STOCK BRANDS DIRECTORY

OF

WESTERN AUSTRALIA

31st August, 1972

BRANDS DIRECTORY OF WESTERN AUSTRALIA

THIS Directory contains a list of all brands registered under the provisions of the Stock (Brands and Movement) Act 1970 up to and including the 31st August 1972, and is compiled in two parts for quick and easy reference.

PART I is in the order of brands as they appear in the registers. Any additional information required may be obtained by reference to
PART II, which is compiled in alphabetical order of the registered owners' names, and gives full particulars of each registration.

BRANDS

Brands must consist of two letters and a numeral in alignment but not conjoined and are issued in two series, viz., upright and lazy. In the upright series the letters and numeral retain their normal upright position, e.g., AA1, T4L, 3MN. In the lazy series the *first letter* is in the lazy position, i.e., as if fallen to the left whilst the second letter and the numeral remain in the upright position, e.g., ◁B5 (lazy AB5), ≧8K (lazy M8K), 5⧈S (5 lazy BS).

The letters and numeral have been especially designed to prevent alteration without detection, and branding implements should be made to resemble them as closely as possible.

Upright Letters: A B C D E F G H J K L M N O P Q R S T U V W X Y Z

Lazy Letters: ◁ ⧈ ◡ ◯ ⩀ ⩁ ⩂ ⩃ ⩄ ⩅ ⩆ ⩇ ⩈ ⩉ ⩊ ⩋ ⩌ ⩍ ⩎ ⩏ ⩐ ⩑ ⩒ ⩓ ⩔ ⩕ ⩖ ⩗ ⩘ ⩙ ⩚ ⩛ ⩜ ⩝

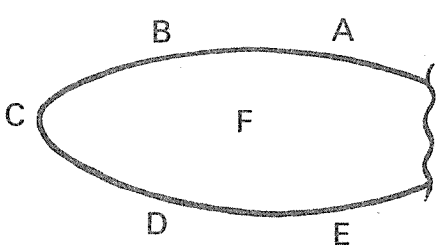

Numerals: 1 2 3 4 5 6 7 8 9 0

EARMARKS

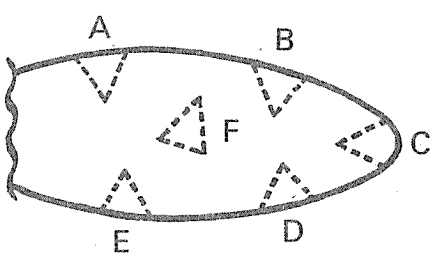

Every registered earmark must consist of two marks in the ear. These can consist of one symbol cut into two positions in the ear, e.g., , or two different symbols, e.g., .

Earmark registrations are shown in code, e.g., 5B, 4A; 1C, 32E, etc. Each earmarking symbol is numbered as indicated in the accompanying code index ; there are six positions in the ear in which they may be used identified by the letters A, B, C, D, E and F (as illustrated hereunder) so that the combination of the numeral and the letter give you the symbol to be used and the position in the ear where it is to be placed.

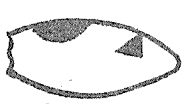

MALE

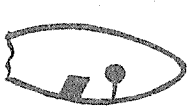

FEMALE

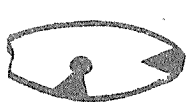

A few examples of earmark registrations are shown hereunder:—

5A 13B

6D 4E

9B 8E

11C 28E

51F 14D

Sheep are earmarked according to their sex. Ewes must be earmarked on the near or left ear and all male sheep on the off or right ear.

Cattle earmarks are registered for use on one ear only and all cattle, irrespective of their sex must be marked on that ear.

Several earmarking symbols are right and left-hand marks, e.g., Nos. 16 and 17, 42 and 43, and where these are registered, care must be taken to ensure that they face the same way whether applied on the back or front of the ear, as illustrated hereunder:—

16 (Right Hand Mark)

17 (Left Hand Mark)

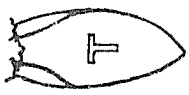

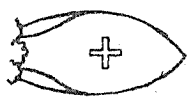

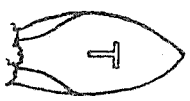

This principle applies to all left and right-hand symbols.

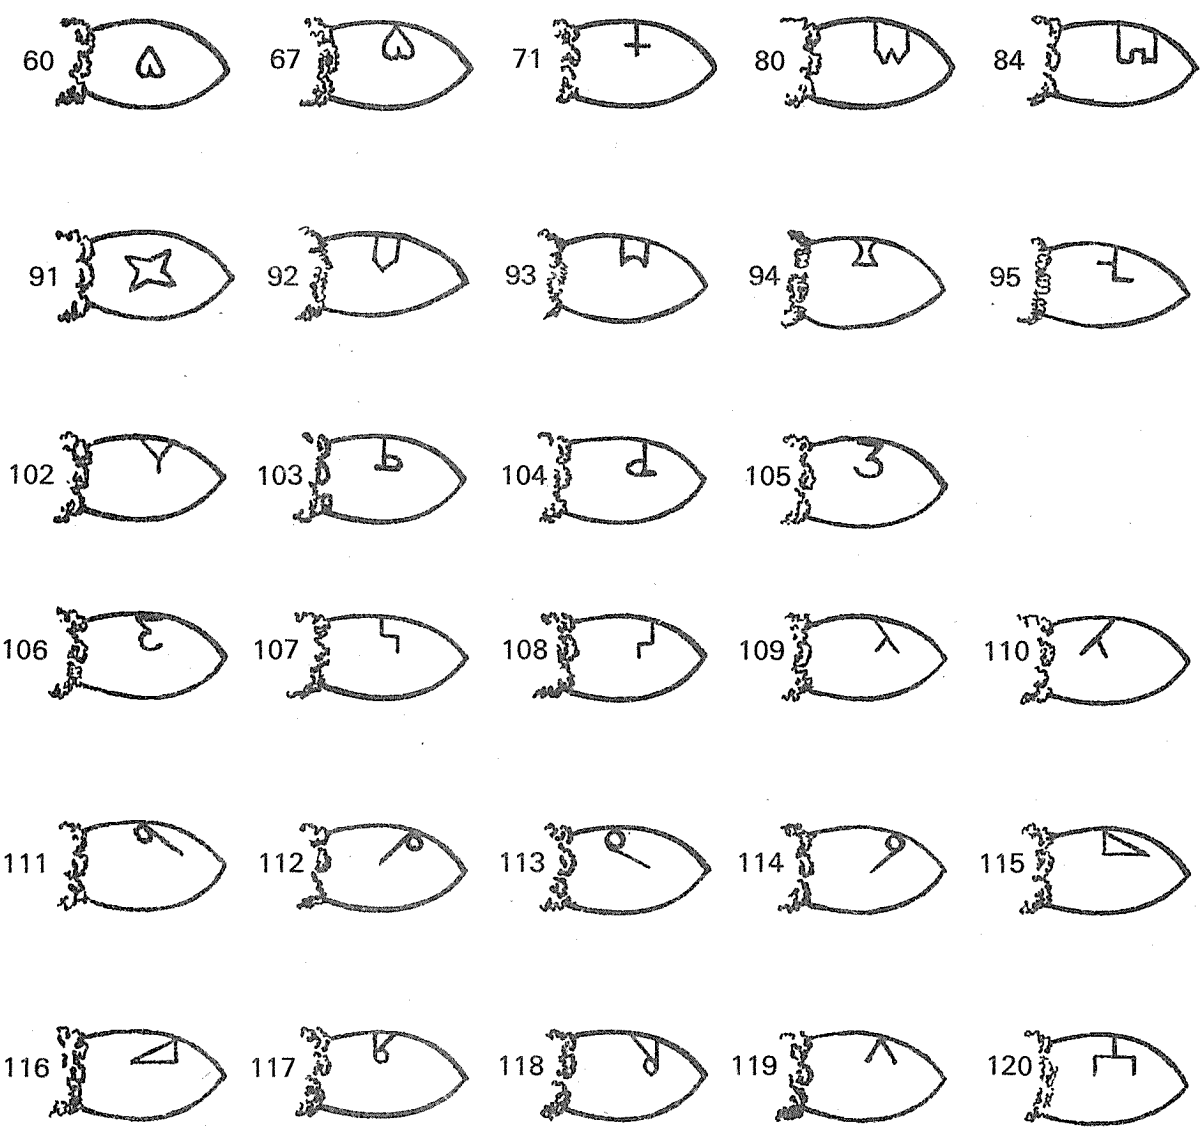

All earmarks must be made with a punch or pliers; the use of any other implement is illegal.

Registered brands and earmarks are clearly illustrated on certificates of registration and must be used as shown.
