Office of the Department of Transport,
Perth, 4th July, 1963.

HIS Excellency the Lieutenant-Governor and Administrator in Executive Council, acting pursuant to the powers conferred by the State Transport Co-ordination Act, 1933-1961, has been pleased to make the regulations set forth in the schedule hereunder, to take effect after the provisions of section 58A (3) of that Act have been satisfied.

W. H. HOWARD,
Commissioner of Transport.

Schedule.

Regulations.

1. In these regulations the Transport (Road Transport Subsidies) Regulations, made under the provisions of the State Transport Co-ordination Act, 1933 (as amended) published in the *Government Gazette* on the 1st November, 1961, and amended by notice amending the same published in the *Government Gazette* on the 19th December, 1962, are referred to as the principal regulations.

2. Regulation 2 of the principal regulations is amended—

(a) by adding, immediately after the word, "bin," being the last word in the interpretation, "depot," the passage, "and, in the case of any grain for which those facilities are not provided, means the railway station that is nearest the farm on which the grain was produced";

(b) by adding immediately after the interpretation, "the Act," the following interpretation—

"terminal cartage charge" means a charge for cartage to, or from, a farm, calculated in accordance with regulation 8 of these regulations and not included within the meaning of through rail freight; and

(c) by substituting for the words, "to its port of destination" in the last line of the interpretation, "through rail freight," the words, "to its final destination within the State."

3. The principal regulations are amended by substituting for regulation 3 the following regulation:—

3. (1) For the purposes of this regulation—

"current freight" means the freight payable at the time transport is effected, computed—

- (a) in respect of grain, from the farm to the railway station nearest thereto and thence by rail to its final destination within the State; and
- (b) in respect of fertiliser, from the place of manufacture to the railway station nearest to the farm by rail and thence to the farm; and

"normal freight" means the freight computed in the manner prescribed in the preceding definition, that would be payable at the time transport is effected, if—

- (a) in a proposed railway area, a railway had been constructed and a railway station provided thereon at a distance of ten miles from the farm; and
- (b) in a railway closure area, the railway had not been suspended or discontinued and the railway stations thereon were still in operation.

(2) Where current freight exceeds normal freight a subsidy, calculated in the manner provided in regulations 6 and 7 of these regulations is payable for the transport of grain produced, and of fertiliser for use, on—

- (a) a farm that is situated in a proposed railway area and of which no part is within twelve and one-half miles from the nearest railway stations, measured in a direct line; and
- (b) a farm that is situated in a railway closure area and to which the nearest railway station was on a railway that is suspended or discontinued.

4. The principal regulations are amended by substituting for regulation 5 the following regulation:—

5. Where the depot to which a farmer is to deliver grain is an off-rail bin, the farmer may, by notice in writing to the Commissioner, elect that, for the purpose only of determining his liability in accordance with paragraph (c) of subregulation (2) of regulation 6 of these regulations, his fertiliser shall be deemed to be transported from the railway to that off-rail bin and thence to his farm; and the election shall become effective 14 days after the giving of such notice and shall remain effective until terminated by 14 days' notice in writing to the Commissioner.

5. Regulation 6 of the principal regulations is amended by substituting for subregulation (2) the following subregulation:—

(2) For the purposes of this regulation, the liability of the farmer shall—

- (a) where grain is transported from an off-rail bin to a railway bin, be the amount of through rail freight payable for the full distance of that transport; and
- (b) where grain is transported from the farm to the nearest depot, or to an alternative depot approved by the Commissioner pursuant to the provisions of regulation 4 of these regulations, be the amount ascertained by taking the sum of the terminal cartage charge for the first ten miles and the through rail freight for any distance in excess of ten miles;

- (c) where fertiliser is transported and the farmer has made an election pursuant to regulation 5 of these regulations, be the amount ascertained by taking the sum of the terminal cartage charge for so much of the distance from the off-rail bin to the farm as does not exceed ten miles and the through rail freight—
- (i) for the balance (if any) of that distance in excess of ten miles; and
 - (ii) for the distance to the off-rail bin from the nearest railway bin; and
- (d) where fertiliser is transported and the Commissioner has not received notice of an election referred to in regulation 5 of these regulations, be the amount ascertained by taking the sum of the terminal cartage charge for the last ten miles of the distance from the railway station to the farm and the through rail freight for the remainder of that distance.
