HIS Excellency the Governor in Executive Council, acting pursuant to the powers conferred by the Stock Diseases (Regulations) Act, 1968-1974, has been pleased to make the regulations set out in the Schedule hereunder.

E. N. FITZPATRICK,
Director of Agriculture.

Schedule.

Regulations.

Principal regulations.

Reg. 14A,
14B, 14C,
14D, 14E
and 14F
added.

1. In these regulations the Exotic Diseases (Emergency Powers) Regulations published in the *Government Gazette* on the 24th June, 1970 and amended by a notice so published on the 14th June, 1974, are referred to as the principal regulations.

2. The principal regulations are amended by adding after regulation 14 the following regulations:—

14A. Without limiting the operation of any other provision of these regulations, the Chief Inspector of Stock may, where the existence of rabies has been confirmed impose rules and restrictions on the movements of all animals within a proclaimed Infected Area as follows:—

Rule 1. The provisions of subregulation (7) of regulation 6 of these regulations shall not apply to an animal which is transported through an Infected Area travelling directly between two places outside an Infected Area provided the animal is not unloaded within the Infected Area from the vehicle or vessel which is carrying it or permitted to come into contact with any other animal within the Infected Area.

Rule 2. Subject to rules 3 and 4 of these rules, the owner or person in charge of a dog or cat or any other animal which in the opinion of the Chief Inspector of Stock is in danger of being infected with, or transmitting, rabies and the occupier of the premises at which such animal is normally kept, or at which it may be temporarily staying, shall ensure that that animal—

- (a) is at all times securely confined within the premises, and does not stray or escape therefrom;
- (b) does not come into contact with any other such animal, other than one with which it is normally in contact on the premises.

Rule 3. Notwithstanding the requirements of Rule 2, a dog or cat may—

- (a) be exercised outside the premises within which it is confined, on condition that, throughout the period of exercise, it is—
 - (i) held securely on a leash by the person in charge of the dog or cat and in no circumstances permitted to run free; and

SCHEDULE—*continued.*

- (ii) in the case of a dog, securely fitted with a muzzle;
- (b) be moved to other premises within the Infected Area, on condition that—
 - (i) whilst being so moved, it is either controlled in the manner specified in paragraph (a) of rule 3 of these rules, or carried in a suitable container which does not permit it to come into contact with any other animal, other than one with which it is normally in contact at the premises at which it is confined; and
 - (ii) it does not (except under the authority of a permit granted by the Chief Inspector of Stock, or an officer acting on his behalf, and in accordance with the terms and conditions subject to which it was granted) come into contact with any other animal at any premises to which it may be moved.

Rule 4. Notwithstanding the requirements of rule 2, an animal which in the opinion of the Chief Inspector of Stock is in danger of being infected with, or transmitting, rabies, and which is normally exercised outside the premises within which it is confined may be so exercised, on condition that, throughout the period of exercise—

- (i) it is closely controlled and properly restrained by the person in charge of the animal, and in no circumstances permitted to run free; and
- (ii) it does not (except under the authority of a permit granted by the Chief Inspector of Stock, or an officer acting on his behalf and in accordance with the terms and conditions subject to which it was granted) come into contact with any other animal or constitutes a risk to persons.

Rule 5. The Chief Inspector of Stock, or an officer acting on his behalf, may serve on the owner or other person in charge of a dog or cat or any other animal which in the opinion of the Chief Inspector of Stock is in danger of being infected with, or of transmitting rabies or on the occupier of the premises at which the animal is or should be confined, a notice in writing setting out such requirements and prescribing such conditions, with respect to the control and confinement of the animal as the Chief Inspector of Stock may consider appropriate and the person on whom the notice is served shall take all necessary steps to comply with the provisions thereof.

Rule 6. Where the Chief Inspector of Stock is satisfied that having regard to the purpose for which a particular animal to which these rules apply is kept, any of the requirements of these rules would unduly restrict its use for that purpose, he may by permit exempt the owner or other person in charge of that animal from all or any of those requirements, subject to compliance by that person with any such conditions as may be imposed in the permit.

14B. (1) Where an animal to which the rules set out in regulation 14A of these regulations apply, is not confined or controlled as required by the rules or by a notice or permit thereunder, an inspector may seize and detain the animal.

(2) An animal seized and detained by an inspector in accordance with subregulation (1) of this regulation may be claimed by or on behalf of its owner within a period of twenty-four hours after it has been so seized and detained.

(3) An animal seized in accordance with subregulation (1) of this regulation and claimed within twenty-four hours of being so seized may be detained at the expense of the owner of the animal, at such place as the Chief Inspector of Stock directs and may also be further detained for such additional period as the Chief Inspector may direct.

(4) Where—

- (a) the owner of an animal which has been claimed within the period specified in subregulation (2) of this regulation—
 - (i) fails to meet, within a period specified by the Chief Inspector of Stock, the reasonable expenses in seizing and detaining the animal; or
 - (ii) where required to leave the animal for an additional period, fails to enter into an arrangement satisfactory to the Chief Inspector of Stock for meeting the reasonable expenses incurred or to be incurred in connection with such additional period of detention, or fails to comply with the terms of such an arrangement; or

SCHEDULE—*continued.*

- (b) an animal seized in accordance with subregulation (1) of this regulation is not claimed by or on behalf of its owner within the period specified in subregulation (2) of this regulation,

the Chief Inspector of Stock may cause the animal to be destroyed and may determine the manner or disposal of the carcase, or may otherwise dispose of the animal as he thinks fit.

(5) The reasonable expenses incurred in seizing, detaining, destroying or disposing of an animal in accordance with the provisions of this regulation shall, without prejudice to any proceedings arising for an offence against the Act, be recoverable in any competent court from the owner of the animal by and in the name of the Chief Inspector of Stock or a person authorized on his behalf.

(6) Where an animal which may be seized in accordance with subregulation (1) of this regulation cannot after reasonable attempts by a Government Veterinary Officer or Stock Inspector be so seized, the animal may be destroyed.

14C. Where an outbreak of rabies has been confirmed, a person shall not cause or permit an event at which cats, dogs, or other animals at risk are gathered together to be organized or held within an Infected Area or Control Area until he has obtained a written permit for that purpose from the Chief Inspector of Stock and except in accordance with any conditions imposed on the granting of that permit, and where such a permit has not been obtained—

- (a) the occupier of any land on which such an event is held; and
 (b) any person responsible for organizing or holding that event,

commits an offence.

14D. (1) Where the Chief Inspector of Stock considers it is expedient so to do, he may secure subject to the approval of the Minister the destruction in an Infected Area or in a Control Area, of feral and native animals (other than feral and native animals held in captivity) which, in his opinion may cause the spread of rabies.

(2) A person shall not obstruct an inspector acting pursuant to subregulation (1) of this regulation, or interfere with the carcase of any animal so destroyed.

14E. (1) Any person in an Infected Area or Control Area who knows of the death of an animal, or who finds the carcase of an animal shall report the fact to the Chief Inspector of Stock or an officer acting on his behalf, unless he has reasonable grounds to believe that the animal did not die from rabies, or that the fact of its death had already been reported.

(2) The Chief Inspector of Stock may cause to be seized the carcase of any animal reported pursuant to subregulation (1) of this regulation and may determine the manner of disposal of the carcase.

14F. An inspector may enter any land for the purpose of seizing or destroying an animal or the carcase of an animal which is liable to be seized or destroyed under these regulations.
