## LAND OPEN FOR SELECTION.

Perth Land Agency.

Department of Lands and Surveys,  
Perth,

It is hereby notified, for general information, that the areas scheduled hereunder are available for selection under Part V. of the Land Act, 1933-1950, and the regulations appertaining thereto, subject to the provisions of the said Act.

Applications must be lodged at the Department of Lands and Surveys, Perth, not later than the date specified, but may be lodged before such date, if so desired.

All applications lodged on or before such date will be treated as having been received on the closing day, and if there are more applicants than one for any block, the application to be granted will be determined by the Land Board. Should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, the applicants for the blocks will be duly notified of the date, time, and place of the meeting of the Board, and there shall be an interval of at least seven days between the closing date and the sitting of the Board.

All marketable timber, including sandalwood and mallet, is reserved to the Crown, subject to the provisions of Clause 14 of the Regulations.

## TOWN PLANNING AND DEVELOPMENT ACT, 1928.

Manjimup Town Planning Scheme.  
Amendments and Amplification.

T.P.B. 97/53, Vol. 23.

IN pursuance of the resolution of the Manjimup Road Board, dated the 11th day of April, 1953, it is hereby notified, for general information, in accordance with the regulations, the undermentioned works are planned and projected and regulations made for their execution and enforcement subject to the provisions of the Act.

## Work 11.

## Extension of Business Area.

Notwithstanding anything to the contrary contained in the scheme, gazetted on 25th March, 1938, the business area of the scheme is extended to include that portion of railway land edged brown on the sealed plan of this amended and amplified scheme, being an area having a frontage parallel to Giblett Street and known as railway lots 23 to 39, both inclusive, as recorded on the sealed plan.

## Regulation.

The land described in Work 11 may be used for business premises comprising lock-up shops. Such premises to have brick, stone or concrete walls and to comply with the regulation under the scheme controlling building, page 450 of the *Government Gazette* dated 25th March, 1938, and the Health Act, 1911-1948.

The business premises herein referred to are to have a continuous facade as far as levels permit and may not be used for residential purposes.

Any objections to the proposed amendment should be sent in writing to the Secretary, Manjimup Road Board, on or before the 12th February, 1954.

M. DUNN,  
Secretary.

## WANNEROO ROAD BOARD.

IT is notified, for public information, that Thomas W. Hare is appointed Poundkeeper-Ranger for the Wanneroo Road District as from 18th January, 1954.

## ROAD DISTRICTS ACT, 1919-1951.

Darling Range Road Board.  
Building By-laws.

L.G. 2248/52.

IN pursuance of the powers in that behalf contained in the Road Districts Act, 1919-1951, the Darling Range Road Board makes the following by-laws relating to buildings:—

Part 1.—Operation and Definition.  
Application.

1. These by-laws shall apply to all lands and buildings within the area of the Darling Range Road Board.

## Commencement.

2. These by-laws shall come into operation immediately upon their confirmation and approval by the Governor and publication in the *Government Gazette*.

## Repeal.

3. From the date of coming into operation of these by-laws all building by-laws previously in force for the Darling Range Road Board are hereby repealed.

## Definitions.

4. In these by-laws, subject to the context—

“Act” means the Road Districts Act, 1919-1951, and amendments.

“Alteration” means any work made or done for any purpose in, or on a building (except that of necessary repairs not affecting the construction of any external, cross or party wall), or any change in the purpose for which the building or erection, or any part thereof shall be used.

“Apartment” means a room or rooms or part of a building intended or adapted for a separate occupation as a dwelling, and includes a fiat.

“Apartment building” means a building containing two or more apartments.

“Approved” means approved by the Board in writing or (in case where the surveyor is authorised by the Board to do so) approved by the surveyor in writing.

“Area” applied to a building means the sum of the superficies of the horizontal sections of each storey made at the point of the greatest surface of each floor, inclusive of the external walls and such portions of the party walls as belong to the building.

“Board” means the Darling Range Road Board.

“Build” means and includes erect, build, or construct, or cause to be erected, built or constructed.

“Building” means and includes erection, structure, detached room, outbuilding, hoarding, and every structure of whatever kind capable of affording protection or shelter, either roofed, or intended or adapted to be roofed, and whether enclosed by roofs or not, and every part of such structure and any addition or alteration thereto.

“Builder” means the master builder or other person employed to execute any work, or, if there is no master builder or other person so employed, then the owner of the building or other person for whom or by whose orders such work is to be done.

“Dwelling house” means a building used or adapted to be used wholly or principally for human habitation.

“District” means Darling Range Road District.

“External wall” means the outer wall of a building, not being a party wall, even though it adjoins a wall of another building.

“Fire-resisting” used with reference to any materials includes:—

- (a) Brickwork constructed of good bricks well burnt, hard and sound, properly bonded and solidly put together with good lime or cement mortar.
- (b) Any stone suitable for building purposes by reason of its solidity or durability.
- (c) sheet metals or other similar materials which are, in the opinion of the Board, fire-resisting.
- (d) Iron and steel (when used for columns, girders, or wall framing) encased in cement, concrete, or other incombustible or non-conducting external coating.
- (e) Slate, tiles, brick, and terra-cotta, when used for covering or corbels.
- (f) Concrete when composed of broken bricks, stone chippings, or ballast and lime cement or calcined gypsum.

“Frontage” means the distance measured at right angles to one of the sides of the land from the terminal point thereof to the opposite side.

“Garage” means any building used for the housing of a motor vehicle (not being a garage carried on as a business undertaking).

“Height” in relation to any building means measurement taken from the level of the footway (if any) immediately in front of the centre of the building, or when there is no such footway from the level of the ground before excavation to the level of the ceiling or tie of the topmost storey.

“Height” in relation to storey means:—

- (a) In the case of the topmost storey, the measurement between the floor and the ceiling thereof, or between the floor and the undersurface of the tie of the roof, or if there is no tie, then up to the level of half the vertical height of the rafters, or other support of the roof.
- (b) In the case of every storey other than the topmost storey, the measurements between its floor and the floor above.

“Hoardings” included any erection or structure erected, built, constructed, or used, or that may be used for the purpose of writing, painting, pasting, or posting thereon notices, advertisement, placards, or other printed, painted, or written matter, or any erection or structure, being of a greater height than 6ft. from the level of the adjoining street.

“Main rooms” means and includes all rooms used or intended to be used as bedrooms, dining rooms, lounges, ordinary living rooms or kitchens.

"New buildings" includes:—

- (a) Any building erected or commenced to be erected after the date of these by-laws coming into operation.
- (b) Any building of which more than half of its cubical contents has been taken down or destroyed by fire, tempest, or otherwise, and is re-erected, or commenced to be re-erected wholly or partially on the same site after the date of these by-laws coming into operation.
- (c) Any buildings removed or transported wholly or in sections into the district, or to another part of the district after the date of these by-laws coming into operation.

"Outbuildings" means any building or the curtilage of any dwelling shop or combined shop and dwelling used as a workshop or storeroom not being a building for the storage of inflammable materials, nor for the housing of animals, including birds.

"Party wall" means a wall built to be used as a separation of two or more buildings, or a wall forming part of a building built upon the dividing line between adjoining premises for the common use.

"Person" includes corporation.

"Prescribed" means prescribed by these by-laws.

"Public place" has the same meaning as in the Act.

"Reinforced concrete" means a form of construction in which cement concrete is reinforced with iron or steel, these materials being so combined that the iron or steel will take up and resist substantially the whole of tensional stresses and assist in the resistance to shear, while the concrete will take up and resist the compressional stresses and assist in resistance to shear.

"Right-of-way" means any lane or right-of-way, not a road, over which any person other than the owner thereof has a right of carriage-way.

"Road" has the same meaning as in the Act.

"Surveyor" means the building surveyor or acting building surveyor appointed by the Darling Range Road Board, having for the time being the administration of these by-laws.

"Shop" means a building in which goods are regularly offered or exposed for sale, or in which meals or refreshments are regularly offered or provided for payment, and also includes saloons of barbers and hairdressers, and offices of agents, auctioneers, and all other businesses and trades. A *bona fide* boarding house shall not be included in this definition by reason only of the fact that meals or refreshments are occasionally supplied for payment to persons other than boarders.

"Square" applied to the measurement of any area means the space of 100 square ft.

"Surface" or "ground level" means the level of the ground as determined by the surveyor or engineer.

"Wooden building" means buildings constructed of wood, or buildings having wooden frames.

#### Part 2.—Classes of Buildings.

5. For the purpose of these by-laws, buildings shall be divided into three classes:—

Class A.—"Domestic class," which includes all buildings subject to small vibrations and light loading of floors, such as dwelling houses, residential shops, offices, hotels, private schools, club houses, and studios.

Class B.—"Warehouse class" which includes all buildings subject to vibrations and heavy loading of floors, such as warehouses, factories, mills and places for storage and manufacturing of goods.

Class C.—"Public building class" which includes all buildings designed to accommodate an assemblage of people, such as theatres, churches, chapels, assembly halls, museums, libraries, public schools, hospitals, lecture rooms, and other like buildings. In case of doubt the surveyor shall finally determine to which class any particular building belongs.

#### Part 3.—Notice of Intention to Build or Demolish and Lodging of Plans.

Notice to be Given.

6. No builder shall commence any building, or any addition, or alteration to any building without first delivering at the office of the Board a written application in the form of the First Schedule hereto before so commencing and delivering to the surveyor:—

##### Plans and Specifications.

(a) Properly prepared plans and specifications of such building, addition or alteration, together with a tracing or copy of the plans of such building, additions, or alterations, and also details and dimensions, sizes and qualities of all materials and enumerating any old materials proposed to be used in the construction of the same. Plans shall be drawn in ink and specifications typed or legibly written. Plans to be of good quality parchment 22in. x 15in. Scale  $\frac{1}{4}$ in. to 1ft.

##### Block Plan.

(b) A block plan showing relation of the building to adjoining buildings and boundaries.

##### Purpose.

(c) Statement in writing of the purpose for which the building is intended to be used.

##### Drainage.

(d) Particulars of the proposed method of drainage.

##### Further Particulars.

(e) Such further particulars in writing regarding the same as shall be necessary to enable the Board or its surveyor to determine if all the provisions of these by-laws applicable thereto are being complied with.

##### Tracing Retained.

7. The tracing or copy of the plans and details of materials be retained by the surveyor, and the original plans and specifications when approved shall be evidenced in writing endorsed on plans and specifications and signed by the surveyor.

##### Plans, etc., to be kept at Building.

8. Such plans and specifications shall be kept at the building therein referred to, and shall be available for inspection by the surveyor or accredited officer of the Board at all reasonable times on demand, during the construction, or erection, or alteration, or addition, as the case may be, and for 14 days after the completion thereof.

##### Permits and Fees.

9. No person shall commence a building or any kind or addition or alteration to any building, or demolish any building without first having obtained from the surveyor a written permit for the commencement of the same and without having first paid to the Board fees in accordance with the scale set out in the Second Schedule hereto, having regard to the class of building.

##### Area of New Building.

10. The decision of the surveyor as to the area of a new building, or value of an addition shall be final and conclusive.

Permit shall lapse after six months.

11. A permit obtained pursuant to these by-laws shall lapse and be of no effect unless the building for which such permit was granted shall be commenced within six months and completed within 12 months from the date of such permit. A permit may be extended by the Board beyond the time specified if reasonable grounds are given for the delay in commencing or completing building operations.

##### Surveyor may Enter and Inspect.

12. The surveyor at all reasonable times during the progress and after the completion of any building, or addition, or alteration to any building, affected by these by-laws may enter and inspect such building, or addition, or alteration. Any per-

son obstructing or hindering the surveyor shall be liable to a penalty of not more than ten pounds (£10).

Surveyor may stop work if contrary to By-laws.

13. The surveyor may at any time stop the progress of any building and withdraw or suspend any permission given by the Board under these by-laws, in the event of his not being satisfied that all the provisions of these by-laws are being complied with, and any person who continues to build, or erect, or works on the site after notice from the surveyor to desist, shall be guilty of an offence against these by-laws.

#### Demolition or removal of Buildings.

14. When a building is to be demolished or removed the owner or contractor shall give 24 hours' notice to the surveyor of such intended demolition or removal.

14a. Provision shall be made so as to avoid all nuisance from dust or falling refuse by playing water on same by means of a hose or other approved method.

#### Sanitary Convenience for Workmen.

15. Before commencing any building operations upon any building site, the contractor or person responsible for carrying out building operations shall provide sanitary conveniences sufficient for the use of all working on the site, such sanitary conveniences shall be in accordance with the requirements of the Health Act.

#### Low-lying Land.

16. Where land on which a building is to be erected is below the level of the crown of the road adjoining the land frontage, no building shall be commenced until a level has been given by the surveyor. When it is considered by the surveyor that, having regard to the water level during winter months, filling is required, such filling shall be carried out by the owner or contractor before the commencement of building operations. In the event of there being no made road from which to take the level for any building, the surveyor shall determine the level at which any building shall be commenced and if he considers it to be necessary shall require the owner or contractor to fill in to a given level.

#### Dwelling Houses.

##### Distance from Road.

17. No building which is intended to be used as a dwelling-house, and no addition to any such building, shall be built within a distance of 30ft. measured horizontally from the road to the building fronts, unless a line at a different distance has been fixed by a proper authority. In special cases where the levels or depth of the allotment, or other exceptional conditions of the site, or the nature of the building make it necessary or expedient to alter the building line of any part of the building or buildings, the Board may permit the erection of a building in another position.

##### Distance from side boundary.

18. No building which is intended to be used as a dwelling house and no addition to any building which is intended to be used as a dwelling house shall be built within a distance of 3ft. if of brick, or 4ft. 6in. if of wood or wood frame, measured horizontally from the boundary of the allotment on which such building is erected.

##### Minimum Area of Open Land.

19. At least one-third of the area of any allotment on which a dwelling house is erected shall be left open and unbuilt on and for the exclusive use of the occupier of the buildings erected upon such allotment.

##### Minimum Area of Dwelling-house.

20. Every dwelling house shall consist of a total area of at least 500 square ft., excluding verandahs.

Provision of Bathroom, Wash-troughs, Copper, etc.

21. Provision shall be made in all new, or re-erected dwellings for a bathroom also laundry facilities properly fitted and housed in accordance with any provisions of the Health Act and any regulations or by-laws made thereunder which may from time to time be applicable.

#### Computing Distances.

22. For the purpose of computing distances from any building, the outer face of the wall shall be taken as the point from which measurements are to be taken.

#### Occupation of Dwelling.

23. No person or persons shall occupy any new or re-erected dwelling before completion, nor shall any person or persons occupy any new or re-erected dwelling until a certificate has been issued by the surveyor in writing stating that the dwelling has been completed in accordance with the plans approved by the Board, building by-laws and Health Act.

#### Stables.

24. Stables may be erected with walls of brick, stone or concrete or other materials approved by the Board, provided that in stables of more than two squares in area, the distance of any wall of such stable from land not in the same occupation or possession shall not be less than the vertical height of such wall including the vertical portion of a gable and roof from the boundary of the land not in the same occupation or possession.

#### Distance of Stables from Boundaries.

25. No stable may be erected nearer than 30ft. to any dwelling, nor more than 10ft. to the boundary of land not in the same occupation.

#### Fowl-houses.

25a. Fowl-houses of not more than 200 square ft. in area and not above 6ft. in height may be erected at rear of dwelling, provided that the nearest portion of such a fowl-house is at least 30ft. from any building used as or intended for a dwelling, and at least 4ft. from the boundary of land not in the same occupation.

Fowl-houses of larger area may be erected if at a distance of at least 50ft. from any street and 40ft. from any dwelling-house and at least 4ft. from the boundary of land not in the same occupation; of fire-resisting material, approved by the surveyor and that the building shall not be less than 7ft. high.

#### Materials for Garages.

26. Every garage shall be constructed of fire-resisting material unless otherwise approved by the Board.

#### Position of Garage.

26a. No garage shall be erected nearer than the dwelling-house to which it is appurtenant to any road fronted by such dwelling-house. Provided that if there is no means of access for motor vehicles to the rear portion of the allotment on which such dwelling-house is erected, a garage may be erected on the front boundary of such allotment subject to a plan showing the exact position in which such garage is proposed to be erected, and the approximate position of any buildings in the allotments adjoining, together with the design of the garage proposed to be erected, and the front elevation thereof being submitted to and approved by the Board but so that no part of such garage shall be between the dwelling-house and the road.

In special cases where the physical configuration or dimensions of the ground preclude the observance of the distances prescribed in by-law 17, the Board may permit the erection of a garage in another position.

#### Doors of Garage.

The doors of a garage when opened shall not encroach on any road.

**Materials for Garages.**

Every garage shall be constructed of fire-resisting material.

Where fire-resisting sheets are used for walls, framing and dado of approved hardwood may be used.

**Garage incorporated with Dwelling.**

Where a garage is incorporated as part of the main building it shall in all respects conform thereto, but must have a ceiling of fire-proof material approved by the surveyor.

**Garages on Corner Blocks.**

No garage shall be erected on a corner block at a less distance from the road on the side boundary than the adjoining building is from such road, or if there is no adjoining building, at a less distance than 20 feet from such road.

**Apartment Buildings.****Area of Land to be Occupied.**

27. The total floor area of an apartment building together with the floor area of any other buildings erected on the same allotment, shall not exceed half the area of such allotment.

**Area of Each Apartment.**

28. The total floor area of each apartment shall be at least 400 square feet. In addition thereto every apartment shall have for the exclusive use of the occupants thereof, at least 100 square feet of verandah space.

**Area of Main Rooms.**

29. Every main room in an apartment shall have a floor area of at least 100 square feet and no wall of such room shall be less than nine feet in length.

**Apartment to be Self-contained.**

30. Every apartment shall be self-contained; it shall contain its own kitchen, bathroom and lavatory. It shall have separate entrance from the outside of the building, and such entrance shall be constructed of fire-resisting material as defined in the building by-laws of the Board for the time being in force.

**Part 4.—Building Materials.**

31. All workmanship and materials used in the construction or alteration of any building shall be the best of their respective kinds and in accordance with recognised building practice; all materials used in any building must be of good quality and shall be subject to the approval of the surveyor, and the surveyor shall have the power to condemn any material which in his opinion is not suitable for use in such building, or addition.

**Second-hand Material.**

32. No old or second-hand material may be used in any building unless approved in writing by the surveyor.

**Bricks.**

33. Bricks used in any building must be good, hard and well burnt. When old bricks are used in any wall they shall be thoroughly cleaned before being used.

**Sand.**

34. Sand used for mortar or concrete in any building shall be clean and sharp and free from loam, dirt, salt or organic matter.

**Lime Mortar.**

35. Lime mortar shall be composed of freshly burnt lime and sand in the proportion of at least one part by measure of lime and not more than three parts by measure of sand. All lime intended to be used for mortar shall be thoroughly burnt, of good quality, and be properly slaked before being mixed with sand.

**Cement Mortar.**

36. Cement mortar shall be composed of good Portland cement or other cement of equal quality, mixed with clean, sharp sand, in proportion of at least one part by measure of cement, and not more than four parts by measure of sand.

**Timber.**

37. All timbers and wooden beams used in any building shall be of good sound material, free from rot, large loose knots, shakes, or other imperfections whereby the strength may be impaired, and, in the case of dwellings, shall be of such sizes, dimensions and spaces as set forth in by-law 63. In other buildings all timbers shall be of such as will afford safe loadings, and shall be to the satisfaction of the surveyor.

**Lintels.**

38. Builders casting lintels in position shall submit to the surveyor a plan showing position and details of reinforcement and specifications of materials to be used, such designs to be approved at the same time as the plan of the building. Lintels up to 6ft. span shall be three courses in depth, lintels from 6-8ft. span shall be four courses in depth. All such lintels shall be reinforced with at least  $\frac{3}{8}$ in. steel rods, not less than three rods per lintel and proper bearing, to the satisfaction of the surveyor, shall be given at each end of lintel.

**Part 5.—Construction.****Excavation and Inspection of Trenches.**

39. All excavation for footings shall be not less than 12in. below the natural surface of the ground, except in cases of special construction of foundations approved by the surveyor. No footing shall be placed in position until at least 24 hours' notice has been given to the surveyor that the trenches are ready for inspection.

**Walls to have Footings.**

40. Unless with the consent of the surveyor, every external wall, and every party wall not carried on a bressummer, and every pier and storey post shall have footings.

**Dimensions of Footings.**

41. The width of the bottom of the footing of every wall shall be at least one-half greater than the thickness of the wall at the ground floor level, but in no case less than 16in. wide, unless approved by the surveyor, and the height of such footing shall be at least equal to the thickness of the wall at its ground level, but in no case less than 9in.

**External Walls.**

42. All external walls shall consist of brick, stone, concrete, reinforced concrete, or other hard fire-resisting material approved by the Board. Provided that any building used or intended to be used solely as a dwelling-house may have walls constructed of wood and/or asbestos cement sheets, subject to the conditions set out in these by-laws for buildings wholly or partly of wood.

**Construction of External Walls.**

43. Every wall constructed of brick, stone, or other similar material shall be properly bonded and solidly put together with mortar and no part of such wall shall over-hang any part underneath it to a greater extent than 9in. and as approved by the surveyor, and provided that the projection is well and solidly corbelled out, and that the inside of the wall carrying such corbelling is carried up vertically in continuation of the lower face thereof. All return walls shall be properly bonded together.

**Damp Course.**

44. Every wall or fireplace of brick, stone or similar materials shall have a damp-proof course or courses of asphalt, distilled tar and hot sand or other approved material at least 6 in. above the surface of the ground below the lowest floor, and in cases where it is not desirable to place the same throughout the building at the one uniform level, then the said damp-course must be laid in horizontal layers connected at the end by a vertical course of the same materials and shall not be less than  $\frac{1}{2}$ in. in thickness.

## Hollow Walls.

45. External walls may be constructed as hollow walls if constructed in accordance with the following rules:—

- (a) The inner and outer parts of the wall shall be separated by a cavity which shall throughout be of a width not exceeding 2in. or less than 1in.
- (b) The inner and outer parts of the wall shall be securely tied together with suitable bonding ties of adequate strength, formed of galvanised iron, glazed stoneware, or other material approved. Such ties shall be placed at distances apart not exceeding 3ft. horizontally and at least every fifth course vertically.
- (c) The thickness of each part of the wall shall throughout be not less than 4½in.
- (d) The aggregate thickness of the two parts, excluding the width of the cavity, shall throughout be not less than the minimum thickness prescribed for solid walls of the same height and length.
- (e) No hollow wall of not more than 11in. in thickness shall be greater in superficial extent than three squares in any one storey unless strengthened by a partition wall, fireplace or projecting pier, to the satisfaction of the surveyor.

## Concrete Blocks.

46. Concrete blocks shall contain not less than one part cement to five parts mixed aggregate, and shall be kept damp for a period of not less than four days, and shall not be used green. The blocks shall be bedded and jointed in cement mortar.

## Thickness of Walls (Domestic Class).

47. No external walls in brick, stone, concrete, or cement block shall have less than the thickness prescribed in the following Table A:—

Table A.—Buildings of Domestic Class.

Length of Wall.	No. of Storeys.	Thickness of Walls in inches.	
		Ground Floor.	First Floor.
Walls built with Lime Mortar—			
Not exceeding 30ft. ....	1	9	—
	2	9	9
Exceeding 30ft. ....	1	13½	—
	2	13½	13½
Walls built with Cement Mortar—			
Not exceeding 30ft. ....	1	9	—
	2	9	9
Exceeding 30ft. ....	1	9	—
	2	13½	9

48. If any storey exceeds in height 18 times the thickness prescribed for walls of such storey, the thickness of each external and party wall throughout such storey shall be increased to one-eighteenth part of the height of the storey and the thickness of each external and party wall below that storey shall be increased to that thickness, but any such additional thickness may be confined to piers properly distributed, of which the collective widths amount to one-fourth part of the length of the wall. No increase in thickness of brick walls shall be less than four and one-half inches.

49. The height of any storey may be 20 times the thickness of walls prescribed for such storey, if built with cement mortar.

## Thickness of Walls, Warehouse Class.

50. The external and party walls of buildings of the warehouse class shall be made of not less thickness than that specified in the following Table B.

Table B.—Buildings of the Warehouse Class.

Length of Wall.	No. of Storeys.	Thickness of Walls in inches.		
		Ground Floor.	First Floor.	Second Floor.
Walls built in Lime Mortar—				
Not exceeding 75ft.	1	13½	—	—
	2	18	13½	—
	3	18	18	13½
Exceeding 75ft. ....	1	18	—	—
	2	18	18	—
	3	22½	18	18

## Walls built in Cement

Mortar—				
Not exceeding 75ft.	1	13½	—	—
	2	18	13½	—
	3	18	13½	13½
Exceeding 75ft. ....	1	13½	—	—
	2	18	13½	—
	3	18	18	13½

## Thickness of Walls under Certain Conditions.

51. Walls under 75ft. in length may be constructed 9in. thick, provided they are strengthened with 4½in. piers equally spaced, of which the collective widths amount to one-fifth of the length of the wall. The height shall not exceed 12ft. when built of lime mortar or 13ft. 6in. when built of cement mortar.

52. The thickness of walls under 20ft. in length may be two-thirds the thickness required for external or party walls, as stated in Tables A and B, but in no case less than 9in.

53. If in any storey of the warehouse class the thickness of the wall as determined by the provisions of this part of these by-laws is less than one-sixteenth part of the height of such storey, the thickness of the wall shall be increased to one-sixteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to that thickness, but any such additional thickness may be confined to piers properly distributed, of which the collective widths amount to one-fifth part of the length of the wall. No increase in the thickness of brick walls shall be less than 4½in. The height of any storey built in cement mortar may be 18 times the thickness for such storey.

## Lengths—How Measured.

54. Walls are deemed to be divided into distinct lengths by return wall, and the length of every wall is measured from the face of one return wall to the face of another. Provided that such return walls are external, party or cross walls of the thickness required by this part of these by-laws and bonded into the wall so deemed to be divided.

## Cross Walls.

55. The thickness of a cross wall shall not be less than two-thirds of the thickness hereinbefore required for an external or party wall of the same dimensions and belonging to the same class of building, but never less than 9in., and no wall subdividing shall be deemed to be a cross wall unless it is carried up to the plate level of the topmost storey, and unless in each storey the aggregate extent of the vertical faces or elevation of all recesses, and that of all the openings therein taken together does not exceed one-half of the whole extent of the vertical face or elevation of the wall. If a cross wall is carried on a gider across the ground storey and is supported by piers to the satisfaction of the surveyor, it shall be deemed to be a cross wall in accordance with this regulation; but in one storey buildings of the domestic class, 4½in. cross walls will be permitted, provided the unsupported length of any wall does not exceed 25ft.

## Cross Wall Becomes External Wall.

56. Whenever a cross wall becomes any part of an external wall, the external part of such cross wall shall be of the thickness required for an external wall of the same height and length belonging to the same class of building, but no portion of such cross wall shall be of less thickness than is required for the external portion thereof.

## Internal and Partition Walls.

57. (1) All internal bearing walls and partition walls shall be constructed in such a manner as may be approved by the surveyor and except in wooden framed buildings shall be of cement blocks, brick, stone or concrete. All such walls shall be not less than 4½in. thick, provided that where such walls form a division between flats, then such walls shall be not less than 9in. thick.

(2) Unless with the consent of the surveyor, every such wall, unless carried on a bressumer, shall have footings, and such footings shall be at least twice the thickness of the wall resting upon it.

#### Isolated Piers.

58. No isolated brick or stone piers shall exceed in height eight times the least diameter of same, if built of lime mortar, and 12 times if built of cement mortar.

#### Parapet to Walls on Boundary.

59. Where the external wall of any building is erected on the boundary of the land on which the same stands, or where the overhanging eaves or gutters of any building would be within 2ft. of such boundary then the external wall of such building shall be carried up to form a parapet of 15in. at least in height above the roof, or above the highest part of any flat or gutter, as the case may be.

#### Parapet Warehouse Class.

60. In buildings of the warehouse type, the thickness of such parapet shall be equal to the thickness of such wall in the topmost storey, and in any other building of a thickness of 9in. at least.

#### Party Walls.

61. Every party wall shall be carried up for a height of 15in. above the roof, measured at right angles to the slope thereof, or 15in. above the highest part of any flat or gutter, as the case may be, and of a thickness (in buildings of the warehouse class) equal to the thickness of such wall in the topmost storey and in any other building, of a thickness of 8½in. at least. Provided, however, that in the case of domestic buildings, where not more than two buildings are erected under one roof, it shall be sufficient if the party wall is carried up at least 8½in. in thickness to the underside of the roof covering, and such roof covering of iron, slate, or other material must be bedded in good mortar to the satisfaction of the surveyor, and the top of such party wall shall not be hidden from view until it has been approved by the surveyor.

62. Every party wall shall be carried up of the thickness aforesaid above any turret, dormer, lantern light, or other erection of combustible materials fixed upon the roof or flat of any building within 4ft. of such party wall, and shall extend at the least 15in. higher and wider on each side than such erection, and every party wall shall be carried up above any part of any roof opposite thereto, and within 4ft. therefrom.

#### Buildings Wholly or Partly in Wood.

63. The external walls of any wooden building shall not exceed 15ft. in height, measured from the floor level to the top of the wall plates. Every such building shall be wholly in one occupation or adapted so to be.

The following shall be the minimum sizes and spacings of timbers. All timbers shall be jarrah or other hardwood approved by the Board. Where larger timbers than those specified are used, spacings may be extended beyond the figures given, provided the approval of the surveyor is first obtained.

Stumps, not less than 4in. x 4in., spaced not more than 5ft. centres. They shall be sunk 18in. into the ground, or to rock level (if not less than 12in. below surface) and tarred to 6in. above ground surface. Ant stops of galvanised iron projecting 1in. all round shall be provided.

Sole plates, 18in. x 6in. x 1½in., or 9in. x 9in. x 3in. concrete blocks.

Where the nature of the ground precludes the use of jarrah stumps, 9in. x 9in. brick tiers or reinforced concrete stumps, 4in. x 4in., shall be provided.

Bearers, 4in. x 3in., at not more than 5ft. 6in. centres and kept at least 6in. clear of the ground. Double joists shall be provided under walls where bearers do not occur.

Floor joists, 4in. x 2in., at not more than 18in. centres.

Vermin plates, 4in. x 2in.

Studs, 4in. x 2in., at not more than 24in. centres.

Angle and corner studs, not less than 4in. x 4in., or three 4in. x 2in. studs prefabricated together. Top and bottom plates, 4in. x 2in.

Where the height of a building does not exceed 10ft. measured from the floor level to the top of the wall plate, 3in. x 2in. studs and plates may be used with angle and corner studs not less than 3in. x 3in., except where the roof covering is of tiles or slates, in which case 4in. x 2in. studs and plates are to be provided in all external walls. Studs at not more than 18in. centres.

Rafters, 4in. x 2in., at 2ft. centres, for tile rooms and 3ft. centres for iron or asbestos roofs.

Under purlins, 4in. x 3in. for tile roofs, in positions so that no rafter has an unsupported span of more than 7ft.

Struts to under purlins, 4in. x 2in., for lengths not exceeding 4ft., to support under purlins at not more than 6ft. intervals.

Battens for tiles, 2in. x 1in.

Battens for iron or asbestos, 3in. x 1½in., not more than 3ft. 6in. apart.

Ceiling joists, 4in. x 2in., at not more than 2ft. centres, or 3in. x 2in., at not more than 18in. centres.

Ceiling hangers, 8in. x 1½in., in positions so that no ceiling joists has unsupported span of more than 7ft.

Collar ties, 4in. x 1½in.,

Ridge, 7in. x 1in.

Hips, 8in. x 1in.

Valleys, 8in. x 1in.

Fascias and barge, 9in. x 1in.

Floor boards, 1in. thick before dressing.

Weatherboards, 1½in. lap.

No framing timber in any building shall be notched or checked out so as to decrease the above sizes by more than one quarter.

Vermin plates shall be used in all wooden buildings except sheds.

W.Cs. shall be constructed not less than 5ft. x 3ft. internal dimensions and in accordance with any provisions of the Health Act and any regulations or by-laws made thereunder which may from time to time be applicable.

#### Roughcast and Stucco.

64. Roughcast and stucco work shall be applied only to brickwork, provided that in certain cases, such as gables of dwellings, or other ornamental sections of dwellings, roughcast may be applied to expanded metal fixed in an approved manner.

#### Interior Walls of Dwellings.

65. The interior of all walls and ceilings of every wooden or wooden framed building, and the ceiling of every other class of building, which is intended to be used, or which may be used as a dwelling house, shall be constructed of plaster sheets, or other fire-resisting materials.

#### Roofs.

66. The roof of every building shall be constructed of metal tiles, slates, glass, artificial stone, cement or shingles, or other materials approved by the Board.

#### Reinforced Concrete Buildings.

67. In all cases where reinforced concrete is employed, whether in buildings as a whole or in portions of buildings, before the actual carrying out of the work, or any portion thereof, complete drawings of such work or portion shall be delivered to the surveyor, showing all details of the construction and the size, spacing and arrangement of all reinforcing members.

#### Special Types of Construction.

67a. Should a building not conform to the requirements and specifications prescribed under these by-laws, as to structural design, then such building shall be subject as to its walls and other construction, to the special approval of the Board.

#### Public Buildings.

68. In any case in which the plans of any public building (proposed) are required by law to be approved by the Public Health Department, or any other Department, such approval shall be obtained before such plans are submitted for the Board's approval.

#### Shops.

##### Minimum Area of Land.

69. (1) Every shop shall have a frontage to a road of at least 18ft. (2) No shop shall be of less width in any part thereof than 18ft.

##### Access to Rear of Shop.

70. Every shop shall be so erected and built that without passing through the building there is a reasonable access to the back premises and offices of such shop for the removal of nightsoil and other refuse to a road or lane 10ft. wide at least.

##### Separate Entrance for Shop and Dwelling in Different Occupations.

71. If a dwelling attached to a shop is in different occupation from the shop, a separate entrance from the road shall be provided for the sole use of the occupants of the dwelling.

#### Alterations and Additions.

##### Alterations.

72. Except with the consent of the Board, or the surveyor, no alteration shall be made to any building in such manner that when so altered it will, by reason of such alteration, not be in conformity with the provisions of these by-laws relating to new buildings.

##### Additions and Alterations.

73. Every addition to, or alteration of a building, and any other work made or done for any purpose in or on a building (except necessary repairs which do not affect the construction of a building) shall so far as regards such addition, or alteration or other work, be subject to the provisions of these by-laws relating to new buildings.

#### Ventilation, Lighting and Drainage.

##### Height of Rooms.

74. The main rooms in all buildings shall be in every part not less than 9ft. from floor to ceiling and the minimum height for washhouses and external bathrooms shall be 7ft. 4in. The minimum height of verandahs shall be 7ft. 4in. from floor level to top of the plate.

##### Attic Roofs.

75. Provided that in the case of buildings of more than one storey, living rooms wholly or partly in the roof may be not less than 9ft. in height from floor to ceiling over two-thirds of the floor area.

##### Minimum Area of Rooms.

76. No main rooms in any building shall have a less floor area than 100 square feet, and no wall of such room shall be less than 9ft. in length. The minimum floor area of bathrooms, laundries and sleep-outs shall be 36 square feet, 50 square feet and 80 square feet, respectively.

##### Windows (Natural Lighting).

77. All rooms in a building intended to be used as a dwelling shall have one or more windows opening directly into external air; the area of such windows shall be not less than one-tenth of the area of the floor of the room in which such window or windows are fitted.

#### Ventilation (Other than Dwellings).

78. The ventilation of all buildings, parts of buildings, type of ventilators to be used, arrangement and situation of ventilation openings, shall be subject to any provisions of the Health Act or regulations or by-laws made thereunder, which may from time to time be applicable.

#### Ventilation (Dwellings).

79. Every part, and every room of any dwelling house or building intended to be used for habitation, shall be ventilated as required under any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

#### Ventilation (Sub-floor).

80. The space under the ground floor of every building shall be provided with a sufficiency of openings through all walls under the floors to allow a current of air to flow freely under all parts of the building. Type of ventilator used and spacing of same shall be the subject of approval by the surveyor and in accordance with any provisions of the Health Act or any regulations or by-laws made thereunder which may from time to time be applicable.

#### Lighting and Ventilation (Shops).

81. The provisions of this part of these by-laws relating to height of rooms, lighting and ventilation of main rooms in dwellings shall as far as applicable apply to all shops, save that the windows need not be constructed to open if other approved provision for ventilation is made, and the minimum height of ceilings in shops shall be 11ft.

#### Enclosing of Verandahs.

82. No verandah of any dwelling, or shop, or other building shall be enclosed or built in in such manner as to exclude natural light, or reduce the proper ventilation of any building or any part thereof. The use of hessian or jute bags, or similar materials for enclosing or screening verandahs is prohibited.

#### Floors.

83. Floors, other than verandah floors, shall be fixed level, and in all buildings the ground floor, if of wood, shall have a space of not less than 6in. between the ground and the underside of the floor bearers.

#### Permit may be Refused if Drainage is Not Satisfactory.

84. The Board may refuse to approve the plan of any building or any addition, or alteration to any building, until it is satisfied that the proposed building, or addition, or alteration and the site and curtilage thereof will be properly drained in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

#### Drainage of Waste Water.

85. Every person who shall erect a building shall provide proper drainage for the disposal of all waste water in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

#### Waste Pipes.

86. Waste pipes from baths, sinks, wash troughs and similar sanitary fittings shall be of galvanised wrought iron of approved sizes. All sanitary fittings shall be provided with traps under fittings, metal cleaning eyes shall be fitted at all changes of direction and angles of waste pipes in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

#### Roof-water Disposal.

87. All buildings shall be provided with gutters and down pipes of approved sizes sufficient to carry all water from every part of the roof in an efficient manner, such water shall be carried at least 2ft.

clear of the foundations of the buildings. In the case of large buildings where the surveyor shall deem it necessary all stormwater from the roof of such buildings shall be carried by pipes direct to the street drains, or gutters in such a manner as directed by the surveyor.

#### Water Supply.

88. Every dwelling-house not connected to a public water supply shall be provided with a water storage tank of not less than 1,000 gallons capacity, or as may be prescribed in any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable. Such tank shall be completely covered at its top and provided with a manhole fitted with a tight-fitting lid.

#### Provision of Manhole in Ceiling.

89. Every building shall be provided with one or more manholes in the ceiling to enable access to be gained to the underside of the roof thereof.

#### Removal of Buildings.

90. If any building is removed from outside the district to within the district, or from a site within the district to another site within the district, whether on the same or another block of land, such building shall be deemed for the purpose of these by-laws to be a new building erected for the first time on the site whither it is removed.

#### Verandahs over Footpaths, Projections, Signs, Hoardings and Fences.

91. No person shall erect, or cause or permit to be erected, any portico or verandah over the footway of any road in the district without first obtaining the consent of the Board in writing, and such portico or verandah shall be of the shape, figure, dimensions and materials as set forth on the plan and specifications, for the time being adopted by resolution of the Board, but the lowest part of the frieze or rails of such portico or verandah shall in no case be of less height than 9ft. above the level of the outer edge of the outer edge of the footway. All such verandahs and projections shall be of the cantilever type.

#### Openings in Roof of Verandah.

92. No opening shall be made in the roof of such verandah for the purpose of affording light, unless such opening be properly framed and glazed with approved glass protected underneath with fine mesh wire-netting or armoured glass to the satisfaction of the surveyor.

#### Porch Landings, etc.

93. Every porch, gangway, outside landing, and outside step shall be of fire-resisting material and shall not project beyond the boundary of any road or public place.

#### Shop Windows.

94. Shop windows intended to be used for the display of goods or business advertisements shall consist of plate or approved glass jointed and fixed in approved metal or approved timber frames, the level of the sill of such frames to be not higher than 30in., nor within 12in. of the level of the footpath immediately adjoining the same.

#### Woodwork abutting on Roads.

95. Woodwork shall not be fixed flush with the face of any wall abutting on a road unless it is encased with metal of not less than 22 gauge.

#### Signboards, Hanging Lamp, etc.

96. No signboard, hanging lamp, or other fixture shall be erected on or attached to any building or verandah projecting over the roadway unless permission in writing of the Board be first obtained. Each such signboard, hanging lamp, or other fixture shall be of material, construction and design approved by the surveyor and shall be in no part less than 8ft. 6in. above the level of the footpath or road. No signboard shall exceed in depth 3ft. nor shall any signboard project over a road or footpath except with the approval of the Board.

#### Unightly or Dangerous Fence.

97. When any fence abutting on any road or public place within the district is in a dangerous or unsightly state, the Board may, by notice in writing to be served on the owner of such fence, require such owner within 14 days from the receipt of such notice to take down or repair such fence as the case may require, and such owner shall comply with such notice.

#### Fences and Walls.

98. Every fence to be hereafter erected abutting on any road or public place shall have affixed thereto a plinth at least 9in. high unless the surveyor shall consent in writing to such plinth being of less height, and every wall of brick, stone or concrete, or other similar substance shall be constructed with a base to be approved by the surveyor.

#### Brick Chimneys, Flues, Fireplaces and Heating Apparatus, Foundations, Footings, etc.

99. (1) Chimneys shall be built on solid foundations and with footings similar to the footings of the wall against which they are built, unless they are carried on steel girders with direct bearings upon party, external or cross-walls, to the satisfaction of the surveyor, or on corbels of brick, stone or other incombustible material, and the work so corbelled does not project from the wall more than the thickness of the wall measured immediately below the corbel.

(2) Chimneys may be corbelled out not more than 14in. from walls 9in. in thickness on corbels of stone or incombustible materials not less than 10in. in depth and of the full width of the jambs.

#### Chimneys, etc., with Soot-doors.

100. (1) Chimneys and flues having proper soot-doors of not less than 40 square inches may be constructed at such angle as is approved by the surveyor, but in no other case shall any flue be inclined at less angle than 45 degrees to the horizon, and every angle shall be properly rounded.

(2) Position of soot-doors.—All soot-doors shall be distant at least 15in. from any woodwork.

#### Arches.

101. An arch of brick or stone of sufficient strength shall be built over the opening of every chimney to support the breast thereof. Every camber arch shall have the abutments tied in by an iron bar, or bars of sufficient strength turned up or down at the ends and built into the jamb for at least 4½in. on each side.

#### Flues.

102. A flue shall not be adapted to or used for any new oven, furnace, steam boiler or other fire used for any purpose of trade or business, or to or for the range or cooking apparatus of any hotel, tavern, or eating house, unless the flue is surrounded with brickwork at least 9in. thick, or reinforced concrete 6in. from the floor of the storey on which such oven, furnace, steam boiler, or other fire is situate to 12in. above the roof.

#### Flues in connection with Engines.

103. A flue shall not be used in connection with a steam boiler or hot-air engine unless the flue is at least 20ft. in height measured from the level of the floor on which such engine is placed.

#### Linings, etc., of Flues.

104. The inside of every flue, and also the outside where passing through any floor, or roof, or space enclosed by the roof or behind or against any woodwork, shall be rendered or pargetted, or lined with life-resisting piping or stoneware.

#### Jambs.

105. The jambs of every fireplace opening shall extend at least 9in. on each side of the opening thereof.

#### Incombustible Material in certain Cases.

106. The breast of every chimney shall be of incombustible material at least 4in. in thickness and the brickwork surrounding every smokeflue shall be at least 4½in. in thickness, provided that where a ventilating flue is carried up with a smoke flue, they may be separated by a properly constructed iron wyth of cast iron not less than 1in. in thickness.

#### Backs of Fireplaces.

107. The back of every fireplace opening in party or external walls from the hearth up to a height of 12in. above the lintel or arch shall be brickwork at least 9in. thick, or shall be reinforced concrete 6in. thick. No flue shall be within 2in. of the centre line of any party wall.

#### Thickness of Flues.

108. Thickness of the upper side of every flue when its course makes with the horizon an angle of less than 45 degrees shall be at least 9in.

#### Height.

109. Every chimney flue or chimney shaft shall be carried up in brick or stone work at least 4in. thick throughout to a height of not less than 3ft. above the roof, flat or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat, or gutter.

#### Top Courses.

110. The highest six courses of every chimney stack or shaft shall be built in cement mortar.

#### Chimney Shafts.

111. The brickwork or stonework of any chimney shaft except that of the furnace of any steam engine, brewery, distillery or manufactory shall not be built higher above the roof-flat or gutter adjoining thereto than a height equal to six times the least width of such chimney shaft, at the level of such highest point in the line of junction, unless such chimney shaft, is built with, and bonded to another chimney shaft, not in the same line with the first, or otherwise rendered secure to the approval of the surveyor.

#### Slabs.

112. There shall be laid level with the floor of every storey, before the opening of every chimney, a slab of stone, slate, or other incombustible material, at least 6in. longer on each side than the width of such opening, and at least 14in. wide in front of the breast thereof.

#### How to be Laid.

113. On every floor except the lowest floor, such slab shall be laid wholly on stone or iron bearers, or upon brick trimmers, or other incombustible materials, but on the lowest floor it may be bedded on concrete, covering the site, or on solid materials placed on such concrete.

#### Hearths, etc.

114. The hearth or slab of every chimney shall be bedded wholly on brick, stone or other incombustible materials, and shall, together with such material be solid for a thickness of 6in. at least beneath the upper surface of such hearth or slab.

#### Flues in Party Walls.

115. A flue shall not be built in, or against, any party structure or existing wall, unless it is surrounded with good sound brickwork, or other approved material, at least 4½in. in thickness, properly bonded to the satisfaction of the surveyor.

#### Cutting Away Chimney Breast.

116. A chimney breast or shaft built with or in any party wall, shall not be cut away, unless the surveyor certifies that it can be done without injuriously affecting the stability of any building.

#### Cutting into Chimney Shaft.

117. A chimney shaft, jamb, breast, or flue shall not be cut into except for the purpose of repair or doing one or more of the following things:—

(1) Letting in or removing or altering flues, pipes, or funnels for the conveyance of smoke, hot air, or steam. (2) Forming openings for soot-doors, each opening to be fitted with a close iron door and frames. (3) Making openings for the insertion of ventilating valves. Provided that an opening shall not be made nearer than 12in. to any timber or combustible material.

#### Position of Timberwork.

118. Timber or woodwork shall not be placed— (1) under any chimney opening within 6in. from the upper surface of the hearth of such chimney opening; (2) within 2in. from the face of the brickwork or stonework above the chimney or flue, unless the face of such brickwork or stonework is rendered.

#### Position of Wooden Plugs.

119. Wooden plugs shall not be driven nearer than 3in. to the inside of any chimney or flue opening, nor any iron holdfast or other iron fastening nearer than 2in. thereto.

#### Ironwork.

120. No iron or steel joists, or other iron work, shall be placed in any flue except insofar as the same may be required for insuring stability.

#### Floors above Furnace or Ovens.

121. The floor or roof over any room or enclosed space in which a furnace is fixed, and any floor within 18in. from the crown of an oven shall be constructed from fire-resisting materials.

#### Exempted Buildings.

122. This by-law shall not apply to any temporary or removable offices and sheds used by builders during the construction of any building at or about the site of such building for a period not exceeding 12 months.

#### Enforcement of By-laws and Penalties.

123. No building may be erected except in compliance with these by-laws. No person shall erect, build, or construct, remove, or make any alteration or addition to, or cause to be erected, built, or constructed, removed, or make any alteration or addition to any building, contrary to the provisions of these by-laws.

#### Penalty for Breach.

124. Any person who shall be guilty of any breach of any of the provisions of these by-laws, or shall fail to duly comply with any notice thereunder, shall be liable for every such offence to a penalty of not less than one pound and not exceeding twenty pounds.

#### Certificate of Surveyor.

125. If the surveyor shall certify in writing to the Board that any building has been removed into, or erected, or re-erected within the district or occupied contrary to any of the provisions of this by-law, or that any building is in such a dilapidated, ruinous or unsafe condition as to become dangerous to public safety, the Board or any officer thereof, or other authorised agent, may give the owner, occupier or builder, or leave upon the site of such building, a notice in writing requiring the owner to alter or repair, or to remove, or pull down, such building within such time as is limited by such notice and such owner, occupier or builder shall comply with such notice within the time therein limited.

#### Notice to Make Building Conform to By-laws.

126. If any building shall be wholly or partly built, or erected, or added to, or altered, contrary to, or not in conformity with the provisions of these by-laws, the Board or any officer thereof may give to the owner, occupier, or builder, or leave

upon the site of such building notice in writing to bring such building into conformity with the said provisions, or requiring the pulling down or removal of such building within the time as limited in such notice, and such owner, occupier, or builder shall comply with such notice within the time therein limited.

**No Alterations Infringing By-laws.**

127. No alteration shall be made in any building in such a manner that when so altered it will by reason of such alteration not be in conformity with the provisions of these by-laws relating to new buildings.

**No User Infringing By-laws.**

128. No person shall occupy or permit to be occupied any building for any purpose for which such building could not have been built under the provisions of these by-laws; provided that this clause shall not prevent the continued use of any building in existence at the time of coming into operation of these by-laws for any purpose for which it was then being used.

**Licenses for Hoardings.**

129a. The Board may grant licenses in accordance with the provisions of regulation (3) of the Second Schedule to the Road Districts Act for the erection of a hoarding or fence to the satisfaction of the surveyor. Such license shall be in the Form A of the Third Schedule hereto.

**License for Deposit of Materials on Roads, etc.**

129b. The Board may grant licenses in accordance with the provisions of regulation (4) of the Second Schedule to the Road Districts Act for the deposit of materials on any road or way or the making of any excavation on any land abutting on or adjoining or contiguous to any road or way. Such deposit or excavation shall be to the approval of the Surveyor. The license shall be in the Form B in the Third Schedule hereto.

Before granting a license to deposit the materials or make an excavation, the Board may require from the applicant a sum determined by the Surveyor to be held as a deposit to cover the cost of carrying out repairs to the road, footpath, kerb, etc., made necessary by the deposit or excavation concerned.

IN THE COURT OF ARBITRATION OF  
WESTERN AUSTRALIA.

No. 13 of 1953.

Between the Western Australian Amalgamated Society of Carpenters and Joiners' Industrial Union of Workers, Applicant, and State Electricity Commission of Western Australia, Respondent.

WHEREAS an industrial dispute existed between the abovenamed parties, and whereas the said dispute was referred into Court for the purpose of hearing and determination, and whereas the said reference of industrial dispute was remitted by the Court to the Conciliation Commissioner, and whereas the parties subsequently met and conferred and have arrived at agreement on all matters in difference, and whereas the parties have this day appeared before the Conciliation Commissioner by their respective representatives and requested the Conciliation Commissioner to make the said Agreement an Award of the Court: Now, therefore, the Conciliation Commissioner, pursuant to section 65 of the Industrial Arbitration Act, 1912-1952, and all other powers therein enabling him, hereby declares the memorandum hereunder written to have the same effect as and be deemed an Award of the Court.

## Memorandum of Agreement.

(Note.—Wherever the word "Award" occurs herein, it shall be taken to mean and include "Agreement.")

## 1.—Title.

This Award shall be known as the "Carpenters' State Electricity Commission Award" and supercedes Industrial Agreement No. 33 of 1949 so far as it relates to carpenters.

## 3.—Area and Scope.

This Award shall apply to members of the Western Australian Amalgamated Society of Carpenters and Joiners' Industrial Union of Workers, and the State Electricity Commission in the State of Western Australia, provided it shall not apply to any workers now already provided for by prior Awards of the Court.

## 4.—Term.

This Award shall operate for three (3) years from the date hereof provided that at any time after the expiration of twelve (12) calendar months from the date hereof the Court may alter or amend same on the application of either party.

## 5.—Definitions.

## Carpentry and Joinery.

(i) "Carpenter and joiner" means a worker engaged upon the erection, repair, ornamentation and demolition of work in wood for re-erection, or of any form of construction work in wood, and upon the work usually done by carpenters and joiners in any engineering or millwright shop or yard, the building of bridges, jetties and/or wharves, or the fixing of any other work in wood, metal or plastic usually done by carpenters and joiners in hospitals, mills, freezing works, cool stores, and all other places where carpenters and joiners are usually employed, and upon the making, preparing and fixing of any other materials usually used in joinery or construction necessitating the use of carpenters' tools or machines in lieu thereof, including—

- (a) metal ceilings, the fixing of the following asbestos products—plain and corrugated sheets, gutters, downpipes, ridgings, rain heads, ventilators and skylights, fascia and barge-boards;
- (b) metal shop fronts and fittings;
- (c) the setting out and laying of wood blocks or parquet flooring;
- (d) all pre-fabricated buildings in wood construction in factories or on site.

(ii) "Setter out" means a carpenter and joiner who sets out work (other than wood blocks or parquet flooring) for three (3) or more carpenters and joiners.

(iii) "Detail worker" means a carpenter and joiner who sets out and works upon staircases, bar, kitchen or office fittings or any similar detail work from architects' plans or blue prints.

(iv) "Casual worker" means a worker employed for less than one (1) week continuously, but does not include a worker who, when work is available, leaves his employment before the expiration of one (1) week.

## 6.—Contract of Service.

(a) No worker with six months' or more service shall leave the Department until the expiration of fourteen (14) days' written notice of his intention so to do without the approval of the Commission.

(b) Except in the case of summary dismissal for misconduct, peculation or theft, fourteen (14) days' written notice shall be given by the Commission to any worker with six months' or more service, whose services are no longer required and the reason for dismissal shall be stated in such notice.

(c) The Commission shall be entitled to deduct payment for any day or portion of a day on which the worker cannot be usefully employed because of any strike by the Union party to this Award, or by a union or unions affiliated with it or them, or by any other association or union associated with it or them, or any stoppage of work by any cause which the Commission cannot reasonably prevent.

(d) A worker with less than six months' service may leave his employment or have his services terminated by one day's notice.

## 7.—Absence from Duty.

(a) Any worker losing time through sickness or injury shall as soon as possible notify his foreman, or other officer in charge in sufficient time to permit of arrangements being made for the performance of his duties.

(b) Subject to the provisions of Clause 8 (Payment for Sickness), any worker losing time through sickness or special leave shall be reduced in wages only to the extent of the time actually lost through sickness or granted as special leave.

## 8.—Payment for Sickness.

(a) (i) A worker shall be entitled to payment for non-attendance on the ground of personal ill-health for one-twelfth (1/12th) of a week's pay for each completed month of service.

(ii) The liability of the Commission shall in no case exceed one (1) week's wages during each calendar year in respect of each worker, but the sick leave herein provided shall be allowed to accumulate and any portion unused in any year may be availed of in the next or any succeeding year.

(iii) Payment hereunder may be adjusted at the end of each calendar year, or at the time the worker leaves the service, in the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred.

(b) This clause shall not apply where the worker is entitled to compensation under the Workers' Compensation Act.

(c) No worker shall be entitled to the benefit of this clause unless he produces proof to the satisfaction of the Commission or its representative of sickness, but the Commission shall not be entitled to a medical certificate unless the absence is for three (3) consecutive working days, or more.

(d) No payment will be made for any absence due to a worker's own fault, neglect, or misconduct.

## 9.—Annual Leave.

(a) Except as hereinafter provided, a period of two (2) consecutive weeks' leave with payment of ordinary wages as prescribed shall be allowed annually to a worker by the Commission after a period of twelve (12) months' continuous service with the Commission.

(b) If any award holiday falls within a worker's period of annual leave and is observed on a day which in the case of that worker would have been an ordinary working day, there shall be added to that period one day being an ordinary working day for each such holiday observed as aforesaid.

(c) (i) Subject to paragraph (ii), when computing the annual leave due under this clause, no deduction shall be made from such leave in respect of the period that a worker is on annual leave and/or holidays: Provided that no deduction shall be made for any approved period a worker is absent from duty through sickness with or without pay, unless the absence exceeds an aggregate of thirteen (13) weeks, in which case deduction may be made for such excess only.

(ii) Approved periods of absence from work caused through accident sustained in the course of employment shall not be considered breaks in continuity of service, but the first six months only of any such period shall count as service for the purpose of computing annual leave.

(d) In the event of a worker being employed by the Commission for portion only of a year, he shall only be entitled to such holidays on full pay as are proportionate to his length of service during that period with the Commission.

(e) Any worker who may resign or be dismissed from the service for any cause other than for peculation or theft shall be entitled to receive payment for any annual leave which may have been due up to the time of leaving the service: Provided always that if the worker has been dismissed for peculation or theft no claim for annual leave shall be recognised. Misconduct herein referred to shall not affect accumulated annual leave or payment therefor.

(f) When work is closed for the purpose of allowing annual leave to be taken, workers with less than a full year's service shall be entitled to payment during such period for the number of days' leave due to them: Provided that nothing herein contained shall deprive the Commission of its right to retain such workers at work during the close-down period as may be essential.

(g) "Ordinary wages," for the purpose of sub-clause (a) hereof, shall mean the rate of wage the worker has received for the greater proportion of the calendar month prior to his taking the annual leave.

(h) The provisions of this clause shall not apply to casual workers.

#### 10.—Public Holidays.

(a) Except as hereinafter provided, each of the following days, or the day observed in lieu thereof, shall be allowed as a holiday to all workers and be paid for, namely, New Year's Day, Australia Day, Good Friday, Easter Saturday, Easter Monday, Anzac Day, Labour Day, Foundation Day, Union Picnic Day, Christmas Day and Boxing Day.

(b) (i) Whenever any holiday falls on an employee's ordinary working day and the employee is not required to work on such day, he shall be paid for the ordinary hours he would have worked on such day if it had not been a holiday. If he is required to work on a holiday he shall be paid for the time worked as if it were an ordinary working day, and shall, in addition, be allowed a day's leave with pay to be added to the annual leave, or to be taken at some subsequent date if the worker so agrees.

(ii) If any worker is required to work on a public holiday under this Award, which falls on a non-working day, he shall be paid the rate which he would have been paid if the day had not been a public holiday, and in addition shall have one day for each holiday so worked added to his annual leave.

(c) In the case of workers working a five-day week, no payment or a day in lieu shall be granted for any public holiday falling on a Saturday.

(d) Payment for holidays shall be in accordance with the usual hours of work.

(e) When a worker is off duty owing to leave without pay or sickness, including accidents on or off duty, except time for which he is entitled to claim sick pay, any holiday falling during such absence shall not be treated as a paid holiday. Where the worker is on duty or available on the whole of the working day immediately preceding a holiday, or resumes duty or is available on the whole of the working day immediately following a holiday as prescribed in this clause, the worker shall be entitled to a paid holiday on all such holidays.

(f) Day workers employed on Sunday work will be entitled to half ( $\frac{1}{2}$ ) of one day extra on their annual leave for every four (4) Sundays worked during the year. Sunday work shall not be counted for the purpose of this subclause unless at least three (3) hours actual work is done.

(g) A casual worker shall not be entitled to payment for any holiday referred to in this clause.

#### 11.—Rest Period.

(a) Subject to the provisions hereinafter contained, a rest period of seven (7) minutes from the time of ceasing to the time of resumption of work shall be allowed each morning. This interval shall be counted as time off duty without deduction of pay and shall be arranged at a time and in a manner to suit the convenience of the employer. Morning tea may be taken by employees during this interval, but the period of seven (7) minutes shall not be exceeded under any circumstances. Upon proof of breach by any employee of any provision hereinbefore expressed or implied, the Court may grant the employer concerned exemption from liability to allow the rest period aforesaid.

(b) Workers engaged on essential emergency work or on some process in course (e.g., concreting) may be required to take the prescribed tea break at such time and in such manner as considered necessary by the officer in charge of the job, or in his absence, by the foreman.

#### 12.—Long Service Leave.

The conditions relating to full-time Government wages employees generally as in force as at the date of this Award, and as may be amended from time to time, shall apply to all workers employed under the provisions of this Award.

#### 13.—No New Designation.

No new designation shall be introduced during the currency of this Award so as to reduce the status of any worker covered thereby.

#### 14.—Shop Stewards.

Subject to the recognition of properly constituted authority, shop stewards to be appointed by the Union shall be recognised by the Commission.

#### 15.—Hours of Duty.

(1) (a) Forty (40) hours, exclusive of Saturday and Sunday work, shall constitute a week's work. No day's work shall exceed eight (8) hours.

(b) The ordinary hours of duty shall be between the hours of 7.30 a.m. and 5 p.m., Monday to Friday.

(c) The usual hours of duty within the scope as provided in subclause (b) hereof shall not be altered without consultation with the Union concerned parties to this Award.

(2) (i) The Commission may require any worker to work reasonable overtime at overtime rates, and such worker shall work overtime in accordance with such requirement.

(ii) The Union or any worker or workers covered by this Award shall not in any way, whether directly or indirectly, be party to or concerned in any ban, limitation or restriction upon the working of overtime in accordance with the requirements of this subclause.

(iii) This subclause shall remain in operation until otherwise determined by the Court.

#### 16.—Guaranteed Week.

(a) The Commission shall guarantee to each worker other than a casual or a worker with less than six months' service, a full week's work, exclusive of Saturday and Sunday work, except during such period as by reason of any action on the part of any section of its workers, or for any other cause beyond its control, the Commission is unable wholly or partially to continue operations at the generating stations and/or at any of its undertakings. Each week shall stand by itself.

(b) The guaranteed period may be reduced or affected as follows:—

(i) Where a worker is suspended, the provisions of Clause 17 (Wages during Suspension) shall apply.

- (ii) In respect of any day when, as a result of a vote taken by the workers concerned, with the consent of the Commission or by agreement between the Commission and the Union, a holiday is taken.
- (iii) In respect of any day a worker is absent, except through sickness as provided for in clause 8.

#### 17.—Wages during Suspension.

(a) Where a worker is suspended and the charge is not proven, full wages for the period of suspension shall be paid.

(b) Where the charge is admitted or proven, the worker may be deprived of wages for the whole or any portion of the period of suspension, but in such case the Commission shall decide the amount of wages which it is intended to deprive the worker, and any such deprivation shall be recorded and regarded as part of the punishment.

(c) Unless proceedings on any charge are commenced within seven (7) days of the first laying of the charge and finalised within one month of such date, the charge shall lapse and full payment of wages made to the worker for the complete period, unless proceedings are delayed by causes outside the control of the Commission.

#### 18.—Overtime and Sunday Work.

(1) Any worker who is called upon to work overtime for more than two (2) hours shall be paid an allowance of three shillings (3s.) for a meal or shall be supplied by the employer with a reasonable meal in lieu of such payment.

(2) Any worker who has left the premises at which he is employed and is recalled to work after the usual ceasing time for less than one (1) hour shall receive payment for one (1) hour at overtime rates.

(3) If a worker is required to work during the recognised meal period so that the commencement of the meal period is postponed for more than half ( $\frac{1}{2}$ ) an hour, that worker shall receive payment at double time rates until he gets his meal.

(4) Subject to the preceding subclause, if a worker who is required to work during the recognised meal period does not in consequence obtain during the shift the full continuous meal period, or loses any portion of the meal period, he shall be paid at double time rates for the period not obtained or any portion lost.

(5) The expression "recognised meal period" means the period customarily observed as the meal period between fixed times on the job, or at the works, as the case may be, except where the time of commencement of the customary period is altered by mutual consent of the employer and the workers on the job to suit the convenience of the workers or the employer, in which case the altered times shall be the basis of any rights under the preceding subclauses (3) and (4).

(6) A worker who commences at or after midnight shall be paid double time until 6 a.m. the following morning, and subject thereto, all work performed outside the normal limits of the hours of labour shall be paid for at the rate of time and a half for the first two (2) hours and double time thereafter.

Subject to the provisions of subclause (2) of this clause, for the purpose of this subclause, the normal limits of the hours of labour shall be ascertained by reference to the time of commencement and time of finishing generally observed in regard to the worker in question for the particular job on which he is engaged.

(7) All time worked on Sunday shall be paid for at the rate of double time.

#### 19.—Away from Home Allowance.

(a) When a worker is instructed to proceed on duty from the place where he is then or is usually employed, the employer shall pay all fares, including sleeper and, except when a camp allowance is paid under clause (b) hereof, proper allowance at

current rates for all necessary meals and board and lodging. Fares shall be second class, except when travelling by coastal boat when saloon fares shall be paid and shall include return fares on completion of job.

(b) (i) When a worker is required to live in a tent or hut away from his usual residence or home station, he shall be paid a camping allowance of four shillings (4s.) for each working day he is required to hold himself and does hold himself available in a camp throughout the said day, whether or not work is done on the said day: Provided, however, the total amount payable under this provision shall not exceed twenty shillings (20s.) per week.

(ii) Provided, further, that if suitable accommodation, not being a tent or hut, is provided for a married worker and his dependants, there shall be no obligation to pay any allowance under the previous subclause.

(iii) Rent may be charged for any tent or huts or other accommodation supplied, at rates to be fixed, or failing agreement, as decided by the Board of Reference.

(iv) Liberty is reserved to the Union in regard to subclause (b).

#### 20.—Payment for Travelling Time.

##### (1) Metropolitan and Suburban Travelling.

(a) The Commission shall, in all cases, pay all travelling expenses actually and reasonably incurred by the workers in going from the shop or yards of the Commission, or from one job to another.

(b) The shop or yard is the recognised depot in each district. On construction work the job shall be the recognised depot. Provided, however, on construction work employees under this Award shall be allowed the same conditions as to fares as are prescribed by award or agreement for the joint body of employees of the industry in which they are employed.

(c) In all cases where a worker is not required to attend at the shop or yard as above, of the Commission, but goes direct to the job, the Commission shall pay all fares actually and reasonably incurred by a worker in excess of one and sixpence (1s. 6d.) per day, and which are incurred in travelling from his usual place of residence to such job, or from such job to his residence.

Provided that where the distance necessarily travelled from a worker's place of residence to the job and return is in excess of twelve (12) miles per day, the worker shall be paid a travelling allowance at the rate of fourpence (4d.) per mile for each mile in excess thereof; provided that the maximum daily allowance under this subclause shall be four shillings (4s.): Provided further that if the employer provides a conveyance for more than half of the distance travelled, the allowance payable shall be reduced by one-half. Provided that this subclause shall not apply to workers required to attend at the shop or yard of the Commission.

(d) Where the worker uses any kind of conveyance (including a push cycle but not including a public conveyance, or a conveyance provided by the employer) the amount of fares for which the employer would have been liable in accordance with subclause (c) of this clause, if the worker had used a public conveyance, shall be paid by the employer to the worker.

(e) During the hours of work all travelling time from and to the employer's place of business or from one job to another shall be paid for by the employer at ordinary rates. The employer shall pay all fares in connection with such travelling.

(f) When a conveyance is provided by the employer and such conveyance is regularly used for the transport of workers to and from work, such conveyance shall be provided where reasonable with suitable seating accommodation and weatherproof covering.

## (2) Other than Metropolitan and Suburban Travelling.

(a) A worker going to work away from or returning to his home station shall be paid at ordinary rates for the actual travelling or waiting time for the first eight (8) hours, and thereafter at half the ordinary rates in any one period of twenty-four (24) hours.

(b) Where waiting time exceeds four (4) hours and suitable accommodation is made available at the employer's expense, the worker shall be deemed to be booked off duty, and shall not be entitled to payment for the time he is booked off.

(c) Sunday travelling time shall be paid at the same rates and on the same conditions as on week days.

(d) In respect of a worker who is provided with a sleeping berth in a passenger train, travelling time shall not count between 10 p.m. and 7 a.m. Provided this shall not operate to reduce the travelling time to be paid for below four (4) hours in any one (1) day. Provided further that where by virtue of the length or nature of the journey the sleeping berth is available for six (6) hours or less, travelling time shall be paid for such period with a minimum of four (4) hours.

## 21.—No Reduction.

This agreement shall not in itself operate to reduce the wages of any worker who is at present receiving above the minimum rates prescribed for his class of work.

## 22.—Preference to Unionists.

(a) Preference of employment shall be given to financial members of the Union party to this Award.

(b) Before being engaged, an applicant in the metropolitan area shall produce evidence that he is a financial member. This provision shall also apply outside the metropolitan area, provided, however, that if the applicant is unable to produce satisfactory evidence immediately he shall furnish same within a reasonable period.

(c) The employer shall not continue to employ a person not a member of the applicant Union if a member of the Union is available at the job and ready to perform the work, and produces reasonable proof of his experience on the class of work being performed.

(d) The benefits of this clause shall not apply to any worker who has taken part in a strike or stop-work meeting during the currency of this Award.

## 23.—Boards of Reference.

(a) The Court appoints, for the purpose of the Award, Boards of Reference. The boards shall each consist of a chairman and two (2) other representatives nominated by the parties. There are assigned to such boards, in the event of no agreement being arrived at between the parties to the Award, the functions of—

(i) classifying and fixing wages, rates and conditions for any machine, occupation or calling not specifically mentioned in the Award;

(ii) adjusting any matters of difference which may arise between the parties from time to time except such as involve interpretations of the provisions of the Award or any of them;

(iii) deciding any other matter that the Court may refer to the Board from time to time.

(b) Separate boards may be appointed for different sections corresponding to the occupations, callings or vocations referred to in this Agreement and/or for different districts.

(c) The provisions of regulation 106 of the Industrial Arbitration Act, 1912-1952 (Appeal from Board), shall be deemed to apply to any Board of Reference appointed hereunder.

## 24.—Right of Entry.

On notifying the officer in charge, any officer of the Union authorised in writing by the president and secretary of such Union shall have the right to enter any place or premises, during ordinary working hours wherein members of such Union covered by this Award are engaged, for the purpose of conversing with or interviewing the workers in such place or premises.

Provided that such officer shall not hamper or otherwise hinder the workers in carrying out their work. The officer in charge shall determine whether workers are being hampered or hindered in their work.

## 25.—Allowances, Special Provisions, etc.

(1) A casual hand shall be paid ten per cent. (10%) in addition to the minimum rate specified.

(2) Reasonable change room lockers and washing facilities shall be provided for the workers.

(3) Workers employed on the following work shall be paid at the rate of fourpence (4d.) per hour in addition to the prescribed rate whilst so employed:—

(a) Boat-type or Swinging Scaffold.—In this subclause the term "swinging scaffold" means any scaffold suspended from overhead gear and not supported from the ground and which, by reason of the operations carried out on it, or by reason of the wind force or vibrations, is likely to swing or sway.

(No employer shall permit an apprentice who has served less than two (2) years to work on a boat-type or swinging scaffold and no such apprentice shall work on any such scaffold.)

(b) Excessively dirty work or demolition work which is likely to render the worker or his clothes dirtier than the normal run of work (with a minimum payment as for four (4) hours when employed on such work).

(c) Insulating work in an average temperature of forty-five (45) degrees F. or under.

(d) Working in dust-laden atmosphere caused by the use of materials for insulating, deafening or pugging work (as, for instance, pumice, charcoal, silicate of cotton or any other substitute).

(e) Working for more than one (1) hour continuously in the shade in places where the temperature is raised by artificial means to exceed 130 degrees F.

(f) Working in any confined space in and around a building. "Confined space" means one of which the dimensions are such that the workmen must work in an unusually stooped or cramped position or without adequate ventilation or where confinement within a limited space is productive of unusual discomfort to them.

(4) Workers employed on the following work shall be paid at the rate of twopence (2d.) per hour in addition to the prescribed rate whilst so employed.

(a) Working for more than one (1) hour continuously in the shade in places where the temperature is raised by artificial means to between 115 and 130 degrees F.

(5) Workers, while working in any place where water is continually dripping so that the workers' clothing becomes wet with soakage, or where there is water underfoot so that the workers' feet become wet, shall be paid at the rate of ten per cent. (10%) in addition to the prescribed rate whilst so employed. This shall not apply to natural surface made wet by rain.

(6) Bitumen or Tar Work.—Any worker actually coming in contact with hot or viscous tar or bitumen whereby his clothing becomes injuriously affected shall be paid an allowance of one and six (1s. 6d.) per day in addition to the prescribed rate of pay unless protective material is used.

(7) Workers engaged in concrete work shall be paid an allowance of one and six (1s. 6d.) per day extra, provided that this shall not be applied to a worker whose margin already provides for this work.

(8) Grinding Time.—(a) With the exception of casual workers, workers who have been employed for one (1) week or more shall on discharge be allowed two (2) hours for grinding tools, or shall receive two (2) hours' pay in lieu thereof, such time to be included in the notice required under Clause 6 (Contract of Service).

(b) The employer shall provide suitable grinding facilities, together with the required power (hand or driven) where such grinding facilities are reasonably necessary, for the use of the workers other than casual workers, or at his option pay such workers the sum of one shilling and sixpence (1s. 6d.) per week extra where there are no grinding facilities on the job. Where an emery stone is supplied it shall not be less than 1½ in. in width.

(9) Provision of Boiling Water.—The employer shall provide on each job boiling water for the use of his workers, including for the morning tea and lunch period.

(10) Protection of Workers' Tools (Carpenters)—A secure and waterproof place shall be provided by the employer where the carpenters' tools may be locked up apart from the employer's plant or material.

(11) Attendants on Ladders—No worker shall work on a ladder at a height of over twenty (20) feet from the ground when such ladder is standing in any street, way or lane where the traffic is passing two and fro, without an assistant on the ground.

(12) Sanitary Arrangements—Proper sanitary arrangements shall be made on each job of each employer for the convenience of all workers and kept in a clean and hygienic conditions and where sewerage facilities exist proper connections must be made. If a pan system is used, thunder boxes must be installed.

#### 26.—Leading Hands.

A leading hand placed in charge of—

- (a) not less than three (3) and not more than ten (10) other workers shall be paid eleven shillings (11s.) per week extra;
- (b) more than ten (10) and not more than twenty (20) other workers shall be paid twenty-two shillings (22s.) per week extra;
- (c) more than twenty (20) other workers, shall be paid thirty-two shillings (32s.) per week extra.

#### 27.—Rates of Pay.

The minimum rates of wages payable to workers under this Award (other than duly registered apprentices) shall be:—

	Per Week.
	£ s. d.
(a) Basic Wage—	
Metropolitan area, within a radius of 15 miles from the G.P.O. in the City of Perth	12 6 6
South-West Land Division, excluding the Metropolitan Area	12 6 0
Rest of State	12 9 4
(b) Margin	2 12 0
(c) Allowances—	
Tool allowance	5 0
Disability allowance	5 0

The latter allowance shall only be payable on construction work performed at other than the employer's permanent establishments.

#### 28.—Provision of Appliances.

(1) Carpenters—The employer shall provide the following tools when they are required on the job:—Dogs and cramps of all descriptions, bars of all descriptions, augers of all sizes, bits not ordinarily used in a brace, all hammers except claw hammers, glue pots and brushes, dowel plates, trammels, hand and thumb screws, soldering irons, spanners from three-quarters (¾) of an inch upwards, and steel tapes; asbestos cutters and all power-driven tools and machines on construction jobs.

(2) A worker in receipt of a tool allowance shall provide himself with all necessary tools, kept in suitable condition for the performance of his work (other than those tools to be provided by the employer in accordance with this clause). A worker who fails to provide all such tools when required shall be guilty of a breach of this agreement and shall not be entitled to the tool allowance prescribed in this Agreement until he complies with this clause.

#### 29.—Apprentices.

(a) Apprentices shall be allowed to the carpentry and joinery trade.

(b) The term of apprenticeship shall be five (5) years.

(c) The maximum number of apprentices allowed to any employer in any branch shall be in the following proportions:—One (1) apprentice to every two (2) or fraction of two (2) journeymen employed by the Commission, provided the fraction shall not be less than one (1).

(d) Wages—	Percentage of Basic Wage.
First six months	20
Second six months	25
Second year	35
Third year	55
Fourth year	80
Fifth year	95

Provided that where an apprentice is twenty-one (21) years of age or over at the commencement of his fifth year, he shall be paid the full basic wage, and that when an apprentice becomes twenty-one (21) years of age in the course of his fifth year, he shall be paid the full basic wage for the period following his twenty-first birthday. Provided further that the foregoing proviso shall not apply where the apprenticeship has been revived under the Re-establishment and Employment Act, 1945, and the apprentice is in receipt of a tradesman's rate through Government supplementation.

(e) The regulations and terms of apprenticeship as applied by the Court and attached to Schedule 1 and the regulations made in pursuance of the Act to the building trades shall apply except where negated or modified.

(f) The employer shall be under no obligation to teach an apprentice to carpentry and joinery any work in connection with metal ceilings where that work is not performed by such employer.

(g) A tool allowance shall be paid to apprentices in their third, fourth and fifth year as follows:—

Carpentry and Joinery—5s. per week.

Provided that apprentices shall be supplied with tools as selected by the foreman up to the value of £12.

I certify, pursuant to section 65 of the Industrial Arbitration Act, 1912-1952, that the foregoing is a copy of the Agreement arrived at between the parties mentioned above.

Dated at Perth this 4th day of December, 1953.

(Sgd.) S. F. SCHNAARS,  
Conciliation Commissioner.

Filed at my office this 4th day of December, 1953.

(Sgd.) R. BOWYER,  
Clerk of the Court.
