ARTHUR A. MILLS,
President.
H. W. WALKER,
Shire Clerk.

Schedule.

The Scheme text is amended by:—

1. Substituting for the definition of "Extractive Industry" in Clause 5, the definition:—

"Extractive Industry" includes an industry involving the extraction of sand, gravel, clay, turf, soil, rock, stone or similar material from the land and when carried out on land adjacent or in close proximity thereto, the treatment and storage of such materials and the disposal of waste products and spoil therefrom, always subject to annual permit and to the provisions of the Clean Air Act."

2. Adding to Use Class 11 in Clause 15 the use "Motor Transport Depots".

3. Adding a new paragraph in Clause 16 after paragraph (c) to read—

(d) Any use not specifically listed in this Table shall be included in an appropriate use class at the discretion of the Responsible Authority.

4. Relettering paragraph (c) in Clause 17 paragraph (d), and inserting a new paragraph (c)—

(c) No person shall commence, carry out, alter or extend any development use of land or building without first applying for and obtaining the written approval of the Responsible Authority within areas zoned under this Part, except that such approval is not required for the erection of a single dwelling house on a lot within a Residential "A", Residential "B" or Rural Zone.

5. Adding new subclauses (3) and (4) to Clause 26 to read:—

(3) Notwithstanding sub-clause (2) of this Clause, where the Responsible Authority grants an approval in accordance with Clause 35 sub-clause (d), the land between the alignment of the building and the street alignment, where less than 50 feet in width, shall not be used for any purpose other than for means of access and for lawns or gardens, or with the special approval of the Council, for trade display.

(4) A person shall not in a Light Industrial Zone which abuts Wimbleton Street, Beckenham or Rupert Street, Kenwick, use the land between a line 20 feet back from and parallel to the street alignment and the street alignment for any purpose other than lawns, gardens and tree planting, or with the special approval of the Responsible Authority as a means of access.

6. Adding after Clause 28 a new Clause 28A as follows:—

28A. A residential building or a flat building, together with any buildings appurtenant thereto shall not occupy a greater area than 35% of the site.

7. Adding after Clause 32 new Clauses 32A and 32B as follows:—

32A. Residential "B" Zones: The following additional provisions shall apply to multi-unit residential buildings within Residential "B" Zones:—

Balance of requirement under Table 4 may be provided in uncovered parking areas.
- (b) Enclosed or partly enclosed garages and carports, shall be located not less than ten feet from any side or rear boundary, and the space so provided shall be planted with suitable trees and shrubs and developed and maintained as a garden area.
- (c) Carports and garages shall be designed to harmonise with and be complementary to the flat building and, so far as is practicable, walls and roofs of carports and garages shall be constructed of the same materials as the flat building. Council may permit the use of other materials of construction, but only if these are in keeping with the intention of this sub-clause.
- (d) Not less than 50 per cent. of the site shall be landscaped and planted with trees, shrubs, lawns or flowers, and developed and maintained as garden areas. The 50 per cent. referred to in this sub-clause shall be additional to any area set aside for the uncovered parking of cars and the drying of laundry. A planting and landscape plan, showing in detail trees and shrubs to be planted or retained, and the garden treatment generally, shall be submitted with the application for a Building Licence and shall form part of that Building Licence.
- (e) Parking spaces, covered or otherwise, shall be located behind the building setback line and shall be screened to the satisfaction of the Council. The Council may relax this requirement where contour, surrounding development, environmental needs, and other appropriate considerations are such that a departure from the requirements would not be detrimental to the surrounding locality.
- (f) All uncovered paved parking areas shall be situated not less than four feet from the main building.
- (g) Unless the decking is contained within the main building, deck parking shall not exceed two levels, one of which shall be below "normal ground level" as determined by Council.

8. Adding a new paragraph (d) to Clause 35 as follows:—

- (d) With the approval of the Responsible Authority, in a General Industrial Zone, a person may erect a building nearer to one only of the roads or

streets than the set-back line, but not nearer than thirty (30) feet to that road or street.

9. Adding after Clause 35 a new Clause 35A as follows:—

35A. Notwithstanding the provisions of Clause 35, where a lot is situated at the intersection of more than two roads or streets, the Responsible Authority may, at its discretion, reduce the distance of the building set-back line from the third or additional road reserves to not less than the distance permitted under Clause 35 in respect of the second road or street.

10. Adding after Clause 45 a new Clause 46, as follows:—

46. Revocation of Conditional Approval: The failure or omission to carry out any development in accordance with the conditions subject to which development was permitted shall be deemed to be a contravention of the Scheme, and in addition to any remedy under Clause 45 hereof, the Responsible Authority may revoke such approval.
