F. and S. 342/51, Ex. Co. 1192.

WHEREAS it is enacted by section 115 of the Factories and Shops Act, 1920-1948, that the expression "Public Holiday" shall mean certain

days therein specified and any other day declared by Proclamation to be a public holiday for the purposes of the said Act: Now, therefore I, the said Governor, acting by and with the advice and consent of the Executive Council, do hereby proclaim and declare that Thursday, the 12th day of July, 1951, shall be a public holiday within the Koorda Shop District, for the purpose of section 115 of the Factories and Shops Act, 1920-1948, and all shops (except those mentioned in the Fourth Schedule) and warehouses, shall be closed.

Given under my hand and the Public Seal of the said State, at Perth, this 28th day of June, 1951.

By His Excellency's Command,

L. THORN,
Minister for Labour.

GOD SAVE THE KING ! ! !

AT a meeting of the Executive Council, held in the Executive Council Chamber, at Perth, on the 28th day of June, 1951, the following Order in Council was authorised to be issued:—

Land Act, 1933-1950.

ORDER IN COUNCIL.

Corres. No. 6033/49.

WHEREAS by section 33 of the Land Act, 1933-1950, it is, *inter alia*, made lawful for the Governor to direct that any land reserved pursuant to the provisions of the Act shall be leased for the purpose for which the land is reserved as aforesaid, by instrument of lease in accordance with the form in the Fourth Schedule of the Act, to any person (as defined in the said section); and whereas it is deemed expedient that reserve No. 23278 (Windell Location 4) shall be leased for a term of 15 years and thereafter from month to month to the Commonwealth of Australia to be held in trust for the purpose of an "Aerial Landing Ground": Now, therefore, His Excellency the Governor, by and with the advice and consent of the Executive Council, doth hereby direct that the abovementioned reserve shall be leased for a term of 15 years and thereafter from month to month to the Commonwealth of Australia to be held in trust for the purpose of an "Aerial Landing Ground."

R. GREEN,
Acting Clerk of the Council.

AT a meeting of the Executive Council, held in the Executive Council Chamber, Perth, this 11th day of July, 1951, the following Orders in Council were authorised to be issued:—

Public Works Act, 1902-1950.

Carnamah School and Police Station with Road Approach.

ORDER IN COUNCIL.

P.W. 1298/48, Ex. Co. No. 1296.

IN pursuance of the powers conferred by section 11 of the Public Works Act, 1902-1950, His Excellency the Administrator acting by and with the advice and consent of the Executive Council doth hereby authorise the Honourable Minister for Works to undertake, construct or provide Carnamah School and Police Station with Road Approach on the land shown coloured green and brown on Plan P.W.D., W.A. 32812 (L.T.O. MUNICIPAL CORPORATIONS ACT, 1906-1947.

Midland Junction Municipality.

Building By-law No. 1.

P.W. 1102/38.

A BY-LAW of the Municipality of Midland Junction, made under sections 180 and 338 of the Municipal Corporations Act, 1906-1947, and numbered No. 1 for regulating building.

In pursuance of the powers conferred by the said Act, the Mayor and Councillors of the Municipality of Midland Junction order as follows:—

Part 1.—Operation and Definition.

Application.

1. This by-law shall apply to all lands and buildings within the area of the Midland Junction Municipal District.

Commencement.

2. This by-law shall come into operation immediately upon its confirmation and approval by the Governor and publication in the *Government Gazette*.

Repeal.

3. From the date of the coming into operation of this by-law, the building by-laws published in the *Government Gazette* of 3/4/1908, pages 893-895, the *Government Gazette* of 26/7/1929, page 17361, and the *Government Gazette* of the 9/10/1931, page 2239, in force for the Midland Junction Municipal District are hereby repealed.

Definitions.

4. In this by-law subject to the context:—

“Act” means the Municipal Corporations Act, 1906-1947, and amendments.

“Alteration” means any work made or done for any purpose in, or on a building (except that of necessary repairs not affecting the construction of any external, cross, or party wall), or any change in the purpose for which the building or erection, or any part thereof shall be used.

“Apartment” means a room or rooms or part of a building intended or adapted for a separate occupation as a dwelling, and includes a flat.

“Apartment Building” means a building containing two or more apartments.

“Approved” means approved by the Council in writing or (in case where the surveyor is authorised by the Council to do so) approved by the surveyor in writing.

“Area” applied to a building means the sum of the superficies of the horizontal sections of each storey made at the point of the greatest surface of each floor, inclusive of the external walls and such portions of the party walls as belong to the building.

“Build” means and includes erect, build, or construct, or cause to be erected, built or constructed.

“Building” means and includes erection, structure, detached room, out-building, hoarding and every structure of whatever kind capable of affording protection or shelter, either roofed, or intended or adapted to be roofed, and whether enclosed by roofs or not, and every part of such structure and any addition or alteration thereto.

“Builder” means the master builder or other person employed to execute any work, or, if there is no master builder or other person so employed, then the owner of the building or other person for whom or by whose orders such work is to be done.

“Council” means the Midland Junction Municipal Council.

“Dwelling-house” means a building used or adapted to be used wholly or principally for human habitation.

“District” means the Midland Junction Municipal District.

“External wall” means the outer wall of a building, not being a party wall, even though it adjoins a wall of another building.

“Fire-resisting” used with reference to any materials includes (a) brickwork constructed of good bricks well burnt hard and sound, properly bonded and solidly put together with good lime or cement mortar; (b) any stone suitable for building purposes by reason of its solidity or durability; (c) sheet metals or other similar materials which are, in the opinion of the Council fire-resisting; (d) iron and steel (when used for columns, girders, or wall framing) encased in cement, concrete, or other incombustible or non-conducting external coating; (e) slate, tiles, brick, and terra-cotta, when used for covering or corbels; (f) concrete when composed of broken bricks, stone chippings, or ballast and lime cement or calcined gypsum.

“Frontage” means the distance measured at right angles to one of the sides of the land from the terminal point thereof to the opposite side, or a continuation of such opposite side.

“Garage” means any building used for the housing of a motor vehicle (not being a garage carried on as a business undertaking).

“Height” in relation to any building means measurement taken from the level of the footway (if any) immediately in front of the centre of the building, or when there is no such footway

from the level of the ground before excavation to the level of the ceiling or tie of the topmost storey.

“Height” in relation to storey means:—(a) In the case of the topmost storey, the measurement between the floor and the ceiling thereof, or between the floor and the undersurface of the tie of the roof, or if there is no tie, then up to the level of half the vertical height of the rafters, or other support of the roof; (b) in the case of every storey other than the topmost storey, the measurements between its floor and the floor above.

“Hoardings” include any erection or structure erected, built, constructed, or used, or that may be used for the purpose of writing, painting, pasting, or posting thereon notices, advertisements, placards, or other printed, painted, or written matter, or any erection or structure, being of a greater height than six feet from the level of the adjoining street.

“Main rooms” means and includes all rooms used or intended to be used as bedrooms, dining-rooms, lounges, ordinary living rooms or kitchens.

“New buildings” includes:—(a) Any building erected or commenced to be erected after the date of this by-law coming into operation; (b) any building of which more than half of its cubical contents has been taken down or destroyed by fire, tempest or otherwise, and is re-erected, or commenced to be re-erected wholly or partially on the same site after the date of this by-law coming into operation; (c) any buildings removed or transported wholly or in sections into the district or to another part of the district after the date of this by-law coming into operation.

“Outbuildings” means any building on the curtilage of any dwelling, shop or combined shop and dwelling used as a workshop or storeroom not being a building for the storage of inflammable materials, nor for the housing of animals, including birds.

“Party wall” means a wall built to be used as a separation of two or more buildings or a wall forming part of a building built upon the dividing line between adjoining premises for the common use.

“Person” includes corporation.

“Prescribed” means prescribed by this by-law.

“Public place” has the same meaning as in the Act.

“Reinforced concrete” means a form of construction in which cement concrete is reinforced with iron or steel, these materials being so combined that the iron or steel will take up and resist substantially the whole of tensional stresses and assist in the resistance to shear, while the concrete will take up and resist the compressional stresses and assist in resistance to shear.

“Right-of-way” means any lane or right-of-way, not a road, over which any person other than the owner thereof has a right of carriage way.

“Road” has the same meaning as in the Act.

“Surveyor” means the building surveyor or acting building surveyor appointed by the Midland Junction Municipal Council having for the time being the administration of this by-law.

“Shop” means a building in which goods are regularly offered or exposed for sale, or in which meals or refreshments are regularly offered or provided for payment, and also includes saloons of barbers and hairdressers, and offices of agents, auctioneers, and all other businesses and trades. A *bona fide* boarding-house shall not be included in this definition by reason only of the fact that meals or refreshments are occasionally supplied for payment to persons other than boarders.

“Square” applied to the measurement of any area means the space of one hundred square feet.

“Surface or ground level” means the level of the ground as determined by the surveyor or engineer.

“Wooden building” means buildings constructed of wood, or buildings having wooden frames.

Part 2.—Classes of Buildings.

5. For the purpose of this by-law, buildings shall be divided into three classes:—

Class A.—“Domestic class” which includes all buildings subject to small vibrations and light loading of floors, such as dwelling houses, residential shops, offices, hotels, private schools, club houses and studios.

Class B.—“Warehouse class” which includes all buildings subject to vibrations and heavy loading of floors such as warehouses, factories, mills and places for storage and manufacturing of goods.

Class C.—“Public building class” which includes all buildings designed to accommodate an assemblage of people, such as theatres, churches, chapels, assembly halls, museums, libraries, public schools, hospitals, lecture rooms, and other like buildings. In case of doubt the surveyor shall finally determine to which class any particular building belongs.

Part 3.—Notice of Intention to Build or Demolish and Lodging of Plans.

Notice to be Given.

6. No builder shall commence any building, or any addition, or alteration to any building without first delivering at the office of the Council written application in the form of the First Schedule hereto before so commencing and delivering to the surveyor.

Plans and Specifications.

(a) Properly prepared plans and specifications of such building addition or alteration together with a tracing or copy of the plans of such building, addition, or alteration, and also details and dimensions, sizes and qualities of all materials and enumerating any old materials proposed to be used in the construction of the same. Plans shall be drawn in ink and specifications typed or legibly written. Plans to be of good quality parchment 22 inches by 15 inches. Scale $\frac{1}{8}$ inch to 1 foot.

Block Plan.

(b) A block plan showing relation of the building to adjoining buildings and boundaries.

Purpose.

(c) A statement in writing of the purpose for which the building is intended to be used.

Drainage.

(d) Particulars of the proposed method of drainage.

Further Particulars.

(e) Such further particulars in writing regarding the same as shall be necessary to enable the Council or its surveyor to determine if all the provisions of this by-law applicable thereto are being complied with.

Tracing Retained.

7. The tracing or copy of the plans and details of materials shall be retained by the surveyor and the original plans and specifications when approved shall be evidenced in writing endorsed on the plans and specifications and signed by the surveyor.

Plans, etc., to be kept at Building.

8. Such plans and specifications shall be kept at the building therein referred to, and shall be available for inspection by the surveyor or accredited officer of the Council at all reasonable times on demand, during the construction or erection or alteration, or addition, as the case may be, and for 14 days after the completion thereof.

Permits and Fees.

9. No person shall commence a building of any kind or addition or alteration to any building, or demolish any building without first having obtained from the surveyor a written permit for the commencement of the same and without having first paid to the Council fees in accordance with the scale set out in the Second Schedule hereto, having regard to the class of building.

Area of New Building.

10. The decision of the surveyor as to the area of a new building, or value of an addition shall be final and conclusive.

Permit shall Lapse after Six Months.

11. A permit obtained pursuant to this by-law shall lapse and be of no effect unless the building for which such permit was granted shall be commenced within six months and completed within twelve months from the date of such permit.

Surveyor may enter and Inspect.

12. The surveyor at all reasonable times during the progress and after the completion of any building, or addition, or alteration to any building affected by this by-law, may enter and inspect such building, or addition, or alteration. Any person obstructing or hindering the surveyor shall be liable to a penalty of not more than ten pounds (£10).

Surveyor may stop work if Contrary to By-laws.

13. The surveyor may at any time stop the progress of any building and withdraw or suspend any permission given by the Council under this by-law, in the event of his not being satisfied that all the provisions of this by-law are being complied with, and any person who continues to build, or erect, or works on the site after notice from the surveyor to desist, shall be guilty of an offence against this by-law.

Demolition or Removal of Buildings.

14. When a building is to be demolished or removed the owner or contractor shall give 24 hours' notice to the surveyor of such intended demolition or removal.

15. Provision shall be made so as to avoid all nuisance from dust or falling refuse by playing water on same by means of a hose or other approved method.

Sanitary Conveniences for Workmen.

16. Before commencing any building operations upon any building site, the contractor, or person responsible for carrying out building operations shall provide sanitary conveniences sufficient for the use of all working upon the site, such sanitary conveniences shall be in accordance with the requirements of the Health Act.

Low-lying Land.

17. Where land upon which a building is to be erected is below the level of the crown of the road adjoining the land frontage, no building shall be commenced until a level has been given by the surveyor. When it is considered by the surveyor that, having regard to the water level during winter months, filling is required, such filling shall be carried out by the owner or contractor before the commencement of building operations. In the event of there being no made road from which to take the level for any building, the surveyor shall determine the level at which any building shall be commenced and if he considers it to be necessary shall require the owner or contractor to fill in to a given level.

Dwelling Houses.

Distance from Road.

18. No building which is intended to be used as a dwelling house, and no addition to any such building, shall be built within a distance of 30 ft. measured horizontally from the boundary line to the building fronts, unless a building line at a different distance has been fixed by a proper authority.

Distance from Side Boundary.

19. No building which is intended to be used as a dwelling house and no addition to any building which is intended to be used as a dwelling house shall be built within a distance of 3 ft. if of brick, or 6 ft. if of wood or wood frame measured horizontally from the boundary of the allotment on which such building is erected.

Minimum Area of Open Land.

20. At least one-third of the area of any allotment on which a dwelling house is erected shall be left open and unbuilt on and for the exclusive use of the occupiers of the buildings erected upon such allotment.

Minimum Area of Dwelling House.

21. Every dwelling house shall consist of a total area of a least 500 square feet, excluding verandahs.

Provision of Bathroom, Wash-troughs, Copper, etc.

22. Provision shall be made in all new, or re-erected dwellings for a bathroom fitted with bath and wash-basin, also laundry facilities consisting of wash-troughs and copper, properly fitted and housed in accordance with any provisions of the Health Act and any regulations or by-laws made thereunder which may from time to time be applicable.

Computing Distances.

23. For the purpose of computing distances from any building, the outer face of the wall shall be taken as the point from which measurements are to be taken.

Occupation of Dwelling.

24. No person or persons shall occupy any new or re-erected dwelling before completion, nor shall any person or persons occupy any new or re-erected dwelling until a certificate has been issued by the surveyor in writing, stating that the dwelling has been completed in accordance with the plans approved by the Council, the building by-laws and the Health Act.

Stables.

25. Stables may be erected with walls of brick, stone or concrete, or other material approved by the Council provided that in stables of more than two squares in area, the distance of any wall of such stable from land not in the same occupation or possession shall not be less than the vertical height of such wall including the vertical portion of a gable and roof from the boundary of the land not in the same occupation or possession.

Distance of Stables from Boundaries.

26. No stable may be erected nearer than 30 ft. to any dwelling, nor nearer than 10 ft. to the boundary of land not in the same occupation.

Fowl-houses.

27. Fowl-houses of not more than 200 square feet in area and not above 6 ft. in height may be erected at rear of dwelling, provided that the nearest portion of such fowl-house is at least 30 ft. from any building used as or intended for a dwelling, and at least 4 ft. from the boundary of land not in the same occupation.

Fowl-houses of larger area may be erected if at a distance of at least 50 ft. from any street and 40 ft. from any dwelling house and at least 4 ft. from the boundary of land not in the same occupation. They must be of fire-resisting materials approved by the surveyor, and the building shall not be more than 7 ft. high.

Materials for Garages.

28. Every garage shall be constructed of fire-resisting material unless otherwise approved by the Council. Where fire-resisting sheets are used for walls, framing and dado of approved hardwood may be used.

Position of Garage.

29. No garage shall be erected nearer than the dwelling house to which it is appurtenant to any road fronted by such dwelling house. Provided that if there is no means of access for motor vehicles to the rear portion of the allotment on which such dwelling house is erected, a garage may be erected on the front boundary of such allotment subject to a plan showing the exact

position in which garage is proposed to be erected, and the approximate position of any buildings in the allotments adjoining, together with the design of the garage proposed to be erected, and the front elevation thereof being submitted to and approved of by the Council but so that no part of such garage shall be between the dwelling house and the road.

In special cases where the physical configuration or dimensions of the ground preclude the observance of the distances prescribed, the Council may permit the erection of a garage in another position.

Doors of Garage.

The doors of a garage when opened shall not encroach on any road.

Garage Incorporated with Dwelling.

Where a garage is incorporated as part of the main building it shall in all respects conform thereto, but must have a ceiling of fire-proof material approved by the surveyor.

Garages on Corner Blocks.

No garage shall be erected on a corner block at a less distance from the road on the side boundary than the adjoining building is from such road, or if there is no adjoining building, at a less distance than 20 feet from such road.

Apartment Buildings.

Area of Land to be Occupied.

30. The total floor area of an apartment building together with the floor area of any other buildings erected on the same allotment, shall not exceed half the area of such allotment.

Area of Each Apartment.

31. The total floor area of each apartment shall be at least 400 square feet. In addition thereto, every apartment shall have for the exclusive use of the occupants thereof, at least 100 square feet of verandah space.

Area of Main Rooms.

32. Every main room in an apartment shall have a floor area of at least 100 square feet and no wall of such room shall be less than 9 ft. in length.

Apartment to be Self-contained.

33. Every apartment shall be self-contained; it shall contain its own kitchen, bathroom and lavatory. It shall have separate entrance from the outside of the building, and such entrance shall be constructed of fire-resisting material as defined in the Building By-laws of the Council for the time being in force.

Part 4.—Building Materials.

34. All workmanship and materials used in the construction or alteration of any building shall be the best of their respective kinds and in accordance with recognised building practice; all materials used in any building must be of good quality and shall be subject to the approval of the surveyor, and the surveyor shall have the power to condemn any material which in his opinion is not suitable for use in such building or addition.

Secondhand Material

35. No old or secondhand material may be used in any building unless approved in writing by the surveyor.

Bricks.

36. Bricks used in any building must be good, hard and well burnt. When old bricks are used in any wall they shall be thoroughly cleaned before being used.

Sand.

37. Sand used for mortar or concrete in any building shall be clean and sharp and free from loam, dirt, salt or organic matter.

Lime Mortar.

38. Lime mortar shall be composed of freshly burnt lime and sand in the proportion of at least one part by measure of lime, and not more than three parts by measure of sand. All lime intended to be used for mortar shall be thoroughly burnt, of good quality, and be properly slaked before being mixed with sand.

Cement Mortar.

39. Cement mortar shall be composed of good Portland cement or other cement of equal quality, mixed with clean sharp sand, in proportion of at least one part by measure of cement and not more than four parts by measure of sand.

Timber.

40. All timbers and wooden beams used in any building shall be of good sound material, free from rot, large loose knots, shakes, or other imperfections whereby the strength may be impaired, and, in the case of dwellings, shall be of such sizes, dimensions and spaces as set forth in paragraphs 41 and 68. In other buildings all timbers shall be of such as will afford safe loadings, and shall be to the satisfaction of the surveyor.

Dimensions of Timber.

41. The timber used in brick dwelling-houses shall conform to not less than the following minimum sizes:—

Bottom wall plates, 3 in. x 2 in.

Floor joists, 4 in. x 2 in. at 1 ft. 6 in. centres.

Bearers, 4 in. x 3 in., not exceeding 5 ft. 6 in. centres, and shall be at least 6 in. clear of the ground.

Top plates, 4 in. x 1½ in.

Rafters, 4 in. x 2 in. at 2 ft. centres for other than iron roofs, or 3 ft. centres for iron roof.

Purlins, 4 in. x 3 in. for tile roof and 4 in. x 2 in. for iron or asbestos roof in such positions that no rafter has an unsupported span of more than 7 ft.

Struts to under purlins, 4 in. x 2 in. when not exceeding 4 ft. in length and 4 in. x 3 in. for lengths exceeding 4 ft. to support under purlins at least every 7 ft.

Battens for tiles 2 in. x 1 in.

Battens for iron, etc., 3 in. x 1½ in. not more than 3 ft. 6 in. apart.

Ceiling joists, 4 in. x 2 in. at 2 ft. centres or 3 in. x 2 in. at 18 in. centres.

Ceiling hangers, 8 in. x 1½ in. hung to roof timbers at least every 6 ft. and in positions so that no ceiling joist has an unsupported span of more than 7 ft.

Collar ties, 4 in. x 1½ in.

Ridge 7 in. x 1 in.

Hips and valleys, 8 in. x 1 in.

Lintels.

42. Builders casting lintels in position shall submit to the surveyor a plan showing position and details of reinforcement and specifications of materials to be used, such designs to be approved at the same time as the plan of the building. Lintels up to 6 ft. span shall be three courses in depth, lintels from 6 to 8 ft. span shall be four courses in depth. All such lintels shall be reinforced with at least half-inch steel rods, not less than three rods per lintel and proper bearing, to the satisfaction of the surveyor, shall be given at each end of lintel.

Part 5.—Construction.

Excavation and Inspection of Trenches.

43. All excavation for footings shall be not less than 12 in. below the natural surface of the ground, except in cases of special construction of foundations approved by the surveyor. No footing shall be placed in position until at least 24 hours' notice has been given to the surveyor that the trenches are ready for inspection.

Walls to Have Footings.

44. Unless with the consent of the surveyor, every external wall and every party wall not carried on a bressummer, and every pier and storey post shall have footings.

Dimensions of Footings.

45. The width of the bottom of the footing of every wall shall be at least one-half greater than the thickness of the wall at the ground floor level, but in no case less than 16 in. wide, unless approved by the surveyor and the height of such footing shall be at least equal to the thickness of the wall at its ground level, but in no case less than 9 in.

External Walls.

46. All external walls shall consist of brick, stone, concrete, reinforced concrete, or other hard fire-resisting material approved by the Council, provided that any building used or intended to be used solely as a dwelling house may have walls constructed of wood and/or asbestos cement sheets, subject to the conditions set out in this by-law for buildings wholly or partly of wood.

Construction of External Walls.

47. Every wall constructed of brick, stone, or other similar material shall be properly bonded and solidly put together with mortar, and no part of such wall shall overhang any part underneath it to a greater extent than 9 in. and as approved by the surveyor, and provided that the projection is well and solidly corbelled out, and that the inside of the wall carrying such corbelling is carried up vertically in continuation of the lower face thereof. All return walls shall be properly bonded together.

Damp Course

48. Every wall or fireplace of brick, stone, or similar material shall have a damp-proof course or courses of asphalt, distilled tar and hot sand or other approved material at least 6 in. above the surface of the ground below the lowest floor, and in cases where it is not desirable to place the same throughout the building at the one uniform level, then the said damp-course must be laid in horizontal layers connected at the end by a vertical course of the same materials and shall not be less than half an inch in thickness.

Hollow Walls.

49. External walls may be constructed as hollow walls if constructed in accordance with the following rules:—

- (a) The inner and outer parts of the wall shall be separated by a cavity which shall throughout be of a width not exceeding 2 in. or less than 1 in.
- (b) The inner and outer parts of the wall shall be securely tied together with suitable bonding ties of adequate strength formed of galvanised iron, glazed stoneware, or other material approved. Such tie shall be placed at distances apart not exceeding 3 ft. horizontally and at least every fifth course vertically.
- (c) The thickness of each part of the wall shall throughout be not less than 4½ in.
- (d) The aggregate thickness of the two parts excluding the width of the cavity, shall throughout be not less than the minimum thickness prescribed for solid walls of the same height and length.
- (e) No hollow wall of not more than 11 in. in thickness shall be greater in superficial extent than three squares in any one storey unless strengthened by a partition wall, fireplace or projecting pier, to the satisfaction of the surveyor.

Concrete Blocks.

50. Concrete blocks shall contain not less than one part cement to five parts mixed aggregate, and shall be kept damp for a period of not less than four days, and shall not be used green. The blocks shall be bedded and jointed in cement mortar.

Thickness of Walls, Domestic Class.

51. No external walls in brick, stone, concrete, or cement block shall have less than the thickness prescribed in the following Table "A."

Table "A"—Buildings of Domestic Class.

Length of Wall.	No. of Storeys.	Thickness of Walls in inches.	
		Ground floor.	First floor.
Walls built with lime mortar—			
Not exceeding			
30ft.	1	9	—

Not exceeding			
30ft.	1	9	—
	2	9	9
Exceeding 30ft.			
	1	9	—
	2	13½	9

52. If any storey exceeds in height 18 times the thickness prescribed for walls of such storey, the thickness of each external and party wall through such storey shall be increased to one-eighteenth part of the height of the storey and the thickness of each external and party wall below that storey shall be increased to that thickness, but any such additional thickness may be confined to piers properly distributed, of which the collective widths amount to one-fourth part of the length of the wall. No increase in thickness of brick walls shall be less than 4½ in.

53. The height of any storey may be 20 times the thickness of walls prescribed for such storey, if built with cement mortar.

Thickness of Walls, Warehouse Class.

54. The external and party walls of buildings of the warehouse class shall be made of not less thickness than that specified in the following Table "B":—

Table "B"—Buildings of the Warehouse Class.

Length of Wall.	No. of Storeys.	Thickness of Walls in inches.		
		Ground floor.	First floor.	Second floor.

Exceeding				
75ft.	1	13½	—	—
	2	18	13½	—
	3	18	18	13½

Thickness of Walls Under Certain Conditions.

55. Walls under 75 ft. in length may be constructed 9 in. thick, provided they are strengthened with 4½ in. piers equally spaced, of which the collective widths amount to one-fifth of the length of the wall. The height shall not exceed 12 ft. when built of lime mortar, or 13 ft. 6 in. when built of cement mortar.

56. The thickness of walls under 20 ft. in length may be two-thirds the thickness required for external or party walls, as stated in Tables "A" and "B" but in no case less than 9 in.

57. If in any storey of the warehouse class the thickness of the wall as determined by the provisions of this part of this by-law is less than one-sixteenth part of the height of such storey, the thickness of the wall shall be increased to one-sixteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to that thickness, but any such additional thickness may be confined to piers properly distributed of which the collective widths amount to one-fifth part of the length of the wall. No increase in

the thickness of brick walls shall be less than 4½ in. The height of any storey built in cement mortar may be 18 times the thickness of such storey.

Special Construction.

58. Notwithstanding the foregoing provisions, the Council may approve the construction of walls of special design, such as monocrete, denaro brick or reinforced concrete, or dimensions other than as specified above, but subject to limitations and conditions imposed by the Council as a condition of such approval.

Lengths—How Measured.

59. Walls are deemed to be divided into distinct lengths by return walls, and the length of every wall is measured from the face of one return wall to the face of another. Provided that such return walls are external, party or cross walls of the thickness required by this part of this by-law and bonded into the wall so deemed to be divided.

Cross Walls.

60. The thickness of a cross wall shall not be less than two-thirds of the thickness hereinbefore required for an external or party wall of the same dimensions and belonging to the same class of building, but never less than 9 in., and no wall subdividing shall be deemed to be a cross wall unless it is carried up to the plate level of the topmost storey, and unless in each storey the aggregate extent of the vertical faces or elevation of all recesses, and that of all the openings therein taken together does not exceed one-half of the whole extent of the vertical face or elevation of the wall. If a cross wall is carried on a girder across the ground storey and is supported by piers to the satisfaction of the surveyor, it shall be deemed to be a cross wall in accordance with this regulation; but in one-storey buildings of the domestic class, 4½ in. cross walls will be permitted, provided the unsupported length of any wall does not exceed 25 ft.

Cross Wall Becomes External Wall.

61. Whenever a cross wall becomes any part of an external wall, the external part of such cross wall shall be of the thickness required for an external wall of the same height and length belonging to the same class of building, but no portion of such cross wall shall be of less thickness than is required for the external portion thereof.

Internal and Partition Walls.

62. (1) All internal bearing walls and partition walls shall be constructed in such a manner as may be approved by the surveyor and except in the case of wooden buildings, all such walls shall be not less than 4½ in. thick, provided that, where such walls form a division between flats, then such walls shall not be less than 9 in. thick.

(2) Unless with the consent of the surveyor, every such wall, unless carried on a bressummer, shall have footings and such footings shall be at least twice the thickness of the wall resting upon it.

Isolated Piers.

63. No isolated brick or stone piers shall exceed in height eight times the least diameter of same, if built of lime mortar, and 12 times if built of cement mortar.

Parapet to Walls on Boundary.

64. Where the external wall of any building is erected on the boundary of the land on which the same stands, or where the overhanging eaves or gutters of any building would be within two feet of such boundary then the external wall of such building shall be carried up to form a parapet of 15 in. at least in height above the roof, or above the highest part of any flat or gutter, as the case may be.

Parapet, Warehouse Class.

65. In buildings of the warehouse class, the thickness of such parapet shall be equal to the thickness of such wall in the topmost storey, and in any other building of a thickness of 9 in. at least.

Party Walls.

66. Every party wall shall be carried up for a height of 15in. above the roof, measured at right angles to the slope thereof, or 15in. above the highest part of any flat or gutter, as the case may be, and of a thickness, in buildings of the warehouse class, equal to the thickness of such wall in the topmost storey and, in any other building, of a thickness of 9in. at least. Provided, however, that in the case of domestic buildings, where not more than two buildings are erected under one roof, it shall be sufficient if the party wall is carried up at least 9in. in thickness to the underside of the roof covering, and such roof covering of iron, slate, or other material must be bedded in good mortar to the satisfaction of the surveyor, and the top of such party wall shall not be hidden from view until it has been approved by the surveyor.

67. Every party wall shall be carried up to the thickness aforesaid above any turret, dormer, lantern light, or other erection of combustible materials fixed upon the roof or flat of any building within 4ft. of such party wall, and shall extend at the least 15in. higher and wider on each side than such erection, and every party wall shall be carried up above any part of any roof opposite thereto, and within 4ft. therefrom.

Buildings Wholly or Partly in Wood.

68. The external walls of any wooden building shall not exceed 15ft. in height, measured from the floor level to the top of the wall plates. Every such building shall be wholly in one occupation or adapted so to be.

The following shall be the minimum sizes and spacings of timbers:—

All timbers shall be jarrah or other hardwood approved by the Council. Where timbers larger than those specified are used the spacings may be extended beyond the figures given, provided the approval of the surveyor is first obtained.

Stumps, not less than 4in. x 4in. spaced not more than 5ft. centres. They shall be sunk 18in. into the ground and tarred to 6in. above ground surface. Ant stops of galvanised iron projecting 1in. all round shall be provided.

Sole plates, 18in. x 6in. x 1½in.

Where the nature of the ground precludes the use of jarrah stumps, 9in. x 9in. brick piers shall be provided.

Bearers, 4in. x 3in. at not more than 5ft. 6in. centres and kept at least 6in. clear of ground. Double joists shall be provided under walls where bearers do not occur.

Floor joists, 4in. x 2in. at not more than 18in. centres.

Vermin plates 4in. x 2in.

Studs, 4in. x 2in. at not more than 24in. centres.

Angle and corner studs, not less than 4in. x 4in. but may be comprised of three 4in. x 2in. studs fabricated together. Top and bottom plates, 4in. x 2in. where the height of a building does not exceed 10ft. measured from the floor level to the top of the wall plate, 3in. x 2in. studs and plates may be used with angle and corner studs not less than 3in. x 3in. or three 3in. x 2in. studs fabricated together, except where the roof covering is of tiles or slates, in which case 4in. x 2in. studs and plates are to be provided in all external walls.

Rafters, 4in. x 2in. at 2ft. centres for tile roofs and 3ft. centres for iron or asbestos roofs.

Under purlins, 4in. x 3in. for tile roofs, in positions so that no rafter has an unsupported span of more than 7ft.

Struts to under purlins, 4in. x 2in. for lengths not exceeding 4ft. and 4in. x 3in. for lengths exceeding 4ft. to support under purlins at not more than 6ft. intervals.

Battens for tiles, 2in. x 1in.

Battens for iron or asbestos, 3in. x 1½in. not more than 3ft. 6in. apart.

Ceiling joists, 4in. x 2in. at not more than 2ft. centres, or 3in. x 2in. at not more than 18in. centres.

Ceiling hangers, 8in. x 1½in. in positions so that no ceiling joist has unsupported span of more than 7ft.

Collar ties, 4in. x 1½in.

Ridge, 7in. x 1in.

Hips, 8in. x 1in.

Valleys, 8in. x 1in.

Fascias and barges, 9in. x 1in.

Floor boards, 1in. thick before dressing.

Weatherboards, 1½in. lap.

No framing timber in any building shall be notched or checked out so as to decrease the above sizes by more than one quarter.

Vermin plates shall be used in all wooden buildings except sheds.

W.C.'s. and privies shall be constructed not less than 5ft. x 3ft. internal dimensions and in accordance with any provisions of the Health Act and any regulations or by-laws made thereunder which may from time to time be applicable.

Roughcast and Stucco.

69. Roughcast and stucco work shall be applied only to brickwork, provided that in certain cases, such as gables of dwellings, or other ornamental sections of dwellings, roughcast may be applied to expanded metal fixed in an approved manner.

Interior Walls of Dwellings.

70. The interior of all walls and ceilings of every wooden or wooden-framed building, and the ceiling of every other class of building, which is intended to be used, or which may be used as a dwelling house, shall be constructed of plaster sheets, or other fire-resisting materials.

Roofs.

71. The roof of every building shall be constructed of metal, tiles, slates, glass, artificial stone, cement or shingles, or other material approved by the Council.

Reinforced Concrete Buildings.

72. In all cases where reinforced concrete is employed, whether in buildings as a whole or in portions of buildings, before the actual carrying out of the work, or any portion thereof, complete drawings of such work or portion shall be delivered to the surveyor, showing all details of the construction and the size, spacing, and arrangement of all reinforcing members.

Public Buildings.

73. In any case in which the plans of any proposed public building are required by law to be approved by the Public Health Department, or any other Department, such approval shall be obtained before such plans are submitted for the Council's approval.

Shops.

Minimum Area of Land.

74. (1) Every shop shall have a frontage of at least 18 ft., to a road.

(2) No shop shall be of less width in any part thereof than 18 ft.

Access to Rear of Shop.

75. Every shop shall be so erected and built that without passing through the building there is a reasonable access to the back premises and offices of such shop for the removal of night soil and other refuse to a road or land 10 ft. wide at least.

Separate Entrance for Shop and Dwelling in different occupations.

76. If a dwelling attached to a shop is in a different occupation from the shop, a separate entrance from the road shall be provided for the sole use of the occupants of the dwelling.

Alterations and Additions.

Alterations.

77. Except with the consent of the Council, or the surveyor, no alteration shall be made to any building in such manner that when so altered

it will by reason of such alteration, not be in conformity with the provisions of this by-law relating to new buildings.

Additions and Alterations.

78. Every addition to, or alteration of a building, and any other work made or done for any purpose in or on a building (except necessary repairs which do not affect the construction of a building) shall so far as regards each addition, or alteration or other work, be subject to the provisions of this by-law relating to new buildings.

Ventilation, Lighting and Drainage.

Height of Rooms.

79. The main rooms in all buildings shall be in every part not less than 9 ft. from floor to ceiling and the minimum height for wash-houses and external bathrooms shall be 7 ft. 4 in. The minimum height of verandahs shall be 7 ft. 4 in. from floor level to top of the plate.

Attic Roofs.

80. Provided that in the case of buildings of more than one storey, living rooms wholly or partly in the roof may be not less than 8 ft. 6 in. in height from floor to ceiling over two-thirds of the floor area, if the height over the remaining one-third of the floor area is at least 9 ft.

Minimum Area of Rooms.

81. No main room in any building shall have a less floor area than 100 square feet, and no wall of such room shall be less than 9 ft. in length. The minimum floor area of bathrooms, laundries and sleepouts shall be 36 square feet, 50 square feet, and 80 square feet, respectively.

Windows (Natural Lighting).

82. All rooms in a building intended to be used as a dwelling shall have one or more windows opening directly into external air; the area of such windows shall be not less than one-tenth of the area of the floor of the room in which such window or windows are fitted.

Ventilation (other than Dwellings).

83. The ventilation of all buildings, parts of buildings, type of ventilators to be used, arrangement and situation of ventilation openings, shall be subject to any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

Ventilation (Dwellings).

84. Every part, and every room of any dwelling house or building intended to be used for habitation, shall be ventilated as required under any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

Ventilation (Sub-floor).

85. The space under the ground floor of every building shall be provided with a sufficiency of openings through all walls under the floors to allow a current of air to flow freely under all parts of the building. Type of ventilator used and spacing of same shall be the subject of approval by the surveyor and in accordance with any provisions of the Health Act or any regulations or by-laws made thereunder which may from time to time be applicable.

Lighting and Ventilation (Shops).

86. The provisions of this part of this by-law relating to height of rooms, lighting and ventilating of main rooms to dwellings shall as far as applicable apply to all shops, save that the windows need not be constructed to open if other approved provisions for ventilation is made, and the minimum height of ceiling in shops shall be 11 ft.

Enclosing of Verandahs.

87. No verandah of any dwelling, or shop, or other building shall be enclosed, or built in such manner as to exclude natural light, or reduce the proper ventilation of any building or any part

thereof. The use of hessian or jute bags or similar materials for enclosing or screening verandahs is prohibited.

88. No verandah shall be totally enclosed for habitation or sleeping, but may be partially enclosed if a minimum height of 7 ft. 4 in. as hereunder:—

(1) A brick, concrete, jarrah or asbestos dado shall be constructed for a maximum height of 4 ft. from the floor level of such verandah or sleep-out in accordance with the existing by-laws.

(2) The space above the dado shall be constructed as follows:—

(a) Of fly wire totally; or

(b) of fixed clear or white obscure glass louvres minimum height of 4 ft.; or

(c) of mechanically adjustable (to open and partially close) clear or white obscure glass louvres, minimum height 3 ft. 6 in. sash;

(d) louvres described in (b) and (c) shall be approved by the Council or building surveyor.

(e) of sliding windows containing clear or white obscure glass, minimum height 3 ft. 6 in. sash (casement windows not permitted);

(f) the total length of the louvres or windows described in (b), (c), (e) shall not be less than 70 per cent. of the total length of the sleep-out or verandah measured along the side and one end, but the end exposed to weather (paragraph (g)) shall not be included in this measurement;

(g) subject to the approval of the Council or the building surveyor, the end of the verandah or sleep-out most exposed to the wet weather may be totally closed up in brick, concrete, jarrah, or asbestos, but one window, minimum size 3 ft. x 2 ft. shall be provided in such enclosed end if any existing window is in close proximity or may have its lighting reduced unduly by such total end enclosing.

(3) Any sleep-out or partially enclosed verandah shall provide that any existing windows shall not be obscured by any opaque substance which will reduce the existing lighting to existing rooms.

(4) New sleep-outs of minimum height of 7 ft. 4 in. (not being partially enclosed verandahs) shall comply fully with this by-law.

(5) The rules of this by-law shall not apply to a sleep-out where its height from the floor to ceiling is 9 ft. or more, providing the floor area is 80 square feet or more and providing its total air space is not less than 720 cubic feet, but shall comply with the existing by-laws for habitable rooms.

Floors.

89. Floors, other than verandah floors, shall be fixed level, and in all buildings the ground floor, if of wood, shall have a space of not less than 6 in. between the ground and the underside of the floor bearers.

Permit May be Refused if Drainage is Not Satisfactory.

90. The Council may refuse to approve the plan of any building or any addition, or alteration to any building, until it is satisfied that the proposed building, or addition, or alteration and the site and curtilage thereof will be properly drained in accordance with the provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

Drainage of Waste Water.

91. Every person who shall erect a building shall provide proper drainage for the disposal of all waste water in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

Waste Pipes.

92. Waste pipes from baths, sinks, wash troughs and similar sanitary fittings shall be of wrought iron of approved sizes. All sanitary fittings shall be provided with traps under fittings, metal cleaning eyes shall be fitted at all changes of direction and angles of waste pipes in accordance with any

provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

Roof—Water Disposal.

93. All buildings shall be provided with gutters and downpipes of approved sizes sufficient to carry all water from every part of the roof in an efficient manner, such water shall be carried at least 2 ft. clear of the foundations of the buildings. In the case of large buildings where the surveyor shall deem it necessary, all stormwater from the roof of such building shall be carried by pipes direct to the street drains, or gutters in such a manner as directed by the surveyor.

Water Supply.

94. Every dwelling house not connected to a public water supply shall be provided with a water storage tank of not less than one thousand gallons capacity, or as may be prescribed in any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable. Such tank shall be completely covered at its top and provided with a manhole fitted with a tight-fitting lid.

Provision of Manhole in Ceiling.

95. Every building shall be provided with one or more manholes in the ceiling to enable access to be gained to the underside of the roof thereof.

Removal of Buildings.

96. If any building is removed from outside the district to within the district, or from a site within the district to another site within the district, whether on the same or another block of land, such building shall be deemed for the purpose of this by-law to be a new building erected for the first time on the site whither it is removed.

Verandahs over Footpaths, Projections, Signs,

Hoardings and Fences.

Verandahs.

97. No person shall erect, or cause or permit to be erected, any portico or verandah over the footway of any road in the district without first obtaining the consent of the Council in writing, and such portico or verandah shall be of the shape, figure, dimensions and materials as set forth on the plan and specifications, for the time being adopted by resolution of the Council, but the lowest part of the frieze or rails of such portico or verandah shall in no case be of less height than 9 ft. above the level of the outer edge of the footway. All such verandahs and projections shall be of the cantilever type.

Openings in Roof of Verandah.

98. No opening shall be made in the roof of such verandah for the purpose of affording light, unless such opening be properly framed and glazed with approved glass protected underneath with fine mesh wire-netting or armoured glass to the satisfaction of the surveyor.

Porch Landing, etc.

99. Every porch, gangway, outside landing, and outside step shall be of fire-resisting material and shall not project beyond the boundary of any road or public place.

Shop Windows.

100. Shop windows intended to be used for the display of goods or business advertisements shall consist of plate or approved glass jointed and fixed in approved metal or approved timber framed, the level of the sill of such frames to be not higher than 30 ins., nor within 12 ins. of the level of the footpath immediately adjoining the same.

Woodwork Abutting on Roads.

101. Woodwork shall not be fixed flush with the face of any wall abutting on a road unless it is encased with metal of not less than 22 gauge.

Signboards, Hanging Lamp, etc.

102. No signboard, hanging lamp, or other fixture shall be erected on or attached to any building or verandah projecting over the roadway unless permission in writing of the Council be first obtained. Each such signboard, hanging lamp, or other fixture shall be of material, construction and design approved by the surveyor and shall be in no part less than 8 ft. 6 in. above the level of the footpath or road. No signboard shall exceed in depth 3 ft. nor shall any signboard project over a road or footpath except with the approval of the Council.

Unightly or Dangerous Fence.

103. When any fence abutting on any road or public place within the district is in a dangerous or unsightly state, the Council may, by notice in writing to be served on the owner of such fence, require such owner within 14 days from the receipt of such notice to take down or repair such fence as the case may require, and such owner shall comply with such notice.

Fences and Walls.

104. Every fence to be hereafter erected abutting on any road or public place shall have affixed thereto a plinth at least 9 in. high unless the surveyor shall consent in writing to such plinth being of less height, and every wall of brick, stone or concrete, or other similar substance shall be constructed with a base to be approved by the surveyor.

Brick Chimneys, Flues, Fireplaces and Heating Apparatus, Foundations, Footings, etc.

105. (1) Chimneys shall be built on solid foundations and with footings similar to the footings of the wall against which they are built, unless they are carried on steel girders with direct bearings upon party, external or cross-walls, to the satisfaction of the surveyor, or on corbels of brick, stone or other incombustible material, and the work so corbelled does not project from the wall more than the thickness of the wall measured immediately below the corbel.

(2) Chimneys may be corbelled out not more than 14 in. from walls 9 in. in thickness on corbels of stone or incombustible materials not less than 10 in. in depth and of the full width of the jambs.

Chimneys, etc., with Soot-doors.

106. (1) Chimneys and flues having proper soot-doors of not less than 40 square inches may be constructed at such angle as is approved by the surveyor, but in no other case shall any flue be inclined at less angle than 45 degrees to the horizon, and every angle shall be properly rounded.

(2) Position of soot-doors.—All soot-doors shall be distant at least 15 in. from any woodwork.

Arches.

107. An arch of brick or stone of sufficient strength shall be built over the opening of every chimney to support the breast thereof. Every camber arch shall have the abutments tied in by an iron bar, or bars of sufficient strength turned up or down at the ends and built into the jamb for at least 4½ in. on each side.

Flues.

108. A flue shall not be adapted to or used for any new oven, furnace, steam boiler, or other fire used for any purpose of trade or business, or to or for the range or cooking apparatus of any hotel, tavern, or eating house, unless the flue is surrounded with brickwork at least 9 in. thick, or reinforced concrete 6 in. from the floor of the storey on which such oven, furnace, steam boiler, or other fire is situate to 12 in. above the roof.

Flues in Connection with Engines.

109. A flue shall not be used in connection with a steam boiler or hot-air engine unless the flue is at least 20 ft. in height measured from the level of the floor on which such engine is placed.

Linings, etc., of Flues.

110. The inside of every flue, and also the outside where passing through any floor, or roof, or space enclosed by the roof or behind or against any woodwork, shall be rendered or pargetted, or lined with fire-resisting piping or stoneware.

Jambs.

111. The jambs of every fireplace opening shall extend at least 9 in. on each side of the opening thereof.

Incombustible Material in Certain Cases.

112. The breast of every chimney shall be of incombustible material, at least 4in. in thickness and the brickwork surrounding every smoke-flue shall be at least 4½in. in thickness, provided that where a ventilating flue is carried up with a smoke flue they may be separated by a properly constructed iron wyth of cast iron not less than 1 in. in thickness.

Backs of Fireplaces.

113. The back of every fireplace opening in party or external walls from the hearth up to a height of 12in. above the lintel or arch shall be brickwork at least 9in. thick, or shall be reinforced concrete 6in. thick. No flue shall be within 2in. of the centre line of any party wall.

Thickness of Flues.

114. The thickness of the upper side of every flue when its course makes with the horizon an angle of less than 45 degrees shall be at least 9in.

Height.

115. Every chimney flue or chimney shaft shall be carried up in brick or stonework at least 4in. thick throughout to a height of not less than 3ft. above the roof, flat or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat or gutter.

Top Courses.

116. The highest six courses of every chimney stack or shaft shall be built in cement mortar.

Chimney Shafts.

117. The brickwork or stonework of any chimney shaft except that of the furnace of any steam engine, brewery, distillery or manufactory shall not be built higher above the roof, flat or gutter adjoining thereto than a height equal to six times the least width of such chimney shaft, at the level of such highest point in the line of junction, unless such chimney shaft is built with and bonded to another chimney shaft, not in the same line with the first, or otherwise rendered secure to the approval of the surveyor.

Slabs.

118. There shall be laid level with the floor of every storey, before the opening of every chimney, a slab of stone, slate, or other incombustible material, at least 6 in. longer on each side than the width of such opening, and at least 14in. wide, in front of the breast thereof.

How to be Laid.

119. On every floor except the lowest floor, such slab shall be laid wholly on stone or iron bearers, or upon brick trimmers or other incombustible materials, but on the lowest floor it may be bedded on concrete, covering the site, or on solid materials placed on such concrete.

Hearths, etc.

120. The hearth or slab of every chimney shall be bedded wholly on brick, stone or other incombustible materials, and shall together with such material be solid for a thickness of 6in. at least beneath the upper surface of such hearth or slab.

Flues in Party Walls.

121. A flue shall not be built in, or against, any party structure or existing wall, unless it is surrounded with good sound brickwork, or other approved material, at least 4½in. in thickness, properly bonded to the satisfaction of the surveyor.

Cutting Away Chimney Breast.

122. A chimney breast or shaft built with or in any party wall, shall not be cut away, unless the surveyor certifies that it can be done without injuriously affecting the stability of any building.

Cutting Into Chimney Shaft.

123. A chimney shaft, jam, breast or flue, shall not be cut into except for the purpose of repair or doing one or more of the following things:—

- (1) Letting in or removing or altering flues, pipes or funnels for the conveyance of smoke, hot air, or steam.
- (2) Forming openings for soot-doors, each opening to be fitted with a close iron door and frames.
- (3) Making openings for the insertion of ventilating valves.

Provided that an opening shall not be made nearer than 12in. to any timber, or combustible material.

Position of Timberwork.

124. Timber or woodwork shall not be placed—
- (1) under any chimney opening within 6in. from the upper surface of the hearth of such chimney opening;
 - (2) within 2in. from the face of the brickwork or stonework above the chimney or flue, unless the face of such brickwork or stonework is rendered.

Position of Wooden Plugs.

125. Wooden plugs shall not be driven nearer than 3in. to the inside of any chimney or flue opening, nor any iron holdfast or other iron fastening nearer than 2 in. thereto.

Ironwork.

126. No iron or steel joists, or other ironwork shall be placed in any flue except insofar as the same may be required for insuring stability.

Floors Above Furnace or Ovens.

127. The floor or roof over any room or enclosed space in which a furnace is fixed, and any floor within 18in. from the crown of an oven shall be constructed from fire-resisting material.

Exempted Buildings.

128. This by-law shall not apply to any temporary or removable offices and sheds used by builders during the construction of any building at or about the side of such building for a period not exceeding 12 months.

Enforcement of By-laws and Penalties.

129. No building may be erected except in compliance with this by-law. No person shall erect, build, or construct, remove, or make any alteration or addition to, or cause to be erected, built or constructed, removed or make any alteration or addition to any building, contrary to the provisions of this by-law.

Penalty for Breach.

130. Any person who shall be guilty of any breach of any of the provisions of this by-law, or shall fail to duly comply with any notice thereunder, shall be liable for every such offence to a penalty of not less than one pound and not exceeding twenty pounds.

Notice to Make Building Conform to By-laws.

131. If any building shall be wholly or partly built or erected, or added to, or altered, contrary to, or not in conformity with the provisions of this by-law, the Council or any officer thereof may give to the owner, occupier or builder, or leave upon the site of such building notice in writing to bring such building into conformity with the said provisions, or requiring the pulling down or removal of such building within the time as limited in such notice, and such owner, occupier, or builder shall comply with such notice within the time therein limited.

No Alterations Infringing By-laws.

132. No alteration shall be made in any building in such a manner that when so altered it will by reason of such alteration not be in conformity with the provisions of this by-law relating to new buildings.

No User Infringing By-laws.

133. No person shall occupy or permit to be occupied any building for any purpose for which such building could not have been built under the provisions of this by-law; provided that this clause shall not prevent the continued use of any building in existence at the time of coming into operation of this by-law for any purpose for which it was then being used.

License for Deposit of Materials on Roads, etc.

134. The Council may grant licenses in accordance with the provisions of section 301 of the Act for the deposit of materials on any road or way or the making of any excavation on any land abutting on or adjoining or contiguous to any road or way. Such deposit or excavation shall be to the approval of the surveyor. The license shall be in the form A in the Third Schedule hereto.

Before granting a license to deposit the materials or make an excavation, the Council may require from the applicant a sum determined by the surveyor to be held as a deposit to cover the cost of carrying out repairs to the road, footpath, kerb, etc., made necessary by the deposit or excavation concerned.

THE TOWN PLANNING AND DEVELOPMENT ACT, 1928-1947.

Municipality of Geraldton—Town Planning Scheme. Work No. 2.

NOTICE is hereby given that the Geraldton Municipal Council on the 28th day of February, 1951, passed the following resolution:—"Resolved that the Municipality of Geraldton in pursuance of section 7 of the Town Planning and Development Act, 1928-1947, prepare the above Town Planning Scheme with reference to that piece of land being Geraldton Town Lots 1220 to 1237 inclusive and the Western moieties of Geraldton Town Lots 606, 609, 610, and the Western moieties of parts 1 and 2 of Geraldton Town Lots 613 and 614 and inclusive of the whole of Askew Road, and that portion of Keane Street between Shenton Street and Carson Terrace, an area of approximately 7.2 acres, and situate wholly within the Municipal District of Geraldton and enclosed within the inner edge of the blue border on a plan now produced to the Council by the Town Clerk of the said Municipality under his hand dated the 5th day of January, 1940, as plan No. 1.

Work No. 2.

The proposals shown on Plan No. 2 relate to the abovementioned land and have for their object the following:—

(a) The complete re-levelling of the whole area to a contour plan which provides for the reducing of sandhills and utilising the sand to fill low-lying land within the area and to provide more satisfactory residential sites, and to eliminate the existing irregularities in the street levels which make good road construction impracticable.

(b) To bring all lots within the area of the plan, under the control or ownership of the Municipality, for the purpose of carrying out the scheme.

(c) to eliminate the present unsatisfactory subdivision by a re-subdivision on modern lines, providing more desirable building sites.

It is therefore proposed that the Municipality of Geraldton shall acquire the whole of the land for the purpose, either by purchase or compulsory taking, and then re-subdivide it in the manner shown in Plan No. 2. The land coloured brown in Plan No. 2 will then be set aside as streets and the various allotments will be offered for sale.

And notice is hereby given that Plan No. 1 and Plan No. 2 referred to in the above resolution have been deposited at the Council Chambers, Geraldton, and will be open for inspection by all persons interested without payment of any fee, between the hours of 10.0 a.m. and 4.0 p.m., Mondays to Fridays (closed Saturdays).

Any objections to the above proposed scheme should be sent in writing to the Town Clerk, Geraldton, on or before 25th day of July, 1951.
