(a) The name of each applicant for apprenticeship, as soon as he is registered as such, shall be forwarded by the Clerk of the Court to the Apprenticeship Board, which shall keep a waiting list of such enrolments.

(b) The full course of instruction shall be designed to cover the whole period of the apprenticeship term: Provided that, in the event of failure to satisfactorily complete such course by the end of the period of instruction, the term may be extended.

(c) Each year's instruction shall be divided into two terms, ending June and November respectively.

(d) Each session of instruction shall consist of four hours weekly.

(e) The syllabus covering the whole period of apprenticeship shall be drawn up by the instructors in collaboration with the Apprenticeship Board.

(f) The instructors shall complete the course set down by the syllabus for each term in time to hold the terminal and annual examinations.

(g) All practical work given out by the instructors shall be entered upon a "Work Docket," and this, with the student's first proof and final proof, shall be examined by the instructor, allotted the deserved number of marks, and carefully preserved in a "Dossier," for reference during and at the completion of his student course. These practical tests shall be recorded on a special form, which may be inspected from time to time by members of the Apprenticeship Board, who shall have the right to make periodical visits of inspection during class hours.

(h) The instructors shall forward to the Apprenticeship Board a monthly report of the attendance and conduct of students, and such report to be in the hands of the secretary of the Board by the seventh day of the following month.

(37) Every apprentice shall be bound to submit himself to examination by the examiners hereinafter provided for.

(38) The Clerk of the Court shall notify examiners of the names and addresses of the apprentices required to submit themselves for examination.

(39) The examiners shall be persons skilled in the industry; one shall be nominated by the employers and one by the workers, for each particular branch of the trade. Failing such nomination or nominations the Court may appoint such person or persons as it may deem fit. In the event of a disagreement between the examiners, the matter in dispute shall be referred to the Apprenticeship Board, at the request of any one of the examiners, and the decision of such Apprenticeship Board shall be final and conclusive.

(40) It shall be the duty of the examiners to examine the work, inquire into the diligence of each apprentice, and, where any apprentice fails to show progress, to inquire as to the opportunities provided by the employer for such apprentice to learn, and to submit a report to the Court in writing as to the result of the examination within fourteen days from the date of holding the examination.

(41) Such examination shall include theory and practice as applied to the trade, industry, craft, occupation, or calling to which the apprentice is indentured.

(42) The method of conducting the examination of apprentices in those branches of the trade where technical instruction is provided shall be as follows:—

(a) Except in the case of the first examination, no apprentice shall be examined unless he has gained a pass in the previous examination.

(b) The whole of the practical work of the examination shall be performed at the technical college class room (in those branches of the trade where no technical instruction is provided, the examination shall be held at the factory where the apprentice is employed, and it shall then be the duty of the employer to provide such necessary material and machinery as may be required, and in all ways facilitate the conduct of such examination).

(c) The terminal (June) examination shall be for theory only, and shall be conducted by the instructors during the last week but one preceding the end of the term. The questions shall also be set by the instructors, and the written answers checked, and the deserved marks allotted. These, with each student's practical work for the term under review, shall be handed to the examiners, who shall approve or otherwise of the instructor's decisions. Any divergence of opinion that cannot be agreed upon mutually shall be referred to the Apprenticeship Board, whose decision shall be final.

(d) The examiners shall, during the month of June, make their annual visit of inspection to each factory where apprentices are employed, and personally interview the employer (or foreman) and

also the apprentice, and shall satisfy themselves as to the assiduity of the apprentice in his daily work, and especially as to the facilities afforded him to enable him to make the required progress in his particular branch of the trade.

(e) The examiners shall present a report to the Court as to the progress made by the students during the term, and at the same time forward a copy to the Apprenticeship Board. The terminal report shall also cover their inspection of factories.

(f) The annual examination shall take place in November. The test papers shall be set by the examiners in collaboration with the instructors. The practical tests set during the term shall be checked by the examiners, who shall also set each student a special practical test, which shall be performed under their direct supervision at the technical school class room during the second week of the examination. With these three results before them, viz., the written answers of the theory examination, the term's progressive tests already marked by the instructors, and the special tests judged by themselves, the examiners shall draw up their annual report and submit same to the Court at least three days before the date fixed for the final day of the term. A copy of such report shall be forwarded to the secretary of the Apprenticeship Board.

(g) Marks shall be awarded for these examinations as follows:—A merit pass shall be granted to all who secure at least 75 per cent. of marks and a pass shall be awarded to those who receive at least 60 per cent. of marks. Less than 60 per cent. marks shall necessitate a student continuing his studies another term. As from the date of this Award an apprentice who passes the first annual examination with a merit pass shall receive the sum of two shillings and sixpence (2s. 6d.) per week in addition to the prescribed weekly wage; for the second annual examination he passes with a merit pass he shall receive an additional sum of two shillings and sixpence (2s. 6d.) per week, or a total of five shillings (5s.) in addition to the prescribed weekly wage; for the third annual examination he passes with a merit pass he shall receive a further sum of two shillings and sixpence (2s. 6d.) per week, or a total of seven shillings and sixpence (7s. 6d.) in addition to the prescribed weekly wage. He shall receive such additional amounts on and from the beginning of the first pay period commencing in January following the examination.

(h) At the conclusion of the student's course he shall sit for the final examination which shall be conducted entirely by the examiners and a student securing marks of at least 60 per cent. shall be entitled to a pass. Less than 60 per cent. of marks shall necessitate the student continuing his studies another term.

(i) The Registrar shall, after each examination, issue a certificate to each apprentice indicating (on Form 4 in the Appendix) the result of his examination and the final certificate in Form 5 in Appendix.

(j) If the examiners report to the Court that any employer has not provided sufficient opportunity for the apprentice to learn, the employer shall be deemed prima facie guilty of a breach of this Award. Upon any proceedings against him in respect of such breach, the report may be received in evidence.

(k) Any apprentice claiming to have cause for complaint regarding instruction, either in technical college or in workshop, shall have the right to appeal to the Apprenticeship Board.

(l) Such fees shall be paid by the Clerk to the examiners, as the Court shall allow.

(43) If the Apprenticeship Board makes representations to the Court that the facilities provided by the technical college or other place of vocational training for the teaching of apprentices are inadequate, the Court may make such investigations and such report to the Minister controlling such technical college or other such place as it deems necessary.

(44) The term of apprenticeship may be extended by the Court on the failure of an apprentice to pass any of the examinations, and for such purpose it

shall be the duty of the examiners to make any necessary recommendation to the Court. Any extension of the term of apprenticeship shall be subject to all conditions and stipulations in the original agreement, except as to rates of wages, which shall be such amount as the Court may determine.

(45) Upon the failure of an apprentice to pass two consecutive examinations, it shall be the duty of the examiners to report same to Court, with a recommendation as to the cancellation of the apprenticeship agreement, or such other remedial measures as they may deem advisable. The Court, after notice to all parties concerned, may cancel the agreement or make such order in the circumstances as it may deem necessary.
