## 6.—Meetings and Proceedings.

1. Seven days' notice in writing shall be given by the Chairman or secretary of ordinary or regular meetings, and also of every meeting adjourned for a term exceeding six days.
2. Meetings of the Board shall be of two kinds—"ordinary" and "special." Ordinary meetings are the regular meetings, held in pursuance of these By-laws, for the transaction of the general business of the Board, including adjourned meetings, at which uncompleted business may be completed, together with other business considered necessary.
3. Special meetings are those called under Section 131 (2) of the Act, and shall include those called by the Chairman in response to a requisition signed by three members on his behalf; and the notices for such special meeting shall have such special business noti-

held thereon. No business shall be transacted at a special meeting other than that for which the special meeting was called; provided that any matter of emergency can be discussed, with the ruling of the Chairman and the consent of those present.

#### 7.—Ratepayers' Meetings.

The ratepayers' meeting shall consist of one called under Section 144 of the Act, and the Standing Orders shall, so far as the Act allows, apply to the proceedings, but the provisions of the Act shall be first dealt with. The Chairman, if present, shall preside at all meetings of ratepayers and of the Board, and, in his absence, or if after being present, he shall retire, one of the ratepayers chosen by the ratepayers shall preside.

#### 8.—Ordinary and Special Meetings.

1. Ordinary meetings of the Board shall be held once in each month, unless otherwise arranged by resolution carried to that effect at the preceding ordinary meeting of the Board.

2. A special meeting may, on the requisition of three members of the Board, be called at any time in the manner prescribed by the Act, but the Chairman may call a special meeting of the Board as often as he may think proper. No business shall be transacted at any ordinary or special meeting of the Board unless a quorum, as specified by the Act, shall be present.

3. A majority of members present may require the Board room to be cleared of strangers, and the Chairman shall immediately give directions to have the order executed.

4. At all meetings of the Board when there is not a quorum present, the Chairman, or in his absence, any member or the secretary may adjourn such meeting to another day, and notice of such adjourned meeting shall be given to each member.

#### 9.—Minutes of Meetings.

1. The Minute Book prescribed by the Act shall be kept, in which any item of business transacted by the Board at a meeting shall be entered by the secretary. Minutes of ordinary or special meetings shall be confirmed at the next ordinary meeting. No discussion shall take place upon the minutes of proceedings, except as to their accuracy, or for the rectification of a clerical error.

2. Provided that pasting or otherwise permanently affixing the minutes of the meetings of the Board to the leaves of a book shall be equivalent to entry therein, and the reading of the minutes may be dispensed with, when members have been supplied with copies thereof at least three days before the holding of such meeting.

#### 10.—Voting.

Each member (including the Chairman) shall have one vote, and all questions at each meeting shall be decided by a majority of the votes of the members present. In each case of an equality of votes on any question, such question shall pass in the negative. All motions and amendments shall be decided by a show of hands, unless a division is demanded, before the next business is proceeded with. No member shall vote or take part in the discussion of any matter before the Board in which he has directly or indirectly, by himself or his partner, any interest, or in which any person, of whom he is an employee, has any interest apart from any interest in common with the public, and any member who knowingly offends against Section 134 shall be liable to a penalty not exceeding fifty pounds for every such offence.

3. Questions of which due notice has been given by members or officers of the Board;
4. The Chairman shall have the right of directing attention at any meeting to any matter or subject within the jurisdiction or official cognisance of the Board, by a minute signed by himself, and such minute shall, when introduced, take precedence of all business before or to come before the Board, and the adoption thereof may be put by him from the Chair as a motion, without being seconded, but he shall confine himself to the question contained therein;

5. Presentation of petitions or memorials, and consideration thereof;
6. Reading of correspondence (received and despatched), and taking action as may be deemed expedient in regard thereto;
7. Consideration of tenders and ratification of contracts;

Every petition or memorial shall be respectful and temperate in its language, and shall be presented to the Board by a member only, and any member presenting a petition or memorial to the Board shall affix his name to the beginning thereof, and the number of signatures, and any member presenting a petition or memorial shall acquaint himself with the contents thereof and ascertain that it does not contain language disrespectful to the Board. The nature or prayer of every petition or memorial shall be stated to the Board by the member presenting the same.

#### 13.—Deputations.

In the event of a deputation wishing to meet the Board, an application shall be made in writing to an ordinary Board meeting, stating fully the purpose and business to be dealt with. No deputation shall be received until the ordinary meeting of the Board following the receipt of the application. The Board shall have power to decide whether the business stated is of sufficient importance to warrant the deputation being received. A deputation shall consist of one or more ratepayers, and shall be introduced by a member of the Board.

#### 14.—Tenders.

Tenders for work shall be opened and dealt with when the subject-matter of the tenders comes on to be considered at the meeting of the Board, or by a Committee appointed for the purpose. The Board may require a deposit to accompany each tender, or two satisfactory securities.

All correspondence with the Board shall be addressed to the secretary and submitted to the Board. No letter addressed to the Board shall be presented by a member.

#### 16.—Consideration of Reports.

1. If in a report of a committee distinct recommendations are made, the decision of the Board may be taken separately on each recommendation.

3. The recommendations of any Committee, when adopted by the Board, shall be resolutions of the Board.

#### 17.—Precedence of Chairman.

When the Chairman rises in his place during the progress of a debate, any member then speaking or offering to speak, shall immediately resume his seat, and every member present shall preserve strict silence so that the Chairman shall be heard without interruption, but the member who was speaking may resume when the Chairman takes his seat.

#### 18.—Notice of Motion.

In the absence of a member who has placed a notice of motion on the business paper for any meeting, any other member may at such meeting move the same, or such motion may be deferred until the next ordinary meeting of the Board.

#### 19.—Motions to be Seconded.

No motion shall be debated unless or until it has been seconded.

## 22.—Motions and Amendments to be in Writing.

No motion or amendment shall be debated unless or until it has been reduced to writing, if the Chairman so directs.

## 23.—Further Amendments.

If an amendment has been carried, the question as amended thereby shall become itself the question before the Board, whereupon any further amendment upon such question may be moved.

## 24.—Subsequent Amendments.

If an amendment, whether upon any original question or upon any question amended as aforesaid, has been negatived, then a further amendment may be moved to the question to which such first-mentioned amendment was moved, and so on: provided that not more than one question and one proposed amendment thereof shall be before the Board at any one time.

## 25.—Putting Questions.

In submitting a motion or amendment, the Chairman shall put the question first in the affirmative and then in the negative.

## 26.—Motion for Adjournment.

1. No discussion shall be permitted upon any motion for adjournment of the Board. If, upon the question being put on any such motion, the same is negatived, the subject then under consideration or next on the business paper shall be discussed, and it shall not be competent for any member to again move a motion for adjournment, until half an hour has elapsed from the time of moving the one that has been negatived.

2. On resuming any discussion which has been adjourned, the mover of the adjournment shall be entitled, if he has not already spoken on the subject under discussion, to speak first.

## 27.—Notice of Question to be Given.

1. Sufficient notice of every question shall be given to the Chairman or member expected to reply thereto, to permit of consideration of such reply, and, if necessary, reference to other persons or documents.

2. Every such question shall be put categorically and without argument.

## 28.—Mode of Address.

Members shall, on all occasions when at a meeting, address and speak to each other by their official designation, as Chairman or secretary, as the case may be, and, with the exception of the Chairman, shall rise in their place and stand when speaking, except when prevented from doing so by bodily infirmity.

## 29.—Speaker not to be Interrupted.

No member shall be interrupted while speaking, except for the purpose of calling him to order, as hereinafter provided, or in pursuance of these By-laws.

## 30.—Limitation as to Number of Speeches.

The mover of an original motion shall have the right of general reply to all observations which have been made in reference to such motion and to any amendments thereon, as well as the right to speak on every such amendment. Every member other than the mover of an original motion shall have the right to speak once on such motion and once upon every amendment moved thereon. No member shall, without the consent of the Board, speak more than once upon any question or for longer than ten minutes at any one time, unless when misdirected or misunderstood, in which case he may be permitted to explain, without adding further observations than may be necessary for the purpose of such explanation. No further discussion shall be permitted after the mover of a motion has replied.

## 31.—All Members to Vote.

1. Upon a vote being taken all members present within the Board room, unless disqualified from voting, shall, and the Chairman may, upon the question being put, record their respective votes in the affirmative or negative, as each shall deem desirable.

2. Any member dissenting from a motion may request that his name be recorded in the minutes as opposed to the motion, and it shall be so recorded.

## 32.—Divisions.

Upon a division being called for, the question shall be first put in the affirmative and then in the negative, and the Chairman and all members present shall vote by show of hands, and the names and votes of the Chairman and members shall be recorded in the minutes. Any member of the Board present when a division is called for who does not in the manner indicated above vote on such motion, not being disabled by law from so voting, his vote shall be counted in the negative.

## 33.—Chairman may repeat Questions.

The Chairman shall be at liberty to repeat any questions as often as may be necessary, to enable him to form his opinion as to the result of the voting and declare the same.

## 34.—Acts of Disorder.

Any member who, at any meeting of the Board, commits a breach of any By-law, or who moves or attempts to move any motion or amendment embodying any matter beyond the legal jurisdiction of the Board, or who in any way raises or attempts to raise any question, or attempts to address the Board upon any subject which the Board have not legal right to entertain or discuss, or who uses any language which, according to the common usage of gentlemen, would be held disorderly, or makes use of any expression inconsistent with good order and decorum, or who says or does anything calculated to bring the Board into contempt, shall be guilty of an act of disorder.

## 35.—Ruling of Chairman.

1. The Chairman, when called upon to decide a point of order or practice, shall state the rule or precedent applicable to the case, without argument or comment.

If disorder arises at any meeting, the Chairman may adjourn the meeting for a period of fifteen minutes and quit the Chair; the Board, on resuming, shall, on question put from the Chair, decide without debate whether the business be proceeded with or not.

## 38.—Appointment of Committees.

The Board may at any time appoint one or more members as a committee to inquire into any matters and make a report and recommendation thereon, but no committee shall incur any financial liability, or in any way commit the Board to any responsibility whatever, without express and specific authority conferred by these By-laws or a resolution of the Board.

2. All accounts, bills and vouchers, except as hereinafter provided for, shall be submitted to the Finance Committee meeting and the ordinary Board meeting, and, after being certified as correct, shall be paid by cheque.

Provided that the Board may by resolution authorise the payment of wages, emergency accounts, and progress contract payments to be made by cheque between meetings, all such accounts to be placed before the Finance Committee at its next meeting, who shall review same, and, if satisfied with the necessity of the action taken, include same in their report.

"Wood or wooden buildings" means buildings of wood or having wooden frames.

"External wall" means an outer wall of a building, not being a party wall, even though adjoining a wall of another building.

"Partition wall" means a wall subdividing any room and not carrying any load other than its own dead weight.

"Board" means the Toodyay Road Board.

"Surveyor" means the person appointed by the Board for the time being as building surveyor or acting building surveyor for the Toodyay Road District.

2.—*Brick Area.*

Within that portion of Stirling terrace bounded on the north-west by the intersection of Harper road, and on the south-east by the intersection of Goomalling road, no building shall be erected unless the frontage thereof is built of brick, stone, concrete, or similar material of a permanent and non-inflammable nature.

3.—*Applications, Plans, and Notices.*

Before the erection of a building is commenced two copies of the plans and specifications, together with estimated cost of such building, and an application in writing for approval thereof, shall be submitted to the Board.

Provided that the Board may, if it see fit, dispense with the necessity for the submission of plans and specifications, and reduce or dispense with the payment of a fee with any application for approval to make minor alterations in an existing building, or to erect a building to be used exclusively for the purpose of a greenhouse, conservatory, summer-house, private boat-house, fuel shed, tool house, cycle shed, aviary, verandah or the like. Provided also, that any building (other than a

verandah or an aviary) used or intended to be used for the keeping of domestic animals shall be wholly detached from any dwelling house: Provided also, that where it is desired to make some minor alterations not materially affecting its stability, lighting, ventilation, or size of rooms, the application may in the first place be made without submitting plans and specifications, which shall, however, be submitted if the Board so require.

The application shall describe the building and show the purpose for which the building is to be used.

The plans shall consist of a general plan and elevations and a block plan. The block plan shall show the relation of the building to the boundaries of the site and to other building or structures thereon.

The specifications shall describe the construction and materials of which the building is to be built, and the method of drainage, sewerage and water supply, and state whether the materials will be new or secondhand, and, if secondhand materials are to be used, shall give particulars.

When giving approval, the Board may impose a condition that forty-eight hours' notice shall be given prior to the covering of any or all of the following works in order that they may be inspected, that is to say trenches, before foundations are laid, foundations before trenches are filled in, and drains before they are covered in.

4.—*Fees and Permits.*

No person shall commence any building, erection or structure, or any addition or alteration to any building, erection or structure without having first obtained from the Surveyor a written permit for the commencement of same, and without having first paid to the Board the fees in respect thereof set forth in these By-laws.

Each building, erection or structure must be completed within twelve months from the date of issue by the Board of the permit therefore.

The fees payable in respect of buildings, erections or structures shall be as follows:—

License for new buildings of wood, iron or asbestos—2s. 6d.

License for new building of brick, stone, or concrete—5s.

License for alterations or additions to existing buildings—2s. 6d.

5.—*General Provisions.*

Each building in a terrace of buildings or in a pair of semi-detached buildings shall be deemed to be a separate building for the purpose of this By-law.

Every building shall be provided with one or more proper manholes in the ceiling so as to give access for electrical and other fittings.

6.—*Site, Healthiness of.*

A person shall not, without the written permission of the Board, erect a building upon any site which shall have been filled with any material impregnated with faecal or animal or vegetable matter, or upon which any such matter may have been deposited, unless and until such matter shall have been properly removed by excavation or otherwise from such site and depressions filled in with clean soil.

Every person who shall erect a building shall cause the subsoil of the site of such building to be effectually drained wherever in the opinion of the Board the dampness of the site renders such a precaution necessary.

No person shall commence to build any structure without having first provided proper and sufficient sanitary accommodation to the satisfaction of the Board for all persons engaged or employed upon such structure.

Motor garages not exceeding three hundred square feet in floor area may be built in iron, brick, stone or concrete, or other non-inflammable material anywhere in the district, provided that the Board may require—

- that any such motor garage be fifty feet distant from the frontage of any road or street (except in special cases where the physical configuration of the ground precludes such distance being observed);
- that any such motor garage be five feet distant from the frontage of any other road or street;
- that any such motor garage be 10 feet distant from any building used as a dwelling-house on the same allotment or on any allotment adjoining;
- that the motor garage complies otherwise with all the conditions and limitations of this By-law in regard to buildings.

Fowl-houses of not more than two hundred square feet in area and not more than six feet in height may be erected at rear of any dwelling, provided that the nearest portion of such fowl-house is at least 30 feet from any building used as or intended for a dwelling, and at least four feet from the boundary of land not in the same occupation.

Fowl-houses of larger area may be erected if at a distance of at least 50 feet from any street and 40 feet from any dwelling-house and at least four feet from the boundary of land not in the same occupation: provided that the roof and walls are covered with galvanised iron or other fire-resisting material, approved by the Surveyor, and that the building shall not be more than seven feet high.

The Board may refuse or postpone approval to build upon a site which is unhealthy by reason of its liability to dampness, unless and until the site has been rendered dry, sound, and well drained to the satisfaction of the Board.

If the Board so direct in any particular case, the whole or part of the ground surface or site of a dwelling shall be covered with a layer of good cement concrete, or tarred metal, rammed solid, and at least four inches thick.

#### 7.—Position of Building Site.

No building which is intended to be used or which shall be used as a dwelling-house, and no addition to any such building shall be built, constructed, or erected within a distance of twenty feet measured horizontally from the building line of the street or road the building is intended to or shall front.

Except as hereinafter provided no building which is intended to be used, or which shall be used as a dwelling-house, and no addition to any building which is intended to be used, or which shall be used as a dwelling-house, shall be built, constructed, or erected—

- (a) If of wood, within a distance of four feet; if of brick, stone, concrete, or cement blocks, within a distance of three feet measured horizontally of any street, road, lane, or right-of-way at the side of such building or of any land not in the same possession or occupation.
- (b) Provided always, that any such building or addition may abut on the building line of any street, road, lane, or right-of-way at the side of such building, or be less than the prescribed distance therefrom, or from land not in the same possession or occupation, or from a building or erection with an external wall of wood, provided that the wall or walls which abut on or face with the prescribed distance such street, road, lane, or right-of-way or land or building or erection, as the case may be, shall be of concrete at least six inches in thickness, or of brick or stone at least 8½ inches in thickness, projecting in all cases at least one inch beyond the woodwork front and back and at least one foot six inches through the roof covering of gutter adjoining the same.

#### 8.—Access to Rear.

Where there is no public and convenient access to the rear of the site of any building for the removal of night-soil the building shall be so designed as to leave outside the building a way of access at least four feet wide from a public road to the privy closet, and for the removal of garbage and refuse.

#### 9.—Outbuildings.

In the case of an application to erect (as appurtenant to any building) any outbuilding from the use of which unpleasant noises, unpleasant odours, or unusual risk of fire may reasonably be expected to arise, the Board may determine in what position upon the allotment such outbuilding may be erected.

#### 10.—Materials.

The Board may define any portion of its district, and by resolution prohibit the erection within that portion, of buildings with external walls of materials other than brick, stone, concrete or cement blocks, or the like materials.

#### 11.—Tents—Canvas Buildings.

The Board may grant, subject to conditions, or refuse permission to erect a structure of calico, canvas, or other textile material, and if any such structure is erected without the Board's permission, may order its demolition.

#### 12.—Materials and Workmanship.

Materials which have been used in the construction of any cesspit, drain, or sewer, or which for any other reason are dangerous to health, shall not be used in the erection of any building.

Faulty or unsuitable materials shall not be used in any building.

Every part of a building shall be erected and finished off in a good and workmanlike manner.

Bricks used in any building shall be good, hard, and well burnt, and if old or secondhand shall be thoroughly cleaned and approved by the Board in writing before being so used.

All brick or stone chimneys shall be constructed of ample flue, to be well plastered or pargeted inside for the full height, and no timber of any description will be allowed to be built into the brickwork. The Board may give authority to erect iron chimneys, but in the erection they shall be laid on either stone or concrete base and free from all woodwork.

Hearths of stone, brick, cement, or iron of approved dimensions shall be placed in front of all fireplaces.

#### 13.—Testing Materials.

The Board may test any building materials, and prohibit the use of such materials as are proved unfitted for the purpose for which they were intended to be used.

#### 14.—Timber Construction.

All timbers used in any buildings shall be of good sound material, free from rot, from large and loose knots, from shakes, and from any imperfections whereby the strength of the timber may be impaired.

The following conditions shall apply as to the spacings and scantlings of timber:—

- (i) Stumps shall not be less than 4 in. x 4 in. jarrah or other approved timber, spaced 5 feet centre to centre, and fixed on 6 in. x 1½ in. sole-plates. Stumps shall be tarred and sunk at least half their length in the ground, provided that no stumps shall be less than 2 feet in the ground. Tarring is to extend for 6 in. above the ground surface.
- (ii) Studs and ceiling joists shall not be less than 4 in. x 2 in., spaced not more than 2 feet apart, centre to centre, properly secured and braced. Studs and ceiling joists of 3 in. x 2 in. may be used, provided they are spaced 18 in. apart, centre to centre, properly braced and secured. Where studs of 3 in. x 2 in. are used the angle or corner studs shall be of 3 in. x 3 in.; where 4 in. by 2 in. studs are used, the angle studs shall be of 4 in. x 4 in.
- (iii) Rafters shall not be less than 3 in. x 2 in., spaced not more than 3 feet, centre to centre, in the case of iron roofs, and 18 inches, centre to centre, in the case of slate, tile, or other similar roofs; 4 in. x 2 in. rafters may be used, but must be spaced at 2 feet centres for slates or tiles, and not more than 3 feet apart for any type of roof. All rafters must be securely braced with purlins and collar ties.
- (iv) Floor joists shall not be less than 4 in. x 2 in., spaced 18 in. apart, centre to centre.
- (v) Floor bearers shall not be less than 4 in. x 3 in., spaced not more than 5 feet apart.

In addition to the bearers required for this spacing, an additional bearer of 4 in. x 3 in. must be placed under each wall or partition.

No framing timber in any building shall be notched or checked out to receive bracing or otherwise so as to reduce its cross sectional area more than one-sixth.

#### 15.—Awnings and Verandahs.

The Board may require that any or all awnings or verandahs proposed to be erected over a public place shall be of the cantilever type. No verandah shall be enclosed for living or sleeping purposes without the Board's written consent.

#### 16.—Footings.

Every person who shall erect a building of brick, stone, or the like shall construct every wall of such building, unless built upon a hard rock formation, to rest upon proper footings or upon a sufficient beam.

He shall cause the projection of the bottom of the footings on each side of such wall to be at least equal to one-half the thickness of the wall at its base, unless

an adjoining wall interferes, or unless the wall is upon the boundary of the land, in which case the projection may be omitted on the side of the boundary, or where the wall adjoins.

He shall also cause the diminution of the footings to be in regular offsets, unless the footings be of concrete. The height from the bottom of such footings to the base of the wall shall be at least equal to two-thirds of the thickness of the wall at its base: Provided that when the footings are of reinforced concrete the Board may permit the height to be less: And, provided further, that it shall not in any case be less than 12 inches.

Footings to walls of brick in cement mortar (3 to 1) shall be the same width and height as those to walls of the same thickness not built in cement mortar.

Vermis plates shall be provided to all walls other than brick, stone, or concrete.

#### 17.—Dampcourse.

Every person who shall erect a building shall provide and insert damp-proof courses of lead, slate bedded in cement, or natural asphalt: Provided that the Board may permit the omission of damp-proof courses from closets, outbuildings, and the like structures.

Where material which is not slate, natural asphalt, or lead of a minimum weight of two pounds per square foot under walls not exceeding 40 feet in height, or three pounds per square foot under walls exceeding 40 feet in height, is desired to be used, the applicant shall submit to the Board evidence that the material to be used has been approved by the Board of Health, or, failing such evidence, that the material is a good and effective damp-proof course.

Damp-proof courses shall be inserted in walls to their full width and in such manner that there shall be no open spaces, cracks, or gaps in the damp-proof courses along the full length of the walls.

Damp-proof courses shall be inserted in walls in such positions and in such manner that—

- (a) moisture from the earth shall be prevented from reaching the lowest floor timbers or the walls above the underside of the lowest floor joists, or, where solid floors are laid, shall be prevented from reaching higher than 3½ inches above such floors;
- (b) where floors are below outside ground level, moisture shall be prevented from reaching inner face of outer walls;
- (c) where cavity walls are used, moisture penetrating outer portion of walls shall be prevented from reaching the floor timbers, or the inner portion of face of all walls above the underside of the lowest floor timbers, or, where solid floors are laid, shall be prevented from reaching higher than 3½ inches above such floors;
- (d) moisture penetrating the chimney, parapet, or other walls above roof shall be prevented from reaching in any part the inner walls or the inner portion of inner face of outside walls below the upper side of the ceiling joists in either case;
- (e) Moisture penetrating the outer portion of cavity walls shall be prevented from reaching the inner portion or inner face of such walls above or about windows, doors, and other frames or openings.

In cavity walls the cavity shall extend not less than 6½ inches below damp-proof course.

This clause shall apply to walls constructed of brick, stone, or concrete, and to walls of any material readily permeable by water.

#### 18.—External Walls—Structure.

Every person who shall erect a building shall cause the external walls thereof to be constructed of brick, stone, concrete, cement blocks, timber, or other material approved by the Board.

If built of brick, stone, concrete, cement blocks, or the like, the external walls shall, except where herein provided to the contrary, be not less than 9 inches in thickness: Provided that the walls of sheds, laundries, outhouses, and the like, not exceeding 10 feet in height, may, if the Board so permit, be of 4½ inches thickness.

Cavity walls may be built, provided the two sections are securely tied together by a sufficient number of wire ties or other effective method, and when used the combined thickness of the inner and outer parts shall be deemed to be the thickness of the wall.

Bottoms of all cavities shall be carefully raked out before the completion of the building, and all ties kept free from mortar droppings.

Where cavity walls are used weep-holes shall be left at foot of cavity not more than six feet apart, and over all damp-proof courses inserted to protect walls weep-holes shall be left not more than three feet apart.

Notwithstanding anything to the contrary in this clause, the Board may permit the erection of dwellings not more than one storey in height of concrete with walls of less than the prescribed thickness, if satisfied that such proposed dwellings will be hygienic and structurally sound.

All external walls of brick, stone, concrete or cement blocks shall be built with a true cavity at least two inches wide: Provided that, where such external walls are protected by a verandah not less than seven feet wide, they may be built solid without cavity.

#### 19.—Party Walls.

Two, but not more, residences may be erected together in one block, provided that they shall be separated from each other by a wall of concrete or of brick or stone at least eight and a half inches in thickness projecting, in the case of wooden houses, at least one inch through the woodwork front and back, and in all cases projecting one foot six inches at least through the roof covering or gutter adjoining the same, whether belonging to the same owner or not. Each building or dwelling-house in a block shall be subject to the provisions of this By-law applicable to its class, save that the site or curtilage of each of such buildings shall have a superficial area of at least four thousand square feet and a frontage of at least 33 lineal feet to a street or road.

#### 20.—Rooms (size)—Cubic Space.

Every person who shall erect a building shall provide that—

- (a) the areas of the floors of all the habitable rooms in such building shall, taken together, average not less than 100 square feet per habitable room;
- (b) a habitable room shall not in any case have a floor area of less than 80 square feet; and
- (c) a habitable room shall not, in any case, have a cubic space of less than 720 cubic feet: Provided that in each dwelling house and in each flat of a residential flat building there shall be at least one habitable room, the cubic space of which shall not be less than 1,296 cubic feet.
- (d) No main room in any building shall be less than 10 feet 6 inches in height from floor to ceiling.
- (e) All shops shall have a clear space of 12 feet 6 inches from floor to ceiling.

#### 21.—Height—Rooms in Roof.

Every habitable room which is wholly or partly in the roof of a building shall, in the case of an attic room above the ground floor, be for at least two-thirds of the area of the floor not less than nine feet in height, and shall not in any part be less than five feet in height and, in the case of any other room, shall be for at least three-fourths of the area of the floor not less than nine feet in height, and shall not in any part be less than seven feet four inches in height.

#### 22.—Other Rooms.

Every habitable room which is not a room wholly or partly in the roof of a building shall be not less than nine feet in height: Provided that bays, inglenooks, and recesses for furniture may be added to such rooms with ceilings of a less height than nine feet, but the ceilings of such bays and inglenooks shall not be less than six feet eight inches in height.

#### 23.—Lighting and Ventilation—Under Floors.

For the purpose of ventilation every building shall be so erected that there shall be, between the underside of every joist upon which the lowest floor of such building is laid and the ground surface or upper surface of the asphalt or concrete with which the ground or site of the building may be covered, a clear space of 12 inches at least in every part; and such space shall be thoroughly ventilated and cross-ventilated by means of suitable and sufficient air-bricks or other effectual method: Provided that where the lowest floor is so

constructed (by filling with concrete, asphalt, or other approved material) as not to permit the harbouring of rats, this provision shall not apply.

#### 24.—Rooms—Air-bricks, Louvres, etc.

Every room of a building shall be so constructed that for every 1,000 cubic feet or part thereof of air space in the room there shall be 24 square inches at the least of unobstructed ventilation to the outer air by means of air-bricks situated at or near the level of the ceiling or any other efficient means.

#### 25.—Rooms—Windows.

Every habitable room, or room or alcove, in which food is intended or likely to be stored or prepared, and every bathroom, enclosed laundry and privy closet under the main roof of the dwelling shall have at least one vertical window opening directly to the outside air. One-half at least of such window shall be constructed to open to its full extent, and so that the opening may extend to the top of the window: Provided that in a pantry any other system of ventilation may be substituted for windows if the Board be satisfied that such system is equally efficient.

#### 26.—Bedrooms—Additional Ventilation.

In every bedroom or room intended or adapted to be used for sleeping and having only one window, there shall be provided cross ventilation by means of at least 24 square inches of unobstructed opening in some wall of the room other than that in which the window is situated. Such opening may be by an additional window, fireplace, fanlight, air-brick, or any suitable means.

#### 27.—Height of Windows.

The top of a window of an enclosed laundry or of a kitchen, or alcove, or room in which food is intended or likely to be stored or prepared shall not be less than six feet eight inches from the floor.

#### 28.—Size of Windows.

The window or windows of any room shall have a superficial area (clear of the sash frame) not less than one-tenth of the floor area of the room, or (if the following size be greater than one-tenth of the floor area) not less than 10 square feet for the windows of a kitchen or alcove or room in which food is intended or likely to be prepared, not less than six square feet, for the windows of an enclosed laundry, not less than 3½ square feet for the windows of a bathroom, not less than two square feet for the windows of a privy-closet, and not less than 1½ square feet for any other room.

#### 29.—Laundries and Kitchens.

A dwelling of any kind shall not be erected with the kitchen and laundry combined in one room.

#### 30.—Windows.

Any window the top of which is more than 12 feet above either the ground or any external flat surface or slightly sloping roof sufficient for safety shall be so constructed that it can be cleaned from the interior of the building.

#### 31.—Drainage—Levels.

Every person who shall erect a building shall construct the lower storey of such building at such a level that, in the opinion of the Board, it may be practicable to construct a drain sufficient for the effectual drainage of such building.

No person shall build or erect or cause or permit to be built or erected any building, erection, tent, or addition to any building, erection or tent on any land unless and until such building, erection, tent, or addition and the site and curtilage thereof can be properly drained, and the Board may refuse permission to build and erect any building, erection, or tent, or addition, unless and until it is satisfied that the proposed building, erection, tent, or addition and the site and curtilage thereof can be properly drained. No water is to be discharged on to the surface of any footpath.

#### 32.—Miscellaneous.

The Board may permit the enclosure and use of any public place in connection with the building or taking down of a building, or the alteration or repair of a building.

#### 33.—Skylights.

The Board may order the alteration or repair or both of any skylights in any building if such skylight be, in the opinion of the Board, in such a condition as to be detrimental to health or dangerous.

#### 34.—Existing Buildings.

(a) If in the opinion of the Board any building has been allowed to fall into an unsafe or insanitary condition either by faulty construction or any other cause, the Board may give notice in writing to the owner or occupier to repair such building within a time specified in such notice.

(b) If in the opinion of the Board any building does not warrant the expense of repairing, the Board may serve notice upon the owner requiring him to remove such building within a specified time.

(c) Whenever any owner shall fail to comply with a notice served upon him under the two preceding clauses, within a time specified therein, he shall be liable to a penalty of not less than £2 nor more than £20, and the Board may carry out the terms of the notice and recover all expenses from the owner.

(d) Provided that the Board may sell or dispose of the material taken from a demolished or amended building, but the proceeds of sale shall be applied towards the expense of carrying out the terms of the notice—the surplus (if any) to be paid to the owner.

#### 35.—Removal of Buildings.

No building or erection shall be removed into and erected or re-erected in the Road District or removed from one part of the District to and erected or re-erected in another part thereof unless the owner or person carrying out the removal first obtains written permission from the Board to do so. Before such permission shall be granted not less than seven (7) clear days' notice in writing shall be given to the Board or Surveyor of the desire to remove and erect or re-erect such building or erection.

Such notice shall contain or be accompanied by the following:—

- (a) Particulars of the situation of the building which it is proposed to remove.
- (b) Particulars of the situation of and plan of the land upon which it is proposed to erect or re-erect or place such building, showing the proposed position thereon, and a tracing copy of such plan to be retained by the Board.
- (c) A plan giving the dimensions of the building and any proposed alterations or additions thereto and a tracing copy of such plan to be retained by the Board.
- (d) A specification giving particulars of the construction of the existing building and of the alterations and additions (if any) which it is intended to make when the building is erected or re-erected.
- (e) Evidence satisfactory to the Board that such house has not been condemned as dilapidated, insanitary, or unfit for human habitation, and a certificate from the Health Officer of the district from which the building is proposed to be removed, that within a reasonable time prior to date of removal no case of disease of an infectious or contagious nature has occurred therein.
- (f) Such further particulars in writing regarding the same as shall be sufficient to enable the Board or its surveyor to determine if all the provisions of any Act of Parliament, By-law, or Regulation applicable thereto are or will be complied with.

No written permission shall be given, unless such removed building when erected or re-erected shall comply with the provisions of this By-law as applicable to new buildings.

No building or erection that has been condemned as dilapidated, insanitary, or unfit for human habitation shall be removed into or re-erected within the Road District.

No building or erection in which any case of infectious or contagious disease has occurred during the preceding six months shall be removed into or re-erected within the Road District.

No removed building shall be occupied until the surveyor shall have certified in writing that all the provisions of this By-law have been observed and complied with in respect of such building.

Nothing herein contained shall prevent the alteration of the position of any building within the boundaries of the land on which the same stands: Provided that in its altered position it shall comply in all respects with this By-law, and that in the progress of such removal the building be not taken on to any street, road, or public place.

No dwelling shall consist of less than three main rooms of a total of not less than 300 square feet, and no building or rooms thereof shall be occupied for living purposes until at least three main rooms shall have been completed according to the plans and specifications submitted to and approved by the Board.

The Board may in special cases grant permission for the erection of a dwelling-house containing not less than two rooms.

#### 36.—Proportion of Site which may be covered.

A dwelling-house, together with its appurtenances to be erected on an allotment, shall not occupy more than two-thirds of such allotment, and the minimum of unoccupied area shall not be less than 500 superficial feet: Provided that this shall not prevent the Board from granting approval to the erection of a dwelling-house occupying more than two-thirds of an allotment, or with a minimum of unoccupied area of less than 500 superficial feet, in replacement of an existing dwelling-house which occupies more than two-thirds of that allotment, or has a minimum of unoccupied area of less than 500 superficial feet, as the case may be: Provided, also, that where situated on a site considered by the Board to be an established shopping locality, the Board may permit a building which is to be a shop and dwelling combined to occupy not more than four-fifths of the allotment, subject to the unbuilt upon area being not less than 500 square feet.

Provided also that a garage erected at a low level, the roof of which serves as a portion of the garden, yard, or court, shall not be included as a building in calculating the proportion of the area of the allotment that may be occupied by a building.

No building shall be erected in such a position that it shall lie between another building or any part thereof and the street unless such other building has a direct and unobstructed access to some other street at least 16 feet wide.

#### 37.—Space Outside Windows on Side Land.

If there be any side wall of a dwelling-house in which it is proposed to provide a window or door opening that wall shall be set back (throughout its whole length) from the sideline of the allotment to a distance of three feet, in the case of a dwelling of one or two storeys, or to a distance of five feet, in the case of a dwelling of more than two storeys.

#### 38.—Kitchen, Laundry, and Bathroom Fittings.

Every dwelling-house shall be provided with a completely enclosed bathroom, or combined bathroom and laundry, and with wash-tubs and copper, or other means of washing clothes, and the water laid thereto. The floor surfaces of bathrooms on any floor, and of laundries when above the ground floor, shall be of impervious material properly graded and drained. The wash-tubs, copper, and bath shall not be placed in the kitchen.

One bathroom in each dwelling-house shall have at least 30 square feet of floor area; and a combined bathroom and laundry shall have at least 56 square feet of floor area: Provided that the Board may in any case where it considers that a bathroom or laundry could be dispensed with, exempt any building from the above provisions, but such exemption shall be given by resolution of the Board.

#### 39.—Enforcement—Inspection—Cutting into Building.

The Board may order the opening, or cutting into, or pulling down of any work where the Board has reason to believe or suspect that anything has been done in contravention of the Act or of any By-law, and in the event of the work being found to have been done in contravention of the Act or of the By-law, the person doing the work shall be required to comply with the Act or the By-laws, and shall bear the full cost of such pulling down, opening, or cutting into and of compliance with the Act or the By-laws.

In the event of the work being found to have been done in accordance with the requirements of the Act and the By-laws, the cost of such pulling down, open-

ing, or cutting into, as well as the cost of reinstatement, shall be borne by the Board.

The Surveyor or his representative shall have power to enter at any time upon any building in course of erection for the purpose of inspecting the said building and may require the production of the approved plans thereof, which are to be available on the building during ordinary working hours whilst the building is in course of construction.

#### 40.—Inspection Before Occupation.

Before permitting any person to occupy or use any uncompleted building, and forthwith upon completion of any unoccupied building, the person by or in consequence of whose order the building is being erected shall give notice to the Board.

Forthwith upon receipt of notice as aforesaid the Board shall instruct the proper servant to make an inspection, and such servant shall inspect and report to the Board whether or not the building has been erected in accordance with this By-law and without material deviation from the approved plans and specifications, but this shall not be read to permit any alteration whatever in the position of the building on the site.

Such report shall not be deemed to be evidence (in the event of any prosecution hereunder) that this By-law has been complied with.

#### 41.—Penalties.

Where any person or persons by these By-laws, or any of these By-laws or any of them is required to do or perform any act, and such act is not done or remains undone or unperformed, it shall be lawful for the Board to perform same and charge the cost and expense against such person or persons, and the amount may be recovered summarily.

Every person who does, permits, or suffers any act, matter, or thing contrary to any of these By-laws, or commits or permits any breach or neglect thereof, shall be deemed guilty of an offence against these By-laws, and, where not otherwise provided, shall be deemed liable to a penalty not exceeding £20 for every such offence.

All penalties or other sums recovered under provisions of these By-laws shall, unless otherwise provided, be paid to the Board, and shall become the property of and form part of the ordinary income of the district, except so much as may be paid to any informer.

RECLASSIFICATION OF THE TEACHING STAFF OF THE EDUCATION DEPARTMENT.

Educ. 2315/35; Ex. Co. No. 2042.  
THIS Classification of Teachers has retrospective effect from the First day of July, 1936, and replaces the old salary scales as follows:—

The classification differs from that of officers under the Public Service Act in that it is almost entirely a classification of groups, not of individual officers.

There is a dual basis for the computation of the salaries of classified teachers in the Primary Schools—

- (1) The position held by the teacher.
- (2) The personal classification of the teacher, based upon examinations passed and practical efficiency in teaching.

The portion of salary allotted on the former basis is termed the "Position Quota." The portion allotted on the latter basis is termed the "Qualification Quota."

This classification represents an approximate increase of three per cent. per annum on the position quota, the classification quota, and on all allowances previously paid. Salaries shall be payable to the nearest £1.

Cost of Living Allowance.

The allowance shall be payable to teachers located in any area outside the South-West Land Division of the State, should the male basic wage for such area as declared by the State Arbitration Court be greater by at least £5 per annum than the male basic wage for the metropolitan area.

The allowance shall be determined as under:—

- (a) In the case of adult male teachers, the allowance shall be the difference (to the nearest £1) between the two rates of basic wage referred to in paragraph 1 above, but shall be subject to adjustment at the rate of £5 per annum for every variation of 1s. 11d. per week in the difference between such two rates of basic wage.
- (b) In the case of adult female teachers, the allowance shall be equal to 80 per cent. (to the nearest £1) of the allowance payable to adult male teachers.
- (c) In the case of monitors, the allowance shall be calculated on a pro rata basis.

The allowance payable to adult male teachers as at the first day of July, 1936, shall be £40 per annum, as representing the difference (to the nearest £1), at an annual rate, between the male basic wage rates of £4 6s. per week, operative in areas outside the South-West Land Division of the State and £3 10s. 6d. per week operative in the metropolitan area.

This classification takes the place of the reclassification published in the *Government Gazette* of the 18th December, 1931.

SALARIES UNDER RECLASSIFICATION FROM 1st JULY, 1936.

1.—Primary Schools.

Salaries and Allowances.

The salaries of classified teachers shall be determined by—

- (a) the position held,
- (b) the personal qualification as shown by classification.

The salaries shall be the total of the position quota and the qualification quota, as shown in the following scale:—

| A. Position Quota:                           | Class of School. |            |            |            |            |            |            |            |  |  |
