(a) the first establishment day, in relation to a contributor who has made a standing election, means the day which is eight weeks immediately preceding the date on which the standing election is made except where the contributor has within the immediately preceding period of eight weeks made an election under subsection (10) of section 37 of the Act as a result of any salary increase occurring within that period, in which event the first establishment day shall be the day on which the last election under that subsection is made;

(b) subject to subregulations (8) and (9) of this regulation, the succeeding establishment days, in relation to such a contributor, shall be—

(i) where the contributor's birthday falls on or before the fifteenth day in a month, the first day of the month that is two months before the contributor's next succeeding adjustment day; and

(ii) where the contributor's birthday falls on or after the sixteenth day in a month—the sixteenth day of the month that is two months before the contributor's next succeeding adjustment day;

(c) the first adjustment day in relation to a contributor who has made a standing election means—

(i) except as provided in subparagraph (ii) of this paragraph—the day immediately preceding the contributor's birthday first occurring after his first establishment day except where that day would occur prior to 1st November, 1975, in which event the first adjustment day shall be the day immediately preceding the contributor's birthday second occurring after his first establishment day; or

(ii) where the contributor's first birthday occurring after his first establishment day is within three months of the day on which his standing election was received by the Board—the day immediately preceding the contributor's birthday second occurring after his first establishment day;

(d) the succeeding adjustment days in relation to such a contributor shall be the succeeding days in each year immediately preceding the contributor's birthdays occurring after his first adjustment day.

(3) A standing election shall not be given effect to—

(a) until it is received by the Board; and

(b) unless it indicates whether it is a primary entitlement standing election or a total entitlement standing election.

(4) During any period for which a standing election is in force, the contributor who made the standing election shall, subject to the succeeding provisions of this regulation, be deemed for all purposes to have elected to contribute under subsection (10) of section 37 of the Act for the whole or one-half of any increase in his total entitlement occurring after his first establishment day but while the standing election remains in force, according to whether the standing election was a total entitlement standing election or a primary entitlement standing election, but contributions for those units shall be made as provided in the succeeding provisions of this regulation.

(5) Where—

- (a) a contributor who made a standing election also makes an election under subsection (10) of section 37 of the Act for additional units, the entitlement to which arises from a salary increase occurring after his first establishment day; and
- (b) but for this subregulation the number of units for which he so elected to contribute under subsection (10) of section 37 of the Act, together with the number of units for which he would be deemed to have elected to contribute under subregulation (4) of this regulation would exceed the increase in his total unit entitlement arising from that salary increase,

the number of units for which he shall be deemed to have elected to contribute pursuant to subregulation (4) of this regulation arising from that salary increase shall be reduced to such number as, together with the units for which he so elected under subsection (10) of section 37 of the Act, equals the increase in his total unit entitlement arising from that salary increase.

(6) Where a contributor has made a standing election his contributions shall on each adjustment day be increased by the same amount as his contributions would have been increased if he had on that adjustment day elected to contribute for the number of units that is equal to the number of units for which he is deemed to have become a contributor for under subregulation (4) of this regulation between his last preceding establishment day and the establishment day next preceding that last preceding establishment day.

(7) A contributor may at any time serve on the Board notice in writing of revocation of a standing election and—

- (a) such a revocation shall take effect on the establishment day next occurring after the notice is received by the Board; and
- (b) the contributor's contributions shall nevertheless be adjusted on the adjustment day next occurring after that establishment day as if no revocation had occurred.

(8) Where a contributor dies or retires under section 61 of the Act, and immediately prior thereto a standing election made by him was in force, no additional contributions shall be payable in respect of any units of pension for which he is deemed to have become a contributor after the last establishment day occurring prior to his death or retirement.

(9) Where a contributor retires and becomes entitled to a pension under the Act other than in the circumstances described in subregulation (8) of this regulation, and a standing election made by that contributor was in force immediately prior to his retirement, the contributions payable in respect of any units for which he was deemed to have become a contributor and for which he has not yet made any contributions in accordance with this regulation shall be calculated at the rate for his age immediately prior to his retirement.

(10) A contributor who has revoked a standing election is not entitled to make a further standing election without prior approval of the Board.

EDUCATION DEPARTMENT.

THE Hon. Minister for Education has amended his determination of teachers' salaries, published in the *Government Gazette* of 13th December, 1974, by substituting for paragraph 10 of Part III a new paragraph 10 as follows:—

10. Teachers who have added to their qualifications after leaving a teacher training institution or after appointment to the teaching service

where the appointment is not from such an institution, may be given accelerated progression. Progression under this paragraph is governed by the restrictions imposed in paragraph 7 of this Part and can only be made once in respect of any particular qualification.

Special progression under this paragraph is made in addition to any annual increments to which a teacher is entitled.

The purpose of this special progression is to ensure that teachers who are contemporaries, that is, who have the same length of total service including the period spent in teacher training or the equivalent, shall be on the same grade of salary when they have the same qualifications.

Progression through qualifications is awarded as follows:—

- (a) A two-year trained teacher who obtains the qualifications of a three-year trained teacher or is deemed to be a three-year trained teacher shall advance one increment and may proceed to Grade 12, Table II.
- (b) Notwithstanding subparagraph (a), a trade instructor covered by paragraph 7(d) shall advance one increment regardless of which table he is on, and he shall continue to progress to Grade 11, Table I.
- (c) A three-year trained teacher who obtains the qualifications of a four-year trained teacher may transfer to Table I as follows:—

- (i) Teachers appointed prior to 11th October, 1974.

5	4
6	5
7	6
8	7
9	8

- (ii) Teachers appointed on or after 11th October, 1974.

- (d) Teachers appointed to the Department from a teacher training institution with the Teachers' Certificate (Conditional) who obtain the Teachers' Certificate within a period of three years after leaving the teacher training institution shall be placed on the same salary grade as their contemporaries who were appointed with the Teachers' Certificate.
- (e) Teachers other than those referred to in subparagraph (d) appointed with the Teachers' Certificate (Conditional) on gaining the Teachers' Certificate or Teachers' Certificate (Technical)—one increment.
- (f) On obtaining a University Master's degree, Doctoral degree, a second Bachelor's degree, or its equivalent—one increment (except that only one increment can be obtained under this clause).
- (g) Trade instructors who have progressed to Table I under paragraph 7(d) shall advance to Grade 11, Table I, on obtaining the Teachers' Higher Certificate.
