Secretary.

(Distribution and Racecourse Development)  
Regulations, 1974.  

1. These regulations may be cited as the Greyhound Racing Totalisator (Distribution and Racecourse Development) Regulations, 1974.

4. Where any moneys are received by the Board from the Totalisator Agency Board, the Board shall resolve that such moneys be utilised, and from time to time disbursed—  
   (a) subject to regulation 3 of this regulation, for the administrative purposes of the Board;  
   (b) for the purpose of payments to registered greyhound clubs;  
   (c) for the development of greyhound racecourses; and  
   (d) for any other special purpose approved by the Board.  

5. (1) As soon as is practicable after the end of the financial year the Board shall prepare a scheme setting out the Board’s proposals as to the distribution of moneys—  
   (a) received during the preceding financial year and not distributed pursuant to regulation 6 of these regulations; and  
   (b) estimated by the Board as likely to be received during the financial year then commencing,  
from the Totalisator Agency Board.  

(2) Any disbursement made by the Board shall be made in accordance with the scheme, but the scheme may from time to time be amended by the Board.
(3) In amending a scheme the Board shall take into account any disbursement or interim payment which has already been made under the earlier editions of that scheme.

6. (1) The Board may at its discretion make an interim payment to a club or clubs from moneys received by the Board from the Totalisator Agency Board but such interim payment shall not total more than sixty per cent of the amount to be allocated to that club or clubs under the Board's scheme for distribution.

(2) Notwithstanding the provisions of subregulation (1) of this regulation the Board in the year to 31st July, 1975, shall not distribute to a club or clubs by way of an interim payment more than twenty-five per cent of the total of moneys received from the Totalisator Agency Board each month.

(b) where the Board resolves that money shall be utilised for any other special purpose approved by the Board it may be dealt with by way of a special account to be comprised in the Fund.

8. Moneys standing to the credit of the Greyhound Racing Control Fund may be invested by the Board in accordance with the provisions of the Trustees Act, 1962, governing investments.

9. Where there is, or the Board anticipates that there may be, a surplus or a deficiency in the Racecourse Development Account the Board may by resolution transfer moneys from or to that account from such other accounts comprised in the Fund as are specified in that resolution, either permanently or for such time as is so specified, and where the Board effects a transfer on a temporary basis the moneys that would otherwise be credited to the account to which the transfer was made may be credited to the account from which the transfer was made until such time as the amount transferred has been made good.

10. The Board may enter into an agreement, guarantee or other arrangement with any person or body of persons for the purpose of improving, or assisting in the improvement of, or carrying out work on, any Greyhound Racing Ground, or any facilities ancillary thereto, which is, or is intended to be, conducted under the management of a Greyhound Racing Club or Committee of Management, on such terms as may be specified in that agreement, guarantee or arrangement.

11. (1) The Board may authorize payments out of the Racecourse Development Account—

(c) to discharge in whole, or in part, any liabilities incurred by a Greyhound Racing Club in respect of a Greyhound Racing Ground which has ceased to be used for greyhound racing; or

(d) under or in relation to an agreement, guarantee or arrangement entered into pursuant to regulation 8 of these regulations.

(2) Any payment to discharge a liability referred to in subregulation (1) of this regulation may be made directly to the person to whom the Greyhound Racing Club is indebted.

12. Any payment authorized by the Board may be made by way of grant or loan, and any payment by way of loan may be subject to such terms and conditions including provisions as to interest and re-payment, as are agreed upon between the Board and the person or club to whom the loan is made.

13. Where in the opinion of the Board a club has incurred excessive capital expenditure and—

(a) the club has not obtained the approval of the Greyhound Racing Control Board to such expenditure, (which approval may be given subject to such conditions, limitations and restrictions as the Board thinks fit); or

(b) the club can not meet that expenditure from the current assets of the club without borrowing additional funds, the Board may modify any scheme or proposed disbursement so as to exclude, that club, wholly or partially, from participating in the distribution of moneys received by the Board.

14. The provisions of regulation 13 of these regulations shall not apply where the capital expenditure incurred by the club does not exceed—

(a) in the case of a club licensed to conduct greyhound racing in the Metropolitan Area—$5000; and

(b) in any other case—$2000, in relation to any one matter.

Town Planning and Development Act, 1928 (as amended).

CITY OF SOUTH PERTH TOWN PLANNING SCHEME NO. 3—RIVER PARADE GUIDED DEVELOPMENT SCHEME.

THE South Perth City Council, under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act, 1928 (as amended) and the Metropolitan Region Town Planning Scheme Act, 1959 (as amended) hereby makes the following Town Planning Scheme.

TOWN PLANNING SCHEME No. 3.

Scheme Text.

PRELIMINARY.

1.1 This Town Planning Scheme may be cited as City of South Perth Town Planning Scheme No. 3—River Parade Guided Development Scheme (hereinafter called "the Scheme").

1.2 The Scheme is complementary to the City of South Perth Town Planning Scheme No. 2 and to the extent to which the provisions of the Scheme are inconsistent with the provisions of the City of South Perth Town Planning Scheme No. 2 the provisions of the Scheme shall prevail.

1.3 The Authority responsible for carrying out and enforcing the observance of the Scheme is the City of South Perth (hereinafter referred to as "the Council").

1.4 The Scheme shall apply to the area of land contained within a broken black line on the Land Use Map and the Scheme Map and such area is hereinafter referred to as "the Scheme Area".

1.5 The map entitled "Land Use Map" shows the existing subdivision of the Scheme Area and the map entitled "Scheme Map" shows the design for the further subdivision of the Scheme Area in two stages (designated as "first stage" and "second stage"), the location of the new lots which may be created and of the roads to be constructed. The Council may recommend to the Town Planning Board of Western Australia (hereinafter called the Board) the approval of a subdivision which involves an alteration or variation to the subdivisional design shown on the Scheme Map if the circumstances justify such a course provided that the Council shall not so recommend if in its opinion such alteration or variation would impede or adversely affect the subdivision or development of the Scheme Area as a whole.

1.6 The general objects of the Scheme are—
(a) to provide a basic design for the subdivision of land within the Scheme Area;
(b) to facilitate proper development of the land within the Scheme Area;
(c) to make suitable provision for roads in the Scheme Area;
(d) to provide proper drainage of roads in the Scheme Area;
(e) to make suitable provisions to ensure "dryness" of building sites;
(f) to make provision for sewage disposal facilities within the Scheme Area;
(g) to make provision for other matters which are necessary or incidental to town planning and housing.

1.7 It is intended that as and when owners of land within the Scheme Area subdivide or develop their land such subdivision or development shall not only be according to a plan which is capable of forming part of an overall plan of subdivision for the Scheme Area but shall also comply with the conditions for development of the Scheme Area contained in or imposed by the Scheme.

1.8 In this Scheme "Australian Height Datum" means the height datum determined under the direction of the National Mapping Council of Australia and established in Western Australia by the Department of Lands and Surveys.

SUBDIVISION.

2.1 An owner of land within the Scheme Area who desires to subdivide his land either alone or in conjunction with other owners shall submit a plan of the proposed subdivision to the Board as required by the Town Planning and Development Act 1928 (as amended).

2.2 Subject to the provisions of Clause 1.5 the Council shall not recommend to the Board the approval of any plan of subdivision unless—
(a) the proposed subdivision conforms generally with the design shown on the Scheme Map provided that this paragraph shall not prevent the Council from recommending such plans for approval on the ground only that the plan provides only for a first stage subdivision or, that stage having already been carried out, for a second stage subdivision;
(b) it is a condition of approval by the Board that where any lot to be created by the subdivision has a frontage to River Parade and can be connected to a main sewer for the disposal of sewage, the ground level of that lot to a distance of not more than 7.6 metres from the alignment of River Parade shall not be less than 2.45 metres above Australian Height Datum and the ground level of the remainder of such lot shall not be less than 1.7 metres above Australian Height Datum provided that when the plan of the proposed subdivision is accompanied by an application for approval to commence development and a plan of the proposed development the minimum ground level of 2.45 metres above Australian Height Datum required by this paragraph may be confined to the area lying within 8 metres of the position of any soak well or leach drain shown on the plan of the proposed development;

(c) it is a condition of approval by the Board that where any lot to be created by the subdivision has a frontage to River Parade and can be connected to a main sewer for the disposal of sewage, the ground level of that lot to a distance of not more than 7.6 metres from the alignment of River Parade shall not be less than 1.35 metres above Australian Height Datum and the ground level of the remainder of such lot shall not be less than 1.7 metres above such Datum.

ROADS.

3.1 The roads coloured orange on the Scheme Map shall be constructed and drained at the expense of subdividing owners of land within the Scheme Area to the extent specified in paragraph (c) of Clause 6.1 and in the manner hereafter provided.

3.2 The Council shall in due course construct and drain the roads coloured orange on the Scheme Map.

SEWERAGE.

4.1 The Council shall not recommend for approval by the Board any application for subdivision, other than an application for a first stage subdivision, unless all the lots to be created by the proposed subdivision can be connected to a main sewer for the disposal of sewage.

4.2 A building shall not hereafter be erected within the Scheme Area unless the same can be connected to a sewer and any such building shall not be occupied unless and until it is so connected provided that the Council may approve of the erection and occupation of a single family dwelling house or a duplex dwelling house on a lot existing at the commencement of the Scheme or on a lot created pursuant to a first stage subdivision if the Council is satisfied that—

(a) the absorption sufficiency of the ground is such as to permit the satisfactory functioning of an apparatus for the bacteriolytic treatment of sewage;

(b) in the case of a single family dwelling house the level of the ground is such to ensure that the effluent from a bacteriolytic treatment tank at the point of discharge into a soak well or leach drain will not be less than 2.40 metres above Australian Height Datum.

(c) in the case of a duplex dwelling house the level of the ground is such to ensure that the bottom of a leach drain or soak well which receives effluent from a bacteriolytic treatment tank is not less than 4.0 metres above Australian Height Datum.

DEVELOPMENT REQUIREMENTS AND CONTROLS.

5.1 A person shall not erect a building within the Scheme Area except in accordance with the provisions of the Scheme.

5.2 (a) Where land has been filled to bring its level into compliance with the levels prescribed by Clause 2.3 of the Scheme a building shall not be erected on that land unless the area of the land so to be filled is equal to or greater than the area of the lot lying within 8 metres of such soak well or leach drain shown on the plan for that purpose shall have been affected with clean sand or other material approved by the Council;

(b) where the Board has approved of a plan of subdivision and such plan was accompanied by an application for approval to commence development and a plan of the proposed development the location of any soak well or leach drain shown on that plan shall not be altered unless the area of the lot lying within 8 metres of such soak well or leach drain is not less than 2.5 metres above Australian Height Datum.

5.3 In approving the erection of any building in the Scheme Area the Council may require that—

it shall be so sited as to ensure the greatest possible outlook or view of the Canning River for the occupants of such building and for the occupants of any other building which may be subsequently erected on that land or any adjoining lot.

5.4 The maximum height of any building erected on—

(a) land which is within the boundary of any of the lots hereafter mentioned in this clause shall not exceed the height of the building which would have been erected on the lot to which it relates if it is so connected by a subdivision under the Scheme and which lots would have a frontage to River Parade; and

(b) lots 2, 4, 268, Pt. 276 and 283 River Parade shall not in the case of—

(i) land south of Lot 279 River Parade exceed 11.5 metres above Australian Height Datum;

(ii) Lot 279 River Parade and land north thereof exceed 6.85 metres above Australian Height Datum.

SCHEME COSTS.

6.1 For the purposes of the Scheme the Scheme Costs shall comprise—

(a) the Council's costs of administering and implementing the Scheme including such amount of the Council's overhead costs as are attributable to the Scheme and its implementation and administration;

(b) all fees and costs incurred by the Council in connection with the preparation of the Scheme;

(c) one half of the costs of constructing and draining the roads coloured orange on the Scheme Map including one half of the cost of all excavations filling and compaction necessary in the construction and drainage of such roads;

(d) the cost of such other works and things as the Council may deem necessary for the proper planning of the Scheme Area and the implementation and administration of the Scheme.

6.2 An owner of land within the Scheme Area who makes an application for approval to subdivide such land shall, prior to the final approval of the application by the Board, pay to the Council an amount which bears the same proportion to the total Scheme Costs as the area of the land the subject of the application bears to the area of the whole of the land within the Scheme Area with the exception of the area of all roads and ways shown on the Scheme Map provided that the provisions of this clause shall not apply—

(a) if an application is made for approval to further subdivide any land which has already been subdivided under the provisions of this Scheme; or

(b) if an applicant for approval to subdivide or any other building which may be subsequently erected on that land or any adjoining lot.
6.3 If an application for approval to subdivide land within the Scheme Area is made before the actual amount of the Scheme Costs has been ascertained, the Council may estimate the amount thereof and the owner making such application shall pay his proportion of such estimate to the Council prior to the final approval of his application by the Board. If an estimate so made by the Council proves to be more than the actual Scheme Costs the difference between the amount already paid by the owner and the amount he would have paid had the actual amount of the Scheme Costs been known at the time shall be paid by him to the Council on demand. If an estimate so made by the Council proves to be less than the actual Scheme Costs the difference between the amount already paid by the owner and the amount he would have paid had the actual amount of the Scheme Costs been known at the time shall be paid by the Council to such owner on demand.

9.1 (a) Twenty-eight (28) days written notice is hereby prescribed as the notice to be given pursuant to Section 10 of the Town Planning and Development Act, 1928 (as amended). Any expenses incurred by the Council under that section may be recovered from the person in default as a simple contract debt in any Court which has jurisdiction to deal with claims of that amount.

(b) In the Scheme the word "lot" has the meaning given to that word by the Town Planning and Development Act, 1928 (as amended) but does not include a lot on a Strata Plan.

2. Regulation 102D of the principal regulations is amended—

(a) by adding after the word “accordance”, in line two of subregulation (2), the passage “with subregulation (4a) of this regulation and”;

(d) by adding after the word “listing”, in line two of paragraph (b) of subregulation (4), the passage “and in accordance with subregulation (4a) of this regulation”;

and
(e) by adding after subregulation (4), a subregulation as follows—

(4a) (a) To be eligible to have her name added to the Principals' Promotion List, a principal mistress's—

(i) seniority as determined by section 37AF of the Act must be at least equal to the average seniority of those deputy principals who become eligible to have their names included on the list in that year and in the previous year and who apply to be placed on the list;

(ii) continuous service in promotional positions in secondary schools must be at least equal to the average continuous service in such positions of the deputy principals referred to in sub-paragraph (i) of this paragraph; and

(iii) continuous service as a principal mistress must be at least equal to the average continuous service as a deputy principal of the deputy principals referred to in subparagraph (i) of this paragraph.

(b) Notwithstanding the provisions of paragraph (a) of this subregulation, the name of a principal mistress shall not be placed higher on the Principals' Promotion List than the name of any deputy principal whose continuous service as a deputy principal of a secondary school is longer than her continuous service as a principal mistress of a secondary school.

Reg. 102DB

3. The principal regulations are amended by substituting for regulation 102DB a new regulation as follows:—

102DB. (1) (a) The Board shall compile an initial combined promotion list which shall include the names of all teachers eligible, in accordance with subregulations (2) and (4a) of regulation 102D of these regulations.

(b) Notwithstanding the provisions of subregulation (4) of regulation 102D of these regulations, the order of placement on this list will be determined in accordance with subregulations (2) and (3) of this regulation.

(2) The names of principal mistresses eligible to be added to the list and who have applied to have their names added shall be listed in order of equivalent service, the longer service in positions of higher status determining the higher listing.

(3) (a) The names of the teachers listed according to subregulation (2) of this regulation shall be inserted into the Principals' Promotion List as it existed at 31st December, 1973 in accordance with the provisions of paragraphs (b), (c) and (d) of this subregulation and in the same relative order as they are listed according to subregulation (2) of this regulation.

(b) The order of placement shall be determined by the length of continuous service in a promotional position in the secondary service provided that the name of no principal mistress shall be placed on the initial combined list above the name of any deputy principal who has had longer service than she has had in a secondary promotional position.

(c) Where the total length of continuous service in a secondary promotional position is equal, the order of placement on the list shall be determined by the length of service as a deputy principal or a principal mistress.

(d) If two or more teachers have the right to equal placement on the list in accordance with the provisions of this subregulation, their placement on the list shall be determined according to their seniority as determined by section 37AF of the Act.

(e) Notwithstanding the provisions of paragraphs (b), (c) and (d) of this subregulation, no principal mistress shall be placed higher on the initial combined list than any deputy principal whose service as a deputy principal of a secondary school is longer than her service as a principal mistress of a secondary school.

(4) Teachers whose names have been omitted from the initial combined list or who are dissatisfied with the order of their names on that list may appeal to the Board under the provisions of regulation 102C.
