GOD SAVE THE KING ! ! !

AT a meeting of the Executive Council held in the Executive Council Chamber at Perth, this 7th day of August, 1951, the following Orders in Council were authorised to be issued:—

The Health Act, 1911-1950.

ORDER IN COUNCIL.

P.H.D. 1613/48.

WHEREAS the Health Act, 1911-1950, enacts that the provisions of Division 3 of Part V of the principal Act shall operate and have effect in certain specified districts, and also in Health District of any other local authority which the Governor may from time to time declare: Now, therefore, His Excellency the Administrator, by and with the consent of the Executive Council, doth hereby declare that the said provisions of Division 3 of Part V of the said Act shall operate and have effect in the Boulder Municipal Health District, a local health authority within the meaning of the said Act.

R. H. DOIG,
Clerk of the Council.

The Health Act, 1911-1950.

ORDER IN COUNCIL.

P.H.D. 782/24.

WHEREAS in accordance with section 60 of the Health Act, 1911-1950, His Excellency the Administrator has received details of a plan for the general installation of apparatus for the bacteriolytic treatment of sewage in the townsite of Tammin by the Tammin Road Board and is satisfied that the scheme is formulated in accordance with the provisions of the Health Act, 1911-1950, and that the cost and provisions for repayment justify the undertaking and that the works if carried out in the manner designed will be of benefit to that portion of the district of the local authority which the works are desired to serve: Now, therefore, His Excellency the Administrator by and with the advice of the Executive Council doth hereby order that the Tammin Road Board being the local health authority for the Tammin Health District is hereby empowered to undertake the construction of the said works.

Approved by His Excellency the Administrator in Executive Council this 7th day of August, 1951.

R. H. DOIG,
Clerk of the Council.

Land Act, 1933-1950.

ORDER IN COUNCIL.

Corres. No. 381/46.

WHEREAS by section 33 of the Land Act, 1933-1950, it is, *inter alia*, made lawful for the Governor by Order in Council to direct that any land reserved pursuant to the provisions of this Act shall be granted in fee simple to any person (as defined in the said section) subject to the condition that the person shall not lease or mortgage the whole or any part of the land without the consent of the Governor and subject to such other conditions and limitations as the Governor shall deem necessary to ensure that the land is used for the purpose for which the land is reserved as aforesaid; and whereas it is deemed expedient that reserve No. 22909 (Pemberton Lot 205) should be granted in fee simple to the Manjimup Road Board to be

held in trust for the purpose of an Infant Health Clinic: Now, therefore, His Excellency the Administrator by and with the advice and consent of the Executive Council doth hereby direct that the beforementioned reserve shall be granted in fee simple to the Manjimup Road Board to be held in trust for the purpose of an Infant Health Clinic, subject to the condition that the land shall not be leased or mortgaged in whole or in part without the consent of the Governor.

(Sgd.) R. H. DOIG,
Clerk of the Council.

The Land Act, 1933-1950.
ORDER IN COUNCIL.

Corr. No. 898/34.
WHEREAS by section 33 of the Land Act, 1933-1950, it is made lawful for the Governor to direct that any reserve shall vest in and be held by any municipality, road board, or other person or persons to be named in the order, in trust for any of the purposes set forth in section 29 of the said Act, or for the like or other public purposes to be specified in such order, and with power of sub-leasing; and whereas it is deemed expedient that reserve No. A22365 (Swan Locations 4880 and 4881) should vest in and be held by the Mayor and Councillors of East Fremantle in trust for Park and Recreation: Now, therefore, His Excellency the Administrator, by and with the advice and consent of the Executive Council, doth hereby direct that the beforementioned reserve shall vest in and be held by the Mayor and Councillors of East Fremantle in trust for Park and Recreation with power to the said Mayor and Councillors of East Fremantle, subject to the approval in writing of the Minister for Lands being first obtained, to lease the whole or any portion of the said reserve for any term not exceeding twenty-one (21) years from the date of the lease.

(Sgd.) R. H. DOIG,
Clerk of the Council.

The previous Order in Council dated 1st November, 1948, is hereby superseded.

SUPREME COURT ACT, 1935-1949 AND STATE HOUSING ACT, 1946-1950.

Crown Law Department,
Perth, 14th August, 1951.

THE following Rules of Court are published for general information.

H. SHEAN,
Under Secretary for Law.

SUPREME COURT ACT, 1935-1949 AND STATE HOUSING ACT, 1946-1950.

The Honourable Sir John Patrick Dwyer, K.C.M.G., Chief Justice of Western Australia, the Honourable Albert Asher Wolff, the Honourable James Leonard Walker, the Honourable Laurence Walter Jackson and the Honourable John Evenden Virtue, Puisne Judges of the Supreme Court of Western Australia, do hereby in pursuance of the powers contained in the Supreme Court Act, 1935-1949, and in the State Housing Act, 1946-1950, and of every other power them in this behalf enabling, make the following rules which shall come into operation on the publication thereof in the *Government Gazette*.

1. These rules may be cited as the State Housing Act, 1946-1950 (Appeal) Rules 1951.

2. Every appeal to a Judge of the Supreme Court under sections 21 and 70 of the Act from a decision of the Minister shall be made by notice in writing signed by the person aggrieved to a Judge of the Supreme Court sitting in Chambers.

3. Such notice shall set out the substance of the decision complained of and the date of such decision and also fully state the grounds on which the appeal is brought; and an address for service within one mile of the General Post Office, Perth, shall be given at which notices and documents relating to the appeal may be delivered or given to the appellant.

4. The appeal shall be entered by the appellant in the Central Office of the Supreme Court and the Notice of Appeal shall be filed therewith within 21 days from the date of the decision of the Minister or within such extended time as a Judge of the Supreme Court may think fit or allow.

5. Notice of such entry shall be given to the Minister by the appellant within 2 days after entry, and a copy of the Notice of Appeal shall be delivered therewith.

6. The appeal shall come on for hearing on such day as the Judge in Chambers appoints, not less than 10 days after entry, and notice thereof shall be sent to the Appellant at the appointed address for service and to the Minister.

7. Either party to the appeal may without further or special order adduce evidence on affidavit to be filed at least 3 clear days before the hearing.

8. The appeal may be determined on the material before the Minister when giving his decision (which may be ascertained in such manner as the Judge may order), or on fresh evidence either oral or by affidavit or partly in one way and partly in another and the Judge may hear the testimony of any witness whether by way of examination or cross-examination and any party concerned may be represented by Counsel.

9. The result of the appeal shall be embodied in a formal order and entered in the Central Office of the Supreme Court.

10. The ordinary practice and rules in the Supreme Court shall, in so far as the same are not inconsistent with these Rules, apply to proceedings under these Rules.

11. The cost of every appeal and of any proceedings connected therewith and of any proceedings before the Minister shall be in the discretion of the Judge.

12. In these rules—

“the Act” means the State Housing Act, 1946-1950, and

“Minister” means the Treasurer of the State of Western Australia or such other Minister of the Crown as is charged for the time being or from time to time with the administration of the Act.

Dated this 7th day of August, 1951.

J. P. DWYER,
Chief Justice.

A. A. WOLFF,
Puisne Judge.

J. L. WALKER,
Puisne Judge.

L. W. JACKSON,
Puisne Judge.

J. E. VIRTUE,

P.H.D. 730/45, Ex. Co. 1475.

HIS Excellency the Administrator in Council, acting under the provisions of the Health Act, 1911-1950, has been pleased to amend the Model By-laws, Series "A," as prepared under the said Act, and reprinted with amendments to date in the *Government Gazette* on the 4th day of December, 1944, and further amended by amendments published in the *Government Gazette* on the 26th day of January, 1945; the 30th day of November, 1945; the 20th day of December, 1946; the 24th day of October, 1947; the 23rd day of December, 1949; the 10th day of February, 1950; the 24th day of March, 1950; the 22nd day of December, 1950, and the 22nd day of June, 1951, in the manner mentioned in the Schedule hereunder.

LINLEY HENZELL,
Commissioner of Public Health.

Schedule.

Part I of the abovementioned Model By-laws, Series "A," is amended by inserting after paragraph (2) of by-law 23 a new paragraph (2A) as follows:—

(2A) By discharging into a french drain, which shall comply with the following conditions:—

- (a) A sketch plan showing the design, situation and construction, together with the connections with such french drain, shall be submitted to and approved in writing by an inspector.
- (b) It shall be constructed of agricultural drain pipes of not less than 4 inch diameter laid in a straight line with open joints and completely surrounded with not less than 9 inches of broken blue metal of not more than 3 inch gauge and not less than 2 inch gauge. The surface of the drain shall be covered with gravel or earth.
- (c) The house fittings shall be to the standard prescribed by the by-laws made under the Metropolitan Water Supply, Sewerage and Drainage Act, 1909-1941, except where otherwise approved in writing by an inspector, and each such fitting shall be discharged over an open gully provided with a water-sealed trap.
- (d) A grease intercepting trap of a design and dimensions approved by the inspector shall be installed at the premises as is considered necessary by the inspector, and shall be situated where directed by the inspector.
- (e) The dimensions of the trench shall be determined by the inspector, except that no trench shall be less than 30 feet long or 2 feet wide or 2 feet deep.
- (f) The french drain shall be ventilated by means of a glazed earthenware 90 degree bend fitted with a metal grid and mosquito proof wire mesh, and so installed that the grid is clear of the ground surface.
- (g) No french drain shall be situated closer than 12 feet from any dwelling, nor closer than 20 feet from any window or door of any dwelling.
- (h) The french drain, and all fittings connected thereto shall at all times be maintained in good order and condition, and when required by an inspector any french drain shall be emptied, cleaned and disinfected in such manner and within such time as may be specified in the requisition.

Approved by His Excellency the Administrator in Executive Council, 7th August, 1951.

OPEN FOR LEASING.

Kalgoorlie Lot 1503.

Department of Lands and Surveys,
Perth, 31st July, 1951.

Corres. No. 5150/48.

IT is notified for general information that Kalgoorlie Lot 1503 is available for leasing under section 117 of the Land Act, 1933-1950, at the rental and subject to the conditions set out hereunder:—

(1) Applications must be lodged at the Lands Office, Kalgoorlie, on or before Wednesday, 29th August, 1951.

(2) No approval of a lease will issue until the successful applicant shall have first produced a "Building Permit" issued by the local authority or such other evidence indicating that the local authority is willing to issue a building permit to the applicant, or, that the applicant already has or is in a position to obtain the necessary materials to build a residence on the lot applied for.

(3) The lessee will be required to erect a residence on his lot within 6 months from the date of approval of his application or within such extended period as the Minister for Lands may approve. Failure to comply with this condition renders the lease liable to forfeiture.

(4) The term of the lease will be 99 years.

(5) The annual rental payable for the first 10 years of the lease will be 10s. The rental shall be subject to re-appraisal by the Minister for Lands at intervals of 10 years.

(6) No transfer of the lease will be approved until the lessee has complied with the building conditions of the lease.

(7) The conditions under which the said land is made available shall not entitle the lessee now or at any future time to the right to convert same to fee simple.

(8) If more applications than one have been received by the closing date, the application to be granted will be decided by the Land Board. (Plan Kalgoorlie Sheet 1.)

LAND OPEN FOR SELECTION.

IT is hereby notified, for general information, that the areas scheduled hereunder are available for selection under Part V of the Land Act, 1933-1950, and the regulations appertaining thereto, subject to the provisions of the said Act.

Applications must be lodged at the Department of Lands and Surveys, Perth, not later than the date specified, but may be lodged before such date, if so desired.

All applications lodged on or before such date will be treated as having been received on the closing day, and if there are more applicants than one for any block, the application to be granted will be determined by the Land Board. Should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, the applicants for the blocks will be duly notified of the date, time, and place of the meeting of the Board, and there shall be an interval of at least three days between the closing date and the sitting of the Board.

The selector of a Homestead Farm from any location made available for that purpose must take the balance thereof, if any, under Conditional Purchase.

All marketable timber, including sandalwood and mallet, is reserved to the Crown, subject to the provisions of Clause 18 of the Regulations.

MUNICIPAL CORPORATIONS ACT, 1906 AND AMENDMENTS.

Municipality of Northam.

By-law No. 54—Building By-laws.

P.W. 1184/45.

By-law of the Municipality of Northam made under Section 338 of the Municipal Corporations Act, 1906, and Amendments, and Numbered By-law 54 for Regulating the Erection of Buildings. IN pursuance of the powers conferred by the said Act, the Mayor and Councillors of the Municipality of Northam order as follows:—

By-law No. 54—Building By-laws.

Part 1—Operation and Definitions.

Application.

1. This by-law shall apply to the whole of the district of the Municipality of Northam.

Commencement.

2. This by-law shall come into operation immediately upon its confirmation and approval by the Governor and publication in the *Government Gazette*.

Repeal.

3. From the date of coming into operation of this by-law, by-law No. 28 regulating buildings within the town of Northam heretofore made by the Municipality of Northam is hereby repealed with the exceptions of:—

(a) by-law No. 28, clause 20—verandahs (removal thereof);

(b) by-law No. 28, clause 20 (a)—verandahs (erection thereof),

both published in the *Government Gazette* of the 6th September, 1946, which said by-laws shall remain in full force and effect.

Definitions.

4. In this by-law, subject to the context—
“Act” means the Municipal Corporations Act, 1906, with amendments thereto.

"Alteration" means any work made or done for any purpose in, to, or on a building (except that of necessary repairs not affecting the construction of any external, cross, or party wall), or any change in the purpose for which any building or erection or any part thereof shall be used.

"Approved" means approved by the Council in writing or (in case where the surveyor is authorised by the Council so to do) approved by the surveyor in writing.

"Apartment" or "flat" means suite of rooms occupied or designed, intended or adapted to be occupied as a separate domicile or rented or let as such.

"Area," applied to a building, means the sum of the superficies of the horizontal sections of each storey made at the point of the greatest surface of each floor, inclusive of the external walls, and such portions of the party walls as belong to the building.

"Council" means the Council of the Municipality of Northam.

"Build" means and includes erect, build, or construct or cause to be erected, built, or constructed.

"Building" means and includes erection, structure, detached room, outbuilding, hoarding, and every structure of whatever kind capable of affording protection or shelter, either roofed or intended or adapted to be roofed, or not roofed, and whether enclosed by roofs or not, and every part of such structure and any addition or alteration thereto.

"Builder" means the master builder or other person employed to execute any work, or if there is no master builder or other person so employed, then the owner of the building or other person for whom or by whose orders such work is to be done.

"Cellar" means a storey or portion of a storey below the ground level, the ceiling of which is less than 5 feet above the adjoining ground.

"Dwelling-house" means a building used, constructed, or adapted to be used wholly or in part for human habitation, but does not include other than the dwelling-house portion (if any) of a commercial building, and includes a permanent moveable, or temporarily fixed structure.

"District" means the district of the Municipality of Northam.

"Fire-resisting" used with reference to any materials includes—(a) brickwork constructed of good bricks, well burnt, hard and sound, properly bonded and solidly put together with good lime or cement mortar; (b) any stone suitable for building purposes by reason of its solidity or durability; (c) sheet metals or other similar materials which are, in the opinion of the Council, fire-resisting; (d) iron and steel, when used for columns, girders, or wall framing, encased in cement concrete or other incombustible or non-conducting external coating; (e) slate, tiles, brick and terra cotta, when used for covering, or corbels; (f) concrete composed of broken bricks, stone chippings or ballast and lime cement or calcined gypsum; (g) jarrah and other hard timber when used for beams, posts, or in combination with iron, the timber and iron, if in beams, being protected by plastering or other incombustible or non-conducting external surface, doors, if not less than 2in. thick; stairs with treads, stringers and risers not less than 2in. thick; (h) any other material approved by the Council as fire-resisting.

"External wall" means an outer wall of a building not being a party wall, even although it adjoins a wall of another building.

"Frontage" means the distance measured at right angles to one of the sides of the land from the terminal point thereof to the opposite side, or a continuation of such opposite side.

"Garage" means any building used for the housing of a motor or motor vehicle (not being a garage carried on as a business undertaking).

"Height," in relation to any building, means measurement taken from the level of the footway (if any) immediately in front of the centre of the building, or, when there is no such footway, from the level of the ground before excavation, to the level of the ceiling or tie of the topmost storey.

"Height" in relation to storeys means—(a) in the case of the topmost storey the measurement between the floor and the ceiling thereof, or between the floor

and the under-surface of the tie of the roof, or, if there is no tie, then up to the level of half the vertical height of the rafters, or other support of the roof; (b) in the case of every storey other than the topmost storey, the measurements between its floor and the floor above.

"Hoarding" includes any erection or structure erected, built, constructed, or used, or that may be used, for the purpose of writing, painting, pasting or posting thereon notices, advertisements, placards, or other printed, painted or written matter, or any erection or structure, but shall not apply to a hoarding erected in a street for the purpose of carrying on building operations only, or to any dwelling-house or shop or any fence 7 feet or under in height, or "To Let" or "For Sale" boards not exceeding 20 square feet in area.

"Habitable or Main Rooms" mean and include all rooms used or intended to be used as bedrooms, dining-rooms, ordinary living rooms, or kitchens.

"New building" includes—(a) any building erected or commenced to be erected after the date of this by-law coming into operation; (b) any building which for more than half its cubical contents has been taken down or destroyed by fire, tempest, or otherwise, and is re-erected or commenced to be re-erected wholly or partially on the same site after the date of this by-law coming into operation; (c) any space between walls and/or buildings which is roofed or commenced to be roofed after the date of this by-law coming into operation; (d) any building removed or transported wholly or in sections into the district or from one part of the district to another part after the date of this by-law coming into operation.

"Outbuilding" means any building on the curtilage of any dwelling, shop, or combined shop and dwelling used as a workshop or storeroom, not being a building for the storage of inflammable materials nor for the housing of any animal or animals, including birds.

"Party wall" means a wall built to be used as a separation of 2 or more buildings, or a wall forming part of a building built upon dividing line between adjoining premises for the common use.

"Person" includes corporation.

"Prescribed" means prescribed by this by-law.

"Public place" has the same meaning as in the Act.

"Reinforced concrete" means a form of construction in which cement concrete is reinforced with iron or steel, these materials being so combined that the iron or steel will take up and resist substantially the whole of tensional stresses and assist in the resistance to shear, while the concrete will take up and resist the compressional stresses and assist in resistance to shear.

"Right-of-way" means any lane or right-of-way, not a road, over which any person other than the other thereof has a right of carriage way.

"Road" has the same meaning as in the Act.

"Surveyor" means the building surveyor or acting building surveyor for the time being of the Council, or other officer having for the time being the administration of this by-law.

"Shop" means a building in which goods are regularly offered or exposed for sale, or in which meals or refreshments are regularly offered or provided for payment, and also includes the saloons or shops of barbers and hairdressers and offices of agents and auctioneers and other businesses or trades. A *bona fide* private boarding-house shall not be included in this definition by reason only of the fact that meals or refreshments are occasionally supplied for payment to persons other than boarders.

The "Brick Area" shall consist of any areas which shall be proclaimed from time to time.

"Square" applied to the measurements of any area means the space of 100 square feet.

"Surface" or "ground level" means the mean level of the ground as determined by the surveyor.

"Wood or wooden buildings" mean buildings of wood or having wood frames.

Classes of Building.

5. For the purpose of this by-law, buildings shall be divided into 3 classes:—Class A, "Domestic Class" which includes all buildings subject to small vibration and light loading of floors, such as dwelling-houses, residential shops, offices, hotels, private schools, club-houses, and studios. Class B, "Warehouse Class" which includes all buildings subject to vibration and heavy loading of floors, such as warehouses, factories, mills, and places for the storage and manufacture of goods. Class C, "Public Building Class" which includes all buildings designed to accommodate an assemblage of people, such as theatres, churches, chapels, assembly halls, museums, libraries, public schools, hospitals, lecture rooms, and other like buildings. In case of doubt, the surveyor shall finally determine to which class any particular building belongs.

Part 2.—Notice of Intention to Build or Demolish and Lodging of Plans.

6. No builder shall commence any building or any addition or alteration to any building without first delivering at the office of the Council a written application in the form of the First Schedule hereto, before so commencing, and delivering to the surveyor plans and specifications as described hereunder.

Plans and Specifications.

(a) Properly prepared plans, including a general plan and elevation, and specifications of such building, addition or alteration, together with a tracing or copy of the plans of such building, addition or alteration, and also details and dimensions, sizes and qualities of all materials, and enumerating any old materials proposed to be used in the construction of same, in the form of the Second Schedule hereto.

Block Plan.

(b) A block plan showing the relation of the building to adjoining boundaries.

Purpose.

(c) A statement in writing of the purpose for which the building is intended to be used shall be supplied. The stated purpose shall not be changed nor the building as authorised be used for any other purpose unless in compliance with this by-law.

Drainage.

(d) Particulars of the proposed method of drainage.

Further Particulars.

(e) Such further particulars in writing regarding the same as shall be necessary to enable the Council or its surveyor to determine if all the provisions of this by-law applicable thereto are being complied with.

Tracing Retained.

7. The tracing or copy of the plans and details of materials shall be retained by the surveyor or Town Clerk and the original plans and specifications, when approved, shall be returned to the owner or his agent. Such approval shall be evidenced by writing endorsed on the plans and specifications and signed by the surveyor or Town Clerk.

Plans, etc., to be kept at Building.

8. Such plans and specifications shall be kept at the building therein referred to, and shall be available for inspection by the surveyor or the accredited officer of the Council at all reasonable times on demand during the construction or erection or alteration or addition, as the case may be, and for 14 days after the completion thereof.

Permits and Fees.

9. No person shall commence any building or any addition, alteration to any building, or demolish any building, without having first obtained from the surveyor or Town Clerk a written permit in accordance with the Third Schedule for the commencement of same, and without having first paid

to the Council fees in accordance with the scale set out in the Fourth Schedule hereto, having regard to the class of building.

Permits Shall Lapse after Six Months.

10. A permit obtained pursuant to this by-law shall lapse and be of no effect unless the building for which such permit was granted shall be commenced within six months and completed within 12 months from the date of such permit.

Surveyor May Enter and Inspect.

11. The surveyor at all reasonable times during the progress and after the completion of any building, or addition or alteration to any building affected by this by-law, may enter and inspect such building or addition or alterations.

When giving approval, the Council may impose a condition that 48 hours' notice shall be given prior to the covering of any or all of the following works, in order that they may be inspected, that is to say:—Trenches before foundations are laid, foundations before trenches are filled in, and drains, before they are covered in.

Surveyor May Stop Work if Contrary to By-law.

12. The surveyor may at any time stop the progress of any building and withdraw or suspend any permission given by the Council under this by-law in the event of his not being satisfied that all the provisions of this by-law are being complied with, and any person who continues or builds or erects or works on the site after notice from the surveyor to desist shall be guilty of an offence against this by-law.

Demolition or Removal of Building.

13. When a building is to be demolished or removed, the owner or contractor shall give 48 hours' notice to the surveyor of such intended demolition or removal.

Nuisance to be Avoided.

14. Provision shall be made so as to avoid all nuisance from dust or falling refuse by playing water on same by means of a hose or other approved method.

Part 3.—Outbuildings and Garages.

Materials.

15. Outbuildings may, subject to the limitations herein, be built and constructed of brick or other materials approved by the Council.

Outbuildings.

16. No outbuilding, from the use of which unpleasant noise, unpleasant odours, or unusual risk of fire may reasonably be expected to arise, shall be erected as appurtenant to any building until the Council has determined in what position upon the allotment such outbuilding may be erected. The Council reserves the right to refuse to permit any such building to be erected where it considers it may be offensive or dangerous.

Outbuildings on Corner Blocks.

17. No outbuilding shall be erected on a corner block at a less distance from the road on the side boundary than the adjoining building is from such road, or, if there is no adjoining building at a less distance than 20 feet from such road.

Garages.

18. Motor garages not exceeding 300 square feet floor area may be built of iron, brick, stone or concrete, or other non-inflammable material, provided that—

- (a) any motor garage shall not be erected nearer than the dwelling-house to which it is appurtenant to any road frontage by such dwelling-house, except in special cases where the physical configuration of the ground precludes such distance being observed;
- (b) Any such motor garage shall be not less than 5 feet distant from the frontage of any other ground or street;

- (c) such motor garage to be 10 feet distant from any building used as a dwelling-house on any allotment adjoining;
- (d) the motor garage complies otherwise with all conditions and limitations of this by-law in regard to buildings;
- (e) the height of the walls of a garage shall not be less than 8 feet to the eaves in the case of a gable roof and not less than 8 feet on the lower side of a skillion roof;
- (f) a garage may be incorporated as part of the main building when such building is of brick, stone, or concrete, but must have a ceiling of fireproof material approved by the surveyor.

Doors of Garages.

19. The doors of a garage, when opened, shall not encroach on any road or footway.

Fowl-houses.

20. Fowl-houses of not more than 2 squares in area, and not more than six feet in height, may be erected at rear of any dwelling and not less than 4 feet from the boundary of land not in the same occupation, provided that the nearest portion of such fowl-house is at least 30 feet from any road and 30 feet from any dwelling-house, church, school-room, hall or factory. The walls and roof covering of such fowl-houses must of iron or other fire-resisting material approved by the surveyor. Fowl-houses of more than 2 squares in area must comply with the regulations for buildings generally, and not be nearer to the boundary of land not in the same occupation than 5 feet, and not exceed 7 feet in height.

Stables Erected with Walls of Brick, etc.

21. Stables may be erected with walls of brick, stone or concrete, or wood and iron, provided that in stables of more than 2 squares in area the distance of any wall of such stable from land not in the same occupation or possession shall not be less than the vertical height of such wall, including the vertical portion of a gable and roof from the boundary of the land not in the same occupation or possession.

Distance of Stables from Boundaries.

22. No stable may be erected nearer than 30 feet to any dwelling nor nearer than 10 feet to the boundary of land not in the same occupation.

Sanitary Conveniences for Workmen.

23. Before commencing building operations upon any site, the contractor or person responsible for carrying out building operations shall provide sanitary conveniences sufficient for the use of all men working upon the site. Such sanitary conveniences shall be in accordance with the requirements of the Health Act.

Dwelling-houses—Distance from Road.

24. No building which is intended to be used as a dwelling-house, and no addition to any such building, shall be built within a distance of 30 feet measured horizontally from the road the building fronts, unless a building line at a different distance from such road has been fixed by a proper authority, provided that, where existing buildings in any street do not conform with this by-law any new buildings shall line up with the majority of those existing.

Frontages of Buildings.

25. For the purpose of preventing the building of dwelling-houses with frontages abutting on the back yards of other buildings, for providing proper access to all dwelling-houses, and for providing open spaces attached thereto, it is provided that:—No dwelling-house shall hereafter be erected or rebuilt which shall not directly front for the whole width of the building without the intervention of any other building, a public street or private street which shall have been approved for the purpose of this clause.

Distance from Side Boundary.

26. No building which is intended to be used as a dwelling-house, and no addition to any building which is intended to be used as a dwelling-house,

shall be built within a distance of 3 feet if of brick, or 4 feet if of wood, measured horizontally from the boundary of the allotment on which such building is erected, provided that, if the building is of 2 storeys it shall not be erected within 4 feet of the boundary.

Minimum Area of Land.

27. No person shall build or cause to be built any building which is intended to be used as a dwelling-house, unless the site or curtilage of such building has a superficial area of at least 6,000 square feet.

Minimum Area of Open Land.

28. At least $\frac{1}{2}$ of the area of any allotment on which a dwelling-house is erected shall be left open and unbuilt on, and for the exclusive use of the occupiers of the buildings erected upon such allotment.

Minimum Area of Dwelling-house.

29. Every dwelling-house shall consist of a total area of at least 600 square feet, and shall contain not less than 3 main rooms.

Factory or Warehouse.

30. At least $\frac{1}{3}$ rd of the area of any allotment on which a factory or warehouse is erected shall be left open and unbuilt on, and for the exclusive use of the occupiers of the buildings erected upon such allotment.

Computing Distances.

31. For the purpose of computing distances from any building the outer face of the wall shall be taken as the point from which measurements are to be taken.

Permit for Erection of Shop Where Dwelling not attached.

32. Permission may be granted for the erection of a shop where a dwelling is not attached, and where no person resides at such shop, on land having a frontage of at least 18 feet to a road and a depth therefrom of at least 110 feet. Provided that no portion of such shop or building shall be erected within 15 feet of the rear boundary of such land and only if the Council shall approve of the site of the proposed building.

Separate Entrance for Shop and Dwelling in Different Occupations.

33. If a dwelling attached to a shop is in a different occupation from the shop, a separate entrance from the road shall be provided for the sole use of the occupants of the dwelling.

Access to Rear.

34. Where there is no public or convenient access at the rear of the site of any building for the removal of night soil the building shall be so designed as to leave outside the building way of access at least 4 feet wide from a public road to the privy closet, and for the removal of garbage and refuse.

Apartment Buildings.

Area of Land to be Occupied.

35. The total ground floor area of an apartment building together with the ground floor area of any other buildings erected on the same allotment, shall not exceed $\frac{2}{3}$ rd of the area of such allotment.

Area of each Apartment.

36. The total floor area of each apartment shall be at least 400 square feet comprising at least 3 main rooms. In addition thereto every apartment shall have for the exclusive use of the occupants at least 100 square feet of verandah space.

Area of Main Rooms.

37. Every main room in an apartment shall have a floor area of at least 100 square feet. The average floor area of all the main rooms in an apartment shall be at least 120 square feet.

Apartment to be Self-contained.

38. Every apartment shall be self-contained. It shall contain its own kitchen, bathroom and lavatory. It shall have a separate entrance from the outside of the building.

Residential Flat Buildings.

Sites and Buildings.

39. (a) A residential flat building shall not occupy more than $\frac{2}{3}$ of the allotment of land on which it stands and shall not be nearer to the boundary between the allotment on which it stands and any adjoining allotment than a distance of 3 feet for any building of 1 storey, or 4 feet for a building of 2 storeys above the ground on the side towards the adjoining allotment.

(b) Under no circumstances shall a basement be designed or adapted for occupation as a flat or flats.

Sound Proofness—Thickness of Walls, Etc.

(c) The dividing walls (where not of brick, stone, or concrete) and the floors between the flats shall be so constructed as to minimise the conduction of sound.

(d) Internal walls dividing separate flats or dividing flats from common halls, if constructed of brick, stone, or concrete, or the like material, shall not be of a less thickness than 9 inches.

(e) Internal walls dividing separate flats, if built of terracotta or other approved non-combustible material not mentioned above, carried up from beams for each storey, shall be of double thickness, with a cavity between of not less than 2 inches.

Domestic Offices, Kitchens, Etc.

(f) Comprised within each flat there shall be a bathroom, water closet, and a kitchen or alcove, where food may be prepared. A kitchen sink shall be fixed with running water and connected with a sewer system.

(g) In a flat containing not more than 4 habitable rooms, the water closet may be fixed in the bathroom. In a flat containing five or more habitable rooms in all, the water closet shall be fixed in a separate compartment.

(h) The minimum size for one bathroom in each flat shall be at least 6 feet wide and 6 feet long where the water closet is in a separate compartment, but the size shall be increased by not less than 1 foot 6 inches in length or width when the water closet is fixed in the bathroom. The minimum width of a water closet compartment shall be 3 feet.

(i) The floor surfaces of bathrooms and water closets on any floor and of laundries, when above the ground, shall be of impervious materials properly graded and drained to a suitable outlet.

(j) The height of a bathroom or of a water closet shall not be less than 10 feet from floor to ceiling for at least $\frac{1}{2}$ the area of the floor (or 8 feet 6 inches, if the flushing system is placed above the ceiling), and in no case shall the height of the wall in any part be less than 8 feet.

Privacy.

(k) In every flat containing more than one bedroom, each bedroom shall be separately accessible, and one bathroom, and one water closet, if in a separate compartment, shall be accessible without passing through a bedroom.

Common Hall, Etc.

(l) A common hall or passage serving flats shall not be less than 4 feet in width. No stairway serving flats shall be less than 4 feet in width and the staircases leading to the various floors shall be of fireproof materials. Every staircase enclosed between the walls shall be ventilated on each floor by means of a window or sky-light opening directly into the external air.

Garbage.

(m) The owner of every residential flat building shall provide means satisfactory to the Council for conveying garbage to a common receptacle or suitable receptacles for holding garbage, until it is removed, and place such receptacle in the open air, or in some closed off closet or space so that such garbage is not offensive.

(n) Every residential flat building shall have a yard of at least 25 feet depth at the rear extending across the entire width of the allotment, open to the sky at every point, and unobstructed, except that a fire escape, bridge or platform not exceeding 4 feet in width may extend over such yard from such building to a neighbouring building, or to the ground.

Tents—Canvas Buildings.

40. No structure of calico, canvas or other textile material shall be erected on any other than a camping site set aside for the purpose, except with the permission of the Council.

Site—Healthiness of.

41. (a) No building shall, without the written permission of the Council, be erected on any site which shall have been filled with any material impregnated with faecal or with any animal or vegetable matter, or upon which any such matter may have been deposited, unless and until such matter shall have been promptly removed by excavation or otherwise from the said site and the depression filled in with clean soil.

(b) If the Council so direct in any particular case, the whole or part of the ground surface or site of a dwelling shall be covered with a layer of good cement concrete, or tarred metal rammed solid, and at least 4 inches thick.

Part 4.—Materials.

Quality of Materials.

42. All materials used in any building must be of good quality and shall be subject to the approval of the surveyor, and the surveyor shall have power to condemn and order the removal of, or to remove at the expense of the owner, any material which, in his opinion, is not suitable for use for the purpose for which he considers it is intended to use same, and no person shall use any material so condemned for any building, alteration or addition.

Secondhand Material.

43. No old or secondhand material may be used unless approved in writing by the surveyor.

Bricks.

44. Bricks used in any building must be good, hard and well-burnt. When old bricks are used in any wall, they shall be thoroughly cleaned before being used, and shall be whole and good, hard, well-burnt bricks.

Sand.

45. Sand used for mortar and concrete in any building shall be clean and sharp, free from loam, dirt, salt and organic matter.

Lime and Mortar.

46. Lime mortar shall be composed of freshly burnt lime and sand in the proportion of at least 1 part by measure of lime and not more than 3 parts by measure of sand. All lime intended to be used for mortar shall be thoroughly burnt, of good quality, and be properly slaked before being mixed with sand.

Cement Mortar.

47. Cement mortar shall be composed of good Portland cement or other cement of equal quality approved of by the surveyor, mixed with clean, sharp sand in the proportion of at least 1 part by measure of cement and not more than 5 parts by measure of sand, and shall be used before initial setting has commenced.

Concrete.

48. Concrete for foundation shall be composed of clean, broken stone or other hard material approved by the surveyor, broken to a gauge not exceeding 2 inches, and sand or approved metal screenings well mixed on a wooden floor or in an approved concrete mixer, with cement in the proportions of 1 part by measure of cement to not more than 6 parts of the other materials. Concrete for purposes other than foundations shall be as specified above, except that for walls less

than 6 inches in thickness and for reinforced work the stone used shall be broken to a gauge not exceeding 3 quarters of an inch.

Cement Blocks.

49. Cement blocks shall be properly cured for 3 days by spraying with water or effectively covering with bags or other approved material, which shall be kept wet for not less than 3 days. Cement blocks shall contain at least 1 part cement to 6 of sand or metal screenings or other proportions as approved by the surveyor.

Timber.

50. All timbers and wooden beams used in any building shall be good sound material, free from rot, large or loose knots, shakes or any other imperfections whereby the strength may be impaired, and shall be of such sizes, dimensions and spaces as set forth in clause 81 of this by-law, subject however, to clause 52 hereof.

Lintels.

51. All lintels cast in concrete shall have the brand of the manufacturer stamped thereon, such manufacturer to be approved of by the surveyor. Builders casting lintels in position shall submit to the surveyor a plan showing position and details of reinforcements and specifications of materials to be used, such design to be approved at the same time as the plan. Lintels up to 6 feet span shall be 3 courses in depth. Lintels from 6 to 8 feet span shall be 4 courses in depth. All such lintels shall be reinforced with at least 3 half-inch bars and shall have a proper bearing at each end.

Dimensions of Timber.

52. The timber used in brick dwelling-houses shall conform to not less than the following minimum sizes:—Bottom wall plates, 3in. x 2in.; floor joists, 4in. x 2in. at 2ft. centres, or 3in. x 2in. at 18in. centres; bearers, 4in. x 3in., not exceeding 5ft. centres, and shall be a least 6in. clear of ground; top plates, 4in. x 1½in.; rafters, 3in. x 2in. at 18in. centres for other than iron roof, or 3ft. centres for iron roof, or 4in. x 2in. at 2ft. centres for other than iron roof, or 3ft. centres for iron roof; purlins, 4in. x 3in. for tile roof, well strutted; ceiling joists, 4in. x 2in. at 2ft. 6in. centres, or 3in. x 2in. at 2ft. centres; ceiling hangers, 8in. x 1½in.; collar ties, 4in. x 1½in.; ridge, 7in. x 1½in.; hips and valleys, 8in. x 1½in. Ant stops shall be provided to each stump, with an overhang of at least 2 inches.

Part 5.—Construction.

Brick Buildings: Excavations and Inspection of Trenches.

53. All excavations for footings shall be taken down to a solid foundation, to be approved of by the surveyor, but not less than 12 inches below the natural surface of the ground except in cases of special construction of foundations approved by the surveyor. No footing shall be placed in position until at least 24 hours' notice shall have been given to the surveyor that the trenches are ready for inspection.

Drainage under Floors.

54. The surface of the ground between all walls of buildings shall be levelled up higher than the finished surface outside and evenly graded to prevent any accumulation of water or drainage beneath the floors.

Walls to have Footings.

55. Unless with the consent of the surveyor, every external wall and every party wall not carried on a "bressemer" and every pier and storey post shall have footings.

Dimensions of Footings.

56. The width of the bottom of the footing of every such wall shall be at least 1 half greater than the thickness of the wall at the ground floor level, but in no case less than 16 inches wide, unless approved by the surveyor, and the height of such footing shall be at least equal to the thickness of the wall at its ground floor level, but in no case less than 9 inches.

57. In the case of wooden buildings, the foundations thereof for all walls shall be in accordance with clause 81 of this by-law.

External Walls.

58. All external walls shall consist of brick, stone, concrete reinforced concrete, or other hard fire-resisting material approved by the surveyor, provided that any building used or intended to be used solely as a dwelling-house may have walls constructed of wood, asbestos, and/or iron, subject to the conditions set out in this by-law for buildings wholly or partly in wood.

Construction of External Walls.

59. Every wall constructed of brick, stone or other similar materials shall be properly bonded and solidly put together with mortar, and no part of such wall shall overhang any part underneath it to a greater extent than 9 inches and as approved by the surveyor, and provided that the projection is well and solidly corbelled out, and that the inside of the wall carrying such corbelling is carried up vertically in continuation of the lower face thereof. All return walls shall be properly bonded together.

Damp Course.

60. Every wall or fireplace of brick, stone or similar material shall have a damp-proof course or courses of asphalt, distilled tar and hot sand, or other approved impervious material at least 6 inches above the surface of the ground below the lowest floor, and in cases where it is not desirable to place the same throughout the building at the 1 uniform level, then the said damp-proof course must be laid in horizontal layers connected at the end by a vertical course of the same materials, and shall be not less than ½ inch thick.

Hollow Walls.

61. External walls may be constructed as hollow walls, if constructed in accordance with the following rules:—(a) The inner and outer parts of the wall shall be separated by a cavity which shall throughout be of a width not exceeding 2 inches or less than 1 inch. (b) The inner and outer parts of the wall shall be securely tied together with suitable bonding ties of adequate strength formed of galvanised iron, glazed stoneware, or other approved material. Such ties shall be placed at distances apart not exceeding 3 feet horizontally, and at least every 5th course vertically. (c) The thickness of each part of the wall shall throughout be not less than 4½ inches. (d) The aggregate thickness of the 2 parts, excluding the width of the cavity, shall throughout be not less than the minimum thickness prescribed for solid walls of the same height and length. (e) No hollow wall of not more than 11 inches in thickness shall be greater in superficial extent than 3 squares in any one storey unless strengthened by a partition wall, fireplace, or projecting pier to the satisfaction of the surveyor.

62. Cement blocks shall not be used green. Unless with the approval of the surveyor, no block shall be used within 14 days of the date of manufacture. The blocks shall be bedded and jointed in cement mortar.

Thickness of Walls, Domestic Class.

63. No external wall in brick, stone or concrete, or cement block shall have less than the thickness prescribed in the following Table A:—

Table A.
Buildings of Domestic Class.

		Thickness of Walls in inches.	
Length of Wall.	No. of storeys.	Lower storey.	Upper storey.
Walls built with lime mortar—			
Not exceeding 30ft.	1	9	—
	2	9	9
Exceeding 30ft.	1	9	9
	2	13½	13½
Walls built with cement mortar—			
Not exceeding 30ft.	1	9	—
	2	9	9
Exceeding 30ft.	1	9	—
	2	13½	9

64. If any storey exceeds in height 18 times the thickness prescribed for the walls of such storey, the thickness of each external and party wall throughout such storey shall be increased to one-eighteenth part of the height of the storey and the thickness of each external and party wall below that storey shall be increased to that thickness, but any such additional thickness may be confined to piers, properly distributed, of which the collective widths amount to one-fourth part of the length of the wall. No increase in thickness of brick walls shall be less than $4\frac{1}{2}$ in.

65. The height of any storey may be 20 times the thickness of the walls prescribed for such storey if built with cement mortar.

66. Notwithstanding anything to the contrary in this by-law, the Council may permit the erection of dwellings of not more than 2 storeys in height, of concrete or concrete blocks with walls of less than the prescribed thickness, if satisfied that such proposed dwellings will be hygienic and structurally sound.

Thickness of Walls, Warehouse Class.

67. The external and party walls of buildings of the warehouse class shall be made of not less thickness than that specified in the following Table B:—

Table B.

Buildings of the Warehouse Class.

Length of Wall.	No. of storeys.	Thickness of Walls in inches. Ground floor.	First floor.	Second floor.
Walls built with lime mortar—				
Not exceeding 75ft.	1	$13\frac{1}{2}$	—	—
	2	18	$13\frac{1}{2}$	—
	3	18	18	$13\frac{1}{2}$
Exceeding 75ft.	1	18	—	—
	2	18	18	—
	3	$22\frac{1}{2}$	18	18
Walls built with cement mortar—				
Not exceeding 75ft.	1	$13\frac{1}{2}$	—	—
	2	$13\frac{1}{2}$	$13\frac{1}{2}$	—
	3	18	$13\frac{1}{2}$	$13\frac{1}{2}$
Exceeding 75ft.	1	$13\frac{1}{2}$	—	—
	2	18	$13\frac{1}{2}$	—
	3	18	18	$13\frac{1}{2}$

Thickness of Walls under certain Conditions.

68. Walls under 75ft. in length may be constructed 9in. thick, provided they are strengthened with $4\frac{1}{2}$ in. piers equally spaced, of which the collective widths amount $\frac{1}{5}$ of the length of the wall. The height should not exceed 12ft. when built with lime mortar, or 13ft. 6in. when built with cement mortar.

69. The thickness of walls under 20ft. in length may be $\frac{2}{3}$ the thickness required for external or party walls as stated in Tables A and B, but in no case less than 9in.

70. If in any storey of a building of the warehouse class the thickness of the wall as determined by the provisions of part of this by-law is less than one $\frac{1}{16}$ part of the height of such storey, the thickness of the wall shall be increased to $\frac{1}{16}$ part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to that thickness, but any such additional thickness may be confined to piers properly distributed, of which the collective widths amount to $\frac{1}{5}$ part of the length of the wall. No increase of thickness of brick walls shall be less than $4\frac{1}{2}$ in. The height of any storey built in cement mortar may be 18 times the thickness prescribed for such storey.

Lengths, How Measured.

71. Walls are deemed to be divided into distinct lengths by return walls, and the length of every wall is measured from the face of 1 return wall to the face of another provided that such return walls are external, party or cross walls of the thickness required by this part of this by-law, and bonded into the walls so deemed to be divided.

Cross Walls.

72. The thickness of a cross wall shall not be less than $\frac{2}{3}$ of the thickness hereinbefore required for an external or party wall of the same dimensions and belonging to the same class of building, but never less than 9in. and no wall subdividing shall be deemed to be a cross wall unless it is carried up to the plate level of the topmost storey, and unless in each storey the aggregate extent of the vertical faces or elevations of all the recesses, and that of all the openings therein taken together, does not exceed $\frac{1}{2}$ of the whole extent of the vertical face or elevation of the wall. If a cross wall is carried on a girder across the ground storey and is supported by piers to the satisfaction of the surveyor, it shall be deemed to be a cross wall in accordance with this regulation. But in 1-storey buildings of the domestic class, $4\frac{1}{2}$ in. cross walls will be permitted, provided the unsupported length of any wall does not exceed 25ft.

Cross Wall becoming External Wall.

73. Wherever a cross wall becomes in any part an external wall, the external portion of such cross wall shall be of the thickness required for an external wall of the same height and length and belonging to the same class of building, but no portion of such cross wall shall be of less thickness than is required for the external portion thereof.

Internal and Partition Walls.

74. (1) All external bearing walls and partition walls shall be constructed in such manner as may be constructed in such manner as may be approved by the surveyor and shall be of brick, stone, concrete or cement block. All such walls shall be not less than $4\frac{1}{2}$ in. thick, provided that where such walls form a division between flats then such walls shall be not less than 9in. thick.

(2) Unless with the consent of the surveyor every such wall, unless carried on a bressummer, shall have footing, and such footing shall be of at least twice the thickness of the wall resting upon it.

Isolated Piers.

75. No isolated brick or stone piers shall exceed in height 8 times the least diameter of same, if built of lime mortar, and 12 times if built of cement mortar.

Parapet to Walls on Boundary.

76. Where the external wall of any building is erected on the boundary of the land on which the same stands, or where the overhanging eaves or gutter of any building would be within 2ft. of such boundary, then the external wall of such building shall be carried up to form a parapet 15in. at the least in height above the roof or above the highest part of any flat or gutter, as the case may be.

Parapet, Warehouse Class.

77. In buildings of the warehouse class the thickness of such parapet shall be equal to the thickness of such wall in the topmost storey, and in any other building of a thickness of 9in. at least.

Party Walls.

78. Every party wall shall be carried up for a height of 15in. above the roof, measured at right angles to the slope thereof, or 15in. above the highest part of any flat or gutter, as the case may be, and of a thickness (in buildings of the warehouse class) equal to the thickness of such wall in the topmost storey and in any other building of thickness of $8\frac{1}{2}$ in. at the least.

Provided, however, that in the case of domestic buildings where not more than 2 buildings are erected under 1 roof, it shall be sufficient if the party wall is carried up at least $8\frac{1}{2}$ in. in thickness to the underside of the roof covering, and such roof covering of iron, slate, or other material must be bedded in good mortar to the satisfaction of the surveyor, and the top of such party wall shall not be hidden from view until it has been approved by the surveyor.

79. Every party wall shall be carried up of the thickness aforesaid above any turret, dormer, lantern light, or other erection of combustible materials fixed upon the roof or flat of any building within 4ft. from such party wall and shall extend at the least 15in. higher and wider on each side than such erection; and every party wall shall be carried up above any part of any roof opposite thereto and within 4ft. therefrom.

80. All party walls to separate any 2 complete buildings (whether such buildings are of timber or not) shall be of brick, stone, concrete, or other fireproof material.

Structural timber shall not be placed at a distance less than 4½in. from the centre of any such party wall.

Buildings Wholly or Partly in Wood.

81. The external walls of all wooden buildings shall not exceed in height 15 feet measured from the floor level to the top of the wall plates. Every such building shall be wholly in one occupation or be constructed or adapted so to be. The following conditions shall apply as to scantlings and spacings of timber.

Stumps—Jarrah or other approved timber, 4in. x 4in., spaced not more than 5ft. apart and fixed on sole plates 24in. x 6in. x 1½in. if required by surveyor.

Stumps shall be treated with white ant resistant liquid and sunk at least half their length in the ground: Provided that no stumps shall be less than 15in. in the ground. White ant resistant liquid is to extend for 6in. above the ground surface.

Bottom Plate—4in. x 3in. or 3in. x 2in. hardwood or jarrah.

Floor Joists—Supported at least every 5ft., 4in. x 2in. hardwood or jarrah, 2ft. centres, or 3in. x 2in. at 18in. centres.

Bearers—4in. x 3in., at 5ft. centres.

In addition to the bearers required for this spacing, an additional 4in. x 3in. must be placed under each wall or partition not supported by stumps.

Studs—4in. x 2in. at 2ft. centres, or 3in. x 2in. at 18in. centres where wall's height does not exceed 10ft.

Angle Studs—3in. x 3in. or 4in. x 4in., where 4in. x 2in. studs are used.

Top Plates—Wooden buildings, 4in. x 2in., or 3in. x 2in.

Ant stops shall be provided to each stump with an overhang of at least 2in.

Rafters—4in. x 2in., 2ft. centres, or 3in. x 2in., 18in. centres for tiles, or for iron roof, 3ft. centres.

All rafters must be securely braced with purlins and collar ties.

Under Purlins—4in. x 3in. for tile roof.

Purlins—3in. x 1½in. for iron roof at not more than 3ft. 6in. centres.

Ceiling Joists—3in. x 2in., 2ft. centres.

Ceiling Hangers—8in. x 1½in., not more than 7ft. apart.

Collar Ties—4in. x 1½in.

Ridge—7in. x 1in.

Hips—8in. x 1in.

Fascia—9in. x 1in.

Flooring Boards—1in. thick by varying widths.

Trimmers—Two rows of trimmers, 3in. x 2in. or 3in. x 1½in. in each wall lined with plasterboard.

Wall Braces—2in. x ¾in. for 3in. x 2in. studs, 2in. x 1in. for 4in. x 2in. studs.

Braces to be put in every wall unless approved otherwise by the surveyor.

Weatherboards—1½in. in lap, except where they are rebated.

Wash-houses and wood sheds not under main roof to be of not less than 3in. x 2in. framing.

W.Cs. shall be constructed of brick with internal dimensions not less than 5ft. x 3ft. 6in. and the floor shall be constructed of concrete with a fall of 1 in 20 from back to front.

Interior of Walls.

82. The interior of all walls and ceilings of every wooden building which is intended to be used or shall or may be used as a dwelling-house shall be constructed of plaster sheets or of approved wood or fire-resisting materials.

Roofs.

83. The roof of every building shall be constructed of tiles, slates, metal or other material approved by the surveyor.

Reinforced Concrete Buildings.

84. In all cases where reinforced concrete is employed, whether in buildings as a whole or in portions of buildings before the actual carrying out of the work of any portion thereof, complete drawings of such work or portion shall be delivered to the surveyor, showing all details of the construction and the size, spacing and arrangement of all the reinforcing members.

Public Buildings.

85. In any case in which the plans of any proposed building are required by law to be approved by the Public Works Department, such approval shall be obtained before such plans are submitted for the Council's approval.

United Buildings.

Buildings Not to be United.

86. Buildings shall not be united except where they are wholly in one occupation, but doorways may be allowed in party structures opening on to staircases, landings, or passages, provided they are protected with iron-cased or tin-clad doors. Such doors shall be hung so as not to block the staircases, landings or passages.

87. Buildings shall not be united if, when so united, and considered as one building only, they would not be in conformity with the provisions of this by-law.

Buildings Deemed to be United.

88. Buildings shall be deemed to be united when any opening is made in the party wall or the external walls dividing such buildings, or when such buildings are so connected that there is access from one building to the other without passing into the open air: Provided that buildings shall not be deemed to be united when they are connected only by an open gangway.

Alterations, Additions, etc.

Alterations.

89. Except with the consent of the surveyor, no alteration shall be made in any building in such manner that when so altered it will by reason of such alteration not be in conformity with the provisions of this by-law relating to new buildings.

Fire-resisting Construction.

90. (1) Any building to be erected in the defined business area shall be of fire-resisting construction, that is to say:—

(a) The walls shall be of brick, stone, concrete, or other incombustible material.

(b) The floor, roof and stairs shall be built entirely of fire-resisting materials (already defined).

(2) A building of over 4 storeys in height (not including the cellar (if any) to be erected in any part of the municipality shall be built entirely of incombustible material with the following exception:—Timber may be used for floors (and nailing strips or joists) on top of fire-resisting floors and for handrails, doors, door frames, window frames and sashes, architraves, skirtings, fitments and finishings.

Staircases.

91. Every person who shall hereafter construct or adapt any building for occupation in separate tenements by more than 2 families, shall cause the principal staircase of such building, which may be used by several families in common to be ventilated upon every storey above the ground storey by means of windows or skylights opening directly into the external air, or to be otherwise adequately ventilated.

Every person concerned in the erection of any dwelling-house not subject to the provisions of the last preceding section shall cause the principal staircase in such dwelling-house to be ventilated by means of a window or skylight opening directly into the external air.

Every person concerned in the erection of a building of more than 150,000 cubic feet which is constructed or adapted to be used as a dwelling-house for separate families shall cause the floors of the lobbies, corridors, passages, landings, and also the stairs, to be of fire-resisting materials and when over 3 storeys, exclusive of basement, to be carried by supports of fire-resisting materials.

Fire Escapes.

92. (a) Every building 2 storeys or more in height shall be provided with a fire escape in addition to a main staircase.

(b) Each such fire escape shall be on the outside of the building and shall be so designed and constructed that it shall not pass across or above windows (except in the case of windows provided with self-closing, fire-resisting shutters, or metal-frame windows filled with wired glass). It shall not overhang a public place without the permission of the Council, and such permission shall not be given in relation to any road other than a right-of-way.

(c) It shall be of fire-resisting construction.

(d) It shall be so constructed and so fixed as to be capable of carrying with absolute safety the largest number of people who may reasonably be expected to be upon the fire escape at any one time.

(e) It shall give direct access to a public place or to a courtyard or open area connecting with a public place. It shall be directly accessible from each floor of the building which has not direct communication with the ground, and the doors of the building which open to the fire escape shall (if they are not sliding doors) open outward and shall lie flat against the wall so as not to obstruct landings. Any doorway opening to a fire escape shall be not less than 6ft. 3in. high and less than 2ft. 6in. wide.

(f) A fire escape shall have full $\frac{1}{2}$ landings (or $\frac{1}{4}$ landings, where flights of stairs are at right angles to each other), also protecting hand rails, and either guard-rails or wire enclosure. Winders shall not be allowed. The lowest landing if not on the ground level shall be not less than 15 square feet in area.

(g) The stairs of a fire escape shall be uniform throughout with risers not more than 8in. and treads not less than 8in., exclusive of nosings, if any. Each flight of stairs shall contain not more than 16 nor less than 2 risers, shall have a clear width of not less than 2ft., and shall have clear head room at every part of not less than 6ft. 6in.

(h) Every door opening on to a fire escape shall be fitted with self-closing fire-resisting door, which can be easily opened and which shall have an automatic fastening capable of being readily opened from the inside, and the fire escape shall be so constructed that it shall not be necessary to pass the well or shaft of any staircase or unprotected lift-shaft to reach the fire escape, and in such manner that a fire bursting through the windows or doors of any one room could not block both the staircase and the fire escapes at the same time and shall extend from the roof (if flat) and from the top floor (in other cases) to the ground level.

Fire Extinction.

93. All buildings of 3 storeys and more shall have a fire service main not less than 4in. diameter carried to the roof and fitted at each floor and the roof with $\frac{1}{2}$ in. fire cocks, hose and fittings.

Water supply for extinction as recommended by the Building Surveyor and the District Fire Brigade Officer shall be provided in—

- (1) a building proposed to be used as a factory;
- (2) a building of more than 2,000 square feet in area proposed to be used as a shop.
- (3) a timber yard.

All fire protection fittings shall be to the approval of the W.A. Fire Brigades Board.

Rebuilding Party or External Walls.

94. Unless in any case the surveyor otherwise allows where a party or external wall not in conformity with this by-law has been taken down,

burnt, or destroyed to the extent of $\frac{1}{2}$ thereof (measured in superficial feet) every remaining portion of the old wall not in conformity with this by-law shall either be made to conform therewith or be taken down before the re-building thereof.

Additions or Alterations.

95. Every addition to or alteration of a building and any other work made or done for any purpose in or upon a building (except that of necessary repairs not affecting the construction of any external, cross or party wall) shall so far as regards such addition or alteration or other work, be subject to the provisions of this by-law relating to new buildings.

Part 6.—Ventilation, Lighting and Drainage, etc.

Height of Rooms.

96. The minimum height from floor to ceiling of all rooms of a building intended for use as a dwelling-house may be 9ft. or more, but shall not be less than 9ft.

Minimum Area of Rooms.

97. No main room shall have less floor area than 100 square feet.

Windows and Ventilators.

98. All rooms in a building intended to be used as a dwelling shall have 1 or more windows opening directly into the external air, the area of such windows to be equivalent to at least $\frac{1}{10}$ of the floor area.

Ventilation.

99. Every part and every room of any dwelling-house or building intended to be used for habitation shall be ventilated as required under Part 1 of the Health By-law, viz.:—

In the ratio of 24 square inches of inlet, and 24 square inches of outlet of uncontrolled ventilating area to each 100 square feet of floor area.

Where air vents are placed in the ceilings a dust plate shall be provided 3in. clear of the ceiling as protection from dust falling from the under side of the roof.

Manholes in Ceilings.

100. Every building shall be provided with 1 or more manholes in the ceiling to enable access to be gained to the underside of the roof thereof.

Application to Shops.

101. The provisions of this part of this by-law relating to the height, lighting and ventilation of main rooms in dwellings shall, as far as applicable, apply to all shops, save that the windows need not be constructed so as to open if other approved provisions for ventilation be made and that the minimum height of walls in shops shall be 12ft.

Floors.

102. Floors shall be fixed level, and in all buildings the floor immediately above the ground, if of wood, shall have a space of not less than 6in. between the ground and the under side of the bearers.

Space Under Floors.

103. The space under the ground floor of every building shall have a sufficiency of openings through all walls under the floor thoroughly to ventilate the same.

Water Not Allowed to Drip on any Public Place.

104. Roofs, gutters and flashings of any building, and of any projection therefrom, and also balconies, verandahs and shop fronts, shall be so arranged and constructed and supplied with gutters and pipes as to prevent the water therefrom dropping or running over any public way. All such pipes, gutters, and flashings shall be made of metal and shall be maintained in good condition.

Permit may be Refused if Drainage Not Satisfactory.

105. The Council may refuse to approve the plan of any building, or of any addition or alteration to any building until it is satisfied that the proposed building, or addition, or alteration, and the site and curtilage thereof will be properly drained.

Provision of Bathroom and Laundry.

106. There shall be provided in all new, or re-erected dwellings a bathroom fitted with bath and wash-basin, also laundry facilities consisting of wash-troughs, and copper, properly fitted and housed in accordance with the provisions of Health By-law 4a, and amendments thereto. All connections to be made in accordance with the local authority's sewerage by-laws.

Drainage Waste Water.

107. Every person who shall erect a building outside the sewered area shall provide proper drains sufficient for carrying away all waste waters into properly constructed soak wells.

Baths, Sinks, Troughs, Basins, Etc.

108. Sinks, tubs, baths, basins, and other fittings provided with an outlet will conform to, and the waste pipes will be connected, in accordance with the Council's sewerage by-laws.

Water Closets, Etc.

109. All pedestal pans, slop hoppers, urinals, etc. shall conform with and be connected in accordance with the Council's sewerage by-laws.

Roof Water Disposal.

110. All buildings shall be provided with pipes for carrying off rain water from the roof thereof to at least 2ft. clear of the foundations to the satisfaction of the building surveyor.

Part 7.—Verandahs, Sleep-outs, Conversion of Buildings, Porches, Projections, Signs and Fences.

Height of Verandahs.

111. The minimum height of verandahs for any dwelling-house shall not be less than 7ft. 4in. from the floor to the plate.

Enclosing of Verandahs.

112. No verandah of any dwelling or other building shall be enclosed, or built in, in such a manner as to exclude natural light, or reduce the proper ventilation of any building or part thereof. The use of hessian, jute bags or similar materials for enclosing or screening verandahs is prohibited.

Sleep-outs.

113. Any verandah which it is proposed to convert into a sleep-out shall conform to the following requirements:—

- (1) Not less than 3ft. and not more than 4ft. in height of wall space to be enclosed with solid dado.
- (2) Ventilation shall be provided in the ratio of 24 square inches of inlet and 24 square inches of outlet of uncontrolled ventilation for every 100 square feet of floor area or part thereof.
- (3) The remaining space to be fitted with louvres or windows, at least 2/3rds of which shall be capable of being opened at 1 time.
- (4) The minimum height from the floor to the underside of the plate shall be 7ft. 4in. and the minimum average height from the floor to the rafters or ceiling shall be 8ft.
- (5) The minimum floor area shall be 80ft.

Conversion of Buildings.

114. No person shall convert into, or use as a dwelling, any building or part thereof not originally built as and for a dwelling-house within the Municipality, whether built before or after the making of this by-law, without the previous consent of the Council.

Porch, Landing, etc.

115. Every porch, gangway, outside landing and outside step shall be of fire-resisting material, and shall not project beyond the boundary of any road or public place.

Shop Windows.

116. Shop windows intended to be used for the display of goods, or business advertisements shall consist of plate or approved glass jointed and fixed in metal or approved timber frames, the level of the sill of such frames to be not higher than 30in. above nor within 12in. of the level of the footpath immediately adjoining the same.

Woodwork Abutting on Roads.

117. Woodwork shall not be fixed flush with the face of any wall abutting on a road unless it is incased with metal of not less than 22 gauge.

Signboard, Hanging Lamp, etc.

118. No signboard, hanging lamp or other fixture shall be erected on or attached to any building or verandah projecting over any road unless the permission in writing of the Council be first obtained. Each such signboard, hanging lamp, or other fixture shall be of material, construction and design approved by the surveyor, and shall be in no part less than 8ft. 6in. above the level of the footpath or road. No signboard shall exceed in depth 3ft. nor, unless attached to a verandah, project over the footpath or road.

Part 8.—General Restrictions Relating to Steam Boilers, Chimneys, etc.

119. No person shall cause or allow:—

Floors—(a) The floor for a thickness of 6in. at least under any oven, copper, steam boiler or stove, which is not heated by gas, or the floor around the same for a space of 18in., to be constructed of materials of a combustible or heat-conducting nature.

Smoke Pipes—(b) Any pipe for conveying smoke or other products of combustion, heated air, steam, or hot water to be fixed against any building on the face adjoining to any street or public way.

(c) Any pipe for conveying smoke or other products of combustion to be fixed nearer than 6in. to any combustible materials.

Steam Pipes—(d) Any pipe for conveying heated air or steam to be fixed nearer than 6in. to any combustible materials.

Hot Water Pipes—(e) Any pipe for conveying hot water to be fixed nearer than 3in. to any combustible materials: Provided that the restrictions imposed by this clause and by subclause (d) with respect to the distance at which pipes for conveying steam and hot water shall be fixed from any combustible materials, shall not apply in the case of pipes provided with a free blow-off. Every person who shall hereafter erect a flue from the stove of an eating house or restaurant, or from the boiler of any place of business, shall cause such flue to be so constructed as to carry the smoke from the same to such a height above the eaves of any and every adjoining building as will prevent a nuisance. In any case such height shall not be less than 3ft. above the eaves of any adjoining building.

Floors over Furnaces or Ovens—(f) The floor over any room or enclosed space in which a furnace is fixed, or any floor within 18in. from the crown of an oven, to be constructed of combustible materials.

Class of Buildings.

120. No permit to build shall be granted in any case where the Council is of the opinion that the proposed building will depreciate the value of those buildings in the immediate vicinity of the site upon which the building is proposed to be erected.

Part 9.—Exempted Buildings.

Ferneries, Aviaries, etc.

121. This by-law shall not apply to any greenhouse, fernery, aviary, or to an outbuilding, if such outbuilding is on an area of not less than 5 acres

used for agricultural or similar purposes only, or to temporary and removable offices and sheds used by builders during the construction of any building at or about the site of such building, for a period not exceeding 12 months.

Part 10.—Enforcement of By-laws and Penalties.
No Building may be Erected, Except in Compliance with this By-law.

122. No person shall erect, build, or construct, remove or make any alteration or addition to, or cause to be erected, built or constructed, removed, or make any alteration or addition to any building contrary to the provisions of this by-law.

Inspection Before Occupation.

123. Before permitting any person to occupy or use any uncompleted building, and forthwith upon completion of any unoccupied building, the person by or in consequence of whose order the building is being erected shall give notice to the Council.

Forthwith upon receipt of notice as aforesaid, the Council shall instruct the proper servant to make an inspection and such servant shall inspect and report to the Council whether or not the building has been erected in accordance with this by-law, and without material deviation from the approved plans and specifications, but this shall not be read to permit any alteration whatever in the position of the building on the site.

Penalty for Breach.

124. Any person who shall be guilty of any breach of any of the provisions of this by-law, or shall fail duly to comply with any notice thereunder shall be liable for every such offence to a penalty of not less than 1 pound, and not exceeding 20 pounds.

Returning Officer.

THE MUNICIPAL CORPORATIONS ACT,
1906-1947.

Municipality of Bunbury.

Notice of Intention to Borrow.

Proposed Loan No. 61, £4,800.

NOTICE is hereby given that the Municipal Council for Bunbury, Western Australia, proposes to borrow the sum of four thousand eight hundred pounds (£4,800) to be expended on works and undertakings in the Municipality of Bunbury. The said works and undertakings being the purchase of 3 only motor trucks complete with new bodies and hoists, 1 only utility 10 cwt. truck, 2 only motor cycles for traffic control, and also to provide for the cost of erecting pre-mix plant which is already in stock.

Full particulars of the cost of the said works and undertakings are open for inspection at the office of the Council, Stephen Street, Bunbury, during office hours, for 6 weeks from the date of publication of this notice.

The amount of £4,800 is to be raised by the sale of debentures repayable with interest by fourteen (14) equal $\frac{1}{2}$ -yearly instalments over a period of seven (7) years after the date of issue thereof in lieu of the formation of a sinking fund. The debentures will bear interest at the rate of £3 12s. 6d. per cent. per annum payable $\frac{1}{2}$ -yearly. The amount of the debentures and interest to be payable at the Commonwealth Bank of Australia, Perth.

Dated this 17th day of August, 1951.

Collie Coalfields Road Board.

Loan No. 15.

Notice of Intention to Borrow—Proposed
Loan £2,500.

NOTICE is hereby given that the Collie Coalfields Road Board proposes to borrow the sum of £2,500 to be expended on works and undertakings in the Collie Coalfields Road Board District, the said works and undertakings being the purchase of a school omnibus.

Particulars showing the proposed expenditure of money to be borrowed are open for inspection by ratepayers at the office of the Board, during office hours, for one month after the publication of this notice.

The amount of £2,500 is proposed to be raised by the sale of debentures, repayable with interest by 20 equal half-yearly instalments over a period of 10 years after the issue thereof, in lieu of the formation of a sinking fund. The debentures shall bear interest at a rate not exceeding £3 10s. per centum per annum, payable half-yearly. The amount of the said debentures and interest thereon will be paid at the office of the Board.

The works and undertakings for which the loan is proposed to be raised will, in the opinion of the Board, be of special benefit to a portion of the Collie Coalfields Road District, namely, the North, South and West Wards, as defined in the *Government Gazette* of the 2nd March, 1951, pp. 468 and 469, and any loan rate applicable to such loan will be levied only on the rateable land within the said North, South and West Wards of the said district.

Dated this 7th day of August, 1951.

Marradong Road Board, Boddington.

Notice of Intention to Borrow.

Proposed Loan No. 4 for £3,000.

NOTICE is hereby given that the Marradong Road Board proposes to borrow the sum of three thousand pounds (£3,000) to be expended on works and undertakings in the Marradong Road District, the said works and undertakings being the erection of 2 houses at a total cost of £3,000, for the housing of the Board's employees.

The plans and specifications and the estimates of the cost of the said works and undertakings and statement showing the proposed expenditure of the money to be borrowed, including the cost of the loan are open for inspection at the office of the Marradong Road Board situated at Boddington for 1 month from the publication hereof between the hours of 9 a.m. to 12 noon and 1 p.m. to 5 p.m. on week days except Saturdays and on Saturdays from 9 a.m. to 12 noon.

The amount of £3,000 is proposed to be raised by the sale of debentures repayable with interest by forty (40) equal half-yearly instalments over a period of twenty (20) years after the date of the issue thereof in lieu of the formation of a sinking fund. The debentures shall bear interest at a rate not exceeding £3 12s. 6d. per centum per annum payable half-yearly. The amount of the said debentures and interest thereon is to be paid at the State Treasury, Perth.

THE ROAD DISTRICTS ACT, 1919-1948.

Ashburton Road Board.

Notice of Intention to Borrow.

Loan No. 2.

NOTICE is hereby given that at a meeting of the Ashburton Road Board held on the 25th day of July, 1951, it was resolved to borrow the sum of one thousand six hundred pounds (£1,600) to be expended on works and undertakings in the Ashburton Road District, the said works and undertakings being the purchase of road-making equipment, such equipment being a "Fowler" Diesel angle-dozer.

All particulars showing the proposed expenditure of the money to be borrowed are open for inspection by ratepayers at the office of the Board during office hours for 1 month after the last publication of this notice.

The amount of £1,600 is proposed to be raised by the sale of debentures, repayable with interest in 20 half-yearly instalments over a period of 10 years after the date of issue thereof, in lieu of the formation of a sinking fund. Such debentures shall bear interest at a rate not exceeding 3½ per cent. per annum, payable half-yearly. The amount of the debentures and interest thereon to be paid at the Superannuation Board, Perth.

The works and undertakings for which the loan is proposed to be raised will, in the opinion of the Board, be of special benefit to the whole of the district in general, and any loan rate applicable to such loan will be levied on all rateable land within the said district.

GOVERNMENT RAILWAYS ACT, 1904-1948.

The Office of the Commissioner of Railways,
Perth, 29th June, 1951.

Ex. Co. No. 1527.

IT is hereby notified, for general information, that His Excellency the Administrator in Executive Council has been pleased to approve of the amendments, as set forth in the Schedule hereunder, to the by-laws made under and for the purposes of the Government Railways Act, 1904-1948, as

published in the *Government Gazette* on the 29th October, 1920, and amended from time to time thereafter.

A. G. HALL,
Chairman of the West Australian
Government Railways Commission.

Schedule.

The abovementioned by-laws are amended by inserting after by-law 92 a new by-law to stand as by-law 93 as follows:—

Drivers of Vehicles Approaching Level Crossings.

Subject to section 42, subsection (3) of the Act, the driver of any omnibus, cab, carriage, cart, dray or other vehicle whatsoever shall, before crossing a railway line at any point, satisfy himself that such line is sufficiently clear of railway and other traffic to allow himself to do so with safety and shall where practicable give audible or visible warning of his intention to do so.

Any person guilty of a breach of this by-law shall be liable to a penalty not exceeding ten pounds (£10).

Approved by His Excellency the Administrator in Executive Council the 7th August, 1951.

R. H. DOIG,
Clerk of the Council.
