HIS Excellency the Governor in Executive Council, acting pursuant to the powers conferred by the Local Government Act, 1960, has been pleased to make the Draft Model By-laws set out in the schedule hereto.

GEO. S. LINDSAY,  
Secretary for Local Government.

## Schedule.

## Draft Model By-laws.

## Extractive Industries.

1. These by-laws may be cited as the Local Government Model By-laws (Extractive Industries) No. 5.

2. In these by-laws, unless the context otherwise requires—

“Act” means the Local Government Act, 1960-1961, and words and expressions have the same meanings as they have in the Act.

3. A person shall not, on any land, other than Crown land within the municipal district, quarry for stone, or carry on, for the purpose of recovering any stone, any operation whereby an excavation is created or enlarged, without first having obtained a license to do so from the Council.

4. (1) An application for a license, pursuant to by-law 3 of these by-laws, shall be in writing and shall be accompanied by a plan, showing the location and limits of the area proposed to be excavated, the existing levels of the land, the depth and extent of the proposed excavation, the depth and description of the overburden present and the location of any existing or proposed buildings and machinery.

(2) The accompanying plan shall, in addition to the requirements of sub-by-law (1) of this by-law, clearly indicate the distance of the proposed quarry or excavation from adjoining drains, watercourses, roads, footpaths and buildings.

5. An applicant for a license to quarry or excavate shall give to the Council such additional information concerning the proposed quarry or excavation, as the Council may reasonably require.

6. An applicant for a license to quarry or excavate shall, except in the case of an application in respect of a quarry or excavation in existence at the time of the coming into operation of these by-laws, send, by registered post, to every owner of land within 300 yards of the proposed excavation, notice of the application, specifying that the owner may, within seven days after the receipt thereof, in the ordinary course of post, object to the granting of the license, by written notice given to the Council.

7. (1) The Council may, before granting any license under these by-laws, require the applicant to enter into an agreement for the payment to the Council of a sum of money, being the expense estimated by the Council as likely to be incurred by it, in repairing and maintaining roads under the control of the Council in the neighbourhood of the proposed quarry or excavation, as a result of heavy or extraordinary traffic conducted by the licensee or any person acting on his behalf in the exercise of the license, if granted.

(2) The due observance of any agreement entered into by the applicant pursuant to sub-by-law (1) of this by-law shall be a condition of the grant and holding of the license.

(3) In the event of disagreement between the applicant and the Council as to the amount of the expense estimated by the Council pursuant to this by-law, that disagreement shall be referred to the Minister for Local Government whose decision shall be binding on both the applicant and the Council.

8. (1) An applicant for a license under these by-laws shall deposit with the Council, before the issue of a license such amount, not exceeding one hundred pounds, as the Council may, by resolution, determine, to be retained by the Council for the duration of the license and until the licensee shall have complied with by-law 14 of these by-laws.

(2) If the licensee commits a breach of any of the provisions of by-law 14 of these by-laws, the Council may cause the necessary work to be carried out and deduct the cost of the work from the moneys deposited by the applicant and, in the event of the cost exceeding the amount of the deposit, the licensee shall forthwith, on demand, pay to the Council the amount of that excess.

(3) Upon the expiration of the license and the carrying out of the prescribed works, the deposit (if any) or the balance of the deposit shall be repaid to the licensee.

9. The annual fee payable to the Council for a license is ten pounds.

10. A license shall be valid for three years from the date of issue but may be renewed by the Council, from time to time, for a further period of three years from the date of expiration.

11. A person shall not quarry or excavate on any land within 44 yards, or such greater distance as the Council may, in any particular case, specify, of the boundary of any road or of any land owned by the Council; but in the case of a proposed excavation being not lower than the level of the nearest road and reinstatement of the area excavated for its existing use being possible, the Council may permit a licensee to quarry or excavate to a specified distance within 44 yards of such a boundary.

12. A person shall not, within 44 yards of the boundary of any road or of any land owned by the Council, remove natural trees or scrub on land in respect of which a license to quarry or excavate has been granted, except for the purpose of constructing access roads or erecting buildings.

13. When the Council so requires, the licensee shall plant trees, of a type specified by the Council, to screen the boundaries of the working of any excavation.

14. (1) Every excavation shall be drained and be kept drained and the responsibility for the discharge and disposal of the water drained is upon the licensee.

(2) Irrespective of the manner of its ceasing, on the cessation of any quarrying or excavation work, the licensee shall ensure that every face of the quarry or excavation is left safe and that all loose material is removed or scaled therefrom.

15. The licensee shall, before commencing any blasting, excavation or quarrying, erect and keep exhibited, during the continuation of the blasting, excavation or quarrying, such notices of warning as may reasonably be required by the Council.

16. A person shall not carry out blasting operations in or about a quarry or excavation, except between the hours of 6 a.m. and 6 p.m. on Mondays to Saturdays, inclusive.

17. Whenever in the course of quarrying or excavating operations dust arising from those operations is allowed to escape from the premises, the Council may by written notice require the licensee, within a reasonable period, to provide, use or cause to be used the most reasonably effective means known, for the purpose of laying or removing dust and preventing it being a danger to any person or creating nuisance or damaging natural vegetation.

18. If the height of a quarry face exceeds 65 feet, then, except with the written permission of the State Mining Engineer or a person nominated by him, work shall not be carried out at the foot of that quarry face or within such distance of the foot as will render a person working within that distance liable to be injured by material falling from the face.

19. If the height of a quarry face exceeds six feet, then no undercut shall be made in the face to a greater depth than 18 inches.

20. Where in a quarry the nature of the material being quarried, the method of working and the equipment used are such that a face higher than 65 feet may safely be worked, then, with the written permission of the State Mining Engineer or a person nominated by him, the Council may grant a written permit allowing a face exceeding 65 feet in height, but not exceeding the height specified in the permit, to be worked at that quarry.

21. The licensee shall obey the directions of the Council as to any limit in the size, weight or amount of any explosive that may be used in any one charge,

22. (1) Where any dispute between the licensee and the Council, with regard to any matter referred to in by-law 17 or 21 of these by-laws or in respect of any order, direction or requisition by the Council, arises, the dispute shall be referred to the Minister for Local Government and the decision of the Minister shall be final and binding on both the licensee and the Council.

(2) In the event of a dispute as to any alleged breach of by-law 17 or 21 of these by-laws, the licensee shall not be liable to prosecution in respect of any alleged breach committed prior to the date of the decision of the Minister.

23. (1) If a licensee fails to comply with—

(a) any of the terms of any agreement entered into by him with the Council, relative to quarrying or excavating stone; or

(b) any of these by-laws

and the default continues after the expiration of 21 days from service on the licensee of written notice from the Council to remedy the default, then the Council may, with the prior written consent of the Minister, cancel the license of the defaulting licensee.

(2) The Council shall give to the licensee at least 14 days' written notice of its intention to apply to the Minister for his consent to the cancellation of a license.

24. Nothing in these by-laws shall be construed to limit, diminish or restrict any general by-laws made, or to be made, under the Town Planning and Development Act, and in the case of any inconsistency the general by-law shall prevail.

25. The holding of a license does not exempt the licensee from liability to the public at large for any damage or nuisance, occasioned by, or arising from, the quarrying or excavation work.

26. These by-laws apply to all land other than Crown land, in the municipal district; and apply, except where hereinbefore in these by-laws expressly excluded, to every quarry or excavation, whether existing or made before or after the coming into operation of these by-laws.

27. The provisions of section 336 of the Act shall be read as if they were expressly incorporated in these by-laws.

28. Any person who, either by act or omission contravenes these by-laws, or being the owner or occupier of property within the district, knowingly permits any act or omission on any property owned or occupied by him in contravention of these by-laws is guilty of an offence and is liable to a penalty of fifty pounds and, in addition to a daily penalty of five pounds for each day during which the offence continues, after his conviction.
