(2) Undeveloped Land:

- (a) Undeveloped land should be regarded as land which is virtually still in its virgin state and includes land on which development has commenced but has not been completed to any final stage. The term is not intended to apply to areas of bush or semi bush which have been left uncleared within a developed property because of the nature of the terrain or for shelter or similar purposes. Land which is developed to a "Parkland" state should be considered as developed land.
- (b) An area of undeveloped land means an area, irrespective of shape or size which is not completely or partially divided by developed land. This means if two undeveloped areas, whether of the same location number or not, are separated by developed land, they must be regarded as separate areas and should be treated accordingly.

- (3) Owner or Occupier: An owner or occupier is considered by this Office to be the person registered in Council's ratebook as such, irrespective of whether the land concerned is subject of Conditional Purchase Agreement, Contract of Sale, Mortgage, etc.
