Resolution.

WHEREAS under the provisions of the Health Act, 1911-37, a local health authority may make by-laws, and may amend, repeal, or alter any by-laws so made: Now, therefore, the Narrogin Municipal Council, being a local health authority, doth hereby make the following by-laws *re* sewerage, under section 133 of the Health Act, 1911-37, and section 41 of the Health Act Amendment Act, No. 38 of 1933:—

1.—*Proof of Connections having been made.*

The certificate of such officer as the local authority may appoint in writing shall be *prima facie* evidence that water-closet or water closets, or drains, appliances, apparatus, and connections have been provided, or the works, matters, and things have been performed, as the case may be, and *prima facie* evidence as to the amount of costs, expenses, and interest recoverable in respect thereof.

2.—*Work carried out under System of Deferred Payment.*

If any owner wishes to avail himself of the provisions of the Act regarding deferred payments and the local authority has approved of his doing so, he shall sign an agreement to pay the costs incurred by the local authority in relation to such works, in not more than forty half-yearly instalments, with interest at the prescribed rate per annum on the amount remaining to be paid added to each instalment. But the said owner may at any time pay to the local authority such portion as then remains unpaid of such costs and expenses, together with interest thereon, at the said rate, to the date of such payment. In the event of any of the instalments or interest not being paid within fourteen days after the due date thereof, the whole amount then unpaid shall, if the local authority so desires, become due, payable, and recoverable with interest as prescribed by the said principal or any amending Act.

3.—*Drains—Material for, etc.*

Pipes—Specifications.

Every person who shall construct, alter, or repair any sewer or drain shall comply with the following conditions:—

- (a) The pipes shall be good and sound, and shall be formed of glazed stoneware, concrete, iron, or of other suitable material approved by the local authority.

Size and Fall.

- (b) Every such sewer or drain shall be of adequate size; and no such sewer or drain shall be used for conveying sewage unless the internal diameter thereof be not less than four inches, and (when directed by the local authority) the drain shall be laid in a bed of concrete, or other equally suitable material, with a proper fall, and with water-tight socketed or other suitable joints.

Drains under Buildings.

- (c) Every sewer or drain shall be so constructed as not to pass under any building, except in any case where any other mode of construction is impracticable; and if in any case a sewer or drain shall be so constructed as to pass under any building, such sewer or drain shall be so laid in a direct line for the whole distance beneath such building and of such depth that there shall be a distance equal at least to a full diameter thereof between the top of such drain at its highest point and the surface of the ground under such building. The drain pipe used in any such case shall be of cast-iron, jointed with lead as is usual with water-pipes, or of stoneware bedded in and surrounded with good cement concrete at least six inches thick. All drains carried through walls shall have a space of three inches left over the pipe.

Drains near Tree Roots.

- (d) Every sewer or drain which is likely to be damaged or blocked by the roots of trees shall be surrounded by concrete six inches thick, or, if in the opinion of the local authority it is necessary, cast-iron sewer and drain pipes shall be substituted for earthenware pipes for such distance as the local authority may direct, or the trees adjacent to the drain or sewer shall be removed for such a distance as the local authority may direct.

- (e) Where drains are in rights-of-way or other open spaces where there is vehicular traffic and are less than two feet in depth, or in yards where vehicles are kept, are less than one foot six inches in depth, or when they are in any case less than one foot in depth, they shall be surrounded with concrete six inches in thickness, or the surface of the right-of-way, yard, etc., shall be covered with at least six inches of concrete or granolithic pavement.

Drains shall be Ventilated.

- (f) Every such drain shall be ventilated in a manner hereinafter provided by these by-laws and regulations.

Drains and Pipe Lines shall be in Straight Lines.

- (h) Every sewer or drain shall be laid in straight lines, and, where changes of direction occur, junctions shall be made with "Y" junctions of the required angle, or bend pipes, in such manner as the local authority may previously approve of; right angle junctions shall not be used.

Grades of Sewers and Drains.

- (i) All pipes and house-drains shall be laid with true gradients, and the inclination of the same shall be as steep as the circumstances will permit, but shall in no case be less than 1 foot in 40 feet for 4-inch pipes or 1 foot in 60 feet for 6-inch pipes, or shall not be laid with a grade of more than 1 foot in 15 feet, unless by special permission of the local authority, and approved provision shall be made for regular and efficient flushing.

Foundations.

- (j) In all cases where the local authority or its officers shall so direct, all pipes shall be supported on piles and timber foundations, or shall be bedded on concrete. Drops or bends in a vertical position shall have a concrete support placed thereunder as directed. The concrete for this purpose shall be of the proportions of one of cement, two of clean sand, and five of stone, broken to 1½-inch gauge, or gravel approved by such officer.

The local authority may in any case in which it thinks proper exempt any person from the provisions of this by-law or regulation, upon application by the owner and an undertaking, providing that it is solely at the owner's risk.

This privilege shall only apply to pastoralists and only during distressed periods.

17. All moneys for fees and expenses owing to the Board or the lessee of the Common for the time being under these by-laws for the depasturing of stock on this Common, or other expenses incurred in connection thereof under these by-laws, shall constitute a debt to the said Board or lessee, and be recoverable by civil action, at the suit of the Board or lessee, in any Court of competent jurisdiction.
