2. These by-laws shall apply to the whole of the Preston Road District.

3. These by-laws shall come into effect immediately upon the confirmation and approval by the Governor and publication in the *Government Gazette*.

4. Saving.—These by-laws do not repeal the Proclamation in the *Government Gazette* dated 5th May, 1939, page 736, relating to a brick area in the Donnybrook townsite.

5. Interpretation.—In these by-laws, unless inconsistent with the context or subject matter—

“Act” means the Road Districts Act, 1919-34.

“Alteration” means any work made or done for any purpose in, to, or on a building (except that of necessary repairs not affecting the construction of any external, cross, or party wall), or any change in the purpose for which any building or erection, or any part thereof shall be used.

“Approved” means approved by the Board in writing, or (in case where the surveyor is authorised by the Board so to do) by the surveyor in writing.

“Area” means when applied to a building the sum of the superficies of the horizontal section of each storey made at the greatest surface of each floor, inclusive of the external walls, and such part of the party walls as belong to the building.

“Basement” means a storey, or portion of a storey, partly below the level of the ground, the ceiling of which is not less than five feet above the adjoining ground (irrespective of any excavation made to comply with these by-laws).

“Board” means the Preston Road Board.

“Build” means and includes, erect, build, or construct, or cause to be erected, built, or constructed.

“Building” means and includes erection, structure, detached room, outbuilding, hoarding, and every structure of which kind capable of affording protection and shelter, either roofed or intended or about to be roofed, and whether enclosed by roof or not, and every part of such structure and any addition or alteration thereto.

“Builder” means the master builder or other person employed to execute any work, or, if there is no master builder or other person so employed, then the owner of the building or other person for whom or by whose orders such work is to be done.

“Cellar” means a storey or portion of a storey, below the ground level, the ceiling of which is less than five feet above the adjoining ground.

“Cement mortar” means a mortar composed of one part of cement to three or fewer than three parts of sand.

“Commercial building” means a building used or constructed or adapted to be used wholly or in part for commercial purposes.

“Hoardings” means any structure erected upon any premises for the display of advertisements and includes all illuminated signs.

“Advertisement” means any sign, notice, device, or representation in the nature of an advertisement visible from any public place or public reserve.

“Illuminated sign” means any advertisement, lit or operated electrically or otherwise, and includes any advertisement outlined with incandescent or luminous tubing or illuminated by means of light thrown thereon from a point external to the advertisement itself, but does not include a commercial sign which is illuminated.

“Commercial sign” means an advertisement in the nature of a sign, notice, or notice boards, which does not contain anything more than the name of the person residing or trading or carrying on any business, trade, industry, or profession, in or on such premises, provided they are erected on or placed on the premises to which they relate.

“Outbuildings” means any building on the curtilage of any dwelling, shop, or combined shop and dwelling, used as a workshop, or storeroom, not being a building for the storage of inflammable material, nor for the housing of any animal or animals, including birds, and not exceeding 225 square feet in area or 15 feet in height.

Applications, Plans, and Notices.

6. (b) The application shall describe the building and fences (if any) erected or to be erected to show the purpose for which the building and fences are to be used.

(c) The plans of the building shall consist of a general plan and a block plan. The plan of the fences

is to be shown on a separate plan. When approved, one copy of the plans and specification shall be kept at the building site until the completion of the building and for as long thereafter as it shall be necessary for the building surveyor to inspect and approve of the completed building.

(d) Where the building proposed affects either a commercial building or a dwelling house, front and side elevations are also required to the scale shown on the plan form (Form 2).

(e) The block plan of the building shall show the relation of the building to the boundaries of the site and to other buildings thereon.

(f) The specifications of the building shall describe the construction and materials of which the building is to be built, and the method of drainage, sewerage, and water supply, and state whether the materials will be new or secondhand, and if secondhand materials are to be used shall give particulars.

(g) When giving approval the Board may impose a condition that forty-eight hours notice shall be given prior to the covering of any or all of the following works in order that they may be inspected, that is to say, trenches before foundations are laid, foundations before trenches are filled in, and drains before they are covered in.

Fees.

7. (a) The person making application for the approval of the plans and specifications of the building shall lodge therewith a fee calculated according to the following scale:—

Provided that in no case shall the fee exceed	2	10	0

(b) One fourth of the amount of the fee, with a minimum of 5s. shall be for the examination and approval of the plans and specifications and shall be retained whether the work proceeds or not, but three-fourths of the fee, subject to the minimum referred to above, shall be returned upon application for such return being made within twelve months from the date of (a) disapproval of plans; or (b) approval of plans, provided the building is not commenced and provided the approval is surrendered.

(c) The Board may reduce or dispense with the payment of a fee in the case of an application to make minor alterations in an existing building, or to erect a building to be used exclusively for the purpose of a green house, conservatory, summer house, fuel shed, cycle shed, or minor farm buildings and the like.

8. A Certificate of Compliance, made under the seal of the Board, stating that the provisions of these by-laws have been complied with, may be obtained upon the completion of the buildings, provided that written application is made therefor, and a fee of £1 is paid.

Part II.—General Provisions (relating to all Buildings).

Application of Part.

9. (a) Except where otherwise specifically provided, the provisions of this Part, shall apply to all buildings. Any provisions in any other "Part," relating to any particular class of building, shall, if inconsistent with any provisions of this Part, prevail as against this Part.

(b) Each building shall be a separate building, and semi-detached buildings for use as dwelling houses, flats or the like, shall not be constructed within the Preston Road District. This clause shall not prevent the erection, or construction of legitimate hostels, boarding houses, or the like.

Site, Healthiness of.

10. (a) A person shall not, without the permission of the Board erect a building upon any site which shall have been filled with any material impregnated with faecal or with animal or vegetable matter or upon which any such matter shall have been deposited.

(b) Every person who shall erect a building, shall cause the subsoil of the site of such building to be effectively drained wherever, in the opinion of the Board, the dampness of the site renders such precautions necessary.

(c) If the Board so direct in any particular case the whole or part of the ground surface or site of such building shall be covered with a layer of good cement, or tarred metal, rammed soil, and at least four inches thick.

(d) The Board may refuse or postpone approval to build upon a site which is unhealthy by reason of its liability to dampness and unless and until the site has been rendered dry, sound, and well drained to the satisfaction of the Board.

Position of Building on Site.

11. (a) No building which is intended to be used as a dwelling house and no additions to any such building shall be built within a distance 20 feet measured horizontally from the road the building fronts, unless a building line at a different distance from such road has been fixed by a proper authority.

(b) No building which is intended to be used as a dwelling house and no additions to any building which is intended to be used as a dwelling house, shall be built within a distance of three feet, if of brick, or four feet, if of wood or timber construction, measured horizontally from the boundary of the allotment on which such building is erected.

12. (a) Where, in an unsewered district, there is no public and convenient access to the rear of the site of any building for the removal of nightsoil, the building shall be so designed as to leave outside the building a way of at least three feet wide from a public road to the privy closet.

(b) Where, in any district, there is no public and convenient access to the rear of the site of a dwelling house for the removal of garbage and refuse, the building shall be so designed as to leave outside the building a way of access at least three feet wide from a public road to the rear of the dwelling house.

(c) Such access may be provided by a common right of way three feet wide to serve two adjoining buildings or dwelling houses.

Outbuildings.

13. (a) In the case of an application to erect (as an appurtenant to a building) any outbuilding from the use of which unpleasant noises, unpleasant odours, or unusual risk of fire may reasonably be expected to arise, the Board may determine upon which position upon the allotment such outbuildings may be erected.

(b) No wooden building may be extended in such a manner that an outbuilding and dwelling shall hereafter be within eight feet of each other; but this provision shall not prevent the owner of a building on land adjoining that on which such outbuilding has previously been erected in different occupation from extending such building, subject to the provisions of these by-laws.

(c) No outbuildings shall be erected on a corner block at a less distance from the road on the side boundary than the adjoining building is from such road, or, if there is not such adjoining building, at a less distance than 20 feet from such road.

(b) When the doors of any garage are opened they shall not encroach on any road.

(c) Garages over 200 square feet in area, including service stations and the like shall not be considered as a garage, but must comply with the provisions for building generally.

Materials.

17. (a) The Board may grant, subject to conditions, or refuse permission to erect a structure of calico, canvas, or other textile material, and if such structure is erected without the Board's permission, may order the occupier of the structure, or, if unoccupied, the owner of land on which the structure is situated to demolish the structure.

(b) Materials which have been used in the construction of any cess pit, drain, or sewer, or which for any other reason is dangerous to health shall not be used in the erection of any building.

(c) Faulty or unsuitable materials shall not be used in any building.

All time worked in excess of or outside the usual working hours shall be paid for at the rate of time and a-half for the first 4 hours, and double time thereafter. Work carried out on Sundays, Good Friday, Labour Day, Christmas Day and Easter Monday shall be double time, except in connection with repairs to the employer's machinery, which has broken down and caused a stoppage of operations, when the rate of time and a-half shall apply.

If a man is called upon to work without a break of 8 hours from the end of his preceding shift, he shall

be paid at the rate of time and a-half until he is allowed a break of at least 8 hours.

(b) Continuous process and other continuous shift workers.—(1) 44 hours shall constitute a week's work inclusive of crib time; provided, however, that this provision shall be deemed to have been complied with if the ordinary working hours do not exceed 88 hours per fortnight to be worked in alternating weeks of 40 and 48 hours respectively, each of such weeks to be worked in shifts of 8 hours each, including crib time.

(2) All time worked in excess of or outside the usual working hours shall be paid for at the rate of time and a-half for the first 4 hours and double time thereafter. Work done on Sundays shall be paid for at the rate of time and a-half for a shift of 8 hours and double time for any time over 8 hours. Time worked on Sundays shall not be included in the weekly hours for the purpose of calculating overtime.

(3) Overtime rates shall not apply to excess time due to private arrangements between the workers themselves, or for one hour where the overtime is caused owing to a relieving man not coming on at the appointed time, or where overtime is necessary for effecting periodical rotation of shifts.

(4) If a man is called upon to work without a break of eight hours from the end of his preceding shift, he shall be paid at the rate of time and a-half until he is allowed a break of at least eight hours.

(5) When shift workers are required to work more than 13 shifts consecutively on afternoon and night shift, they shall be paid 2s. 6d. per shift extra.

(c) Shift workers other than continuous process workers.—Men working on shifts other than men working continuous shifts shall work eight (8) hours inclusive of twenty (20) minutes crib time and receive a margin of one shilling (1s.) per shift. This allowance shall not apply to workers employed solely on day shift.

5.—Holidays.

The following days shall be holidays without pay: Good Friday, Easter Monday, Labour Day and Christmas Day. If Christmas Day falls on a Sunday, the following Monday shall be kept.

6.—Annual Holidays.

Annual holidays shall be taken at the convenience of the Management, workers to receive one month's notice of the date on which holidays are to commence.

Workers are to receive payment for one day of 8 hours for every completed month's service and pro rata for periods down to one week.

7.—Mixed Functions.

If a worker be employed on work classified at a higher minimum than his ordinary work for more than 2 hours in any shift, he should be paid the minimum rate for such work for the whole of that shift. If he is employed for less than 2 hours, he should be paid at his ordinary rate for the whole shift.

8.—Accident Pay.

In the event of a worker meeting with an accident during the shift, or being required to attend to one who has met with an accident, he shall be deemed to have rendered duty during the whole of the shift and be paid accordingly.

9.—Full Payment for Shift.

(a) After beginning a shift, workers shall not be paid less than for a full shift, unless they leave of their own accord, or are dismissed for misconduct. This shall not apply in matters beyond the control of the Management.

(b) If before a worker leaves the works at the end of his shift, and because he is not so informed, he attends at the next shift willing to work it, and there is no suitable work which he is allowed to perform he shall be paid the wages he would have been entitled to if he had worked the shift he was ready and willing to work. This shall not apply in matters beyond the control of the Management.

10.—Casual Workers.

Workers employed for less than one week shall be considered casual and shall receive 10 per cent. above the rates specified for the work.

11.—Board of Reference.

(a) A Board of Reference is to be appointed for the purpose of this agreement. This Board shall consist of a Chairman, who shall be a person selected by the representative of the parties, and two other representatives, one to be the Manager or his nominee representing the Employer, and the other a representative of the Union, which may at any time by notification to the employer and the Registrar change such representative.

(b) There shall be assigned to such Boards the functions of:—(i) deciding matters specifically referred to in the Agreement as being the subject matter of a decision of the Board; (ii) adjusting any matters of difference which may arise between the parties from time to time, except such as involve interpretations of the provisions of the Agreement, or any of them; (iii) deciding all matters and questions referred to in the agreement as being the subject of mutual agreement, if not agreed upon; (iv) deciding any other matter that the Court may refer to such Board from time to time.

(c) An appeal shall lie from any decision of such Board in the manner and subject to the conditions prescribed in the Regulations to the Industrial Arbitration Act, 1912-1941, which for this purpose are embodied in and form part of this Agreement (Regulation 92).

(d) There shall be no cessation of work, pending the reference to and the settlement of any dispute by the Board.

12.—Pieceworkers.

(a) The rate of payment for any system of piecework shall be fixed on the basis that it shall be sufficient to yield the worker of average capacity for a full week's work of the ordinary hours at least 10 per cent. above the minimum time rate of pay as prescribed hereunder for such week's work, plus a weekly allowance for annual holidays prescribed under this Agreement.

(b) Any contract for piecework shall contain in expressed terms a statement as to whether holiday pay is included in the price to be paid for the work.

(c) If any increase or decrease in the basic wage, as proclaimed from time to time, is not included in the piecework rates the worker's earnings shall be increased or decreased, as the case may be, in accordance with such increase or decrease in the basic wage.

(d) Provided that where a worker works part of a full week at piecework rates and part at time rates, he shall be paid as much as he is entitled to receive under such piecework rates, plus the proportionate amount which he is entitled to receive under this Agreement at time rates of pay.

(e) All disputes between the employer and the Union as to any matters relating to payment by results, including any question as to whether the rates or price are properly based on the capacity of an average workman, and as to the extension of any system of payment by results by the employer to workers shall in default of agreement between the employer and the Union be referred to the Board of Reference.

13.—Absence Through Sickness.

(a) (i) A worker shall be entitled to payment for non-attendance, on the ground of personal ill health, for one half ($\frac{1}{2}$) day for each completed month of service. (ii) The liability of the employer hereunder shall in no case exceed one (1) week's wages during each calendar year in respect of each worker. (iii) Payment hereunder may be adjusted at the end of each calendar year, or at the time the worker leaves the service of the employer, in the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred.

(b) This clause shall not apply where the worker is entitled to compensation under the Workers' Compensation Act.

(c) No worker shall be entitled to the benefits of this clause unless he produces proof satisfactory to his employer, or his representative, of sickness, but the employer shall not be entitled to a medical certificate unless the absence is for three (3) consecutive working days or more.

(d) No payment will be made for any absence due to the worker's own fault, neglect or misconduct.

I certify, pursuant to section 63 of the Industrial Arbitration Act, 1912-1941, that the foregoing is a copy of the Agreement arrived at between the parties mentioned above.

Dated at Perth this 20th day of December, 1944.
