88. When, during the currency of the year in respect of which a water rate has been levied, a meter is attached to a pipe on any land supplied with water, the consumer shall pay for the quantity of water taken, as registered by the meter, from the time when the meter was attached, at the prescribed price per 1,000 gallons, so far as the water supplied is in excess of the quantity to which the consumer is entitled in respect of the proportionate part of the rate paid by him, apportioned to the period from the date when the meter was attached to the end of the then current year in respect of which the rate was paid.

Payment for Excess Water.

89. Every consumer taking water in excess of the quantity to which he is entitled in respect of the rate or other charge in lieu of the rate shall pay for the excess in accordance with prices set forth in the Schedule I hereto.

The service shall not be restored until such fee has been paid.

Private Fire Services.

94. Private fire services will be allowed, but every such service shall be sealed, except in cases where the Minister may decide that sealing is unnecessary. For each such service the owner or occupier shall pay in advance the actual cost of installation and a minimum annual fee and meter rent as determined by the Minister in each case, and such owner or occupier shall also bear the cost of maintaining the boundary service and of having it disconnected when it is no longer required. The owner or occupier for the time being shall in addition at his own risk and expense, and subject to the provisions of these By-laws, keep the internal fire service in good order and repair, so that the same shall at all times be in

The Minister may in his discretion adequately reward any person (not being the person in fault) who shall communicate timely information to the Minister of any leakage or waste of water, whether the same be accidental, negligently or wilfully occasioned or suffered, or who shall give such information as shall lead to the conviction of any person or persons who shall steal or cause to be stolen or improperly appropriated the water of the Minister.

72. The Minister may at such times and for such purposes as he may deem necessary and expedient, prohibit the use of water for garden purposes and all purposes other than domestic and industrial, except with his permission in writing.

The Minister may also at and for such times and for such purposes as he may deem necessary and expedient, by notice in any newspaper circulating in the district, limit the use of water for any purpose and may prohibit the use of any hose or fixed or other mechanical device and/or sprinklers at such times and during such hours as he may deem fit.

Any person contravening this by-law shall be liable to a penalty not exceeding £20, and in the event of a continuing breach to a further penalty not exceeding £5, for each day such breach shall continue.

Fixing of Meters.

73. Any officer appointed by the Minister for the purpose may fix a meter on any service, and shall determine the size and class of meter in each case. Meters will be supplied by the Minister, and may be open or encased, at the discretion of the Minister.

It shall be at the discretion of the Minister as to whether or not a meter shall be fixed in each case.

This by-law shall not apply to water for railway purposes.

Period for Reading.

77. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

Averaging of Consumption.

78. During the time any meter is undergoing repairs, or should it cease to properly register, the consumption of water, the Minister or any officer appointed by the Minister may, at his option, estimate the quantity of water consumed by taking an average of the quantity used during any previous period or by adopting any other basis of adjustment as the Minister may determine, and the quantity, so ascertained shall be paid for by the consumer.

Testing of Meters.

79. If any consumer shall at any time be dissatisfied with any particular reading of a meter, and be desirous of having the meter tested, he shall give written notice thereof to the Minister or his officer within seven days of such reading, and thereupon the said meter shall be tested by passing through it a predetermined quantity of water, and if upon such testing it shall appear to the satisfaction of the Minister or his officer that the meter registered more than five per cent. in excess of the quantity that shall actually pass through it at such testing, then the Minister shall bear the expense of and incidental to such testing, and shall also adjust the charge to the said consumer, but if the meter upon such testing shall not register more than five per cent. in excess of the quantity that shall actually pass through it, then the consumer shall pay to the Minister all

the expenses of and incidental to such testing, provided that the expense of every test shall be fixed by the Minister, subject to a minimum charge of ten shillings for each test; provided also, that the consumer shall not be at liberty to avail himself of the right to test the registration of the meter for any period other than the period of registration next preceding the date of reading in respect of which he shall have given notice as aforesaid.

The Minister may, from time to time, amend, alter, or cancel any or all of the standard fittings or type drawings, and replace them by such other fittings or drawings as he may approve of.

Junction or Interference with Pipes and Fittings.

83. No person shall make any connection or interference with any pipe or fitting of the Minister or with any water pipe or fitting communicating therewith, at any other place than shall be approved of by the Minister, and the mains shall only be tapped by the workmen of the Minister.

Inspection of Works.

84. Work shall not be undertaken in connection with water supply, or in the extension or alteration thereof, until such time as the necessary printed permit is obtained. Two days' notice shall in all cases be given by the licensed plumber before work is intended to be commenced, unless the officer of the Minister duly appointed to issue permits expressly accepts shorter notice. In no case shall any water pipes or apparatus in connection with water supply be used until the said work shall have been inspected, and, if necessary, tested by the said officer, and certified by him on the prescribed form. No underground or enclosed work shall be covered up or concealed from view until the same shall have been duly inspected and passed by the Inspector, and for this purpose the person to whom the permit has been issued shall immediately report any work which is ready for inspection or test, and every facility shall be afforded to such officer for making such inspection or tests.

Division VII.

Rates and Charges.

Rating.

85. (a) Within the Kulin Water Area the water rate shall be, within townships, at a rate not exceeding three shillings in the pound per annum upon the net annual value of all rateable land: Provided that a minimum rate of not exceeding one pound per annum shall be payable on each separately assessed piece of land.

(b) In making rates a distinction may be made between occupied and vacant land, and in the event of a dispute as to whether or not land shall be regarded as vacant, the decision of the Minister shall be final in every case.

Rates—How Payable.

86. Water rates shall be payable within one month after notice of assessment has been issued to the ratepayer.

Allowance for Rate.

87. Subject to the provisions of these by-laws every ratepayer will be entitled to consume on each separately assessed piece of land of which he is the owner or occupier that quantity of water which, if calculated at the price specified in the Schedule I. hereto as being that at which water is supplied in return for the rate in the area in which such property is situated would amount to the equivalent of the water rate paid on each property, provided that such water is taken during the period for which the rate is struck.

88. When, during the currency of the year in respect of which a water rate has been levied, a meter is attached to a pipe on any land supplied with water, the consumer shall pay for the quantity of water taken, as registered by the meter, from the time when the meter was attached, at the prescribed price per 1,000 gallons, so far as the water supplied is in excess of the quantity to which the consumer is entitled in respect of the proportionate part of the rate paid by him, apportioned to the period from the date when the meter was attached to the end of the then current year in respect of which the rate was paid.

Payment for Excess Water.

89. Every consumer taking water in excess of the quantity to which he is entitled in respect of the rate or other charge in lieu of the rate shall pay for the excess in accordance with prices set forth in the Schedule I. hereto.

Fees—State or Commonwealth Government Departments.

90. For each water service for purposes of any State or Commonwealth Department there shall be payable, as a minimum annual fee in lieu of water rate, the sum of not less than one pound (£1) when the service is metered, and of not less than one pound ten shillings (£1 10s.) when the service is non-metered.

Fees for Additional Services.

91. In any case where the owner or occupier of any separately rated piece of land requires more than one service to be installed for supplying water to such land, such additional service or services shall, at the discretion of the Minister, be installed on such occupier or owner paying in advance the cost of installation and a fee of not less than one pound per annum in addition to meter rent, for each additional service. In return for such fee an equivalent quantity of water will be given in each year, in the same way as water is given in return for water rates.

Reconnection Fee.

93. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or by reason of a defective service, or by request of the occupier or owner, or when, in the opinion of the Minister or local officer, necessary to prevent waste of water, or for other reasons, a minimum fee of five shillings shall be charged before the service is reconnected, provided that where the cost of disconnection and reconnection exceeds the minimum fee the actual cost of the disconnection and reconnection, as determined by the Minister, shall be charged, and shall be payable by the owner or occupier for the time being, on demand. The service shall not be restored until such fee has been paid.

Private Fire Services.

94. Private fire services will be allowed, but every such service shall be sealed, except in cases where the Minister may decide that sealing is unnecessary. For each such service the owner or occupier shall pay in advance the actual cost of installation and a minimum annual fee and meter rent as determined by the Minister in each case, and such owner or occupier shall also bear the cost of maintaining the boundary service and of having it disconnected when it is no longer required. The owner or occupier for the time being shall in addition at his own risk and expense, and subject to the provisions of these By-laws, keep the internal fire service in good order and repair, so that the same shall at all times be in accordance with the By-laws. No water shall be taken from any sealed portion except for extinction of fire. In the event of the seal having been broken in case of fire or by accident or otherwise, the owner or occupier shall give notice forthwith to the Department and pay the cost of re-sealing.

Building Fees.

95. Where water is required for building purposes the Minister may permit the supply thereof at prices as set forth in Schedule I. hereto and on the following terms:—

(a) All fees shall be paid in advance. If any work is done other than that mentioned at the time of applying to the Minister, the same shall be paid for in advance, or the whole supply will forthwith be cut off.

(b) It shall be at the discretion of the Minister as to whether or not in any case a supply of water shall be classed as a supply for building purposes, and as to whether or not the supply shall be measured by meter.

(c) Applications for water under this by-law shall be in writing, stating the nature of the work to be done and the purpose for which water is required.

When Accounts Due and Payable.

96. Where water is supplied by measure to the owner or occupier of land, whether rated under the Act or otherwise, payment for same shall become due and payable within 14 days after due service of the account, unless otherwise agreed upon.

Pingelly Road Board.

Long Service Leave By-laws.

P.W. 386/46.

THE Pingelly Road Board, under and by virtue of the powers conferred on it in that behalf by the Road Districts Act, 1919-1948, and all other powers enabling it, doth hereby make and publish the following by-laws:—

1. In the interpretation of these by-laws the following words shall have the meaning assigned to them hereunder:—

“Board” means the Pingelly Road Board.

“Continuous service” means service in the employment of this Board during which an employee has not been absent from the service of the Board for a continuous period of more than two days or an aggregate period of more than 10 days without leave of absence being granted by the Board, provided that an employee who was employed by the Board on a permanent basis immediately prior to entering continuous full-time service with the armed forces of the Commonwealth of Australia, or who was directed by the Manpower Directorate to serve elsewhere, between the 3rd day of September, 1939, and the 3rd day of March, 1947, shall have such service counted as continuous service with this Board, provided the requisite proof is produced.

2. (1) All present and future employees of the Board shall after each period of 10 years' continuous service as permanent full-time employees thereof, commencing from the 1st day of January, 1946, be entitled to three months' long service leave.

(2) Long service leave shall be taken at the convenience of the Board, which will, as far as possible, meet with the wishes of the employee, but the Board may require the employee to take leave by giving not less than three months' notice.

3. Absence on account of sickness shall not be deemed to be a break in continuity of service, provided the period of absence shall not exceed three months in any year, unless otherwise decided by the Board.

4. The Board may grant long service leave to an employee of the Board who has been granted long service leave for 10 years' continuous service if, before a further period of 10 years' continuous service is reached, such employee retires from the Board's service owing to having reached the retiring age, or of permanent inability to carry on his employment, in which case the long service leave may be adjusted pro rata.

5. In the event of the resignation, retirement, or death of an employee, the Board may pay to such employee (or in the case of death, to his

personal representatives, or if there be none to his dependants), a sum of money equal to his wages or salary for the period of long service leave which the Board was empowered under these by-laws to grant to such employee at the date of his resignation, retirement, or death, or if the Board, after consideration of all the circumstances, directs that the death of an employee be presumed, the Board may authorise the payment to the dependants of the employee a sum equivalent to the amount of wages or salary which would under this by-law have been granted the employee immediately prior to the date of his death, such date to be determined by the Board.

6. An employee dismissed by the Board, except in the matter of retrenchment shall not be paid any sum in pursuance of the preceding by-law.

7. (1) Employees due to take long service leave shall be paid their salary or wage for the period thereof at the rate equivalent to the salary paid in the week immediately preceding the taking of long service leave.

(2) The Board may, at its discretion, either (a) pay to an employee his wages or salary periodically during long service leave, or (b) pay to the employee in advance a sum representing the amount of his wages or salary for the period of his long service leave.

8. (c) If after one months' continuous service in any qualifying twelve-monthly period a worker lawfully leaves his employment, or his employment is terminated by the employer through no fault of the worker, the worker shall be paid one-sixth (1/6th) of a week's pay at his ordinary rate of wage in respect of each completed month of continuous service.

(d) Any time in respect of which a worker is absent from work except time for which he is entitled to claim sick pay or time spent on holidays or annual leave as prescribed by this Award shall not count for the purpose of determining his right to annual leave.

(e) A worker who is dismissed for misconduct or who illegally severs his contract of service shall not be entitled to the benefit of the provisions of this clause.

(f) The provisions of this clause shall not apply to casual workers.

(g) Upon annual leave becoming due it shall be taken at a time agreed upon in writing between the worker and the employer, but if the agreed date of commencement is postponed at the request of the employer he shall pay double time for all work done after the agreed date, and in no case shall the money be paid instead of the leave.

15.—Roster.

(a) A roster of the working hours of all workers shall be kept in the principal bar.

16.—Copy of Award.

Each employer shall keep on some portion of his business premises a copy of this Award, if supplied by the Union, where it shall be open to the inspection of the worker at all reasonable times.

(b) Payment hereunder may be adjusted at the end of each calendar year or at the time the worker leaves the service of the employer, in the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred.

(c) This clause shall not apply when the worker is entitled to compensation under the Workers' Compensation Act.

(d) A worker shall not be entitled to receive any wages from his employer for any time lost through any accident not arising out of or in the course of his employment or for any accident wherever sustained arising out of his own wilful default or for sickness arising out of his own wilful default.

(e) No worker shall be entitled to the benefits of this clause unless he produces proof satisfactory to his employer of sickness, but the employer shall not be entitled to a medical certificate unless the absence is for three (3) days or more.

(f) Notwithstanding the provisions of subclause (e) hereof, a worker who has already been allowed paid sick leave on one occasion, shall not be entitled to payment for any further absence unless he produces to the employer a medical certificate stating that he was unable to attend for duty on account of personal ill-health.

(g) Sick leave shall accumulate from year to year so that any balance of the period specified in subclause (a) of this clause which has in any year not been allowed to any worker by his employer as paid sick leave may be claimed by the worker and, subject to the conditions hereinbefore prescribed, shall be allowed by his employer in any subsequent year without diminution of the sick leave prescribed in respect of that year: Provided that sick leave which accumulates pursuant to this subclause shall be available to the worker for a period of two (2) years but no longer from the end of the year in which it accrues.

(h) For the purpose of assessing a worker's entitlement to accumulated sick pay, subclause (g) hereof shall be deemed to have become operative as from the date of delivery of this Award.

18.—Breakdowns, etc.

The employer shall be entitled to deduct payment for any day or portion of a day upon which the worker cannot be usefully employed because of any strike by the Union or Unions affiliated with it, or by any other Association or Union, or through the breakdown of the employer's machinery or any stoppage of work by any cause which the employer cannot reasonably prevent.

19.—Area.

This Award shall apply to the area comprised within a radius of twenty (20) miles from the General Post Office, Perth, and any portion of the Fremantle Licensing District situated beyond that radius.
