## PUBLIC SERVICE RECLASSIFICATION.

To date from 1st January 1946.

**Administrative, Professional, Clerical and General Divisions.**

### Introductory.

1. Statutory provisions relating to the classification and reclassification of offices and officers under the Public Service Act, 1904–1935, are as follow :—

Section 15 of the Public Service Act, 1904–1935.

Section 12 of the Public Service Appeal Board Act, 1920–1941.

Part X. of the Industrial Arbitration Act, 1912–1941.

2. These provisions, applicable to normal conditions, became subject to the emergency restrictions imposed by the Commonwealth Government under the National Security (Economic Organisation) Regulations—generally known as the “Wage-pegging” regulations—which prohibit the alteration of existing salary scales except after the issue of a certificate of consent, given by His Honour the Chief Judge of the Commonwealth Arbitration Court, for the correction of anomaly or change in circumstances.

3. As an essential preliminary towards compliance with the requirements of the statutory provisions contained in the laws of the State, it was, therefore, first necessary to seek the consent of His Honour the Chief Judge of the Commonwealth Arbitration Court. With my endorsement of the principles involved in the application, the reference to His Honour was made in a letter addressed to the President of the State Court of Arbitration by the Civil Service Association on the 11th October, 1945. Authority to proceed with negotiations for the completion of an agreement or, failing agreement, for approach to the State Arbitration Court for a new Award was received in a letter from His Honour the President of the State Court of Arbitration dated the 27th December, 1945.

4. The subsequent negotiations with representatives of the Civil Service Association resulted in the completion of an agreement dated the 24th April, 1946. This agreement has been registered with the State Court of Arbitration and was published in *Government Gazette* number 23, dated the 17th May, 1946.

5. The new Agreement is for a term of five years commencing on the 1st January, 1946, and supersedes the undermentioned Award and Agreements previously in force :—

- (a) Award No. 21 of 1936 (made 28th January, 1937), covering the scale of salaries of male adult clerical officers in the Automatic Range.
- (b) Agreement dated 22nd April, 1937, with effect from the 28th January, 1937, applying to all permanent officers in the Clerical and General divisions whose maximum salaries are less than £700 per annum and who are not subject to Award No. 21.
- (c) Agreement dated 25th May, 1937, with effect from the 28th January, 1937, applying to all permanent officers in the Professional Division whose maximum salaries are less than £700 per annum.

6. The annual salary rate of £700, referred to in the two Agreements, marks the division (fixed by Part X. of the Industrial Arbitration Act, 1912–1941), between the officers who come within the jurisdiction of the Court of Arbitration and those officers, with a maximum annual salary rate of £700 and over, whose classification is solely a matter for assessment by the Public Service Commissioner in accordance with the provisions of section 12 of the Public Service Appeal Board Act, 1920–1941.

7. In order to ensure that reasonable consistency will be maintained between the two groups of officers created by the division referred to in the previous paragraph, the Industrial Arbitration Act (Section 151) requires the Commissioner to make such adjustments to the conditions of employment of the higher salaried group as may be necessary for the avoidance of anomaly. Consequently, as the Award and Agreements relating to officers who come within the jurisdiction of the Court of Arbitration contained a provision for the adjustment of salaries in accordance with the basic wage declarations made by the Court from time to time, it became necessary for the Commissioner to apply a reasonably comparable arrangement to the higher salaried group of officers on reclassification in 1936 and 1941.

8. In accordance with the above provisions, the salaries of both groups became adjustable by means of a "Basic Wage Allowance," which was applied, in the case of the Arbitration Court group, as an allowance calculated to the nearest multiple of £5 obtained by multiplying the weekly basic wage by fifty-two and one-sixth ( $52\frac{1}{6}$ ), and deducting from the product the sum of £185 which was the annual equivalent (to the nearest £5) of the weekly basic wage for the Metropolitan Area when the 1936 reclassification was issued. The salaries of female and junior officers were adjusted on a proportionate basis. The allowance in respect of the classified group of officers outside of Arbitration Court conditions was applied in multiples of £20 for each aggregate increase of 7s. 8d. per week to the commencing basic wage rate of £3 10s. 6d. per week. At the 31st December, 1945, the "Basic Wage Allowance" payable to adult male officers in the different groups, was as follows :—

Officers' Headquarters.	Arbitration Court Group.	Classified Officers £700 per annum and above.
	Allowance p.a.	Allowance p.a.
Metropolitan Area .... .... .... .... ....	£75	£60
South-West Land Division .... .... .... .... ....	£75	£60
Other Districts .... .... .... .... ....	£95	£80

9. It was felt that adjustment by the foregoing method had served its purpose so far as the lower salaried group of officers was concerned and, for the future, a basis in keeping with the arrangement generally incorporated in Arbitration Court Awards and Agreements should be adopted. Such an arrangement has been effected and is now included in the new Agreement with the Civil Service Association. Under this arrangement the annual salary rates of officers who belong to the group regulated by Arbitration Court conditions will be expressed as fixed margins, in grades and classes, to a basic rate which will vary to the nearest £ of the annual equivalent of the weekly basic wage declared from time to time by the Industrial Court of Arbitration of Western Australia. The maximum margin of the officers so affected has been fixed in the Agreement with the Civil Service Association at £436 per annum.

10. As the classification (and consequently the salary) of officers outside the jurisdiction of the Court of Arbitration cannot be reduced except by reclassification, provision for reduction of their salaries to correspond with *decreases* in the basic wage is impracticable. It is thought, however, that classification of their positions in relation to a weekly basic wage rate which would need to be reduced by 7s. 8d. (equal to £20 per annum), before any downward adjustment by reclassification would become necessary should provide a reasonably adequate safeguard against the retention of a fixed classification on a falling basic wage.

11. To provide for the preservation of reasonable consistency between the officers within and without the jurisdiction of the Court of Arbitration, as required by section 151 of the Industrial Arbitration Act, it is, however, still necessary to continue the "Basic Wage Allowance" as an adjustment to cover *increases* in the basic wage above a fixed amount. Provision has accordingly been made for payment of the allowance at the rate of £20 per annum for each aggregate increase of 7s. 8d. per week to the nominal basic wage rate of £4 19s. 3d. per week.

12. As the "Basic Wage Allowance" of £75 (£95 for "other Districts" outside the Metropolitan Area and South-West Land Division) has now been merged in the "Basic Rate" as defined in the new Agreement with the Civil Service Association, and consequently included as part of the total annual salary of the officers concerned, it became necessary to absorb £75 as salary in the reclassification of those officers not affected by the Agreement, leaving £20 as the "Basic Wage Allowance" payable to those officers whose headquarters are in that part of the State to which the basic wage for "Other Districts" applies. In view of this factor the figure of £4 19s. 3d. was selected as the base for determining any allowance payable under the amended procedure as such amount represented the point where £75 would have been payable by way of "Basic Wage Allowance" to officers in the higher salaried group had increases in multiples of £5 for each aggregate increase to the base rate of £3 10s. 6d. been applied in lieu of multiples of £20.

13. By this special provision which has been made in order to relate the "Basic Rate," in its effect upon the salaries of officers who come under Arbitration Court conditions, to the "Basic Wage Allowance" as it has now been made to apply to classified officers in the higher salaried group, it is considered that the intentions of section 151 of the Industrial Arbitration Act have been met and that the two distinct yet associated sets of conditions under which a reclassification of the whole of the permanent officers employed under the Public Service Act, 1904-1935, must be made, have been fully observed.

14. The application of the foregoing conditions and the principles which have been applied to the officers who have been placed in the separate groups, viz., those who come under the jurisdiction of the Industrial Court of Arbitration and those who are classified in accordance with the requirements of section 12 of the Public Service Appeal Board Act, 1920-1941, are outlined in the succeeding section.

#### PRINCIPLES OF THE RECLASSIFICATION.

15. This Reclassification insofar as it relates to officers within the jurisdiction of the Industrial Court of Arbitration of Western Australia should be read in conjunction with the Agreement entered into with the Civil Service Association on the 24th April, 1946 (*Government Gazette No. 23 of the 17th May, 1946*).

16. The basis for the classification of all permanent offices and officers under the Public Service Act, 1904-1935, is the Male Adult Automatic Range: Clause 7 of the Agreement fixes the maximum of this range, on an officer attaining the age of 27 years, at a margin of £100 per annum over the "Basic Rate."

17. In determination of the margin of £100 per annum over the "Basic Rate" as an appropriate maximum for the Male Adult Automatic Range full consideration was given to the existing margins for similar groups of officers in the other States. The Commonwealth basic wage rates ruling in the various States were taken as the basis for comparison on the grounds that these rates represented the only common measure available for assessment of the average margin for those States.

18. From information obtained from the other States the average margin over the respective Commonwealth Basic Wage rates for Queensland, New South Wales, Victoria, South Australia and Tasmania was calculated as being £116 per annum in comparison with the margin for this State of £100. Following negotiation with the Civil Service Association it was agreed that the margin over the Commonwealth Basic Wage for this State should be raised to the average margin of the other States and that a gross salary of £361 per annum or a margin of £100 over the State Basic Wage should be payable as at the 1st January, 1946, to male officers on the maximum of the automatic range whose headquarters are in the Metropolitan Area.

19. The "Basic Rate" referred to above is defined in the Agreement as follows:—

"Basic Rate" means in the case of—

- (a) Male or female officers employed in the Metropolitan Area; the nearest £ to the result obtained by multiplying the male or female basic wage respectively for that area as declared from time to time by the Industrial Court of Arbitration of Western Australia, by fifty-two and one-sixth ( $52\frac{1}{6}$ ).
- (b) Male or female officers whose headquarters are in an area for which an independent basic wage is declared; the nearest £ to the result obtained by multiplying the male or female basic wage respectively for that area as declared from time to time by the Industrial Court of Arbitration of Western Australia, by fifty-two and one-sixth ( $52\frac{1}{6}$ ).

20. In accordance with the above definition the annual equivalents of the male and female basic rates in the various areas as at the 1st January, 1946, were as follow:—

		Male.	Female.
		£	£
Metropolitan Area ....	....	....	261
South-West Land Division	....	....	260
Other Districts ....	....	....	280
			141
			140
			151

These annual rates constitute the initial bases according to the areas in which officers have their headquarters, to which is added the margins appropriate to their individual classifications in order to determine the annual salary rate attaching to each office and officer under Arbitration Court conditions.

21. In the case of male officers the basic rate for the appropriate area applies at 21 years of age and for female officers at 18 years of age except in the case of female Tracers, Telephonists and Assistants, to whom the basic rate applies at 21 years of age or such earlier age, according to years of service, as set out in the relevant clauses of the Agreement. Percentages of the basic rate (also as set out in the Agreement) apply to male and female junior officers : Advancement from the junior to the senior salary scale is subject to passing the prescribed promotional examinations and appointment to a senior position in all cases where such conditions apply under Public Service Regulations.

#### UNATTACHED OFFICERS.

22. On enlistment for military service, a great number of junior officers were appointed to the permanent staff and placed on the "Unattached List." By the granting of annual increments on age basis, many of these officers progressed to senior status during their service with the Forces but were retained on the Unattached List as juniors.

23. In this classification all officers have been removed from the Unattached List and, wherever possible, placed in appropriate items in the Departments to which they have returned or, if they are still serving in the Forces, in items under the Department from which they enlisted. Those officers for whom an item within the establishment of a Department is not immediately available are shown as attached to the Department in which they are performing duties or from which they enlisted, pending their allocation to an appropriate item. The classification and salary in respect of these officers is, in each case, directly related to the age of the officer concerned. Similar action has been taken in the case of officers who have reached the age of 21 years and who were previously occupying junior positions within the establishment of a Department.

#### CAREER RANGES.

24. What may be described as career ranges have been provided for junior officers in the Professional Division. These are specially long ranges for progression from minimum to maximum over certain periods and have been formed by merging into one range the classifications for third and second class officers which previously existed.

25. The foregoing provision particularly applies to Draftsmen (in all Departments), Architects and the positions open to University Graduates in Agricultural Science, Chemistry and Engineering.

26. Progression beyond a prescribed grade or margin in the case of Draftsmen, Agricultural Advisers and Engineers will depend upon a certificate from the Permanent Head as to the officers' good conduct, efficiency and ability to perform higher duties. The point at which this certificate will be required is not less than the previously existing maximum of the third class.

27. The objects of the above provision are to make professional positions more attractive to men with the requisite qualifications and to check, in some measure, the exodus from the State Service of trained specialist officers because of the tardiness of promotion.

#### DIVISIONS.

28. The four divisions into which officers are placed according to the class of work required to be performed are the Administrative, Professional, Clerical and General Divisions ; these divisions are denominated in the classification of each position by the letters A, P, C, and G, respectively.

#### GROUPS.

29. The permanent positions created under the provisions of the Public Service Act, 1904-1935, and the officers occupying these positions fall into one or the other of two main sections, viz. :—

- (a) Those outside the jurisdiction of the Industrial Arbitration Court of Western Australia.
- (b) Those within the jurisdiction of the Industrial Arbitration Court of Western Australia.

30. For the purpose of this reclassification those positions and officers outside the jurisdiction of the Industrial Arbitration Court of Western Australia have been treated as a separate group and the remainder subdivided into nine groups to correspond with the provisions contained in the Agreement relative to the different groups of officers under Arbitration Court conditions. Details of the composition of each of the ten groups are outlined in succeeding paragraphs.

#### **Group I.**

32. The salary rates of officers in Group I shall be subject to adjustment by means of a Basic Wage Allowance at the rate of £20 per annum for each aggregate increase of 7s. 8d. per week to the nominal basic wage rate of £4 19s. 3d. per week.
