1.—Applications, Plans and Notices.

Before the erection of a building is commenced two copies of the plans and specifications, together with the cost of such buildings, and an application in writing for approval thereof, shall be submitted to the Board.

Provided that the Board may if it sees fit dispense with the necessity for the submission of plans and specifications, and reduce or dispense with the payment of a fee with any application for approval to make minor alterations in an existing building, or to erect a building to be used exclusively for the purpose of a greenhouse, conservatory, summer-house, fuel shed, tool house, cycle shed, aviary, verandah or the like:

When giving approval the Board may impose a condition that forty-eight hours' notice shall be given prior to the covering of any or all of the following works in order that they may be inspected; that is to say, trenches before foundations are laid; foundations before trenches are filled in, and drains before they are covered in.

2.—Fees and Permits.

6.—Access to Rear.

Where there is no public and convenient access to the rear of the site of any building for the removal of nightsoil, the building shall be so designed as to leave outside the building a way of access at least four feet wide from a public road to the privy closet, and for the removal of garbage and refuse.

7.—Outbuildings.

In the case of an application to erect, as appurtenant to any building any outbuilding from the use of which unpleasant noises, unpleasant odours, or unusual risk of fire may reasonably be expected to arise, the Board may determine in what position upon the allotment such outbuilding may be erected.

8.—Tents; Canvas Buildings.

The Board may grant, subject to conditions, or refuse permission to erect a structure of calico, canvas, or other textile material, and, if any such structure is erected without the Board's permission, may order its demolition.

Hearths of stone, brick, cement, or iron of approved dimensions shall be placed in front of all fireplaces.

10.—Testing Materials.

The Board may test any building materials and prohibit the use of such materials as are proved unfitted for the purpose for which they were intended to be used.

11.—Timber Construction.

All timbers used in any buildings shall be of good, sound material, free from rot, free from large and loose knots, and free from shakes, and free from any imperfections, whereby the strength of the timber may be impaired.

The following conditions shall apply as to spacings and scantlings of timber:—

- (a) Stumps shall not be less than four inches by four inches jarrah or other approved timber, space five feet centre to centre. Stumps shall be tarred and sunk at least half their length in the ground; provided that no stumps shall be less than one and a half feet in the ground. Tarring is to extend for six inches above the ground surface.
- (b) Studs and ceiling joists shall not be less than three inches by two inches spaced not more than two feet apart, centre to centre, properly secured and braced. Where studs of three inches by two inches are used the angle or corner studs shall be of three inches by three inches. 12.—Footings.

Every person who shall erect a building of brick, stone, or the like shall construct every wall of such building, unless built upon a hard rock foundation, to rest upon proper footings, or upon a sufficient beam.

He shall cause the projection of the bottom of the footings on each side of such wall to be at least equal to one half the thickness of the wall at its base, unless an adjoining wall interferes, or unless the wall is upon the boundary of the land, in which case the projection may be omitted on the side of the boundary or where the wall adjoins.

He shall also cause the diminution of the footings to be in regular offsets, unless the footings be of concrete. The height from the bottom of such footings to the base of the wall shall be at least equal to two-thirds of the thickness of the wall at its base; provided that, when the footings are of reinforced concrete, the Board may permit the height to be less, and provided that it shall not in any case be less than twelve inches.

Vermis plates shall be provided to all walls other than brick, stone, or concrete.

13.—Party Walls.

Two, but not more, residences may be erected together in one block; provided that they shall be separated from each other by a wall of concrete or of brick or stone, at least eight and a half inches in thickness, projecting, in the case of wooden houses, at least one inch through the woodwork front and back, and in all cases projecting one foot six inches at least through the roof covering or gutter adjoining the same, whether belonging to the same owner or not. Each building or dwelling-house in a block shall be subject to the provisions of this By-law applicable to its class, save that the site or curtilage of each of such building shall have a superficial area of at least 4,000 square feet and a frontage of at least 33 lineal feet to a street or road.

14.—External Walls, Structure.

Every person who shall erect a building shall cause the external walls thereof to be constructed of brick, stone, concrete, timber, or other material approved by the Board.

If built of brick, stone, concrete, or the like, the external walls shall, except where herein provided to the contrary, be not less than nine inches in thickness; provided that the walls of sheds, laundries, outhouses, and the like not exceeding ten feet in height may, if the Board so permit, be four and a half inches in thickness.

Cavity walls may be built, provided the two sections are securely tied together by a sufficient number of wire ties or other effective method, and, when used, the combined thickness of the inner and outer parts shall be deemed to be the thickness of the wall.

Bottoms of all cavities shall be carefully raked out before the completion of the building, and all ties kept free from mortar droppings.

Where cavity walls are used, weepholes shall be left at foot of cavity not more than six feet apart, and over all damp-proof courses inserted to protect walls, weepholes shall be left not more than three feet apart.

Notwithstanding anything to the contrary in this clause the Board may permit the erection of dwellings not more than two storeys in height of concrete with walls of less than the prescribed thickness, if satisfied that such proposed dwellings will be hygienic and structurally sound.

15.—Rooms (size)—Cubic Space.

Every person who shall erect a building shall provide that—

- (a) the areas of the floors of all the habitable rooms in such building shall, when taken together, average not less than 100 square feet per habitable room;

17.—Other Rooms.

Every habitable room which is not a room wholly or partly in the roof of a building shall be not less than nine feet in height; provided that bays, inglenooks, and recesses for furniture may be added to such rooms with ceilings of less height than nine feet, but the ceilings of such bays and inglenooks shall not be less than six feet eight inches in height.

18.—Rooms for Places of Assembly.

A building in which there is a room designed, intended, or adapted to be used for the assembling of persons for any purpose, such room being situated upon the first or any higher floor above the ground floor,

and having a floor area of 450 or more superficial feet, shall be designed and constructed in compliance with the following provisions, in addition to the general provisions in this part:—

If the room be on the first floor, it shall be provided with at least two exits. If the room be on the second or any higher floor above the ground floor, it shall be provided with at least two exits, and there shall also be provided two staircases leading from the ground floor to the floor in which the room is situated, or one such staircase and a fire escape.

Such exits and staircases and the passages connecting them shall be of a total width calculated in the proportion of 20 inches for every 600 superficial feet of floor area, or fraction thereof, in such room; but no passage, stair, or exit shall be less than three feet six inches in width, nor more than ten feet in width.

Such stairs shall be uniform throughout with risers, not more than seven inches high, and treads not less than ten inches wide, exclusive of nosings, if any. Each flight of stairs shall contain not less than three and not more than fifteen risers. There shall be hand rails on each side securely fixed, and staircases over six feet in width shall have a centre hand rail.

The stairs and landing shall be of such strength as to be capable of carrying with absolute safety the largest number of people who may reasonably be expected to use them at one time.

All doors used as exit doors from any such room shall, except where otherwise approved, be hung in two folds, fitted with "panic" bolts and to be made to open outwards towards the thoroughfare or way.

All doors between such rooms and the open air shall be hung so as not to obstruct, when open, any gangway, passage, staircase or landing.

A door shall not open immediately upon a flight of steps, but a landing of at least equal depth to the width of the door shall be provided between such steps and such doorway.

19.—Lighting and Ventilation: under Floors.

For the purpose of ventilation, every building shall be so erected that there shall be between the underside of every joist upon which the lowest floor of such building is laid and the ground surface or upper surface of the asphalt or concrete with which the ground or site of the building may be covered, a clear space of six inches at least in every part, and such space shall be thoroughly ventilated and cross-ventilated by means of suitable and sufficient air-bricks or other effectual method; provided that, where the lowest floor is so constructed (by filling with concrete, asphalt or other approved material) as not to permit the harbouring of rats, this provision shall not apply.

20.—Rooms: Air-bricks, Louvres, etc.

Every room of a building shall be so constructed that for every 1,000 cubic feet or part thereof of air space in the room there shall be 24 square inches at the least of unobstructed ventilation to the outer air by means of air-bricks situated at or near the level of the ceiling, or any other efficient means.

21.—Rooms: Windows.

Every habitable room or room or alcove in which food is intended or likely to be stored or prepared, and every bathroom, enclosed laundry, and privy closet shall have at least one vertical window opening directly to the outside air. One half at least of such window shall be constructed to open to its full extent, and so that the opening may extend to the top of the window; provided that, in a pantry, any other system of ventilation may be substituted for windows if the Board be satisfied that such system is equally efficient.

22.—Bedrooms: Additional Ventilation.

In every bedroom or room intended or adapted to be used for sleeping and having only one window there shall be provided cross ventilation by means of at least 24 square inches of unobstructed opening, in some wall of the room other than that in which the window is situated; such opening may be by an additional window, fireplace, fanlight, air-brick, or any suitable means.

23.—Height of Windows.

The top of a window of an enclosed laundry, or of a kitchen or alcove or room in which food is intended or likely to be stored or prepared, shall not be less than six feet eight inches from the floor.

24.—Size of Windows.

The window or windows of any room shall have a superficial area, clear of the sash frame, not less than one-tenth of the floor area of the room, or, if the following size be greater than one-tenth of the floor area, not less than ten square feet for the windows of a kitchen or alcove or room in which food is intended or likely to be prepared; not less than six square feet for the windows of any enclosed laundry; not less than three and a half square feet for the windows of a bathroom, and not less than two square feet for the windows of a privy closet, and not less than one and a half square feet for any other room.

25.—Laundries and Kitchens.

A dwelling of any kind shall not be erected with the kitchen and laundry combined in one room.

26.—Windows.

Any window the top of which is more than twelve feet above either the ground or any external flat surface or slightly sloping roof sufficient for safety shall be so constructed that it can be cleaned from the interior of the building.

27.—Drainage: Levels.

Every person who shall erect a building shall construct the lower storey of such building at such a level that, in the opinion of the Board, it may be practicable to construct a drain sufficient for the effectual drainage of such building.

No person shall build or erect, or cause or permit to be built or erected, any building, erection, tent, or addition to any building, erection, tent, on any land unless and until such building, erection, tent, or addition, and the site and curtilage thereof can be properly drained, and the Board may refuse permission to build and erect any building, erection, tent, or addition, unless and until it is satisfied that the proposed building, erection, tent, or addition and the site and curtilage thereof can be properly drained.

No water is to be discharged on the surface of any footpath.

28.—Miscellaneous.

The Board may permit the enclosure and the use of any public place in connection with the building, or taking down of a building, or the alteration or the repair of a building.

29.—Skylights.

The Board may order the alteration or the repair or both of any skylight in any building, if such skylight be, in the opinion of the Board, in such a condition as to be detrimental to health or dangerous.

30.—Existing Buildings.

If in the opinion of the Board any building has been allowed to fall into an unsafe or insanitary condition, either by faulty construction or any other cause, the Board may give notice in writing to the owner or occupier to repair such building, and, in the event of no action being taken within seven days by the said owner or occupier to remedy any defect complained of in the said notice, the said owner or occupier shall be liable to a fine, as hereinafter provided, until such time as the building shall be placed in a safe and sanitary condition, and the owner or occupier will be liable for all charges incurred in doing the necessary works, and, moreover, if in the opinion of the Board any building does not warrant the expense of repairing, the owner, after receiving notice, shall remove the building within one month, and, failing this, he will be liable to a fine, as hereinafter mentioned, to remove the building after receiving the notice. The Board may remove same and charge the owners with the cost of so doing, and recover the same in any Court of competent jurisdiction and/or sell the material to cover the cost of taking down.

31.—Removal of Buildings.

No building or erection shall be removed into and erected or re-erected in the Road District, or removed from one part of the district to and erected or re-erected in another part thereof, unless the owner or person carrying out removal first obtain written permission from the Board to do so. Before such permission shall be granted, not less than seven clear days' notice in writing shall be given to the Board or the surveyor of the desire to remove and erect or re-erect such building or erection.

Such notice shall contain or be accompanied by the following:—

- (a) Particulars of the situation of building which it is proposed to remove;
- (b) Particulars of the situation of and plan of the land upon which it is proposed to erect or re-erect or place such building, showing proposed position thereon, and a tracing copy of such plan to be retained by the Board;
- (c) A plan giving the dimensions of the building and any proposed alterations or additions thereto, and a tracing copy of such to be retained by the Board;
- (d) A specification giving particulars of the construction of the existing building and of the alterations and additions, if any, which it is intended to make when the building is erected or re-erected;
- (e) Evidence satisfactory to the Board that such house has not been condemned as dilapidated, insanitary, or unfit for human habitation, and a certificate from the Health Officer of the Road District from which the building is proposed to be removed that within a reasonable time prior to date of removal no case of disease of an infectious or contagious nature has occurred therein.
- (f) Such further particulars in writing regarding the same as shall be sufficient to enable the Board or its surveyor to determine if all the provisions of any Act of Parliament, By-law, or regulation applicable thereto are or will be complied with.

No written permission shall be given unless such removed building when erected or re-erected shall comply with the provisions of this By-law as applicable to new buildings.

No building or erection that has been condemned as dilapidated, insanitary, or unfit for human habitation shall be removed into or re-erected within the Road District.

No building or erection in which any case of infectious or contagious disease has occurred during the preceding six months shall be removed into or re-erected within the Road District.

No removed building shall be occupied until the Surveyor shall have certified in writing that all the provisions of this By-law have been observed and complied with in respect of such building.

Nothing herein contained shall prevent the alteration of the position of any building within the boundaries of the land on which the same stands; provided that, in its altered position, it shall comply in all respects with this By-law, and that in progress of such removal the building be not taken on to any street, road or public place.

The Board may in special cases grant permission for the erection of a dwelling-house containing not less than two rooms.

32.—Proportions of Site which may be Covered.

A dwelling-house, together with its appurtenances, to be erected on an allotment, shall not occupy more than two-thirds of such allotment and the minimum of unoccupied area shall not be less than 500 superficial feet; provided that this shall not prevent the Board from granting approval to the erecting of a dwelling-house occupying more than two-thirds of an allotment, or with a minimum of unoccupied space of less than 500 superficial feet, in replacement of an existing dwelling-house which occupies more than two-thirds of that allotment, or has a minimum of unoccupied area of less than 500 superficial feet, as the case may be; provided also, that where situated on a site considered by the Board to be an established shopping locality, the Board may permit a building which is to be a shop and dwelling combined to occupy not more than four-fifths of the allotment, subject to the unbuilt upon area being not less than 500 square feet.

Provided also, that a garage erected at a low level the roof of which serves as a portion of the garden, yard, or court shall not be included as a building in calculating the proportion of the area of the allotment that may be occupied by a building.

After the adoption of this By-law all subdivisions or re-subdivisions of allotments must be such as to have a frontage to a street or road of not less than 50 lineal feet and a depth of not less than 140 lineal feet. Such subdivisions and re-subdivisions must be lodged with the Board for approval before commencing to build, and shall apply throughout the whole of the Cue Road District.

No shop shall be built on land having a frontage of less than 16½ feet to a street or road and an average depth of 100 feet. There shall be back access from right-of-way ten feet wide at least. For the purpose of this clause, the Board may agree to a subdivision with frontages less than 50 feet, but notwithstanding any such approval, no dwelling shall be erected upon the subdivided land except in accordance with these By-laws.

No land upon which any dwelling-house has been erected shall thereafter be reduced in area below the minimum area prescribed by this By-law; provided always, that notwithstanding anything hereinbefore provided to the contrary, the Board may on application in writing setting forth the grounds of the application, under special circumstances, and for special causes, and at a meeting of which due notice has been given to each member, declare that the provisions of this By-law either in whole or in part shall not apply to any particular area of land.

No building shall be erected in such a position that it shall lie between another building or any part thereof and street unless such other building has a direct and unobstructed access to some other street at least 16 feet wide.

33.—Space outside Windows on side Land.

If there be any side wall of a dwelling-house in which it is proposed to provide a window or a door opening, that wall shall be set back, throughout its whole length, from the side line of the allotment to a distance of three feet, in the case of a dwelling of one or two storeys, or to a distance of five feet, in the case of a dwelling of more than two storeys.

34.—Kitchen, Laundry and Bathroom Fittings.

Every dwelling-house shall be provided with a completely enclosed bathroom, or combined bathroom and laundry, and with washbaths and copper and other means of washing clothes, and the water laid thereto. The floor surfaces of bathrooms on any floor, and of laundries when above the ground floor, shall be of impervious material properly graded and drained. The washbaths, copper, and bath shall not be placed in the kitchen.

One bathroom in each dwelling shall have at least 30 square feet of floor area, and a combined bathroom and laundry shall have at least 56 square feet of floor area: Provided that the Board may in any case where it considers that a bathroom or laundry could be dispensed with, exempt any building from the above provisions, but such exemption shall be given by resolution of the Board.

35.—Enforcement Inspection: Cutting into Building.

The Board may order the opening or cutting into or pulling down of any work where the Board has reason to believe or suspect that anything has been done in contravention of the Act or of any By-law, and in the event of the work being found to have been done in contravention of the Act or of the By-laws, the person doing the work shall be required to comply with the Act or By-laws and shall bear the full cost of such pulling down, opening, or cutting into and of compliance with the Act or the By-laws.

In the event of the work being found to have been done in accordance with the requirements of the Act and the By-laws, the cost of such pulling down, opening or cutting into, as well as the cost of reinstatement, shall be borne by the Board.

The surveyor or his representative shall have power to enter at any time upon any building in the course of erection for the purpose of inspecting the said building and may require the production of the approved plans thereof, which are to be available on the building during ordinary working hours whilst the building is in course of construction.

36.—Inspection before Occupation.

Before permitting any person to occupy or use any uncompleted building, and forthwith upon completion of any unoccupied building, the person by or in consequence of whose order the building is being erected, shall give notice to the Board.

Forthwith upon receipt of notice as aforesaid the Board shall instruct the proper servant to make an inspection, and such servant shall inspect and report to the Board whether or not the building has been erected in accordance with this By-law and without material deviation from the approved plans and specifications, but this shall not be read to permit any alteration whatever in the position of the building on the site.

Such report shall not be deemed to be evidence, in the event of any prosecution hereunder, that this By-law has been complied with.

37.—Penalties.

Any person who erects a building in contravention of this By-law, or any person who neglects to comply with any provision set forth therein, shall be liable to a penalty not exceeding Ten pounds and also a daily penalty of One pound per day for any continuance of the offence.

6.—Living in, Boarding, etc.

(a) Where a worker is required to sleep on the employer's place of business, he shall be provided free of charge with reasonable accommodation.

Time spent by such worker in sleep on the employer's place of business shall not be regarded as time of duty to be paid for. He shall, if "called out," attend to the requirements of any late customer without any extra pay: Provided that, for all "calls out" in excess of five (5) in any one week, ten (10) minutes for each call shall be allowed and paid for at the rate of time and a half.

8.—Overtime.

Except as provided in Clause 7 (e), all work performed beyond nine (9) hours on any one day, or beyond forty-eight (48) hours in any one week, shall be paid for at the rate of time and a quarter for the first two hours and time and a half thereafter.

9.—Roster.

A roster of the working hours shall be exhibited in each establishment, in such a place as it may be conveniently and readily seen by each worker concerned. Such roster shall denote the hours to be worked by each worker, and shall be open for inspection on the premises of the employer by a duly accredited representative of the Union, at any reasonable time during working hours. Such roster shall be drawn up in such a manner as to show the hours of each worker for one day in advance, and may only be altered on account of the sickness or absence of a worker, or on account of any contingency that the employer could not reasonably foresee.

10.—Holidays.

(a) All workers shall be given two (2) weeks' leave of absence on full pay, after the expiration of each twelve (12) months' service. Such leave shall be given to and taken by the worker within three (3) months of becoming due. Where the engagement of any worker to which this subclause applies is terminated after one (1) month's continuous service, or after any period of continuous service from the date on which the previous annual holidays became due, he shall be paid, in lieu of holidays, in proportion to the length of his service.

(b) Alternatively, at the option of the employer, the following days, or the days observed in lieu, may be granted as paid holidays, namely, New Year's Day, Good Friday, Easter Monday, Labour Day, Christmas Day, and Boxing Day, and, if such days are granted, they shall be deducted from the two weeks' annual leave above referred to.

11.—Time and Wages Book.

Each employer shall provide a time and wages book to be kept in a place where it is easily accessible to both the employer and the worker. Such book shall show the name of the worker, his occupation and age, if under 21 years of age, the time he starts and finishes each period of work each day, the number of hours worked by and the wages and overtime paid to each worker, and the worker's signature for same.

The employer and the worker shall be severally responsible for the proper posting of such book daily. Such book shall be open for inspection by the secretary-treasurer or any other person authorised by him between 9 a.m. and 5 p.m., Monday to Friday, inclusive; and 9 a.m. to 12 noon on Saturday: Provided that an employer may, at his option, in lieu of a time book, provide a mechanical clock for the purpose of recording the start

ing and finishing times of workers, in which case a record of the number of hours worked each day by each worker and the wages and overtime paid to such worker shall be entered on a card or check (used in connection with such clock), which shall be signed by the worker on receipt of wages each week.

The employer and the worker shall be severally responsible for the correct keeping of such card or check, which shall be open for inspection in the same manner as the time and wages book before-mentioned.

12.—General.

(d) All wages shall be paid at least weekly, and no employer shall hold more than two (2) days' wages in hand.

(e) Three (3) junior workers may be employed before an adult is employed; thereafter two (2) additional junior workers may be employed to each adult worker employed under this Award.

(f) Notices:—The secretary-treasurer of the Union may post notices relating to Union business at the place where the copy of the Award is posted.

(g) The contract of service shall be on a weekly basis: provided that one day's notice of the termination of service may be given on either side. Such day's notice cannot be continued from day to day.

(h) A worker other than a casual worker shall be entitled to payment for non-attendance, on the ground of personal ill-health, for one half day for each completed month of service: Provided that payment for absence through such ill-health shall be limited to six days in each calendar year. Payment hereunder may be adjusted at the end of each calendar year, or at the time the worker leaves the service of the employer, in the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred. This clause shall not apply where the worker is entitled to compensation under the Workers' Compensation Act.

(i) Time allowed for meals shall be mutually arranged between the employer and the worker: Provided that no deduction from the daily hours of work shall be made for the time occupied by any worker in having a meal, if such meal is partaken on the employer's premises.

13.—Junior Worker's Certificate.

Junior workers shall furnish the employer with a certificate, showing the following particulars:—

- (1) Name in full
- (2) Age and date of birth.

(a) The certificate shall be signed by the worker.

(b) No worker shall have any claim upon the employer for additional wages, in the event of his age being wrongly stated on this certificate: Provided that this subclause shall operate only for the first three (3) months from the date of the worker's first engagement, thereby enabling the employer, if he so desires, to obtain proof of the junior worker's age.

14.—Under-rate Workers.

Any worker who by reason of old age or infirmity is unable to earn the minimum adult wage prescribed by this Award may be employed at such lesser wage (if any) as may be agreed upon in writing between the worker and the secretary of the applicant Union. If within twenty-four hours after the worker has notified the secretary of his desire to work at a lesser wage than the said minimum the secretary and the worker do not agree as aforesaid, then the worker may apply to the most convenient Resident or Police Magistrate for a permit to work at such lesser wage. The worker shall give to the said secretary at least twenty-four hours' notice in writing of his intention to make such application to the Magistrate, and the secretary or his agent shall be entitled to attend before the Magistrate and, pending the decision thereon in either case, the worker shall be entitled to work and be employed by an employer at the proposed lesser rate. The Magistrate may grant such worker a permit to work for such wage, and for such period, not exceeding six calendar months, as he

thinks fit, and his decision in the matter shall be final. The permit shall entitle the worker to work at the wage therein mentioned for such period as may be therein stated, until such wage shall have again been settled by the Magistrate on the application of the said secretary.

15.—Board of Reference.

The Court may appoint, for the purpose of this Award, a Board of Reference.

The Board shall consist of a Chairman and two other representatives, one to be nominated by each of the parties.

There are assigned to the Board, in the event of no agreement being arrived at between the parties to this Award, the functions of:—

(a) Adjusting any matters of difference which may arise between the parties from time to time, except such as involve interpretations of the provisions of this Award; or any of them.

(b) Deciding any other matter that the Court may refer to the Board from time to time.

In witness whereof this Award has been signed by the President of the Court and the Seal of the Court has been hereto affixed this 23rd day of December, 1935.
