In addition to the bearers required for this spacing, an additional bearer of 4in. x 3in. must be placed under each wall or partition.

No framing timber in any building shall be notched or checked out to receive bracing or otherwise so as to reduce its cross sectional area more than one-sixth.

13.—Awnings and Verandahs.

All awnings or verandahs proposed to be erected over a public place shall be of the cantilever type. No verandah shall be enclosed for living or sleeping purposes without the Board's written consent.

14.—Footings.

Every person who shall erect a building of brick, stone, or the like shall construct every wall of such building, unless built upon a hard rock formation to rest upon proper footings, or upon a sufficient beam.

He shall cause the projection of the bottom of the floorings on each side of such wall to be at least equal to one-half the thickness of the wall at its base, unless an adjoining wall interferes, or unless the wall is upon the boundary of the land, in which case the projection may be omitted on the side of the boundary, or where the wall adjoins.

He shall also cause the diminution of the footings to be in regular offsets, unless the footings be of concrete.

The height from the bottom of such footings to the base of the wall shall be at least equal to two-thirds of the thickness of the wall at its base: Provided that when the footings are of reinforced concrete the Board may permit the height to be less: And, provided further, that it shall not in any case be less than 12 inches.

Footings to walls of brick in cement mortar (three to one) shall be the same width and height as those to walls of the same thickness not built in cement mortar.

Vermin plates shall be provided to all walls other than brick, stone, or concrete.

15.—Dampcourse.

Every person who shall erect a building shall provide and insert damp-proof courses of lead, slate bedded in cement or natural asphalt: Provided that the Board may permit the omission of damp-proof courses from closets, outbuildings, and the like structures.

Where material which is not slate, natural asphalt, or lead of a minimum weight of two pounds per square foot under walls not exceeding 40 feet in height, or three pounds per square foot under walls exceeding 40 feet in height is desired to be used, the applicant shall submit to the Board evidence that the material to be used has been approved by the Board of Health, or, failing such evidence that the material is a good and effective damp-proof course.

Damp-proof courses shall be inserted in walls to their full width and in such manner that there shall be no open spaces, cracks, or gaps in the damp-proof courses along the full length of the walls.

Damp-proof courses shall be inserted in walls in such positions and in such manner that—

(a) moisture from the earth shall be prevented from reaching the lowest floor timbers, or the walls above the underside of the lowest floor joists, or, where solid floors are laid, shall be prevented from reaching higher than $3\frac{1}{2}$ inches above such floors;

(b) where floors are below outside ground level, moisture shall be prevented from reaching inner face of outer walls;

(c) where cavity walls are used, moisture penetrating outer portion of walls shall be prevented from reaching the floor timbers, or the inner portion or face of all walls above the underside of the lowest floor timbers, or, where solid floors are laid, shall be prevented from reaching higher than $3\frac{1}{2}$ inches above such floors;

(d) moisture penetrating the chimney, parapet, or other walls above roof shall be prevented from reaching in any part the inner walls or the inner portion of inner face of outside walls below the upper side of the ceiling joists in either case;

(e) moisture penetrating the outer portion of cavity walls shall be prevented from reaching the inner portion or inner face of such walls above or about window, door, and other frames or openings. In cavity walls the cavity shall extend not less than $6\frac{1}{2}$ inches below the damp-proof course.

This clause shall apply to walls constructed of brick, stone, or concrete, and to walls of any material readily permeable by water.

16.—External Walls—Structure.

Cavity walls may be built, provided the two sections are securely tied together by a sufficient number of wire ties or other effective method, and when used the combined thickness of the inner and outer parts shall be deemed to be the thickness of the wall.

Bottoms of all cavities shall be carefully raked out before the completion of the buildings, and all ties kept free from mortar droppings.

Where cavity walls are used weep-holes shall be left at foot of cavity not more than six feet apart and over all damp-proof courses inserted to protect walls weepholes shall be left not more than three feet apart.

Notwithstanding anything to the contrary in this clause, the Board may permit the erection of dwellings not more than one story in height of concrete with walls of less than the prescribed thickness, if satisfied that such proposed dwelling will be hygienic and structurally sound.

All external walls of bricks, stone, concrete, or cement blocks shall be built with a true cavity at least two inches wide: Provided that, where such external walls are protected by a verandah not less than seven feet wide, they may be built solid without cavity.

17.—Party Walls.

Two, but not more, residences may be erected together in one block, provided that they shall be separated from each other by a wall of concrete or of brick or stone at least $8\frac{1}{2}$ inches in thickness projecting, in the case of wooden houses at least one inch through the wood work front and back, and in all cases projecting one foot six inches at least through the roof covering or gutter adjoining the same, whether belonging to the same owner or not. Each building or dwelling-house in a block shall be subject to the provisions of this by-law applicable to its class, save that the site or curtilage of each of such buildings shall have a superficial area of at least 4,000 square feet and a frontage of at least 33 lineal feet to a street or road.

(c) a habitable room shall not, in any case, have a cubic space of less than 840 cubic feet: Provided that in each dwelling-house and in each flat of residential flat building there shall be at least one habitable room, the cubic space of which shall not be less than 1,296 cubic feet;

For the purpose of ventilation every building shall be so erected that there shall be, between the underside of every joist upon which the lowest floor of such building is laid and the ground surface or upper surface of the asphalt or concrete with which the ground or site of the building may be covered a clear space of 12 inches at least in every part; and such space shall be thoroughly ventilated and cross-ventilated by means of suitable and sufficient air-bricks or other effectual method: Provided that where the lowest floor is so constructed (by filling with concrete, asphalt, or other approved material) as not to permit the harbouring of rats, this provision shall not apply.

22.—Rooms—Airbricks, Louvres, etc.

Every room of a building shall be so constructed that for every 1,000 cubic feet or part thereof of air space in the room there shall be 24 square inches at the least of unobstructed ventilation to the outer air by means of airbricks situated at or near the level of the ceiling or any other efficient means.

Forthwith upon receipt of notice as aforesaid the Board shall instruct the proper servant to make an inspection, and such servant shall inspect and report to the Board whether or not the building has been erected in accordance with this by-law and without material deviation from the approved plans and specifications, but this shall not be read to permit any alteration whatever in the position of the building on the site.

Such report shall not be deemed to be evidence (in the event of any prosecution hereunder) that this by-law has been complied with.

39.—Penalties.

Any person who erects a building in contravention of this by-law, or any person who neglects to comply with any provision set forth therein, shall be liable to a penalty not exceeding ten pounds.

5.—Special Rates.

(a) Any adult worker, other than a shift worker, called upon to commence work between 12 o'clock midnight and the usual starting time for day workers, on operations which must necessarily commence between those times shall be paid two shillings (2s.) per day in addition to his ordinary rate.

(b) Any junior worker, other than a shift worker, called upon to commence work between 12 o'clock midnight and the usual starting time for day workers, on operations which must necessarily commence between those times shall be paid at the rate of thirteen per cent. (13%) in addition to the weekly rate prescribed in Clause 4 hereof.

6.—Hours of Work.

(a) Forty (40) hours shall constitute a week's work and shall be worked in five (5) days Monday to Friday inclusive.

(b) Where more than one shift is worked the starting and finishing times shall be as agreed upon between the employers and the union, and failing agreement the matter shall be referred to the Board of Reference for decision.

7.—Shift Work.

Any worker who works on shift work other than the recognised day shift shall be paid for such shift at the following rates:—

- (a) Five per cent. (5%) in addition to the ordinary rate for afternoon shift.
- (b) Ten per cent. (10%) in addition to the ordinary rate for night shift.

8.—Overtime.

(a) All time worked in excess of eight (8) hours per day, or, subject to Clause 5 outside the usual starting and finishing times shall be deemed overtime and shall be paid for at the rate of time and a half for the first four (4) hours and double time thereafter.

(b) When a worker without being notified the previous day is required to continue working after the usual knock-off time for more than one hour, he shall be provided with any meal required or shall be paid one shilling and sixpence (1s. 6d.) in lieu thereof.

(c) Notwithstanding anything contained in this Award—

(i) An employer may require any worker to work reasonable overtime at overtime rates and such worker shall work overtime in accordance with such requirement.

(ii) No organisation, party to this Award or worker or workers covered by this Award shall in any way, whether directly or indirectly, be a party to or concerned in any ban, limitation, or restriction upon the working of overtime in accordance with the requirements of this subclause.

(iii) This subclause shall remain in operation only until otherwise determined by the Court.

9.—Contract of Service.

(a) Except in the case of a casual worker, whose engagement shall be by the hour, the contract of hiring of every worker shall be a weekly contract, terminable on either side by one (1) week's notice given on any day.

(b) Any worker not attending for duty shall lose his pay for the actual time of such non-attendance, subject to the provisions of Clause 13 hereof, as to payment for absence on account of illness.

(c) This clause does not affect the right to dismiss for misconduct, in which case wages shall be paid up to the time of dismissal only.

10.—Mixed Functions.

A worker who is required to do work which is entitled to a higher rate under this Award than that which he or she usually performs shall be entitled to the higher rate whilst so employed.

11.—Holidays.

(a) The following days, or the days observed in lieu, shall be allowed as holidays without deduction of pay, namely:—New Year's Day, Australia Day, Good Friday, Easter Monday, Anzac Day, Labour Day, State Foundation Day, Christmas Day and Boxing Day.

(b) All work performed on any of the foregoing days shall be paid for at the rate of double time.

(c) On any public holiday not prescribed as a holiday under this Award the employer's establishment or place of business may be closed, in which case a worker need not present himself for duty and payment may be deducted, but if work be done ordinary rates of pay shall apply.

12.—Annual Leave.

(a) Except as hereinafter provided a period of two consecutive weeks' leave with payment of ordinary wages as prescribed shall be allowed annually to a worker by his employer after a period of twelve months' continuous service with such employer.

(b) If any award holiday falls within a worker's period of annual leave and is observed on a day which in the case of that worker would have been an ordinary working day there shall be added to that period one day being an ordinary working day for each such holiday observed as aforesaid.

(c) If after one month's continuous service in any qualifying twelve-monthly period a worker lawfully leaves his employment, or his employment is terminated by the employer through no fault of the worker, the worker shall be paid one-sixth of a week's pay at his ordinary rate of wage in respect of each completed month of continuous service.

(d) Any time in respect of which a worker is absent from work except time for which he is entitled to claim sick pay or time spent on holidays or annual leave as prescribed by this award shall not count for the purpose of determining his right to annual leave.

(e) In the event of a worker being employed by an employer for portion only of a year, he shall only be entitled, subject to sub-clause (c) of this Clause, to such leave on full pay as is proportionate to his length of service during that period with such employer, and if such leave is not equal to the leave given to the other workers he shall not be entitled to work or pay whilst the other workers of such employer are on leave on full pay.

(f) A worker who is dismissed for misconduct or who illegally severs his contract of service shall not be entitled to the benefit of the provisions of this clause.

(g) The provisions of this clause shall not apply to casual workers.

13.—Absence Through Sickness.

(a) A worker shall be entitled to payment for non-attendance, on the ground of personal ill-health, for one twelfth (1/12th) of a week for each completed month of service: Provided that payment for absence through such ill-health shall be limited to one week in each calendar year. Payment hereunder may be adjusted at the end of each calendar year or at the time the worker leaves the service of the employer, in the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred. This clause shall not apply where the worker is entitled to compensation under the Workers' Compensation Act.

(b) A worker shall not be entitled to receive any wages from his employer for any time lost through the result of an accident not arising out of or in the course of his employment, or for any accident, wherever sustained, arising out of his own wilful default or for sickness arising out of his own wilful default.

(c) No worker shall be entitled to the benefits of this clause unless he produces proof satisfactory to his employer of sickness, but the employer shall not be entitled to a medical certificate unless the absence is for three (3) days or more.

(d) Any time in respect of which a worker is absent from work, except time for which he is entitled to claim sick pay under the preceding provision, shall not count for the purpose of determining his right to holidays.

14. Junior Worker's Certificate.

Junior workers, upon being engaged shall, if required, furnish the employer with a certificate containing the following particulars:—(1) name in full; (2) age and date of birth; (3) name of each previous employer and length of service with such employer; (4) class of work performed for each previous employer.

Such of the foregoing particulars as are within the knowledge of an employer shall be endorsed on the certificate and signed by the employer upon request of the worker.

No worker shall have any claim upon an employer for additional pay, in the event of the age or length of service of the worker being wrongly stated on the certificate. If any junior worker shall wilfully mis-state his age in the above certificate he alone shall be guilty of a breach of this Award.

15. Posting of Award.

The employer shall, upon request of the union, post a copy of this Award in a conspicuous place in the factory, where it is easily accessible to the workers.

16. Time and Wages Record.

The employer shall keep, or cause to be kept, a record containing the following particulars:—

- (a) the name of each worker;
- (b) the class of work performed;
- (c) the hours worked each day;
- (d) the wage and overtime (if any) paid;
- (e) the age of each junior worker.

Such record shall be open to the inspection of an accredited representative of the union.

Any system of automatic recording by machines shall be deemed to comply with this provision to the extent of the information recorded.

17.—No Reduction.

Nothing herein contained shall entitle an employer to reduce the wage of any worker who at the date of this Award was being paid a higher rate of wage than the minimum prescribed for his or her class of work.

18.—Meal Interval.

No female worker or junior male worker shall be employed for a longer period than five (5) hours without a break for a meal. The time allowed for each meal required shall not be more than one hour.

19.—Payment of Wages.

Wages shall be paid at least once weekly.

20.—Board of Reference.

For the purpose of this Award, a Board of Reference is hereby appointed, which shall consist of a chairman and two (2) other representatives, one to be nominated by each of the parties. The said Board shall have assigned to it in the event of no agreement being arrived at between the parties to the dispute the functions of:—

- (a) adjusting any matters of difference which may arise from time to time except such as involve interpretation of the provisions of this Award or any of them;
- (b) classifying and fixing wages, rates and conditions for any occupation or calling not specifically mentioned in the Award;
- (c) dealing with any other matter which the Court may refer to the Board from time to time.

An appeal shall lie from any decision of such Board in the manner and subject to the conditions prescribed in the regulations to the Industrial Arbitration Act, 1912-1941, which for this purpose are embodied in this Award.

21.—Under-rate Workers.

- (a) Any worker who by reason of old age or infirmity is unable to earn the minimum wage may be paid such lesser wage as may from time to time be agreed upon in writing between the union and the employer.
- (b) In the event of no agreement being arrived at, the matter may be referred to the Board of Reference for determination.
- (c) After application has been made to the Board, and pending the Board's decision, the worker shall be entitled to work for the employer at the proposed lesser rate.

22.—Part-Time Workers.

Notwithstanding anything herein contained, the employer shall be at liberty to employ part-time workers. Where any worker is employed under the provisions of this Clause, Wages as prescribed in Clause 4, Annual Leave as prescribed in Clause 12 and Sick Pay as prescribed in Clause 13, shall be reduced proportionately.

23.—Breakdowns.

The employer shall be entitled to deduct payment for any day or portion of a day upon which the worker cannot be usefully employed because of any strike by the Union or Unions affiliated with it, or by any other association or union, or through the breakdown of the employer's machinery, or any stoppage of work by any cause which the employer cannot reasonably prevent.

24.—General Provisions.

- (a) No female worker shall be permitted to lift or to carry weights in excess of thirty-five (35) lbs.
- (b) Where and when practicable suitable seating accommodation shall be provided for female workers unless it is physically impossible to carry out the work required in a sitting posture.
- (c) A suitable change and mess room shall be provided.

25.—Inspection By Union.

- (a) The Secretary of the Union, or any official thereunto authorised in writing by the Union shall, on production of such authority to the employer or his manager, be allowed once in each week to inspect any part of the employer's works where it is suspected that a breach of this Award has occurred, or is occurring, but such inspection shall be carried out in the company of the employer or someone on his behalf.
- (b) The employer shall provide the necessary facilities for the investigation of the breach, or the supposed breach, of the Award, including access to the time books, sheets or cards referred to in the preceding clause.

(c) The union official exercising his right under this clause shall not interfere with or inconvenience the work and duties of the workers more than is absolutely necessary for the proper investigation of the breach or supposed breach of the Award.

I certify pursuant to section 65 of the Industrial Arbitration Act, 1912-1941, that the foregoing is a copy of the agreement arrived at between the parties mentioned above.
