hoardings and Advertisements.

1. In this By-law, unless the context otherwise indicates:—

- (a) the word "Hoarding" shall mean a hoarding erected upon private property;
- (b) the word "Occupier" shall mean the person having the use or control of a hoarding;
- (c) the word "Owner" shall mean the owner of the land upon which a hoarding is erected;
- (d) the words "Works Committee" shall mean the Works and General Purposes Committee of the Council;
- (e) the word "Advertisement" shall include papers, bills, or posters having thereon any advertising matter, and all other advertisements of any nature.

2. No person shall erect, or cause to be erected, or manage or control, or cause to be managed or controlled, any hoarding within the Municipality unless he shall be the holder of a current license from the Council so to do in the form of Part 1 of the Schedule to this By-law.

3. No such license shall be granted in respect of a hoarding not previously licensed and unless and until a plan and specification, showing clearly the position and size and the method of and the materials to be used in the construction of and the manner of fixing such hoarding shall have been deposited with and approved by the Works Committee.

4. Where a plan and specifications have been approved under the last preceding clause, in respect of any application for a license under this By-law, any license issued on such application shall extend only to a hoarding to be erected in accordance with such plan and specification and not otherwise.

5. Every license granted under this By-law shall, in addition to any special conditions, be subject to the following provisions of this By-law, or such of them as shall be applicable, as if the same were expressly inserted as conditions in such license.

6. No license shall be granted in respect of any hoarding erected, either before or after the passing of this By-law, unless the distance from the face of the hoarding to the alignment of the nearest street or way shall be at least equal to the distance from the level of such street or way to the highest point of such hoarding: provided that, in no case shall the height of any hoarding exceed twenty-one feet. The top of the hoarding shall be finished level and, save as provided in the succeeding clause, in a straight line. The name of the owner of the hoarding may, however, be fixed immediately on the top of the hoarding near the centre of the length.

7. Every person who shall erect a hoarding within the Municipality at or near the corner of two streets, and the owner and the occupier of any hoarding erected within the Municipality at or near the corner of two streets (whether the same was erected before or after the passing of this By-law) shall cause such hoarding to be rounded off or splayed off to its full height, in accordance with any direction of and to the satisfaction of the Works Committee.

8. No person shall make any alteration or addition to any hoarding, unless and until the proposed alteration or addition shall have been approved in writing by the Works Committee through the Town Clerk.

9. If, in the opinion of the Council any hoarding within the Municipality is dangerous or objectionable, and the owner or occupier upon receipt of a written notice requiring him to do so shall fail forthwith to remove or refix the same in accordance with such notice and to the satisfaction of the Council, the Council or any person acting under its authority may remove the same, and the Council may recover the expenses of so doing from such owner or occupier before a Court of Summary Jurisdiction under the provisions of "The Justices Act, 1902-1926."

10. The occupier of a hoarding shall maintain such hoarding to the satisfaction in all things of the Works Committee, and, if any paper or other material affixed thereto become detached, shall forthwith remove and clear away such paper or other material.

11. If in the opinion of the Council any bill, placard, or advertisement attached to or posted or painted on a hoarding erected within the Municipality is objectionable, and the owner or occupier of such hoarding, upon receipt of a written notice requiring him to do so, shall fail forthwith to remove or cause to be removed such bill, placard, or advertisement, in accordance with

such notice and to the satisfaction of the Council, the Council or any person acting under its authority, may remove the same, and the Council may recover the expenses of so doing from such owner or occupier before a Court of Summary Jurisdiction under the provisions of "The Justices Act, 1902-1926."

12. Any notice required by this By-law to be served on or given to the owner or occupier of a hoarding, shall be served on or given to the owner or occupier, if he can be found, but, otherwise, shall be served on or given to the owner: provided that the certificate of the Town Clerk that the occupier could not be found for the purpose of the service or giving of such notice shall be conclusive for all purposes.

13. No person shall attach to or post or paint on any hoarding within the Municipality any bill, placard, or advertisement unless he shall be the holder of a current license from the Council so to do, in the form of Part 1 of the Schedule to this By-law, which license shall have effect only in respect of the hoarding or hoardings mentioned therein.

14. Any license granted under Clause 13 of the By-law may be granted to have effect for one month, if the Council sees fit, but, save as aforesaid, every license granted under this By-law shall have effect until the 31st day of October next following the date of the granting thereof only.

15. The fee for a license under Clause 2 of this By-law shall be one shilling per superficial yard per annum. The fee for a monthly license under Clause 14 of this By-law shall be seven shillings and sixpence (7s. 6d.), and the fee payable for a yearly license under the said Clause 14 shall be Four pounds (£4). Full fees shall be charged for all licenses issued before the 13th day of April in each year, but for all licenses other than monthly licenses issued between the first day of May and the thirty-first day of October in each year, half fees shall be charged: provided, that in no case shall the charge be less than Ten shillings (10s.).

16. Every hoarding shall at all times have the name of the occupier clearly shown in a conspicuous place on the front of the hoarding.

17. The Council may permit the display of advertisements at theatres or other places of public amusement, and may permit the advertising of meetings or objects of national or general importance, under such terms and conditions as the Council may in each case decide.

18. Applications for such permission shall be made in the form specified in Part 3 of the Schedule hereto attached.

19. Any permission granted by the Council hereunder may be in the form specified in Part 4 of the said Schedule, and such permission shall have effect during the time specified therein, or if no time is specified, during the pleasure of the Council only.

20. The provisions of this By-law shall not apply to bills or advertisements posted on or affixed to signboards to the erection or maintenance of which the Council has consented, or to the advertisement by the occupier on any shop or dwelling on the windows thereof in respect of the business carried on by him therein, or to the advertisements as allowed for and provided for by the standard verandah specifications in these By-laws: provided, that any consent under this Clause may be withdrawn at the pleasure of the Council.

21. No person shall post any bill, or paint, stencil, place, or affix any advertisement within the Municipality except in accordance with this By-law.

22. Penalty: £20

By-law No. 30.

Special Roll for Loan Poll.

1. When any demand shall have been duly made under Section 446 of the Act, the Council shall forthwith have prepared a special roll of the names of all persons who appear to be owners of rateable land within the meaning of the said Section 446.

2. The Roll shall be in the form of Schedule A, and shall be available for inspection by any ratepayer, at the Town Clerk's Office not later than 14 days before the date fixed for the holding of the poll.

3. On or before the tenth day before the date fixed for the holding of the poll any person:—

Whose name appears on such roll, and who is dissatisfied with such roll as not specifying a sufficient number of votes opposite his name,

may apply to the Council in one of the forms in Schedule B to have his name included on such roll, or to have the number of his votes increased, as the case may be.

4. The Council, at a meeting to be held for that purpose before the day fixed for the holding of the poll, shall determine upon the validity of all such applications, and shall make all corrections in the said Roll necessary to give effect to such determination. Any such meeting may be adjourned from time to time, to a date not later than the day preceding the day fixed for the holding of the poll.

5. The applications shall be determined in accordance with Section 159 of the Act.

6. The Council at any such meeting may also correct any mistake, or supply any omission which may appear to the Council to have been made in the Roll in respect of the name, place, or abode, or description of any rateable property, or the situation or rateable value thereof.

7. The Mayor shall initial every addition or alteration to the Roll. He shall also initial every page of the Roll as completed, and shall cause to be written at the foot or end of the Roll a certificate that the same has been revised and is correct, with the date thereof,

The Mayor, and not less than two other members of the Council, shall severally sign such certificate.

8. Any owner whose name appears upon the special Roll, and who does not reside within the Municipality, may at any time before the day appointed for the holding of the poll, apply personally to the Returning Officer for a Postal Voting Paper. The Returning Officer shall thereupon supply the same, and shall make a mark against the name of the said owner upon the said Roll.

9. Any owner who has applied for and received a Postal Voting Paper for the purpose of voting under Subsection 5, of Section 447, shall not be entitled to vote otherwise.

Merry-go-rounds, Swing-boats, and Shooting Galleries.

1. No person shall erect or carry on any merry-go-round, swing-boat, or shooting gallery without having first obtained a license from the Council or during the suspension or after the revocation of a license so obtained.

2. Every application for a license shall be made in writing to the Town Clerk, and shall be according to the form in Schedule A, and shall set out full particulars of the matters referred to in such form.

3. The granting or refusing of such a license shall be in the absolute discretion of the Council, and a license may be granted subject to such conditions as the Council may deem fit.

4. No such license shall be issued until the fee in respect thereof shall have been paid.

5. The following fees shall be paid for a license under this By-law:—

(a) For every merry-go-round, every set of four or less swing boats, and every shooting gallery thereby licensed for not more than one week, £5 5s. in respect of the first week, and £2 2s. in respect of each succeeding week or part of a week. Provided that the Council may in its discretion reduce such fees in particular cases.

6. No person shall use or permit the use of any merry-go-round or swing-boat which is in the opinion of the Health Inspector in a dangerous condition, and which the Health Inspector has forbidden the licensee or the person appearing to be in charge thereof to use.

7. Every license granted under this By-law shall be deemed to be subject to the express condition that its operation may be suspended by the Health Inspector until the next ordinary meeting of the Council, if the Health Inspector shall deem such a course advisable, for the reason that in his opinion the merry-go-round, swing-boat, or shooting gallery is not safe, or is not carried on or used in a quiet, orderly, and proper manner.

8. Every such license shall be deemed to be subject to the further express condition, that it may be revoked by the Council at any time without any reasons for such revocation being given.

9. Upon every such suspension or revocation, the licensee shall be entitled to a refund of a proportionate part of the fee paid.

1. All park lands and public reserves shall be opened to the public daily, with the exception of the public reserve known as Victoria Square, situated at the corner of Augustus and Francis Streets, which shall, subject to this By-law, be opened between the hours of 8 a.m. and 5 p.m. on all days, except Sundays, and closed at all other times.

2. No person shall, without the permission of the Council, go into or be upon any park lands or public reserve while the same are or is lawfully closed in accordance with this By-law.

3. Notwithstanding Clause 1 of this By-law, the Council may, by authority under the hand of the Town Clerk, from time to time grant the exclusive right to use and occupy any park lands or public reserve within the Municipality to any person or body, for the purpose

of holding public sports or amusements, during such time or on the occasions specified in such authority, and no person shall enter upon any park lands or public reserve, the subject of any such authority, during the time or on any of the occasions specified therein, except upon payment of the charges for the time being fixed by the Council for admission of the public, during such time or on such occasions and subject to the rules and regulations for the time being in force relating to such park lands or public reserve.

4. The charges hereinbefore referred to shall not exceed two shillings per head, with the addition of an extra charge not exceeding one shilling per head for admission to any part of the park lands or public reserves set apart as a special reserve or stand.

By-law No. 34.

Building By-law.

1. In the construction of this By-law, unless the context otherwise requires:—

(a) The word "building" shall mean any structure erected for the purpose of shelter from the weather, either set on the ground or built into the ground, and which is surrounded by walls supported partially or wholly on posts, and with open sides, provided it remains on the site where it is placed or constructed.

(b) The expression "foundation," applied to a wall having footings, shall mean the solid ground or artificially formed supports on which the footings of the wall rest.

(c) The expression "footings" shall mean the extra spread of wall between the base of the wall and the foundation.

(d) The expression "bressummer" shall mean a metallic girder which carries a wall.

(e) The expression "base," applied to a wall having footings, shall mean the underside of the course immediately above the footings, or, in the case of a wall carried by a bressummer, above such bressummer.

(f) "Main wall" shall mean that part of an external or party wall which is above the footings.

(g) "Curtain wall" shall mean that part of an external wall which is built between the piers, and on the footings or on a bressummer, provided that no curtain wall shall exceed eighteen feet, or more than one storey in height, and on each storey the curtain wall shall be supported independently of the curtain wall below it.

(h) "Partition wall" shall mean an interior wall of brick, stone, or concrete, the concrete being either plain or reinforced.

(i) "Partition" shall mean an interior wall for dividing spaces constructed of panel work wood framing covered with metal, or lath and plaster, either the full height from floor to ceiling or less.

(j) The expression "ground storey" shall mean the storey of a building to which there is an entrance from the outside on or near the level of the ground, and, where there are two such storeys, then the lower of the two: Provided, that no storey of which the upper surface of the floor is more than four (4) feet below the level of the adjoining pavement shall be deemed to be the ground storey.

(k) The expression "basement storey" shall mean any storey of a building which is under the ground storey.

(l) The expression "first storey" shall mean that storey of a building which is next above the ground storey; the successive storeys above the first storey being the second storey, the third storey, and so on to the top-most storey.

(m) The expression of "topmost storey" shall mean the uppermost storey in a building, the ceiling of which is not more than two feet above the lower edge of the tie beam of the roof or the top side of the wall-plate.

(n) "Attic" shall mean a storey, either wholly or partly in the roof of which the ceiling is more than two feet above the lower edge of the tie beam of the roof or the top side of the wall-plate.

(o) The expression "external wall" shall mean the outer wall, when under a main roof, or the outside wall of a habitable room, or the outer wall of the main building.

(p) The expression "party wall" shall apply to every wall used or built as a separation of any building from any other building, such buildings being owned and/or occupied by different persons.

(q) The expression "cross wall" shall mean a wall used or constructed to be used in any part of its height as an inner wall of a building for separation of one part from another part of a building, that building being wholly in or being constructed or adapted to be wholly in one occupation.

(r) The expression "party fence wall" shall mean a wall used, or constructed to be used as a separation of adjoining lands of different owners, and standing on lands of different owners, and not being part of a building, but does not include a wall constructed on the land of one owner, the footings of which project into the land of another owner.

(s) The expression "party arch" shall mean an arch separating adjoining buildings, storeys, or rooms belonging to different owners, or occupied or constructed, or adapted to be occupied by different persons, or separating a building from a public way or a private way leading to premises in other occupation.

(t) The expression "party structure" shall mean a party wall or other structure separating two buildings, when occupied as separate tenements and approached by different staircases or separate entrances from without.

(u) The expression "height" in relation to any wall shall mean the measurement taken from the level of the base of such wall to the level of the top of the parapet, or, where there is no parapet, to the level of the top of the external wall, or, in the case of gabled buildings, to a level half-way between the base and the apex of such gable: Provided that, where pediments are constructed above the top of the parapet or above the top of the wall, as the case may be, the height of the wall for the whole width of the pediment shall be measured from the base of the wall to a level half-way between the base and the top of such pediment.

(v) The expression "floor area," applied to a building, shall mean the aggregate superficial areas of so many horizontal sections thereof as there are floors in the said building. The horizontal section of each floor shall be made at the point of its greatest surface dimensions, inclusive of external walls and of such portions of the party walls as belong to the building, and also of all verandah and balcony floors, covered ways, and light courts.

(w) The expression "square," applied to the measurement of the area of a building, shall mean the space of one hundred (100) superficial feet.

(x) The expression "cubical contents," applied to the measurement of a building, shall mean the space contained within the external surfaces of the walls and the ceilings of the topmost storey, or, where there is no such ceiling, the roof and upper surface of the floor of its lowest storey.

(y) The expression "dwelling-house" shall mean a building used or constructed, or adapted to be used wholly or principally for human habitation, not being a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

(z) The expression "domestic building" includes a dwelling-house, suite of offices, or any other building, not being a public building or building of the warehouse class, or a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

(aa) The expression "public building" shall mean and include every building used as a church, chapel, or other place of public worship: also every building used for purpose of public instruction: also every building used as a college, public hall, hospital, theatre, public concert room, public exhibition room, or for any other public purposes, not being a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

(bb) The expression "building of the warehouse class" shall mean a warehouse, factory, manufactory, brewery or distillery, and any other building exceeding in cubical contents one hundred and fifty thousand (150,000) cubic feet, which is neither a public building, nor a domestic building, nor a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

(cc) The expression "inhabited" applied to a room shall mean a room in which some person passes the night, or which is used as a living-room, including a room with respect to which there is a probable presumption (until the contrary is shown) that some person passes the night therein, or that it is used as a living room.

(dd) The expression "habitable" applied to a room shall mean a room constructed or adapted to be inhabited.

(ee) The expression "building owner" shall mean such one of the owners of adjoining land as is desirous of building, or such one of the owners of buildings, storeys, or rooms separated from one another by a party wall or party structure as does or is desirous of doing a work affecting that party wall or party structure.

(ff) The expression "adjoining owner" shall mean the owner or one of the owners, and "adjoining occupier" shall mean the occupier or one of the occupiers of land, buildings, storeys, or rooms adjoining those of the building owner.

(gg) The expression "Town Clerk" means the Town Clerk of the Municipality during such time as there is no Building Surveyor appointed by the Council, and no other person is authorised by the Council to carry out the duties of the Town Clerk under this By-law but, during the time when there is a Building Surveyor so appointed or other person so authorised, means such Building Surveyor or other person.

(hh) The expression "Engineer" means the Engineer of the Council, or an officer appointed to act as such for the time being, or, if there is no Engineer or officer appointed as aforesaid, the Town Clerk.

Plans and Approval.

2. Every person intending to erect any building, or alter or add to any building within the Municipality of Geraldton shall, before commencing to erect, alter, or add to the same, make an application in the form provided in Schedule 1 to this By-law, and deposit with the Town Clerk sets of drawings showing the plans, elevations, and sections (with full details of structural steel work and reinforced concrete) of such proposed building, addition, or alteration, together with full and complete specifications in duplicate of the work proposed to be done. One set of such drawings and specifications shall remain in the office of the Town Clerk as a permanent record. A Locality Plan, showing the position occupied or to be occupied by such building, shall at the same time be deposited with the Town Clerk, which plan shall remain permanently in his custody. A plan showing the existing and any proposed storm water drain used or to be used in connection with any new or additional building, shall at the same time be deposited with the Town Clerk, which plan shall remain permanently in his custody. All plans and drawings shall be prepared in the manner hereafter provided:—

(a) All drawings shall be in ink on drawing paper, tracing cloth, or sun print, of at least 15 inches by 22 inches in size. The drawing shall consist of complete plans of every storey, elevations of external fronts, and one or more sections (transverse or longitudinal), showing heights of storeys, depths of foundations, level of ground, construction of walls, roofs, floors, etc., all clearly figured and dimensioned in feet and inches: also a Locality Plan showing location of proposed site, with cardinal or north-point, showing the size and shape of the lot on which it is proposed to erect, alter, or make additions to the building, and any building or buildings already on the lot, the relative levels of the lot with the street or way adjoining, and the position and size of any existing drains or sewers, and the position of inlet trap and ventilators. All sizes and positions shall be figured and shown on the Locality Plan. Existing sewers shall be shown in black full lines, and the existing storm water drains by broken lines thus ----- All proposed drains for sewerage shall be shown in green full lines and the proposed storm water drains in red full lines.

(b) Existing buildings shall be coloured "blue" and proposed new buildings shall be coloured "pink" on the Locality Plan.

(c) The Locality Plan shall be drawn to a scale of sixteen feet to one inch. General drawings shall be to a scale of not less than eight feet to one inch, and details to a scale of not less than four feet to one inch.

(d) When a Block Plan has already been lodged for the site, the insertion of the new additions or alterations will be sufficient. The existing plan can be seen at the Town Clerk's Office.

(e) All plans, drawings and specifications must be signed by the building owner or his duly authorised agent.

(f) When plans are prepared, the calculated amount of the superimposed or accidental load shall be endorsed on the various floor plans.

3. No person shall commence to erect, alter, or add to any such building until the Town Clerk shall signify his approval of such plans and specifications with his official stamp, showing the number of the application, the date of his approval, and his written signature.

4. On the approval of the Town Clerk being so given, and on payment of the prescribed fees, a license in the form of Schedule 2 to this By-law shall then be issued by the Town Clerk to the building owner or his agent.

5. The scale of fees more particularly specified in Schedule No. 3 to the By-law shall be the scale of fees to be paid by owners, builders, or other persons in respect of any orders, licenses, matters, and things required or permitted by the said Act or by this By-law.

6. No person who shall have obtained the approval of the Town Clerk as provided for in Clause 3, in respect of any building or alteration or addition, shall in the construction of such building or alteration or addition depart from the plans or specifications which have been approved by the Town Clerk, without his consent in writing first had and obtained, and such alterations or departures from approved plans and specifications shall be drawn, described, and endorsed on and in the plans and specifications.

Sites and Foundation of Buildings.

7. No person who shall hereafter erect any house or building shall construct the foundation of any such house or building upon any site, or portion of any site, which shall have been filled in or covered with any material impregnated or mixed with foecal, animal, or vegetable matter, or which shall have been filled up or covered with dust or slop or other refuse, or upon which any such matter or refuse shall have been deposited, unless and until such matter or refuse shall have been properly removed by excavation or otherwise from such site. Any holes caused by such excavation shall, if not used for a basement or a cellar, be filled in with hard brick or dry rubbish or concrete, sand, or other material, to be approved by the Town Clerk.

8. Every person who shall hereafter erect a building shall cause the foundations of the walls of such building to be formed on a bed of good concrete, not less than nine inches thick, and projecting at least four inches on each side of the lowest course of footings of such walls. If the site be upon a natural bed of gravel or sand, concrete may be omitted from the foundations of the walls.

9. The concrete shall be composed of clean gravel, broken hard brick properly burnt, ballast, or other hard material well mixed with cement, in the following proportions:—One part of cement to two parts of sand and four parts of stone.

General.

9a. Every person who shall hereafter erect any building shall cause all the walls thereof, both external and internal, to be constructed of brick, stone, or other hard and incombustible substances, with the footings resting on the solid ground, or upon concrete or other solid substructure or rolled steel or reinforced concrete joists of sufficient strength to carry the load and to the satisfaction of the Town Clerk: Provided that this clause shall not apply to partitions as defined by Clause 1 of this By-law.

10. Every person who shall hereafter erect, alter, or add to any building shall cause every wall erected in the course of such work which shall be constructed of brick, stone, or other similar substance, to be properly bonded and solidly put together with mortar or cement, and shall not suffer the external face of any pier, bay between piers, or any other main wall of a building to be carried up otherwise than truly vertical,

without any overhanging whatsoever, except as may be permitted under this By-law: Clause—"Projections."

11. Every person who shall hereafter erect, alter, or add to any building shall cause every wall or such building erected in the course of such work, and which may be built at an angle with another wall, to be properly bonded therewith.

12. Every person who shall hereafter erect, alter, or add to any building shall construct every wall of such building, erected in the course of such work (other than a wall carried on a bressummer), so as to rest upon proper footings. He shall cause the projection of the bottom of every wall on each side of the wall to be at least equal to one half of the thickness of the wall at its base, unless an adjoining wall interferes, in which case the projection may be omitted where that wall adjoins. He shall also cause the diminution of the footing of every wall to be formed in regular offsets, and he shall cause the height from the bottom of such footing to the base of the wall to be at least equal to two-thirds of the thickness of the wall at its base. Provided that, in the case of domestic buildings of one storey, in the event of a wall being thickened four inches or more to carry a wall plate, the footings need not project in proportion to or in respect of such thickening. Provided that special arrangements and calculations shall be made for footings in the case of steel skeleton and reinforced concrete buildings, and in cases where the concentrated loads are transmitted directly to the footings. Provided that the provision of this and the three preceding sections shall not apply to buildings erected in pursuance of a license granted under Section 308 of the Act, and specified in Schedule 4 to this By-law.

13. For the purpose of this By-law the measurement of height of storeys and of height and length of walls shall be determined by the following rules:—

(1) The height of storeys shall be measured as follows:—

- (a) The height of a topmost storey shall be measured from the level of the underside of its floor joists up to the level of the top of the parapet, or, if there be no parapet, up to the level of the under surface of the tie of the roof or other covering, or if there is no tie, or in the case of gables, then up to the level of half the vertical height of the rafters or other support of the roof.
- (b) Pediments constructed on top of walls or on the top of parapets shall be included in the topmost storey, and the measurements of same shall be made in accordance with the rule laid down in Clause (u) of the Interpretation Clause.
- (c) The height of every storey other than a topmost storey shall be measured from the level of the underside of the floor joists of the storey up to the level of the underside of the floor joists of the storey next above.

(2) Walls shall be deemed to be divided into distinct lengths by return walls. The length of every wall shall be measured from the centre of one return wall to the centre of another: provided that such walls are external party or cross walls of the thickness required under this By-law, and are bonded into the walls so deemed to be divided.

14. Every person who shall cause the underpinning of walls and chimneys, shall cause such underpinning to be built with bricks or stone bedded in cement to the full thickness of the old wall or work, if underpinned in brick, and one-third thicker if underpinned in stone, and with proper footings, or to an additional thickness, if the increased height of the wall so requires, and shall cause such underpinning to rest on the solid ground, or on concrete, or on other solid substructure as the foundation, and shall cause the whole to be executed to the satisfaction of the Town Clerk.

15. Every person who shall thicken a wall shall cause such thickening to be executed with brick or stone in cement or cement concrete, properly bonded to the old work, to the satisfaction of the Town Clerk: provided that in no case shall any person thicken any wall except after notice served on the Town Clerk of his intention so to do.

Domestic Buildings.

16. Every person who shall hereafter erect, alter, or add to any domestic building shall construct every external wall and every party wall erected in the course

of such work in accordance with the following rules, and in every case the thickness prescribed shall be the minimum thickness of which any such wall may be constructed: provided that the several rules shall apply only to walls built of brick or suitable stone or other blocks or hard and incombustible substances, the beds or courses being horizontal:—

(a) Where the wall does not exceed twenty-five feet in height, its thickness shall be as follows:—

If the wall does not exceed thirty feet in length, and does not comprise more than two storeys, it shall be eight and a-half inches thick for its whole height.

If the wall does not exceed thirty-five feet in length, or comprises more than two storeys, it shall be thirteen inches thick below the topmost storey, and eight and a-half inches thick for the rest of its height.

(b) Where the wall exceeds twenty-five feet but does not exceed forty feet in height, its thickness shall be as follows:—

If the wall does not exceed thirty-five feet in length, it shall be thirteen inches thick below the topmost storey, and eight and a-half inches thick for the rest of its height.

If the wall exceeds thirty-five feet in length, it shall be seventeen and a-half inches thick for the height of one storey, then thirteen inches thick for the rest of its height below the topmost storey, and eight and a-half inches thick for the rest of its height.

(c) Where the wall exceeds forty feet but does not exceed fifty feet in height, its thickness shall be as follows:—

If the wall does not exceed thirty-five feet in length, it shall be seventeen and a half inches thick for the height of one storey, then thirteen inches for the rest of its height below the topmost storey, and eight and a-half inches for the rest of its height.

If the wall exceeds thirty-five feet but does not exceed forty-five feet in length, it shall be seventeen and a-half inches thick for the height of two storeys, then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length, it shall be twenty-one and a-half inches thick for the height of one storey, then seventeen and a-half inches thick for the height of the next storey, and then thirteen inches thick for the rest of its height.

(d) Where the wall exceeds fifty feet but does not exceed sixty feet in height, its thickness shall be as follows:—

If the wall does not exceed forty-five feet in length, it shall be seventeen and a-half inches thick for the height of two storeys, and thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length, it shall be twenty one and a-half inches thick for the height of one storey, then seventeen and a-half inches thick for the height of the next two storeys, and then thirteen inches thick for the rest of its height.

(e) Where the wall exceeds sixty feet but does not exceed seventy feet in height, its thickness shall be as follows:—

If the wall does not exceed forty-five feet in length, it shall be twenty-one and a-half inches thick for the height of one storey, then seventeen and a-half inches thick for the height of the next two storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length, it shall be increased in thickness in each of the storeys below the uppermost two storeys for four and a-half inches (subject to the provision hereinafter contained respecting distribution of piers).

(f) Where the wall exceeds seventy feet but does not exceed eighty feet in height, its thickness shall be as follows:—

If the wall does not exceed forty-five feet in length, it shall be twenty-one and a-half inches thick for the height of one storey, then seventeen and a-half inches thick for the height of the next three storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length, it shall be increased in thickness in each of the storeys below the uppermost two storeys by four and a-half inches (subject to the provision hereinafter contained respecting distribution of piers).

- (g) Where the wall exceeds eighty feet but does not exceed ninety feet in height, the thickness shall be as follows:—

If the wall does not exceed forty-five feet in length, it shall be twenty-six inches thick for the height of one storey, then twenty-one and a-half inches thick for the height of the next storey, then seventeen and a-half inches thick for the height of the next three storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length, it shall be increased in thickness in each of the storeys below the uppermost two storeys by four and a-half inches (subject to the provision hereinafter contained respecting distribution of piers).

- (h) Where the wall exceeds ninety feet but does not exceed one hundred feet in height, its thickness shall be as follows:—

If the wall does not exceed forty-five feet in length, it shall be twenty-six inches thick for the height of one storey, then twenty-one and a-half inches thick for the height of the next two storeys, and then seventeen and a-half inches thick for the height of the next three storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length, it shall be increased in thickness in each of the storeys below the uppermost two storeys by four and a-half inches (subject to the provision hereinafter contained respecting distribution of piers).

- (i) Where the wall exceeds one hundred feet but does not exceed one hundred and twenty feet in height, its thickness shall be as follows:—

If the wall does not exceed forty-five feet in length, it shall be thirty inches thick for the height of one storey, then twenty-six inches thick for the height of the next two storeys, then twenty-one and a-half inches thick for the height of the next two storeys, then seventeen and a-half inches thick for the height of the next three storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length, it shall be increased in thickness in each of the storeys below the uppermost two storeys by four and a-half inches (subject to the provision hereinafter contained respecting distribution of piers).

- (j) If any storey exceeds in height sixteen times the thickness prescribed for its walls by the foregoing rules, the thickness of each external and party wall throughout such storey shall be increased to one-sixteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to a like extent (subject to the provision hereinafter contained respecting distribution of piers).

- (k) Where by any of the foregoing rules relating to the thickness of external walls and party walls of domestic buildings, an increase of thickness is required in the case of a wall exceeding sixty feet in height and forty-five feet in length, or, in the case of a storey exceeding in height sixteen times the thickness prescribed for its walls, or, in the case of a wall below that storey, the increased thickness may be confined to piers properly distributed, of which the collective widths amount to one-fourth part of the length of the wall.

- (l) In buildings four storeys high, where the cross walls are supported from the ground, and where the cross wall in the highest storey is four and a-half inches thick, the cross walls in the two lower storeys shall be at least eight and a-half inches thick, and in the lowest storey thirteen inches thick. In three-storey buildings similar cross walls, which are four and a-half

inches thick in the highest storey, shall be at least eight and a-half inches in the two lower storeys. In buildings two storeys high having cross walls running through both storeys, such walls in the lower storey shall be not less than eight and a-half inches thick. Cross walls in upper storeys not supported from the ground shall be carried on bressumers.

17. The external walls of domestic buildings not exceeding two storeys, and the external walls of the two topmost storeys of domestic buildings exceeding two storeys, may be built with a cavity not exceeding two inches wide, provided:—

- (a) That the collective thickness of the walling on the two sides of the cavity shall not be less than if the wall were built without a cavity.
- (b) That the walling on each side of such cavity shall have a minimum thickness of four and a-half inches.
- (c) That the walls on each side of such cavity be tied with galvanised iron or other non-corrosive metal, or by earthenware tie blocks, in the proportion of at least four ties to every square yard of wall surface.
- (d) That the walls of all storeys below the cavity wall shall be thickened beyond the thickness specified for similar walls in the preceding clause, if required in order to seat such cavity walls so that the same shall not overhang.

Public Buildings.

18. If a public building corresponds in form or structure or disposition with a domestic building, then the rules which obtain for domestic buildings shall apply to such public buildings: provided that the thickness of all external and party walls, and the width of their footings be at least four inches more than is required for similar walls of the domestic buildings; but should such public building correspond in form or structure or disposition with a building of the warehouse class, then the rules which obtain for buildings of the warehouse class shall apply to such public buildings; provided that the thickness of all external and party walls, and the width of their footings, be at least four inches more than is required for similar walls of a building of the warehouse class.

Should, however, such public building not correspond in form and structure to either a domestic building or to a building of the warehouse class, then such building shall be subject, as to its walls and other construction, to the special approval of the Town Clerk.

Buildings of the Warehouse Class.

19. Every person who shall hereafter erect, alter, or add to any building of the warehouse class shall construct every external wall, party-wall, and cross wall erected in the course of such work, in accordance with the following rules, and in every case the thickness prescribed shall be the minimum thickness of which any such wall may be constructed: provided, that the several rules shall apply only to walls built of bricks, or of suitable stone, or other hard and incombustible substance, the beds or courses being horizontal:—

- (a) Where the wall does not exceed twenty-five feet in height (whatever is the length), it shall be thirteen inches thick at its base.
- (b) Where the wall exceeds twenty-five feet but does not exceed thirty feet in height, it shall be at its base of the thickness following:—
If the wall exceeds forty-five feet in length, it shall be seventeen and a-half inches thick at its base.
- (c) Where the wall exceeds thirty feet but does not exceed forty feet in height, it shall be at its base of the thickness following:—

If the wall does not exceed thirty-five feet in length, it shall be thirteen inches thick at its base.

If the wall exceeds thirty-five feet but does not exceed forty-five feet in length, it shall be seventeen and a-half inches thick at its base.

If the wall exceeds forty-five feet in length, it shall be twenty-one and a-half inches thick at its base.

- (d) Where the wall exceeds forty feet but does not exceed fifty feet in height, it shall be at its base of the thickness following:—
If the wall does not exceed thirty feet in length, it shall be seventeen and a-half inches thick at its base.
If the wall exceeds thirty feet but does not exceed forty-five feet in length, it shall be twenty-one and a-half inches thick at its base.
If the wall exceeds forty-five feet in length, it shall be twenty-six inches thick at its base.
- (e) Where the wall exceeds fifty feet but does not exceed sixty feet in height, it shall be at its base of the thickness following:—
If the wall does not exceed forty-five feet in length, it shall be twenty-one and a-half inches thick at its base.
If the wall exceeds forty-five feet in length, it shall be twenty-six inches thick at its base.
- (f) Where the wall exceeds sixty feet but does not exceed seventy feet in height, it shall be at its base of the thickness following:—
If the wall does not exceed forty-five feet in length, it shall be twenty-one and a-half inches thick at its base.
If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a-half inches (subject to the provision hereinafter contained respecting distribution in piers).
- (g) Where the wall exceeds seventy feet but does not exceed eighty feet in height, it shall be at its base of the thickness following:—
If the wall does not exceed forty-five feet in length, it shall be twenty-one and a-half inches thick at its base.
If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a-half inches (subject to the provision hereinafter contained respecting distribution in piers).
- (h) Where the wall exceeds eighty feet but does not exceed ninety feet in height, it shall be at its base of the thickness following:—
If the wall does not exceed forty-five feet in length, it shall be twenty-six inches thick at its base.
If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a-half inches (subject to the provision hereinafter contained respecting distribution in piers).
- (i) Where the wall exceeds ninety feet but does not exceed one hundred feet in height, it shall be at its base of the thickness following:—
If the wall does not exceed forty-five feet in length, it shall be twenty-six inches thick at its base.
If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a-half inches (subject to the provision hereinafter contained respecting distribution in piers).
- (j) Where the wall exceeds one hundred feet and does not exceed one hundred and twenty feet in height, it shall be at its base of the thickness following:—
If the wall does not exceed forty-five feet in length, it shall be thirty-one inches thick at its base.
If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a-half inches (subject to the provision hereinafter contained respecting distributions in piers).
- (k) The thickness of the wall at the top, and for sixteen feet below the top, shall be thirteen and a-half inches, and the intermediate parts of the wall between the base and sixteen feet below the top shall be built solid throughout the space between straight lines drawn on each side of the wall and joining the thickness at the base to the thickness at sixteen feet below the top.

Nevertheless, in walls not exceeding thirty feet in height, the walls of the topmost storey may be nine inches thick, provided the height of that storey does not exceed ten feet.

- (l) If any storey exceeds in height fourteen times the thickness prescribed for its walls by the foregoing rules, the thickness of such external and party wall throughout such storey shall be increased to one-fourteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to a like extent.
- (m) Where by any of the foregoing rules relating to the thickness of external walls and party walls of buildings of the warehouse class, an increase of thickness is required in the case of a wall exceeding sixty feet in height and forty-five feet in length, or, in the case of a storey exceeding in height fourteen times the thickness prescribed for its walls, or, in the case of a wall below that storey, the increased thickness may be confined to piers, properly distributed, of which the collective widths amount to one-fourth part of the length of the wall.
- (n) The thickness of every cross wall shall be at least two-thirds of the thickness hereinbefore prescribed for an external or party wall of the same height and length, but shall in no case be less than eight and a-half inches, and no wall subdividing any building shall be deemed to be a cross wall unless it is carried up to the floor of the topmost storey, and unless in each story the aggregate extent of the vertical faces or elevations of all the recesses, and that of all the openings therein taken together does not exceed one-half of the whole extent of the vertical face or elevation of the wall.

Wherever a cross wall becomes in any part an external wall, such cross wall shall be of the thickness required for an external wall of the same height and length.

20. Notwithstanding anything contained in the four preceding sections, whenever:—

- (a) brick piers are built capable of carrying the whole of the roof and floor loads and steel girders are inserted and properly braced and connected so as to carry the walls of each floor independently;
- (b) steel skeleton buildings are so constructed that the whole of the loads are transmitted to the foundations by the steel frame;
- (c) the whole of the building is constructed of reinforced concrete so that the curtain walls have to carry no load but their own weight;
- (d) then in any one of the cases mentioned in the three preceding subsections, the curtain wall may be reduced in thickness calculated to safely resist a wind pressure of not less than thirty pounds per square foot of surface of the upper two-thirds of such building, and every curtain wall shall be securely bounded into the piers.

Rubble Stone Walls.

21. Every person who shall hereafter use stone in coursed or random coursed rubble for the construction of any walls in the erection of any building, shall cause the thickness of such stone walls to be at least one-third greater than is prescribed for brick, and such walls shall not in any case exceed twenty-five feet in height, nor be less than fourteen inches in thickness.

Party Walls.

22. Every person who shall hereafter construct a party-wall shall cause such wall, if in a public building or a building of the warehouse class, to be carried up of a thickness equal to a thickness of such wall in the topmost storey, and, if on any other building to be carried up of a thickness of at least eight and a half inches.

- (a) Above the roof, flat, or gutter of the highest building adjoining thereto to such a height as will give a distance in a public building or a building of the warehouse class exceeding thirty feet in height, of at least three feet, and in any other building, of fifteen inches, measured at right angles to the slope of the roof, or fifteen inches above the highest part of any flat or gutter, as the case may be.

(b) Above any turret, dormer, lantern, light, or other erection of combustible material fixed upon the roof or flat or any building within four feet from such party wall, so as to extend at least twelve inches higher and wider on each side than such erection.

(c) Above any part of any roof opposite thereto and within four feet therefrom.

23. No person who shall hereafter erect a building shall make in any party wall any chase which shall be wider than fourteen inches, nor more than four and a half inches deep from the face of such wall, nor shall leave less than eight and a half inches in thickness at the back or opposite side thereof, or which shall be within a distance of seven feet from any other chase on the same side of the wall or within thirteen inches from an external wall. No person shall make any chase in a wall of less thickness than thirteen inches.

24. In the construction of gratings and frames over areas, no persons shall cause or allow the maximum projection of any such grating or frames, whether they be open frames or filled with slabs of glass or lenses, to exceed eighteen inches, measuring from the general line of the front of the walls at one foot above the ground level, or the maximum length thereof to exceed six feet: Provided that:—

(a) Where more than one area grating or such other covering is permitted in the front of one house or building, the division between each shall be not less than nine inches, and shall be formed by a solid piece of hard stone not less than nine inches wide and nine inches deep, such stone to be securely pinned into or to rest upon the brickwork not less than six inches at each end, or by a slab of cement concrete nine inches wide and four inches deep, resting on a steel joist securely fixed at each end, or supported on steel brackets, to the satisfaction of the Town Clerk, or by a bearer of reinforced concrete, the supports in each case to be calculated to carry a superimposed load of one hundred and fifty pounds per square foot over an area of the full width of grating, and of half the length of the frame on each side of the supporting beam: such kerbs shall be fixed to the level of the footways, the gratings and frames shall be securely let into the kerbs, and be run with neat cement and not be permitted to open.

(b) The coverings over areas, where intended to be closed or filled with glass slabs, shall be formed by iron gratings or frames; the bars shall not be more than three inches apart, and fixed at right angles to each other; each bar shall have at least one square inch of sectioned area, and the spaces between the bars shall be filled with glass at least one inch in thickness.

(c) No covering of any material or description shall be permitted over any area openings, excepting those formed by iron frames filled with slabs of glass or lenses as before described, or Yorkshire flagging four inches thick or reinforced concrete.

25. Every person who forms an entrance to a cellar or basement opening on to a street or way or public place shall cause the same to be formed in the wall, and no flap shall be open in any part of the footpath or road or way or public place; such opening shall be filled with a door of jarrah properly framed, or of iron gratings, and shall be hung to open outwards, and shall not project, when open, more than eighteen inches from the building line, and shall be kept closed, except during the time that they are in actual use.

26. No person shall construct a staircase which leads from the ground floor to the basement and the entrance to which is from the outside of a building unless:—

(1) such staircase shall be at least four feet from the street or way; or

(2) the entrance thereto be protected with a gate closing with a spring and the sides thereof be open and protected, to the satisfaction of the Town Clerk, with a rail on each side.

27. No person shall construct a lift-well in any building unless the same be protected and made safe to the satisfaction of the Town Clerk.

Description and Quality of the Substance of Walls.

28. Every person who shall hereafter erect a building, unless in compliance with a license granted under Section 308 of the Act, shall cause:—

(a) the external and party walls of every such building, except in the case of concrete buildings, to be constructed of bricks or of stone;

(b) bricks shall be at least eight and a half inches by four and one-quarter inches by two and three-quarters of good, hard, sound, well-burnt quality; stone shall be free from vents, cracks, or large sand holes, and laid on its natural bed;

(c) similar material to be used in the portions of party and cross walls below the surface or level of the ground and above the road, including the chimney stack. Cut bricks may be used in arches over recesses and openings in, or for facings of external walls;

(d) all brick and stone work to be put together with lime mortar or with cement mortar. Lime mortar to be composed of freshly burnt lime and clean, sharp sand, free from earthy matter, and mixed in the proportion of one part of lime to three parts of sand. Cement mortar to be composed of Portland cement, or other cement of equal quality, and clean, sharp sand, free from earthy matter, mixed in the proportion of at least one part of cement to three parts of sand;

(e) every wall of such building to have a damp course composed of materials impervious to moisture, extending throughout its whole thickness at the level of the lowest floor above ground level, and in all parapet walls a similar damp course immediately above the flashing of the gutter;

(f) every external wall or enclosing wall of all habitable rooms and their appurtenances, and of all cellars and areas which abut against the earth, to be protected by materials impervious to moisture;

(g) except as provided for in Clause 20 of this By-law, all concrete used in the construction of walls to be composed of Portland cement, or other cement of equal quality, clean, sharp sand, and of clean gravel or broken bricks or stone or furnace clinkers, and clean water, mixed in the following proportions: one part of cement to two parts of sand, and four parts of the coarse material broken sufficiently small to pass through a two-inch diameter ring. The proportions of the materials to be ascertained by careful measurement, and the first mixing, either by machine or hand, to be done dry before the water is added. The walls to be carried up regularly and in parallel frames of equal height, the surface of the concrete to be well rammed, and to be properly cleaned for the next layer of concrete. The thickness of concrete walls to be equal at least to the thickness prescribed for brick walls.

Such portions of concrete party walls and chimney stacks as are carried above the roofs of buildings to be rendered externally with cement mortar.

Recesses and Openings in External Walls.

29. No person who shall hereafter erect a building shall make any recess or opening in any external wall of such building, unless:—

(a) the back of such recess or opening be at the least eight and a half inches thick; and

(b) the aggregate area of recesses and openings above the ground storey do not exceed one half of the whole area of the wall of the storey in which they are made.

Recesses and Openings in Party Walls.

30. No person who shall hereafter erect a building shall make any recess or opening in any party wall of such building unless:—

(a) the back of such recess or opening be at the least eight and a half inches thick; and

(b) over every recess so formed a R.S. joist of sufficient strength shall be inserted or an arch of at least two rings of brickwork of the full depth of the recess be turned on every storey except in the case of recesses formed for lifts: but where such recess does not exceed five inches in depth, corbelling in brick or stone may be substituted for the arching; and

(c) the aggregate area of all such recesses and openings does not exceed one half of the whole area of the wall of the storey in which they are made; and

(d) such recesses or openings do not come within thirteen inches of the inner face of the external walls.

United Buildings.

31. No person shall cause any building to be united, except where such buildings are wholly in one occupation, or are constructed or adapted to be so.

- (a) No person shall cause any buildings to be united if, when so united and considered as one building only, such buildings would not be in conformity with this By-law.
- (b) No person shall make an opening in any party wall, or in two external walls dividing building, which buildings, if taken together, would contain more than two hundred and fifty thousand cubic feet, except under the following conditions:—
 - (1) Such opening shall not exceed in width seven feet, or in height eight feet, and such opening or openings, if taken together, shall not exceed one half of the length of such party wall, or such external walls on each floor of the building in which they occur.
 - (2) Such opening shall have the door jambs and head formed of brick, stone or reinforced concrete, and be closed by two automatic wrought iron doors, each one quarter of an inch thick in the panel, at a distance from each other of the full thickness of the wall, fitted to rebated frames without woodwork of any kind, or by wrought iron sliding doors, or shutters properly constructed, fitted into grooved or rebated iron frames, or by other approved automatic fire-resisting doors.
 - (3) If the thickness of the wall be not less than twenty-four inches, or the doors be placed at a distance from each other of not less than twenty-four inches, such opening may be nine feet six inches in height.
- (c) Whenever any buildings which have been united cease to be in one occupation, the owner or owners thereof shall give notice to the Town Clerk, and shall cause all openings in any party wall, or in any external walls uniting such buildings, to be stopped up with brick or stone work not less than thirteen inches in thickness (except in the case of a wall eight and a half inches thick, in which case eight and a half inches shall be sufficient) and properly bonded with such wall, and any timber not in conformity with this By-law placed in the wall shall be removed.

Bressummers.

32. Every person who shall hereafter erect a building shall cause every bressummer in any external, internal, or party wall to be of rolled steel or iron or reinforced concrete girder of approved strength, and to have a bearing in the direction of its length of at least six inches at each end upon a sufficient pier of brick or stone, or upon an iron storey post fixed on a solid foundation, in addition to its bearing upon any party wall or external wall, and he shall also cause such bressummer to have such other storey posts, iron columns, stanchions, or piers of brick or stone, or corbels, as may be sufficient to carry the superstructure. The ends of such bressummers shall not be placed nearer to each other or the opposite face of the party walls than four inches: Provided that:—

- (a) at each end of every metallic bressummer a space shall be left equal to one quarter of an inch for every ten feet, and also for any fractional part of ten feet of the length of such bressummer to allow for expansion;
- (b) every bressummer bearing upon a party wall shall be borne by a templet or corbel of stone or iron tailed through at least half the thickness of the wall, and of the full breadth of the bressummer;
- (c) bressummers consisting of more than one joist shall be solidly bolted together with packing pieces filling in the vacant spaces between the webs of the joists, and shall have such additional plates of sufficient strength, calculated in accordance with recognised formula, riveted on to the top or bottom boom. Bressummers shall in no case have a less factor of safety than three for dead loads and five for live loads.

Timber in Walls.

33. Every person who shall hereafter erect, alter, or add to any building shall comply with the following regulations:—

- (a) No bond timber or wood plate shall be built into any wall, and the ends of any wooden beam or joists bearing on such wall shall be at least four and a half inches from each other, or from the opposite face of the wall.
- (b) The end of any timber not permitted to be placed in or to have a bearing upon a party wall may be carried on a corbel or templet of stone or iron, or vitrified stoneware, tailed into the wall to a distance of at least eight and a half inches, or otherwise supported to the satisfaction of the Town Clerk.
- (c) All woodwork fixed in any external wall and frames of doors and windows of shops on the ground storey of any building (except loop-hole frames or bressummer) shall be set back at least four inches from the external face of such wall.
- (d) When the external wall of a building is erected on the boundary of its allotment or within 2ft. 6in. of such boundary, then—
 - (1) If such building is a public building or a building of the warehouse class, such external wall shall be carried up of a thickness equal to the thickness of such wall in the topmost storey, to a height of at least three feet above the roof, flat, or gutter of such building; and
 - (2) If such building is a domestic building, such external wall shall be carried up of a thickness of at least eight and a half inches, to a height of at least fifteen inches above the flashing of the roof or gutter of such building.

And any person who shall erect an external wall of any building contrary to the foregoing provisions shall be guilty of an offence against this By-law.

Projections.

34. Every person who shall hereafter erect, alter, or add to any building shall cause—

- (a) all copings, cornices, stringcourses whatsoever, and corbelled projections of party wall to be of brick, tile, stone, artificial stone, slate, cement, or other fire-proof material;
- (b) every cornice or other projection to be tailed into the wall of the building, and where the projection thereof exceeds the thickness of the wall, to be weighted or tied down. No cornice to project more than two feet six inches over the public way or beyond the face of the external wall.

35. No person shall cause the plinth of any building to project beyond the surveyed building line except as follows, that is to say, plinths not exceeding two feet in height may project two and a half inches into the street beyond the surveyed building line. Where streets are constructed on a gradient the height of the plinth may be varied if approved by the Town Clerk.

36. No person shall cause the cornice of any shop front, the piers of which have been built upon the surveyed building line, to project beyond such piers and beyond such surveyed building line, except as follows: in a street or way of a width not greater than thirty-three feet such projection shall not exceed thirteen inches and in a street or way of a width greater than thirty-three feet such projection shall not exceed eighteen inches.

37. No person who shall hereafter erect, alter, or add to any building shall cause any part of the woodwork of any shop front to be fixed higher than twenty-five feet above the pavement of the public footpath in front of the shop, or nearer than four and a half inches to the centre of the party wall, where the adjoining premises are separated by a party wall, or nearer than four and a half inches to the face of the wall of the adjoining premises where the adjoining premises have a separate wall, unless a pier or corbel of stone, brick, or other incombustible material at least four and a half inches wide be placed as high as and alongside such woodwork, and projecting throughout at the least three inches in front thereof between such woodwork and the centre of the party wall or the separate wall, as the case may be.

38. Bay windows to any dwelling house may be erected on the land of the owner of such house, provided that no such bay windows shall be erected except subject to the following conditions, viz.:—

- (a) Such windows shall not exceed three storeys in height above the level of the footway.
- (b) Shall be in no part nearer to the centre of the nearest party wall than the extreme amount of their projection from the main wall of the building to which they are attached.
- (c) Shall not, taken together, exceed in width three-fifths of the frontage of the building towards the street to which the bays face.

39. Oriel windows, turrets, and balconies to a building may be erected in a street of a width of not less than forty feet, or where the front wall of such building is at a distance of not less than forty feet from the opposite boundary of the street: provided that no such oriel window, turret or balcony shall be erected except subject to the following conditions:—

- (a) No part of such window, turret, or balcony shall extend more than three feet from the face of the front wall of such building, or more than twelve inches over the public way.
- (b) No part of such window, turret, or balcony shall be less than ten feet above the level of the footway of the street.
- (c) No part of such window, turret, or balcony (where same overhangs the public way) shall be within a distance of four feet of the centre of the nearest party wall.
- (d) On no floor shall the total width of any oriel windows, turrets, or balconies, taken together, exceed three-fifths of the length of the wall of the building of that floor.

40. Every person who shall hereafter erect, alter, or add to a building, and every shop front, bay window, oriel window, turret, balcony, or other similar projection erected in the course of such work to be so arranged and constructed, and so supplied with gutters and pipes as to prevent the water therefrom from dropping upon or running over any public way.

41. Except in so far as is permitted by this By-law in the case of shop fronts and projecting windows, and, with the exception of water pipes and their appurtenances, copings, stringcourses, cornices, facias, window dressings, and other like architectural decorations, no person shall cause or allow any projection from any building to extend beyond the surveyed building line in any street.

42. No person shall cause or allow any cornice, stringcourse, or other projection on any buildings to be constructed in such manner as to overlap or project in front of any adjoining property, unless with the consent of the owner of the adjoining property expressed in writing and deposited in the hands of the Town Clerk.

Chimneys.

43. Every person who shall hereafter erect, alter, or add to any building shall cause every chimney of such building erected in the course of such work to be built on solid foundations and with footings similar to the footings of the wall against which such chimney is built unless it is carried upon iron girders, with direct bearings upon any party wall, external or cross walls, to the satisfaction of the Town Clerk, provided, nevertheless, that in cases in which it is impracticable to comply with the above provisions, such person may cause any chimney of such building to be built on corbels of stone, or other incombustible materials, if the work so corbelled out does not project from the wall more than the thickness of the wall measured immediately below each corbel and such corbel shall be of approved stone nine inches thick, or reinforced concrete six inches thick, or iron or steel one-quarter of an inch thick, and in either case the full length over the chimney breast and tailed back the full thickness of the wall.

44. All chimneys and flues that are inclined at a less angle than forty-five degrees to the horizon shall have proper and sufficient soot doors of not less than forty-nine inches clear area, which shall be at least fifteen inches from any woodwork.

45. Every person who shall hereafter erect a flue from the stove of an eating-house, or restaurant, or any place of business, shall cause such flue to be so constructed as to carry the smoke from the same to such a height above the eaves of any and every adjoining building as will prevent any nuisance.

46. When the eaves of any new buildings are more than 20 feet above the eaves of the adjoining existing buildings, permission must be given to the adjoining owners to attach and maintain their flues in such a manner as the Town Clerk shall direct to the walls of the new building.

47. Every person who shall hereafter erect, alter, or add to any building shall cause—

- (a) an arch of brick or stone to be built over the opening of every chimney constructed in the course of such work to support the breast thereof, and shall support all such arches, except semicircular ones, upon wrought iron bars of sufficient strength, to be built eight and a-half inches into the chimney jambs;
- (b) all flues in such building constructed in the course of such work, which may be intended for use in connection with any oven, furnace, coker, steam boiler, or close fire, constructed for any purpose of trade or business, or which may be intended for use in connection with any range or cooling apparatus of such building when occupied as a hotel or eating house to be surrounded with brickwork at least eight and a-half inches thick from the floor on which such oven, furnace, coker, steam boiler, or close fire may be constructed, or placed to a point eighteen inches clear of the outside of the roof;
- (c) the inside of any flue constructed in the course of such work, to be pargeted, or lined with fire-resisting glazed piping or stoneware;
- (d) the position and course of every flue which is being constructed in a party wall, if the construction of the building or of the flues and fireplaces on both sides of such party wall be not carried on contemporaneously, to be distinguished in some durable manner by outline marks on the outside of the work as it is carried up;
- (e) the jambs of every fireplace opening constructed in the course of such work to be at least eight and a-half inches thick;
- (f) the breast of every chimney and the brickwork surrounding every smoke flue constructed in the course of such work, except where otherwise provided in this By-law, to be at least four and a-half inches thick;
- (g) the back of every fireplace opening constructed in the course of such work in a party wall to be at least eight and a-half inches thick for the full height of the wall: and between all partition walls from the hearth to the height of twelve inches above the mantel;
- (h) the upper side of every flue constructed in a cross wall, and carried from the fireplace to an external wall, to be at least eight and a-half inches thick;
- (i) every chimney shaft or smoke flue constructed in the course of such work, not otherwise provided for in this By-law to be carried up in brickwork at least four inches thick throughout to a height of not less than three feet above the roof, flat, or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat, or gutter;
- (j) the highest six courses of every chimney stack or shaft constructed in the course of such work to be built in cement mortar;
- (k) an outer hearth to be constructed before every fireplace opening, which hearth shall consist of a slab of stone or other incombustible material at least fourteen inches wide, and six inches longer on each side than the width of such opening. Except on the lowest floor, such slab shall be laid on iron bearers or brick trimmer arches, supported by the floor joists, but on the lowest floor may be bedded on a solid built-up foundation;
- (l) the inner hearth of every chimney erected in the course of such work to be constructed wholly of brick, stone, or other incombustible material, and such hearth, except on the lowest floor, or unless inset in the brickwork of a chimney breast, to be supported by corbelling of brick or stone, or by slate or stone slabs, or by iron girders or other incombustible material: provided that on the lowest floor such hearth shall be bedded on a solid built foundation. In no case shall the thickness of such inner hearth be less than six inches,

48. No person who shall hereafter erect, alter, or add to any building shall cause or allow:—

- (a) the brickwork or stonework of any chimney shaft erected in the course of such work, other than a chimney shaft of the furnace of any steam engine, brewery, distillery, or manufactory to be built higher above the roof, flat, or gutter adjoining thereto than a height equal to six times the least width of such chimney shaft, taken at the level of the highest point in the line of junction, unless such chimney shaft shall be built with or bonded to another chimney shaft not in the same line with the first mentioned chimney shaft, or shall be otherwise rendered properly.
- (b) any flue to be built in or against any party wall unless it is surrounded with new brickwork at least four inches thick, properly bonded into the old work.

49. No person shall cause or allow—

- (a) any chimney shaft, jamb, breast, or flue to be cut into except for the purpose of repair, or for some one or more of the following purposes:—

(1) for letting in or removing or altering flues, pipes, or funnels for the conveyance of hot air, smoke, or steam, or for letting in, removing or altering smoke jacks;

(2) for forming openings for soot doors, in which case such openings shall be fitted with a close iron door and frame;

(3) for making openings for the insertion of ventilating valves, provided that such openings shall not be made nearer than twelve inches to any timber or combustible substance;

- (b) any timber or woodwork to be placed—

(1) in any wall or chimney breast nearer than four and a-half inches to the inside of any flue or chimney opening;

(2) under any chimney opening within six inches from the upper surface of the hearth thereof.

50. No person shall drive any wooden plug into any wall nearer than four and a-half inches to the inside of any flue or chimney opening, nor shall any iron holdfasts or other iron fastenings be placed nearer than two inches thereto.

Factory Chimneys.

51. Every person who shall hereafter construct a chimney shaft which may be intended for use in connection with the furnace of a steam engine, brewery, distillery, or manufactory shall construct such shaft in conformity with the following rules:—

- (a) the foundation of such shaft shall be made of concrete or other sufficient foundation;
- (b) the footings of such shaft shall spread all round the base thereof by regular offsets to a projection equal to the thickness of the enclosing brickwork at the base of such shaft, and the space enclosed by such footings shall be filled in solid as the work progresses;
- (c) the width of the base of such shaft, if square, shall be at least one-tenth of the proposed height thereof, or if such shaft is round, octagonal, or other many-sided and equal sided and angled, then at least one-twelfth of the height thereof;
- (d) every such shaft shall be carried up throughout in brickwork and mortar of best quality, and if detached shall be tapered gradually from the base to the top, and on all faces of sides of such shaft at the rate of at least two and a-half inches for every ten feet of height;
- (e) the brickwork at the top of such shaft, and for twenty feet below the top, shall be at least eight and a-half inches thick, and such thickness shall be increased at least four inches every additional twenty feet, measured downwards;
- (f) every cap, cornice, pedestal, string course, or other variation from plain brickwork in connection with such shaft shall be as additional to the thickness of brickwork required under this By-law, and every such cap shall be constructed and secured to the satisfaction of the Town Clerk;
- (g) all fire-brick lining built inside the lower portion of such shaft shall be additional to and independent of the thickness of the brickwork thereof prescribed by this By-law, and shall not be bonded therewith.

General Restrictions relating to Steam Boilers, etc.

52. No person shall cause or allow—

- (a) the floor under any oven, copper, steam boiler or stove which is not heated by gas, or the floor around the same for a space of eighteen inches to be constructed of materials of a combustible or heat conducting nature, or less than six inches thick;
- (b) any pipe for conveying smoke or other products of combustion, heated air, steam, or hot water to be fixed against any building on the face adjoining to any street or public way;
- (c) any pipe for conveying smoke or other products of combustion to be fixed nearer than six inches to any combustible materials;
- (d) any pipe for conveying heated air or steam to be fixed nearer than six inches to any combustible materials;
- (e) any pipe for conveying hot water to be fixed nearer than three inches to any combustible materials, provided that the restriction imposed by this clause, and by Subclause (d) with respect to the distance at which pipes for conveying steam and hot water shall be fixed from any combustible materials, shall not apply in the case of pipes provided with a free blow-off;
- (f) the floor over any room or enclosed space in which a furnace is fixed, or any floor within eighteen inches from the crown of an oven, to be constructed of combustible materials.

Staircases.

53. Every person who shall hereafter construct or adapt any building for occupation in separate tenements by more than two families shall cause the principal staircase of such building, which may be used by several families in common, to be ventilated upon every storey above the ground storey by means of windows or skylights, opening directly into the external air, or to be otherwise adequately ventilated.

54. Every person concerned in the erection of any dwelling house, not subject to the provisions of the last preceding clause, shall cause the principal staircase in such dwelling house to be ventilated by means of a window or skylight opening directly into the external air.

55. Every person concerned in the erection of a building of more than 150,000 cubic feet, which is constructed or adapted to be used as a dwelling house for separate families, shall cause the floors of the lobbies, corridors, passages, landings, and also the stairs, to be of fire-resisting materials, and, when over three storeys exclusive of basement, to be carried by supports of fire-resisting materials.

Habitable Rooms.

56. No person shall erect or cause to be erected any building which is to contain any habitable room or rooms, unless the following provisions are complied with:—

- (a) Every such room shall have a cubic capacity of not less than eight hundred cubic feet.
- (b) Every such room shall be in every part at least ten feet six inches in height from the floor to the ceiling.
- (c) Every such room shall have at least one window opening directly into the external air, and the total superficial area of such window, or if there be more than one such window, then the total superficial area of all such windows shall be, exclusive of the sash frames and clear of all obstructions, equal to at least one-twelfth of the floor area of such room, and every such window shall be so constructed that a portion of it equal to at least one twenty-fourth of such floor area can be opened, or if there be more than one such window, then the aggregate of the portions which can be opened of all such windows shall be equal to at least one twenty-fourth of such floor area, and the opening of every such window shall extend to a height of at least seven feet above the floor level of such room.

(d) For the purposes of Subclause (d) a window opening directly into the external air shall be deemed to mean either—

(1) a window facing directly and without any obstruction on to a public street, road, or way; or

(2) a window facing on to an air space which shall be without any overhead obstruction and which shall be enclosed on not more than three of its sides, and which when the building is of one storey only shall be not less than six feet, and when the building is of more than one storey shall not be less than eight feet in width throughout its whole length and height; Provided that when such window faces the boundary of the allotment upon which the building is erected, then every part of such window shall, when the building is of one storey only, be not less than three feet, and when the building is of more than one storey shall be not less than four feet measured at right angles from the boundary of the said allotment, and every part of the wall in which such window is situated shall throughout its whole length in one direction at least from such window when the building is of one storey only, be not less than three feet, and when the building is of more than one storey be not less than four feet measured at right angles from the boundary of the said allotment.

(e) Every such room, whether used or not used for the purpose of habitation or for the assemblage of people for any purpose whatsoever, shall be well and properly ventilated by the insertion of air bricks below the floor, and by openings in the sleeper walls, also by inlet ventilators in the walls, and by outlet ventilators in the ceiling or at the top of the wall of such rooms, with sufficient flues and pipes thereto according to the position and size of each room.

(f) Every basement room having a wooden floor, other than a floor constructed of solid wood bedded on concrete, shall have a sufficient space between the ground and the underside of the floor to admit of ventilation by means of air flues formed in the wall, connected with air blocks or otherwise above the ground level.

Back Buildings.

57. No person shall cause or allow any habitable room to be constructed in any back building when the only window or windows of such room opening into the external air is or are situate in the wall which faces the front building, unless every window of such room be placed not nearer to the opposite wall of the front building than a distance of twelve feet.

Conversion of Buildings.

58. No person shall convert into, or use as a dwelling house, any building or any part thereof not originally built as and for a dwelling house within the limits of the Municipality, whether built before or after the making of this By-law, without the previous consent of the Council.

Verandahs.

59. No person shall erect any verandah over any public footway within the limits of the Municipality without having first obtained the consent of the Council, to be signified by the issue of a license in the form of Schedule 5 hereto.

60. Any person desiring to obtain the consent of the Council to the erection of such a verandah shall deposit with the Town Clerk a plan, elevation, section, and specification, showing in detail the proposed construction of such verandah, and the manner in which it is proposed to secure it to the building to which it is proposed to be attached.

61. No such verandah shall hereafter be erected unless it conform, save as hereinafter provided, to one of the two plans numbered 1 or 2 (P.W.D., W.A., 21983), which have been settled and approved by the Council and deposited in the office of the Town Clerk. Provided that the strength of the materials used in the construction of any such verandah may, subject to the approval of the Town Clerk, be varied according to circumstances.

62. The minimum height of any verandah hereafter erected shall be eleven feet from the top of the kerb to

the underside of the signboard. In the case of sloping ground the height shall be measured at the centre of the frontage: Provided that if the frontage shall exceed 20 feet, a break shall be made if so directed by the Town Clerk.

63. All verandahs in a street shall be erected of a uniform height and width. Subject to the last preceding section, the standard height and width of verandahs in each street shall be fixed by the Council.

64. In the construction of every such verandah the following conditions shall be complied with:—

(a) The roof shall be covered with 24 gauge galvanised corrugated iron. The gutters shall be lined with galvanised plain iron not lighter than 24 gauge, and shall be of a capacity sufficient to carry off all rain or storm water. Such capacity shall in no case be less than 27 square inches.

(b) Down pipes shall be of 24 gauge galvanised iron with a minimum area of nine square inches. The inlets from the gutters to the down pipes shall be at least twice the area of the down-pipes and shall be funnel-shaped. Special provisions shall be made for the head of the down-pipes, and the lower lengths of such down-pipes shall be of 18 gauge at least, and the portion thereof carrying water under the footpath shall be of wrought iron.

(c) The ceiling shall be of ceillite, plain galvanised iron or other approved non-inflammable materials securely fixed to the wood joists, which shall be 4in. x 2in., spaced not more than two feet, centres running parallel with the footpath and secured to the steel framing. All ceilings to be flat and level.

(d) The hanging bolts are to be 1½in. diameter, attached to the framing as shown and securely bolted to the building and provided with union screws, all quite plain.

65. The fascia or signboard of every such verandah is to be framed as shown and covered with 24 gauge galvanised iron neatly fitted over the framing and a flashing of 5lbs. lead must be fixed over the top as shown.

66. Whenever a proposed verandah will abut on to an existing verandah, it shall be so finished as to prevent rain from falling between such verandahs. Provided that when the existing verandah is shorter than the frontage of the building to which it is attached, the person erecting the new verandah shall make the necessary extension to the existing one.

67. Whenever the end of a verandah abuts on to the end of a right-of-way, street, or public place, the signboard shall be returned along such end to the satisfaction of the Town Clerk.

68. No writing, printing, or trade notice of any description shall be exhibited on any portion of the verandah, except on the outer face of the signboard, and/or upon signboards under the ceiling of the verandah securely and rigidly fixed to the framework of the ceiling at right angles to the building line and having a maximum depth of 12 inches and at a distance of 12 feet between one and another.

Miscellaneous.

69. The owner of any building or premises shall fill up, secure, or remove any cellar-ways or openings which may be in or under any footway, and are used in connection with, or are appurtenant to such building or premises, whenever ordered by the Council so to do.

70. The owner and the occupier of any building or erection composed of or roofed wholly or in part with iron, zinc, or tin and occupied or used as a work shop, workroom, or office and which is not ceiled and lined with wood or lath and plaster shall, once in every three years or oftener (if so required by the Council) cause such iron, zinc or tin to be coated with white refrigerating paint.

71. No person shall construct any building without providing convenient means of access to the roof, by manholes or otherwise.

72. Timber framed gables to any bay window may be constructed in buildings of the domestic class, and in buildings of other classes, if approved and consented to by the Council and endorsed on the drawings by the Town Clerk.

73. All sky-lights in verandahs and buildings, and the sloping sides of all lantern lights, shall be protected by galvanised iron wire guards, securely fixed to the inside thereof.

Reinforced Concrete.

74. Every person intending to erect a building of reinforced concrete shall, in addition to the provision of Clause 2 of this By-law, submit detail drawings showing the size and position of re-inforcing bars and specification of the materials and the proportions of the same, together with a copy of all the calculations of strength and the superincumbent load for which calculations have been made. Such detail drawings and copies of calculations shall be in duplicate, and one copy thereof shall remain in the office of the Town Clerk as a permanent record.

75. All beams and columns shall not have less than two inches in thickness of fire-proofing outside the re-inforcing bars, and all floor slabs shall have not less than one inch in thickness.

76. All beams and rectangular columns shall have the exposed angles either chamfered or rounded.

77. All beams shall have shear re-inforcement and such shear members shall—

- (a) be spaced according to the distribution and intensity of the shearing stresses, but the distance from C to C of the shear re-inforcement at any part of the beam shall not exceed the effective depth of the beam;
- (b) at least extend from the centre of the tensile re-inforcement to the centre of pressure in the concrete under compression;
- (c) be passed under or round the tensile re-inforcement or be otherwise secured thereto;
- (d) have a mechanical bond with the concrete throughout their length or a mechanical anchorage at both ends.

78. Wherever inclined shear members are employed they shall be rigidly fixed to the horizontal re-inforcement.

79. In beams with double horizontal re-inforcements the shear members (or stirrups) shall be attached to both the tensional and compression bars.

80. The following items must be taken into consideration in making calculations:—

- (a) weight of the structure;
- (b) any other permanent load, such as flooring, plastering, etc.;
- (c) the accidental or super-imposed load;
- (d) vibration and shock where they are liable to occur.

81. The calculations for loads must be based on their greatest straining action.

Concrete and steel as used must be estimated at not less than 150 lbs. per cubic foot.

In factories, public halls, or workshops the shock must be calculated at one-half the super-imposed load.

In floors carrying machinery or liable to have loads suddenly applied, the allowance for shock must be taken as equal to the accidental load.

In cases of columns or piers of buildings which support three or more floors, the load at different levels may be calculated as follows:—

For the part of the roof and top floor supported, the full accidental load must be taken: for the next floor below, 90 per cent.; for the next floor, 80 per cent.; and so on until the reduction reaches to 50 per cent. and all floors below 50 per cent. of the load.

The following accidental loads may be taken in making calculations:—

Ordinary dwellings and living rooms—75 lbs. per square foot.
Ball rooms and drill halls—150 lbs. per square foot.
Warehouses—220 to 670 lbs. per square foot.
Factories, according to use.
Roofs generally—50 lbs. per square foot.

82. Cement.—Only Portland cement complying with the requirements of the specification adopted by the British Engineering Standards Committee shall be employed. Every lot of cement delivered must be tested and in addition the tests for soundness and time of setting should be applied frequently during construction.

83. Sand.—Must be clean, and free from igneous, organic or earthy matter.

84. Aggregate.—May be of hard stone, broken bricks, coke breeze, or other suitable materials, and must be clean and angular, varied in size as much as possible between the maximum of $\frac{3}{4}$ inch and the minimum of $\frac{1}{4}$ inch.

The cement, sand, and aggregate must be kept separate and accurately proportioned in volumes. The proportions generally must be not weaker than 1 : 2 : 4 and this under test should have a strength of not less than 1,800 lbs. per square inch.

Steel must have the following qualities:—

- (a) An ultimate strength of not less than 60,000 lbs. per square inch.
- (b) A yield point of not less than 32,000 lbs. per square inch.
- (c) It must stand bending cold 180 deg. to a diameter of the thickness of pieces tested without fracture on outside of bent portion.

With the above standards of strength, the allowable working stresses are:—

Concrete in compression—600 lbs. per square inch.
Concrete in shear of beams—60 lbs. per square inch.
Adhesion or grip of concrete on steel—100 lbs. per square inch.

Steel in tension—16,000 lbs. per square inch.

Steel in compression—Fifteen times the stress of surrounding concrete.

Steel in shear—12,000 lbs. per square inch.

Bending moment for beams and floor slabs continuous over three or more equal spans with:—

$$\text{Uniformly distributed loads not less than } + \frac{wl^2}{12} \text{ at the centre of the span}$$

$$\text{And at intermediate supports } = \frac{wl^2}{12}$$

$$n = \left[\frac{1}{\sqrt{m^2r^2 + 2mr}} - mr \right] d$$

where n = neutral axis.

$$m = \text{modular ratio } \frac{E_s}{E_c} = 15.$$

$r = A/bd$ = ratio of area of reinforcement to the area b.d.

b = breadth of beam in inches.

d = depth of beam in inches.

Steel Skeleton Buildings.

85. Steel skeleton buildings shall mean any building constructed of steel framework in such a manner that all the external and internal loads and strains are transmitted from every part of the building to the foundations.

86. No part of a steel column or stanchion shall be less than one-quarter of an inch thick, and no such column or stanchion shall have an unsupported length of more than forty times its least lateral dimension or diameter, provided that when cased with concrete having helical reinforcement the measurement may be taken from the centre of gravity of such re-inforcement.

87. The ends of all columns shall be faced to a true surface at right angles to the axis of the columns and the connections between them shall be made with splice plates.

88. The joint may be effected by rivets of sufficient size and number to transmit the whole stress, and the splice plates shall be equal in sectional area to the area of the column spliced.

89. When the section of a column to be spliced is such that splice plates cannot be used, a connection formed of plates and angles may be used designed to properly distribute the stress.

90. No material shall be used in a steel column of less thickness than one-thirty-second of its unsupported width measured between the centres of rivets transversely, or one-sixteenth the distance between the centre of rivets in the directions of the stress.

91. Stay plates are to have not less than four rivets and are to be spaced so that the ratio of length to the least radius of gyration of the parts connected does not exceed forty. The distance between the nearest rivets of two stay plates shall in this case be considered as length.

92. Steel columns shall be made in one, two, or three storey lengths so that the connections may be at floor level.

93. Where any section of a column projects beyond the section to which it is jointed the difference shall be made up by filling plates secured to the column by the proper number of rivets.

94. Steel shoes or plates shall be used under the bottom lengths of any column to properly distribute the load on the foundations, and L steel and gusset pieces shall be riveted on of the required strength.

Cast Iron Columns.

95. Cast iron columns shall not have a less diameter than five inches or less thickness of metal than three-quarters of an inch, nor shall they have an unsupported length of more than twenty times their least lateral dimensions or diameter except as provided in Clause 117 "Working Stresses." All cast iron columns shall be of good workmanship and materials.

96. The top and bottom flanges, seats, and lugs shall be of ample strength re-inforced by fillet and brackets. They shall not be less than one inch in thickness when finished.

97. All columns must be faced at the ends of a true surface perpendicular to the axis of the column.

98. Column joints shall be secured by not less than four bolts each not less than three-quarters of an inch in diameter, and the holes for these bolts shall be drilled to a template and the bolts shall fit accurately.

99. When the inside diameter of a lower column is larger than the one above, the internal diameter of the larger column shall be reduced to the smaller size by tapering down at least six inches, or a joint plate may be inserted of sufficient strength to distribute the load.

100. The thickness of the metal shall be not less than one-twelfth of the greatest lateral dimension or diameter, but never less than three-quarters of an inch.

101. Cast iron columns shall be drilled with a hole three-eighths of an inch in diameter where required by the Town Clerk, and if the thickness of metal is on one side less than the stipulated thickness by one-fourth, notwithstanding that the other side has the extra metal, the strength shall be computed from the thinnest side of the column.

102. Whenever blow holes or imperfections occur so as to reduce the area of the cross section at that point more than one-tenth, such columns shall be condemned.

103. Steel shoe plates to the column shall be used to properly distribute the load on the foundations.

104. Rivets in flanges shall be spaced so that the least value of a rivet for either shear or bearing is equal to or greater than the strain due to the distance between adjoining rivets.

105. The length of rivets between heads shall not exceed four times the diameter.

106. The compression flange or plate girders shall be secured against buckling if its length exceeds thirty times its width.

107. If splices are used, they shall be calculated to make good the members spliced in either tension or compression.

108. Stiffeners shall be provided over supports and under concentrated loads: they shall be of sufficient strength as a column to carry loads, and shall be connected with a sufficient number of rivets to transmit the stresses into the web plate.

109. Stiffeners shall fit so as to support the flanges of the girders.

110. If the unsupported depth of the web plate exceeds sixty times its thickness, stiffeners shall be used at intervals not exceeding one hundred and twenty times the thickness of the web.

111. When R.S. joists are used in pairs to form a girder they shall be connected together by bolts and iron separators at intervals of not more than five feet. All beams twelve inches or more in depth shall have at least two bolts in each separator.

112. Wherever brick external walls are built as part of a structure, all steel lintel or girders supported by the brick wall shall rest upon cut granite or other approved hard stone blocks or upon cast-iron or steel plates of sufficient size and strength to distribute the load.

113. All steel trimmer beams, girders, and tail beams shall be suitably framed and connected together, and all other ironwork of all floors and roofs shall be strapped, bolted, anchored, and connected together and to the walls.

114. All beams framed into and supported by other beams or girders shall be connected thereto by angles

or knees of a proper size and strength, and shall have a sufficient number of bolts or rivets in both legs of each connecting angle to transmit the entire weight or load coming on the beam to the supporting beam or girder.

115. Wherever possible, steel work shall be riveted together; when bolts are used the threads shall be full and clean and the nuts shall be tapped centrally and the bolts shall be threaded to allow for screwing up tight, and where necessary bevel washers shall be used, and the head of bolts and the nuts shall be kept parallel in every case.

116. All riveting shall be in accordance with the following standard:—The distance from the centre of the rivet hole to the edge of the material shall be equal to two diameters of the rivet, and the rivets shall be wherever practicable, machine driven.

When the distance of two diameters is not possible, the following shall be the minimum distance from the centre of rivet hole to the edge of the material:— $\frac{3}{4}$ in. for $\frac{1}{4}$ in. rivets; $\frac{7}{8}$ in. for $\frac{5}{8}$ in. rivets; $1\frac{1}{8}$ in. for $\frac{3}{4}$ in. rivets; $1\frac{3}{8}$ in. for $\frac{7}{8}$ in. rivets; $1\frac{1}{2}$ in. for 1in. rivets.

The rivets in connection shall be proportional and placed to take up the stresses.

The pitch of rivets shall never be less than three diameters nor more than six inches. In the direction of the stress it shall not exceed sixteen times the least thickness of the outside member. At right angles to the stress it shall not exceed thirty-two times the thickness of the outside member. All holes shall be punched accurately so that the rivets or bolts will pass through the whole of the members without straining the material. The rivets shall fill the holes and the heads be concentric to the axis of the rivet. Gussets shall be provided where required of sufficient size and thickness to accommodate the number of rivets necessary to make the connection.

117. Working stresses for 1in. square of section.

License to deposit Building Material on Street.

118. No person shall deposit any material on or make any excavation near to any street or way or public place unless and until a license in the form of Schedule No. 7 has been obtained from the Town Clerk.

Frontages of Buildings.

119. For the purpose of preventing the building of dwelling houses with frontages abutting on the back yards of other buildings, and for providing proper access to all dwelling houses, and for providing open spaces attached thereto, it is hereby provided that—

- no dwelling-house shall be hereafter erected or re-built which shall not directly front for the whole width of the building without the intervention of any other building, a public street, or a private street, which shall have been approved by the Council for the purpose of this clause;
- no building of any kind shall be erected on any block of land between any dwelling house fronting a public street or approved private street and the said street;
- nothing in this clause contained shall prevent the erection of a building intended to be or capable of being used as a combined business and dwelling house, and in which the business portion of the building directly fronts any such public or approved private street as aforesaid, by reason only that the dwelling portion of the building shall be at the back or side of the business portion.

Materials to be used in the Construction of Wooden Buildings.

120. The materials to be used in the construction of wooden buildings shall be not less in dimensions than as follows:—

Stumps for foundations to be of 4 x 4 jarrah or other approved materials, sunk not less than 18in. below the natural surface of the ground.

Floor joists: 4 x 2 jarrah at not more than 18 inches centre to centre.

Studs: 3 x 2 jarrah at not more than 18 inches for lath and plaster and not more than 2 feet for asbestos or similar materials, centre to centre.

Ceiling joists: 4 x 2 jarrah spaced same as for studs.

Hanging beams: for all spans of rooms over 7 feet of not less than 6 x 1½ jarrah.

Hips, ridges, and valleys, of not less than 7 x 1 jarrah.

THE ROAD DISTRICTS ACT, 1919.

Swan Road Board.

By-laws relating to Buildings.

P.W. 462/29.

WHEREAS by "The Road Districts Act, 1919," the Road Board of any District is empowered to make By-laws for all or any purposes in the said Act mentioned, the Swan Road Board, in pursuance of the powers vested in the said Board, under and by virtue of the said Act, and of every other authority enabling it in that behalf, doth hereby make and publish the following By-laws:—

Interpretation.

"Act" means "The Road Districts Act, 1919."

"Basement" means a storey or portion of a storey partly below the level of the ground, the ceiling of which is not less than five feet above the adjoining ground (irrespective of any excavation made to comply with these By-laws).

"Cellar" means a storey or portion of a storey below the ground level, the ceiling of which is less than five feet above the adjoining ground.

"Cement mortar" means a mortar composed of one part of cement to three or fewer than three parts of sand.

"Commercial Building" means a building used or constructed or adapted to be used wholly or in part for commercial purposes.

"Dwelling-house" means a building used, constructed or adapted to be used wholly or in part for human habitation, but does not include other than the dwelling-house portion (if any) of a commercial building.

"District" means the Swan Road District.

"Habitable room" means any living room, and includes all rooms intended or adapted to be used for the purpose of sleeping or eating or the cooking of food.

"Wall"—

"Divisional wall" means a wall (other than an external or party-wall) which subdivides any floor of a building and carries any load in addition to its own dead weight.

"External wall" means an outer wall of a building, not being a party-wall, even though adjoining a wall of another building.

"Partition wall" means a wall subdividing any floor and not carrying any load other than its own dead weight.

"Board" means the Swan Road Board.

"Surveyor" means the person appointed by the Board for the time being as Building Surveyor or acting Building Surveyor for the Swan Road District.

1.—Applications, Plans, and Notices.

Before the erection of a building is commenced two copies of the plans and specifications, together with the cost of such building, and an application in writing for approval thereof, shall be submitted to the Board.

Provided that the Board may, if it see fit, dispense with the necessity for the submission of plans and specifications, and reduce or dispense with the payment of a fee with any application for approval to make minor alterations in an existing building, or to erect a building to be used exclusively for the purpose of a greenhouse, conservatory, summer-house, private boat-house, fuel shed, tool house, cycle shed, aviary, verandah, or the like: Provided also, that any building (other than a verandah or an aviary) used or intended to be used for the keeping of domestic animals shall be wholly detached from any dwelling-house: Provided also, that where it is desired to make some minor alterations to a building not materially affecting its stability, lighting, ventilation, or size of rooms, the application may in the first place be made without submitting plans and specifications, which shall, however, be submitted if the Board so require.

The application shall describe the building and show the purpose for which the building is to be used.

The plans shall consist of a general plan and elevations, and a block plan. The block plan shall show the relation of the building to the boundaries of the site and to other buildings and structures thereon.

The specifications shall describe the construction and materials of which the building is to be built, and the method of drainage, sewerage, and water supply, and state whether the materials will be new or second-hand, and, if second-hand materials are to be used, shall give particulars.

When giving approval, the Board may impose a condition that forty-eight hours' notice shall be given prior

to the covering of any or all of the following works in order that they may be inspected, that is to say, trenches before foundations are laid, foundations before trenches are filled in, and drains before they are covered in.

2.—Fees and Permits.

No person shall commence any building, erection, or structure, or any addition or alteration to any building, erection, or structure without having first obtained from the Surveyor a written permit for the commencement of same, and without having first paid to the Board the fees in respect thereof set forth in these By-laws.

Each building, erection, or structure must be completed within the undermentioned specified time from the date of issue by the Board of the permit therefor—

(a) Brick, stone, or cement—six months.

(b) All other buildings—three months.

The fees payable in respect to buildings, erections, or structures shall be as follows:—

	s.	d.
License for new buildings of wood, iron, or asbestos	2	6
License for new building of brick, stone, or concrete	5	0
License for alterations or additions to existing building	2	6

3.—General Provisions.

Each building in a terrace of buildings or in a pair of semi-detached buildings shall be deemed to be a separate building for the purpose of this By-law.

Every building shall be provided with one or more proper manholes in the ceiling so as to give access for electrical and other fitting.

4.—Site, Healthiness of.

A person shall not, without the written permission of the Board, erect a building upon any site which shall have been filled with any material impregnated with faecal or with animal or vegetable matter, or upon which any such matter may have been deposited, unless and until such matter shall have been properly removed by excavation or otherwise from such site and depressions filled in with clean soil.

Every person who shall erect a building shall cause the subsoil of the site of such building to be effectually drained wherever in the opinion of the Board the dampness of the site renders such precaution necessary.

No person shall commence to build any structure without having first provided proper and sufficient sanitary accommodation to the satisfaction of the Board for all persons engaged or employed upon such structure.

Motor garages not exceeding three hundred square feet in floor area may be built in iron, brick, stone, or concrete, or other non-inflammable material anywhere in the district, provided that the Board may require—

- that any motor garage be fifty feet distant from the frontage of any other road or street (except in special cases, where the physical configuration of the ground precludes such distance being observed);
- that any such motor garage be five feet distant from the frontage of any other ground or street;
- that any such motor garage be ten feet distant from any building used as a dwelling-house on the same allotment or on any allotment adjoining;
- that the motor garage complies otherwise with all the conditions and limitations of this By-law in regard to buildings.

Fowl-houses of not more than 200 square feet in area and not more than six feet in height may be erected at rear of any dwelling, provided that the nearest portion of such fowl-house is at least 30 feet from any building used as or intended for a dwelling, and at least four feet from the boundary of land not in the same occupation.

Fowl-houses of larger area may be erected if at a distance of at least 50 feet from any street and 40 feet from any dwelling-house and at least four feet from the boundary of land not in the same occupation: Provided that the roof and walls are covered with galvanised iron or other fire-resisting material approved by the Surveyor, and that the building shall not be more than seven feet high.

The Board may refuse or postpone approval to build upon a site which is unhealthy by reason of its liability to dampness, unless until the site has been rendered dry, sound, and well drained to the satisfaction of the Board.

If the Board so direct in any particular case, the whole or part of the ground-surface or site of a dwelling shall be covered with a layer of good cement concrete, or tarred metal, rammed solid, and at least four inches thick.

5.—Position of Building Site.

No building which is intended to be used, or which shall be used as a dwelling-house, and no addition to any such building shall be built, constructed, or erected within a distance of 20 feet measured horizontally from the building line of the street or road the building is intended to or shall front.

Except as hereinafter provided, no building with an external wall of wood which is intended to be used, or which shall be used as a dwelling-house, and no addition with an external wall of wood to any building which is intended to be used, or which shall be used as a dwelling-house, shall be built, constructed, or erected—

- (a) within a distance of four feet, measured horizontally, of any street, road, lane, or right-of-way, at the side of any such building; or
- (b) within a distance of four feet, measured horizontally, of any land not in the same possession or occupation: Provided always, that any such building or addition may abut on the building line of any street, road, lane, right-of-way at the side of such building, or be less than the prescribed distance therefrom, or from land not in the same possession or occupation, or from a building or erection with an external wall of wood: Provided that the wall or walls which abut on or face within the prescribed distance such street, road, lane, or right-of-way or land or building or erection, as the case may be, shall be of concrete at least six inches in thickness, or of brick or stones at least $8\frac{1}{2}$ inches in thickness, projecting in all cases at least one inch beyond the woodwork front and back and at least one foot six inches through the roof covering of gutter adjoining the same.

6.—Access to Rear.

Where there is no public and convenient access to the rear of the site of any building for the removal of night-soil, the building shall be so designed as to leave outside the building a way of access at least four feet wide from a public road to the privy closet, and for the removal of garbage and refuse.

7.—Outbuildings.

In the case of an application to erect (as appurtenant to any building) any outbuilding from the use of which unpleasant noises, unpleasant odours, or unusual risk of fire may reasonably be expected to rise, the Board may determine in what position upon the allotment such out-building may be erected.

8.—Materials.

The Board may define any portion of its district, and by resolution prohibit the erection within that portion of buildings with external walls of materials other than brick, stone, or concrete, or the like materials.

9.—Tents: Canvas Buildings.

The Board may grant, subject to conditions, or refuse permission to erect a structure of calico, canvas, or other textile material, and if any such structure is erected without the Board's permission, may order its demolition.

10.—Materials and Workmanship.

Materials which have been used in construction of any cesspit, drain, or sewer, or which for any other reason are dangerous to health, shall not be used in the erection of any building.

Faulty or unsuitable materials shall not be used in any building.

Every part of a building shall be erected and finished off in a good and workmanlike manner.

Bricks used in any building shall be good, hard, and well burnt, and, if old or second-hand, shall be thoroughly cleaned and approved by the Board in writing before being so used.

All brick or stone chimneys shall be constructed of ample flue, to be well plastered or pargetted inside for the full height, and no timber of any description will be allowed to be built into the brickwork.

The Board may give authority to erect iron chimneys, but in the erection they shall be laid on either stone or concrete base and free from all woodwork.

Hearths of stone, brick, cement, or iron of approved dimensions shall be placed in front of all fireplaces.

11.—Testing Materials.

The Board may test any building materials, and prohibit the use of such materials as are proved unfitted for the purpose for which they were intended to be used.

12.—Timber Construction.

All timbers used in any buildings shall be of good, sound material, free from rot, free from large and loose knots, and free from shakes, and free from any imperfections whereby the strength of the timber may be impaired.

The following conditions shall apply as to spacings and scantlings of timber:—

- (i) Stumps shall not be less than four inches by four inches jarrah or other approved timber, space five feet centre to centre, and fixed on 6in. by $1\frac{1}{2}$ in. soleplates. Stumps shall be tarred and sunk at least half their length in the ground; provided that no stumps shall be less than two feet in the ground. Tarring is to extend for six inches above the ground surface.
- (ii) Studs and ceiling joists shall not be less than four inches by two inches, spaced not more than two feet apart, centre to centre, properly secured and braced.

Studs and ceiling joists of 3in. x 2in. may be used, provided they are spaced 18in. apart, centre to centre, properly braced and secured.

Where studs of 3in. x 2in. are used the angle or corner studs shall be of 3in. x 3in.; where 4in. x 2in. studs are used the angle stud shall be 4in. x 4in.

- (iii) Rafters shall not be less than 3in. x 2in., spaced not more than 3ft., centre to centre, in the case of iron roofs, and 18in., centre to centre, in the case of slate, tile, or other similar roofs; 4in. x 2in. rafters may be used, but must be spaced at 2ft. centres for slates or tiles, and not more than 3ft. apart for any type of roof. All rafters must be securely braced with purlins and collar ties.
- (iv) Floor joists shall not be less than 4in. x 2in., spaced 18in. apart, centre to centre.
- (v) Floor bearers shall not be less than 4in. x 3in., spaced not more than 5ft. apart.

In addition to the bearers required for this spacing, an additional bearer of 4in. x 3in. must be placed under each wall or partition.

No framing timber in any building shall be notched or checked out to receive bracing or otherwise, so as to reduce its cross sectional area more than one-sixth.

13.—Awnings and Verandahs.

The Board may require that any or all awnings or verandahs proposed to be erected over a public place shall be of the cantilever type.

No verandah shall be enclosed for living or sleeping purposes without the Board's written consent.

14.—Footings.

Every person who shall erect a building of brick, stone, or the like shall construct every wall of such building, unless built upon a hard rock foundation, to rest upon proper footings, or upon a sufficient beam.

He shall cause the projection of the bottom of the footings on each side of such wall to be at least equal to one-half the thickness of the wall at its base, unless an adjoining wall interferes, or unless the wall is upon the boundary of the land, in which case the projection may be omitted on the side of the boundary, or where the wall adjoins.

He shall also cause the diminution of the footings to be in regular offsets, unless the footings be of concrete. The height from the bottom of such footings to the base of the wall shall be at least equal to two-thirds of the thickness of the wall at its base: Provided that, when the footings are of reinforced concrete, the Board may permit the height to be less; and, provided further, that it shall not in any case be less than 12 inches.

Footings to walls of brick in cement or mortar (3 to 1) shall be the same width and height as those to walls of the same thickness not built in cement mortar.

Vermin plates shall be provided to all walls other than brick, stone, or concrete.

15.—Damp Course.

Every person who shall erect a building shall provide and insert damp-proof courses of lead, slate bedded in cement, or natural asphalt: Provided that the Board may permit the omission of damp-proof courses from closets, outbuildings, and the like structures.

Where material which is not slate, natural asphalt, or lead of a minimum weight of two pounds per square foot under walls not exceeding 40 feet in height, or three pounds per square foot under walls exceeding 40 feet in height, is desired to be used, the applicant shall submit to the Board evidence that the material to be used has been approved by the Board of Health, or, failing such evidence, that the material is a good and effective damp-proof course.

Damp-proof courses shall be inserted in walls to their full width and in such manner that there shall be no open spaces, cracks, or gaps in the damp-proof courses along the full length of the walls.

Damp-proof courses shall be inserted in walls in such positions and in such manner that—

- (a) moisture from the earth shall be prevented from reaching the lowest floor timbers or the walls above the underside of the lowest floor joists, or, where solid floors are laid, shall be prevented from reaching higher than $3\frac{1}{2}$ inches above such floors;
- (b) where floors are below outside ground level, moisture shall be prevented from reaching inner face of outer wall;
- (c) where cavity walls are used, moisture penetrating outer portions of walls shall be prevented from reaching the floor timbers, or the inner portion or face of all walls above the underside of the lowest floor timbers, or, where solid floors are laid, shall be prevented from reaching higher than $3\frac{1}{2}$ in. above such floors;
- (d) moisture penetrating the chimney, parapet, or other walls above roof shall be prevented from reaching in any part the inner walls or the inner portion of inner face of outside walls below the upper side of the ceiling joists in either case;
- (e) moisture penetrating the outer portion of cavity walls shall be prevented from reaching the inner portion or inner face of such walls above or about window, door, and other frames or openings.

In cavity walls the cavity shall extend not less than $4\frac{1}{2}$ in. below damp-proof course.

This clause shall apply to walls constructed of brick, stone, or concrete, and to walls of any material readily permeable by water.

16.—External Walls: Structure.

Every person who shall erect a building shall cause the external walls thereof to be constructed of brick, stone, concrete, timber, or other material approved by the Board.

If built of brick, stone, concrete, or the like, the external walls shall, except where herein provided to the contrary, be not less than 9 in. in thickness: Provided that the walls of sheds, laundries, outhouses, and the like not exceeding 10 ft. in height may, if the Board so permit be $4\frac{1}{2}$ in. in thickness.

Cavity walls may be built, provided the two sections are securely tied together by a sufficient number of wire ties or other effective method, and, when used, the combined thickness of the inner and outer parts shall be deemed to be the thickness of the wall.

Bottoms of all cavities shall be carefully raked out before the completion of the building, and all ties kept free from mortar droppings.

Where cavity walls are used, weep-holes shall be left at foot of cavity not more than six feet apart, and over all damp-proof courses inserted to protect walls weep-holes shall be left not more than 3 ft. apart.

Notwithstanding anything to the contrary in this clause, the Board may permit the erection of dwellings not more than two storeys in height of concrete with walls of less than the prescribed thickness, if satisfied that such proposed dwellings will be hygienic and structurally sound.

17.—Party Walls.

Two, but not more, residences may be erected together in one block, provided that they shall be separated from each other by a wall of concrete, or of brick or stone, at least $8\frac{1}{2}$ inches in thickness projecting, in the case of wooden houses, at least 1 inch through the wood-work front and back, and in all cases project-

ing 1 ft. 6 in. at least through the roof covering or gutter adjoining the same, whether belonging to the same owner or not. Each building or dwelling-house in a block shall be subject to the provisions of this By-law applicable to its class, save that the site or curtilage of each of such buildings shall have a superficial area of at least 4,000 square feet and a frontage of at least 33 lineal feet to a street or road.

18.—Rooms (size)—Cubic space.

Every person who shall erect a building shall provide that—

- (a) the areas of the floors of all the habitable rooms in such buildings shall, taken together, average not less than 100 square feet per habitable room.
- (b) a habitable room shall not in any case have a floor area of less than 80 square feet; and
- (c) a habitable room shall not, in any case, have a cubic space of less than 720 cubic feet: Provided that, in each dwelling-house and in each flat of a residential flat building, there shall be at least one habitable room the cubic space of which shall not be less than 1,296 cubic feet.
- (d) no main room in any building shall be less than 10 feet 6 inches in height from floor to ceiling.
- (e) all shops shall have a clear space of 12 feet 6 inches from floor to ceiling.

19.—Height: Rooms in Roof.

Every habitable room which is wholly or partly in the roof of a building shall, in the case of an attic room above the ground floor, be for at least two-thirds of the area of the floor not less than nine feet in height, and shall not in any part be less than five feet in height, and, in the case of any other room, shall be for at least three-fourths of the area of the floor not less than nine feet in height, and shall not in any part be less than seven feet four inches in height.

20.—Other Rooms.

Every habitable room which is not a room wholly or partly in the roof of a building, shall be not less than nine feet in height: Provided that bays, inglenooks, and recesses for furniture may be added to such rooms with ceilings of less height than nine feet, but the ceilings of such bays and inglenooks shall not be less than six feet eight inches in height.

21.—Rooms for places of Assembly.

A building in which there is a room designed, intended, or adapted to be used for the assembling of persons for any purpose, such room being situated upon the first or any higher floor above the ground floor, and having a floor area of 450 or more superficial feet, shall be designed and constructed in compliance with the following provisions in addition to the general provisions in this part:—

If the room be on the first floor, it shall be provided with at least two exits. If the room be on the second or any higher floor above the ground floor, it shall be provided with at least two exits, and there shall also be provided two staircases leading from the ground floor to the floor on which the room is situated, or one such staircase and a fire escape.

Such exits and staircases, and the passages connecting them, shall be of a total width calculated in the proportion of 20 inches for every 600 superficial feet of floor area, or fraction thereof, in such room; but no passage, stair, or exit shall be less than three feet six inches in width, nor more than 10 feet in width.

Such stairs shall be uniform throughout with risers, not more than seven inches high, and treads not less than 10 inches wide, exclusive of nosings, if any. Each flight of stairs shall contain not less than three nor more than 15 risers. There shall be hand-rails on each side securely fixed, and staircases over six feet in width shall have a centre hand-rail.

The stairs and landing shall be of such strength as to be capable of carrying with absolute safety the largest number of people who may be reasonably expected to use them at one time.

All doors used as exit doors from any such room shall, except where otherwise approved, be hung in two folds, fitted with "panic" bolts, and to be made to open outwards towards the thoroughfare or way.

All doors between such rooms and the open air shall be hung so as not to obstruct, when open, any gangway, passage, staircase, or landing.

A door shall not open immediately upon a flight of steps, but a landing of at least equal depth to the width of the door shall be provided between such steps and such doorway.

22.—Lighting and Ventilating: under floors.

For the purpose of ventilation, every building shall be so erected that there shall be between the underside of every joist upon which the lowest floor of such building is laid, and the ground surface or upper surface of the asphalt or concrete with which the ground or site of the building may be covered, a clear space of 12 inches at least in every part; and such space shall be thoroughly ventilated and cross-ventilated by means of suitable and sufficient air-bricks or other effectual method: Provided that, where the lowest floor is so constructed (by filling with concrete, asphalt, or other approved material) as not to permit the harbouring of rats, this provision shall not apply..

23.—Rooms: Air-bricks, Louvres, etc.

Every room of a building shall be so constructed that for every 1,000 cubic feet or part thereof of air space in the room there shall be 24 square inches at the least of unobstructed ventilation to the outer air by means of air-bricks situated at or near the level of the ceiling or any other efficient means.

24.—Rooms: Windows.

Every habitable room or room or alcove in which food is intended or likely to be stored or prepared, and every bathroom, enclosed laundry, and privy-closet shall have at least one vertical window opening directly to the outside air. One-half at least of such window shall be constructed to open to its full extent, and so that the opening may extend to the top of the window: Provided that, in a pantry, any other system of ventilation may be substituted for windows if the Board be satisfied that such system is equally efficient.

25.—Bedrooms: Additional Ventilation.

In every bedroom or room intended or adapted to be used for sleeping and having only one window, there shall be provided cross ventilation by means of at least 24 square inches of unobstructed opening in some wall of the room other than that in which the window is situated; such opening may be by an additional window, fire-place, fanlight, air-brick, or any suitable means.

26.—Height of Windows.

The top of a window of an enclosed laundry or of a kitchen or alcove or room in which food is intended or likely to be stored or prepared shall not be less than six feet eight inches from the floor.

27.—Size of Windows.

The window or windows of any room shall have a superficial area (clear of the sash frame) not less than one-tenth of the floor area or the room, or (if the following size be greater than one-tenth of the floor area) not less than 10 square feet for the windows of a kitchen or alcove or room in which food is intended or likely to be prepared; not less than six square feet, for the windows of any enclosed laundry; not less than 3½ square feet for the windows of a bathroom; and not less than two square feet for the windows of a privy-closet, and not less than 1½ square feet for any other room.

28.—Laundries and Kitchens.

A dwelling of any kind shall not be erected with the kitchen and laundry combined in one room.

29.—Windows.

Any window the top of which is more than 12 feet above either the ground or any external flat surface or slightly sloping roof sufficient for safety, shall be so constructed that it can be cleaned from the interior of the building.

30.—Drainage: Levels.

Every person who shall erect a building shall construct the lower storey of such building at such a level that, in the opinion of the Board, it may be practicable to construct a drain sufficient for the effectual drainage of such building.

No person shall build or erect, or cause or permit to be built or erected, any building, erection, tent, or addition to any building, erection, or tent on any land unless and until such building, erection, tent, or addition, and the site and curtilage thereof can be properly drained, and the Board may refuse permission to build and erect

any building, erection, or tent, or addition, unless and until it is satisfied that the proposed building, erection, tent, or addition and the site and curtilage thereof can be properly drained.

No water is to be discharged on the surface of any foot-path.

31.—Miscellaneous.

The Board may permit the enclosure and the use of any public place in connection with the building or taking down of a building, or the alteration or the repair of a building.

32.—Skylights.

The Board may order the alteration or the repair or both of any skylight in any building, if such skylight be, in the opinion of the Board, in such a condition as to be detrimental to health or dangerous.

33.—Existing Buildings.

If in the opinion of the Board any building has been allowed to fall into an unsafe or unsanitary condition, either by faulty construction or any other cause, the Board may give notice in writing to the owner or occupier to repair the said building, and in the event of no action being taken within seven days by the said owner or occupier to remedy any defect complained of in the said notice, the said owner or occupier shall be liable to a fine, as hereinafter provided, until such time as the building shall be placed in a safe and sanitary condition, and the owner or occupier will be liable for all charges incurred in doing the necessary works, and, moreover, if in the opinion of the Board any building does not warrant the expense of repairing, the owner, after receiving notice, shall remove the building within seven (7) days; and failing this he will be liable to a fine, as hereinafter mentioned, to remove the building after receiving the notice; the Board may remove same and charge the owners with the cost of so doing, and recover the same in any court of competent jurisdiction and/or sell the material to cover the cost of taking down.

34.—Removal of Buildings.

No building or erection shall be removed into and erected or re-erected in the Road District, or removed from one part of the district to and erected and re-erected in another part thereof, unless the owner or person carrying out removal first obtain written permission from the Board to do so. Before such permission shall be granted, not less than seven (7) clear days' notice in writing shall be given to the Board or the Surveyor of the desire to remove and erect or re-erect such building or erection.

Such notice shall contain or be accompanied by the following:—

- (a) Particulars of the situation of building which it is proposed to remove.
- (b) Particulars of the situation of and plan of the land upon which it is proposed to erect or re-erect or place such building, showing proposed position thereon, and a tracing copy of such plan to be retained by the Board;
- (c) A plan giving the dimensions of the building and any proposed alterations or additions thereto, and a tracing copy of such plan to be retained by the Board;
- (d) A specification giving particulars of the construction of the existing building and of the alterations and additions (if any) which it is intended to make when the building is erected or re-erected;
- (e) Evidence satisfactory to the Board that such house has not been condemned as dilapidated, insanitary, or unfit for human habitation, and a certificate from the Health Officer of the Road District from which the building is proposed to be removed that within a reasonable time prior to date of removal no case of disease of an infectious or contagious nature has occurred therein;
- (f) Such further particulars in writing regarding the same as shall be sufficient to enable the Board or its Surveyor to determine if all the provisions of any Act of Parliament, By-law, or regulation applicable thereto are or will be complied with.

No written permission shall be given unless such removed building when erected or re-erected shall comply with the provisions of this By-law as applicable to new buildings.

No building or erection that has been condemned as dilapidated, insanitary, or unfit for human habitation shall be removed into or re-erected within the Road District.

No building or erection in which any case of infectious or contagious disease has occurred during the preceding six months shall be removed into or re-erected within the Road District.

No removed building shall be occupied until the Surveyor shall have certified in writing that all the provisions of this By-law have been observed and complied with in respect of such building.

Nothing herein contained shall prevent the alteration of the position of any building within the boundaries of the land on which the same stands: Provided that, in its altered position, it shall comply in all respects with this By-law, and that in progress of such removal the building be not taken on to any street, road, or public place.

No dwelling shall consist of less than three main rooms of a total of not less than 300 square feet, and no building or rooms thereof shall be occupied for living purposes until at least three main rooms shall have been completed according to the plans and specifications submitted to and approved by the Board.

The Board may in special cases grant permission for the erection of a dwelling-house containing not less than two rooms.

35.—Proportions of Site which may be Covered.

A dwelling-house, together with its appurtenances, to be erected on an allotment shall not occupy more than two-thirds of such allotment, and the minimum of unoccupied area shall not be less than 500 superficial feet: provided that this shall not prevent the Board from granting approval to the erection of a dwelling-house occupying more than two-thirds of an allotment, or with a minimum of unoccupied area of less than 500 superficial feet, in replacement of an existing dwelling-house which occupies more than two-thirds of that allotment, or has a minimum of unoccupied area of less than 500 superficial feet, as the case may be: Provided also, that where situated on a site considered by the Board to be an established shopping locality, the Board may permit a building which is to be a shop and dwelling combined to occupy not more than four-fifths of the allotment, subject to the unbuilt upon area being not less than 500 square feet.

Provided also, that a garage erected at a low level, the roof of which serves as a portion of the garden, yard, or court, shall not be included as a building in calculating the proportion of the area of the allotment that may be occupied by a building.

After the adoption of this By-law all subdivisions or resubdivisions of allotments must be such as to have a frontage to a street or road of not less than 50 lineal feet and a depth of not less than 140 lineal feet. Such subdivisions and resubdivisions must be lodged with the Board for approval before commencing to build, and shall apply throughout the whole of the Swan Road district.

No shop shall be built on land having a frontage of less than 18 feet to a street or road and an average depth of 130 feet. There shall be back access from right-of-way 10 feet wide at least. For the purposes of this clause the Board may agree to a subdivision with frontages less than 50 feet, but notwithstanding any such approval no dwelling shall be erected upon the subdivided land except in accordance with these By-laws.

No land upon which any dwelling-house has been erected shall thereafter be reduced in area below the minimum area prescribed by this By-law: Provided always, that notwithstanding anything hereinbefore provided to the contrary, the Board may on application in writing setting forth the grounds of the application, under special circumstances, and for special causes, and at a meeting of which due notice has been given to each member, declare that the provisions of this By-law either in whole or in part shall not apply to any particular area of land.

No building shall be erected in such a position that it shall lie between another building, or any part thereof and street unless such other building has a direct and unobstructed access to some other street at least 16 feet wide.

36.—Space outside Windows on side Land.

If there be any side wall of a dwelling-house in which it is proposed to provide a window or a door opening, that wall shall be set back (throughout its whole length) from the side line of the allotment to a distance of three feet, in the case of a dwelling of one or two storeys, or to a distance of five feet, in the case of a dwelling of more than two storeys.

37.—Kitchen, Laundry, and Bathroom Fittings.

Every dwelling-house shall be provided with a completely enclosed bathroom, or combined bathroom and laundry, and with wash-tubs and copper, and other means of washing clothes, and the water laid thereto. The floor surfaces of bathrooms on any floor, and of laundries when above the ground floor, shall be of impervious material properly graded and drained. The wash-tubs, copper, and bath shall not be placed in the kitchen.

One bathroom in each dwelling-house shall have at least 30 square feet of floor area; and a combined bathroom and laundry shall have at least 56 square feet of floor area: Provided that the Board may in any case where it considers that a bathroom or laundry could be dispensed with, exempt any building from the above provisions, but such exemption shall be given by resolution of the Board.

38.—Enforcement Inspection: Cutting into Building.

The Board may order the opening, or cutting into, or pulling down of any work where the Board has reason to believe or suspect that anything has been done in contravention of the Act or of any By-law, and in the event of the work being found to have been done in contravention of the Act or of the By-laws, the person doing the work shall be required to comply with the Act or By-laws, and shall bear the full cost of such pulling down, opening, or cutting into and of compliance with the Act or the By-laws.

In the event of the work being found to have been done in accordance with the requirements of the Act and the By-laws, the cost of such pulling down, opening or cutting into, as well as the cost of reinstatement, shall be borne by the Board.

The Surveyor or his representative shall have power to enter at any time upon any building in the course of erection for the purpose of inspecting the said building and may require the production of the approved plans thereof, which are to be available on the building during the ordinary working hours whilst the building is in course of construction.

39.—Inspection before Occupation.

Before permitting any person to occupy or use any uncompleted building, and forthwith upon completion of any unoccupied building, the person by or in consequence of whose order the building is being erected shall give notice to the Board.

Forthwith upon receipt of notice as aforesaid the Board shall instruct the proper servant to make an inspection, and such servant shall inspect and report to the Board whether or not the building has been erected in accordance with this By-law and without material deviation from the approved plans and specifications but this shall not be read to permit any alteration whatever in the position of the building on the site.

Such report shall not be deemed to be evidence (in the event of any prosecution hereunder) that this By-law has been complied with.

40.—Penalties.

Any person who erects a building in contravention of this By-law, or any person who neglects to comply with any provision set forth therein shall be liable to a penalty not exceeding Ten pounds, and also a daily penalty of One pound per day for any continuance of the offence.

Made and passed by the Swan Road Board on the 5th day of December, 1929.

Chairman.

Clerk of the Council,

THE METROPOLITAN WATER SUPPLY, SEWERAGE AND DRAINAGE ACT, 1909.—(43/1909.)

Notice of Sale.

M.W.S. 187/29.

WHEREAS the Minister for Water Supply, Sewerage, and Drainage has certified to me that, under the provisions of "The Metropolitan Water Supply, Sewerage, and Drainage Act, 1909," the several sums set forth in the Schedule hereunder are now due and unpaid by the persons whose names are set opposite the said sums as the registered proprietors of the pieces of land situated and described in the Certificate of Title containing the measurements, more or less, all as set forth in the Schedule, being Arrears of Water Rates and interest due to such Minister in respect to such lands: and whereas such Minister has required me, after the expiration of three months from the date hereof, to issue my Warrants of Execution against such lands, unless the moneys mentioned in such Schedule are sooner paid: this is to give notice that, in pursuance of such certificate, I shall issue my Warrants of Execution accordingly at the expiration of three months from the date hereof, unless the abovementioned sums and all Water Rates accrued due on the land from the Third day of December, 1929, and all expenses incurred, are sooner paid.

Dated at Perth, this 10th day of February, 1930.

GOSNELLS ROAD BOARD.

By-laws for the Management and the Use of the Maddington Centenary Hall, Canning Vale Hall, and any other Building under the control of the Board.

P.W. 1914/25.

1. Interpretation Clause.—In the construction of these By-laws:—

(a) The word "Board" shall mean the Gosnells Road Board;

(b) The word "Building" shall mean and include any hall, room, or corridor, or stairway, or annexe of any such hall or room under the control of the Board.

2. Applications for the hire of any building or furniture shall be made in writing not less than 24 hours before the time that such building or furniture is required, and shall state the purpose for which the building or furniture is required.

Applications for the hiring of the Maddington Centenary Hall shall be made to the Secretary of the Board, Maddington, and for the hire of the Canning Vale Hall, to the Secretary of the Canning Vale Hall, Cannington.

3. The name and placed of abode of the actual and responsible person or persons hiring any building or furniture shall be given in the application for the use of such building or furniture.

4. The rent of the building or furniture or crockeryware shall be paid with each application, and shall be as set out, on attached Schedules, as applied to each individual Building.

The Hirer of any building under the attached Schedules shall not be entitled to the use of the Bio Room.

5. The hours for which any building or furniture may be hired shall be:—

(a) Day: 9 o'clock a.m. to 7 o'clock p.m.

(b) Evening: 7 o'clock p.m. to 12 o'clock p.m.

(c) Extension of time may be granted upon payment of prescribed fees.

6. The Board may at any time demand that the hirer shall, prior to the term of engagement, deposit an amount estimated to cover any damage that might occur during the term of such engagement.

7. The Board reserves the right to refuse to let any building or furniture to any applicant for the hiring of the same without assigning any reason for such refusal.

8. The Board may at any time cancel any agreement made for the hiring of any building or furniture.

9. In the event of two or more applications being made for the hire of any building or furniture for the same date and hour, the Board may, without considering priority of application, determine to which applicant the hire of such building or furniture shall be granted.

10. The hirer of any building shall comply with the provisions of the Health Act, Entertainment Tax Act, and any other Act in force for the time being applicable to such hirings and use of any building. If in the opinion of the Board all the necessary actions have not been taken to comply with the provisions of the Acts above-mentioned, or any other Acts in force, the Board may at any time prior to or during the term of engagement forbid and prevent the use of such building.

The hirer must accept full responsibility in the event of any dispute arising in connection with the compliance of the provisions necessary under this By-law.

11. In the event of the use of any building being forbidden or prevented under the last preceding by-law, the hirer shall forfeit the full amount payable for the hire of such building as if the hire had been duly fulfilled, and the Board shall not be responsible to the hirer for any loss or damage incurred by the hirer.

12. No spirituous liquors, wine, ale, beer, porter, cider or perry shall be brought into or consumed in any building during the term of engagement, except when permitted by the Board in writing.

13. No person shall smoke any tobacco, cigar, cigarette, or objectionable substance, nor strike or otherwise ignite any light in any building during any ball or public entertainment or at any gathering of persons in the said building, whether such persons have been admitted by the payment of money or otherwise, except at a banquet or smoke social where those present comprise men only.

14. No person shall, in any part of any building:—

(a) enter or be allowed to enter whilst intoxicated;

(b) use profane or improper language;

(c) be guilty of any misbehaviour whatsoever;

(d) damage, mark, or deface any wall or other part of the building: any person who does,

permits, or suffers any such damage, shall be liable to pay the cost of all such damage in addition to any penalty imposed by these by-laws;

(e) stand, loiter, or cause any obstruction whatsoever in the entrance halls, exits, or passageways of any buildings. Any person so doing shall immediately disperse on being requested so to do by the Secretary or other person duly authorised by the Board, or Police Constable, whether in uniform or otherwise.

15. No offensive impersonations or representations of living persons, or anything calculated to produce a disturbance, riot, or breach of the peace, shall be permitted in any building.

16. The hirer of any building shall be responsible for—

(a) maintaining good order and the due observance of these By-laws by persons in, upon, or about this building;

(b) any damage done to the building, fixtures, fittings, furniture, or crockeryware, or other part of the property.

17. The Secretary of the Board, or other person duly authorised by the Board, or Police Constable, shall be permitted to have free ingress to the building or any part thereof, and every facility shall be given them for enforcing these By-laws.

18. Every person who does, permits, or suffers any act, matter, or thing contrary to any of these By-laws, or commits, or permits any breach or neglect hereof, shall be deemed guilty of an offence against these By-laws, and shall be liable to a penalty not exceeding £20 for every such offence.
