Definitions:

“Joy-ride” means a flight carried out for the conveyance of a passenger or passengers on a pleasure flight which commences from and terminates at the same place without any intermediate landing.

“Charter-flight” means a casual flight undertaken by the licensee with the aircraft mentioned in this license for a fixed fee on behalf of one or a party of passengers or on behalf of one or a party of persons desirous of having goods carried on the aircraft in contradistinction to a flight undertaken for payment of separate fares by a number of passengers securing a passage on the plane or to the carriage of one or more parcels or consignments of goods for several persons acting independently.

The term does not include a flight which has been advertised, announced or notified in any way with a view to securing passengers or freight for any particular flight.

In general the term is used by way of analogy to the operation of a taxi motor car or a vehicle which carries goods by special contract, as distinct from a motor omnibus on a road or a road vehicle used by a common carrier who operates a regular service for the carriage of goods.
