IT is hereby notified for public information, in accordance with section 7 of the Town Planning and Development Act, 1928 (as amended) that the Minister for Urban Development and Town Planning approved the Shire of Capel Town Planning Scheme No. 3—Gelorup on the 22nd September, 1976, the Scheme Text of which is published as a Schedule annexed hereto.

F. E. BROCKMAN,
President.

W. M. WRIGHT,
Shire Clerk.

Schedule.

THE SHIRE OF CAPEL TOWN PLANNING SCHEME No. 3—GELORUP.

THE Capel Shire Council, under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act, 1928 (as amended), hereby makes the following Town Planning Scheme for the purpose of:—

- (a) setting aside land for future public use as reserves;
- (b) controlling land development;
- (c) other matters authorised by the enabling Act.

PART 1.—PRELIMINARY.

1.1 This Town Planning Scheme may be cited as the Shire of Capel Town Planning Scheme No. 3—Gelorup hereinafter called "The Scheme" and shall come into operation on the publication of notice of the Minister's final approval thereof in the *Government Gazette*.

1.2 The Scheme shall apply to the whole of the land contained within the inner edge of the broken black line on the maps forming part of the Scheme. The said lands are hereinafter referred to as the Scheme Area.

1.3 The responsible authority for carrying out the Scheme is the Council of the Shire of Capel (hereinafter referred to as the Council).

1.4 Arrangement of Scheme:

The Scheme Text is divided into the following parts:—

Part 1.—Preliminary.

Part 2.—General objectives.

Part 3.—Method of carrying out the objectives.

Part 4.—Finance and administration.

The remaining documents of the Scheme are as follows:—

- (1) Land Use Map.
- (2) Scheme Map.

1.5 Interpretation: In the Scheme the terms used will have the respective interpretations set out in Appendix "D" of the Town Planning Regulations 1967, unless otherwise specified by this Scheme.

PART 2.—GENERAL OBJECTIVES.

2.1—The general objectives of the Scheme are to establish guidelines, strategy and specific controls for the progressive subdivision and development of the Scheme Area, so that adequate provision may be made for:—

- (a) The major and distributor road network of the sub region as and where it interacts with the Scheme Area.
- (b) The collector and local road system within the Scheme Area to facilitate circulation of traffic.
- (c) Public open space, foreshore reserves, schools, shops, community purposes and local authority purposes.
- (d) Road drainage and drainage of those parts of the Scheme Area that require such works.

- (e) Roads drainage reserves and easements as required.

2.2 Policies: In order to achieve these Objectives the Scheme provides a statement of policy for the subdivision and development of the Scheme Area.

- (a) The minimum lot size generally shall be 4 000 m².
- (b) Notwithstanding sub-clause (a) of this Clause, as and when the Town Planning Board, in consultation with the Council considers it appropriate due to such factors as serviceability, demand for land, and the degree of development of the area, the minimum lot size may be given further consideration.
- (c) Plans of proposed subdivision for lots of 4 000 m² (or larger), as provided for in this policy should make provision for eventual subdivision into 1 000 m² lots by way of an overlay or background linework.
- (d) The roads indicated on the Scheme Map are to be regarded as essential to both traffic circulation and the subdivision pattern for the Scheme Area and should be provided generally in the location and to the widths shown on the Scheme Map.
- (e) Schools, Public Open Space and road-widening requirements are to be provided generally as shown on the Scheme Map.
- (f) The Scheme area has been divided into 6 sub areas for which overall plans of subdivision shall be prepared by applicants. Sub areas 1 to 6 are bounded by roads and/or the scheme boundary except areas 5 and 6 which are separated by the middle thread of the 5 Mile Brook and the boundary (extended where necessary) between AA Lot 157 and AA Lot 156.

PART 3.—METHOD OF CARRYING OUT THE OBJECTIVES.

3.1 Subdivision:

- (a) It is intended that as and when an owner of land within the Scheme Area desires to develop and subdivide his lands such development and subdivision shall be according to a plan which will be capable of forming part of an overall plan of subdivision and development of the Scheme Area in which the land is situated.
- (b) The Scheme Map indicates only the broad guidelines of structure planning. Overall plans of subdivision will be required by the Council and the Town Planning Board for the whole or parts of sub areas as they think fit before subdivisions will be approved for that sub area or part thereof as the case may be.
- (c) An owner of land within the Scheme Area who desires to subdivide his land either alone, or in conjunction with other owners, shall submit a plan of the proposed subdivision to the Town Planning Board as required by the Town Planning and Development Act 1928 as amended.
- (d) The Town Planning Board may refuse to permit subdivision and the Council may refuse to permit development in certain sections of the Scheme Area until Scheme works can be carried out therein or until other sections have been subdivided and/or developed.

3.2 New Roads:

- (a) Subject to the following clauses all new roads within the Scheme Area shall be constructed and drained at the expense of the owners of the land therein and each owner shall when subdividing his land make the land available for the roads and pay the cost of the construction and drainage of the roads within the land owned by him.
- (b) The Council may construct and drain any subdivisional roads within the Scheme Area and acquire the land necessary for that purpose. If the Council shall do so prior to the subdivision of the land adjoining such road the costs of the construction and drainage of the said road

and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by the respective owners of land in accordance with the foregoing provisions as and when they subdivide their land.

- (c) If an owner shall claim compensation for the resumption from him of land to be used as a road there shall be set off against the amount of compensation payable to him, the amount by which the value of the remainder of his land has been or will be increased by the construction of the roads within the Scheme Area and by the operation of the Scheme.
- (d) If an owner shall subdivide his land and if he or his predecessors in title shall have claimed or shall have been paid compensation by reason of the resumption by the Council of the land for a new road within the Scheme Area he shall before the approval of this plan of subdivision release the Council from the payment of compensation paid by it to him or his predecessors, in title as the case may be.
- (e) In cases where the situation of a new road within the Scheme Area is such that it would be fair and equitable that the owners of adjoining land should each contribute to the cost of the construction or drainage of that road and apportion the value of the land made available for roads and such owners are unable to agree upon the amount (if any) payable by each of them the amount (if any) payable by each such owner shall be determined by arbitration in the manner hereinafter provided.

3.3 Closure of Roads: Surveyed roads within the Scheme Area that are shown cross hatched on the Scheme Map shall be closed as and when Council deems it necessary for the orderly carrying out of the Scheme.

3.4 The Council shall at the appropriate time or times carry out such drainage works as are in its opinion necessary for the proper drainage of the Scheme Area and the connection of the land therein to a drainage system. The Council may acquire land for that purpose and may set aside land for drainage sumps and compensating basins and other works.

3.5 Filling and Levelling of Land: All filling and levelling of land and other earth works necessary for subdivision shall be carried out by or at the expense of the owner, whose land is being subdivided.

3.6 Native Trees: So far as is practicable and consistent with the economic subdivisional development of land, native trees and shrubs are to be retained. The Council may mark specific trees or groups of trees and these are to be retained unless approval is given by Council, in writing for their removal.

3.7 Scheme Contributions for Public Open Space, Local Authority Purposes, School Site and Road Widening Provisions.

- (a) It is intended that the land shown on the Scheme Map amounting to thirteen per cent of the total area of land capable of being subdivided within the Scheme Area shall be reserved for the purpose shown.
- (b) The Scheme Area has been calculated as approximately 446.2 hectares.
- (c) The area of land capable of being subdivided has been assessed at approximately 400 hectares.

3.7 Contributions are assessed as follows:

- (a) Public Open Space and Local Authority Purposes at the rate of ten per cent of the area being subdivided, 40.0 hectares.
- (b) School Site at the rate of one per cent of the area being subdivided amounting to 4.0 hectares.
- (c) Road Widening at the rate of two per cent of the area being subdivided amounting to 8.0 hectares.

3.8 Each owner of land within the Scheme Area, when subdividing his land and subject to hereinafter provided, shall vest in the Crown or, in the case of Public Open Space and Local Authority Purposes transfer to the Council all the land shown on the Scheme Map as Public Open Space, Local Authority Purposes, School Site and Road Widening, or such other areas as the Board requires.

3.9 If the owner or a previous owner of a parcel or parcels of land the subject of subdivision transferred to Council or vested in the Crown land for public open space, local authority purposes, school site or road widening, then the area of land required to be transferred to the Council as scheme contributions shall be reduced to the extent that the total contribution does not exceed 13 per cent of the original subdivided area.

3.10 If, within a parcel of land the subject of subdivision, the Scheme requires either no scheme contributions, or requires a lesser amount than the normal 13 per cent provision, the Council and the owner shall agree on a land transfer or a cash equivalent or a combination of land and cash, so that the owner's contribution equals 13 per cent of the value of the land the subject of the subdivision.

3.11 If, within a parcel of land the subject of subdivision and development more than 13 per cent is required by the Scheme for Scheme contributions the Council shall pay to the owner by way of compensation the value of the land exceeding the 13 per cent. If the Council and the owner so agree the Council may transfer to the said owner other land in or near the Scheme Area either owned by the Council or acquired by it for that purpose to compensate him for the land in excess of the said land required by the Scheme in which case the amount payable by the Council to the owner shall be reduced accordingly.

3.12 If the Council shall have compulsorily acquired land as Scheme contributions it shall be reimbursed all compensation and costs paid by it from moneys received by it from the sale of land or under preceding clauses hereof and upon the owner from whom the land was compulsorily purchased subdividing his land the value of 13 per cent of his land to be made available for Scheme contributions hereunder shall be assessed on the basis that such land had not been compulsorily acquired or purchased.

3.13 Land acquired under the Scheme for a school site or road widening shall be offered to the Crown by Council at *in globo* valuation.

3.14 The Council may sell or otherwise dispose of any land transferred to or acquired by it for the purpose of Public Open Space or Local Authority purposes provided that all moneys received by the Council in respect of such sales be expended by the Council in the acquisition or improvement of land for Public Open Space or Local Authority purposes within the Scheme Area concerned provided also that the amount of Public Open Space is not reduced below the normal 10 per cent required under the Scheme.

PART 4.—FINANCE AND ADMINISTRATION.

4.1 Following notice of the final approval of the Scheme in the *Government Gazette*, the Council shall as soon as is practicable prepare a Schedule of Scheme Costs listing all items of work and other costs (where known), the basis for calculating the estimates and the period in respect of which the estimates are made.

4.2 In considering a proposed subdivision referred to it by the Town Planning Board the Council will advise the Board of the Scheme Costs applicable to that proposal as a condition of subdivision.

4.3 Payment of Scheme Costs: Subject to the provisions of this Scheme, each owner shall prior to the final approval of the Town Planning Board to the subdivision of his land pay to the Council an amount which bears the same proportion of the Scheme costs as the owner's land bears to the whole of the land capable of being subdivided within the Scheme Area.

4.4 Scheme Costs: The costs or estimated costs of the following items are hereinafter referred to as Scheme Costs:—

If an owner is unable to reach agreement with Council on the question of his Scheme costs and methods of payment including the time within which payments are to be made, that owner may appeal to the Minister for Town Planning or to the Court as provided in Part V of the Town Planning and Development Act (as amended).

4.6 Estimate of Scheme Costs: The Council may from time to time revise the estimate of Scheme Costs in respect of whole or part of the Scheme Area.

4.7 Valuations:

Schedule.

**TOWN OF GOSNELLS TOWN PLANNING
SCHEME No. 4—KENNEL AREA.**

Scheme Text.

Citation.

1. This Town Planning Scheme shall be cited as the Town of Gosnells Town Planning Scheme No. 4 and may be referred to as Town of Gosnells Kennel Scheme (hereinafter called "The Scheme") and shall come into operation on the publication of notice of the Minister's final approval thereof in the *Government Gazette*.

Responsible Authority.

2. The Authority responsible for enforcing the observance of "The Scheme" is the Council of the Town of Gosnells (hereinafter referred to as "The Council").

Maps.

3. The following maps are attached to this Text and form part of the Scheme:—

- (a) Land Use Map.
- (b) Scheme Map.
- (c) Scheme Area Map.

Scheme Area.

4. The Scheme shall apply to the land contained within the inner edge of the broken black line on the Scheme area map.

General Objects.

5. The general objects of the scheme are:—

- (1) To facilitate and co-ordinate progressive subdivision and development of the land within the Scheme area.
- (2) To plan within the Scheme area suitable roads.
- (3) To ensure the proper drainage of the roads and/or those parts of the Scheme area which require drainage and other associated works.
- (4) To make provision for the creation of drainage reserves and easements.
- (5) To make provision for reticulated water to and throughout the Scheme area.
- (6) To make provision for land to be used for Public Open Space and Local Authority purposes.
- (7) To ensure the provision of electricity to and throughout the Scheme area.
- (8) To control the future development of the Scheme area.

Methods of Carrying out Objects.

6. Subject to Clause 7 hereof as and when owners of land within Area "A" of the Scheme area as delineated on the Scheme Map subdivide their land such subdivision shall be according to the design as shown on the Scheme map.

The subdivisional design of Area "B" will be determined by Council in conjunction with the Town Planning Board as and when applications to subdivide are received. The design will be considered with respect to:

- (a) The ability of the water mains to serve the proposed subdivision with reticulated water.

- (b) The ability of the subdivision to be drained to a standard acceptable to Council.

- (c) The market demand for various sized lots.

- (d) Other factors affecting the proper planning and implementation of the Scheme.

7. The Scheme map forms a basis for subdivision and development of the Scheme area but the Council may with the consent of the Town Planning Board permit alterations or variations to the Scheme map where in its opinion circumstances justify such action, provided that no such alteration or variation shall be permitted if in the opinion of Council it would impede the subdivision and development of the Scheme area as a whole.

Subdivision.

8. An owner of land within the Scheme Area who desires to subdivide his land either alone or in conjunction with other owners shall submit a plan of the proposed subdivision to the Town Planning Board as required by the Town Planning and Development Act 1928 (as amended).

9. The Town Planning Board may refuse subdivision and the Council may refuse to permit development in any sections of the Scheme area until Scheme works can be carried out therein or until other sections have been subdivided and/or developed.

New Roads.

All works associated with the design, setting out, constructing and draining of new roads within the Scheme Area necessary to comply with the requirements of subdivision shall be carried out by or at the expense of the owner whose land is being subdivided.

Private Roads.

10. Surveyed roads within the Scheme Area that are private roads shall be subject to action taken under the provisions of Section 296 of the Local Government Act and thereby become public streets.

Drainage.

11. The Council shall at the appropriate time or times carry out such drainage works as are in its option necessary for the proper drainage of the Scheme Area. The Council may acquire land for that purpose and may set aside land for drains, drainage sumps and compensating basins and other works, including the obtaining of drainage easements over land within or near the Scheme area to ensure the proper drainage of the Scheme area.

Services and Subdivisional Works.

12. All works including provision of water, roads, drains, filling etc. required to comply with the conditions imposed by the Town Planning Board shall be carried out by or at the expense of the owner whose land is being subdivided.

Native Trees.

13. So far as is practicable and consistent with the economic subdivisional development of land, native trees and shrubs are to be retained. The Council may mark specific trees or groups of trees and these trees are to be retained unless approval is given by Council, in writing for their removal. If an owner fails to retain trees or shrubs on his land he shall be liable upon conviction to a maximum fine of \$50 for each tree and shrub he fails to so retain.

Public Open Space.

14. The provision of Public Open Space on subdivision shall be in conformity with the recognised policy of the Town Planning Board for either the provision of land to be vested in the Crown, transferred to Council in fee simple free of cost or the payment of cash-in-lieu subject to the method being approved of by Council and the Town Planning Board.

Water Supply.

15. The Council shall make arrangements with the Metropolitan Water Supply Sewerage and Drainage Board for the extension of the water mains to the area as shown on the scheme plan.

The extension of the water main within the Scheme area to satisfy a condition of subdivision shall be carried out at the expense of the owner whose land is being subdivided.

Should the making of such an extension cause the Metropolitan Water Board to require the upgrading of the water mains serving the Kennel Area the cost of such upgrading shall be at the cost of the subdivider or developer. However, if this upgrading provides for development additional to that of the first developer the surplus may be applied as portion of the Scheme costs and when later subdivision or development takes place which benefits from these works a proportionate refund may be made to the first developer.

Scheme Costs.

16. The cost of the following items are hereinafter referred to as Scheme costs:—

- (a) The administration of the Scheme.
- (b) All compensation payable and all costs and expenses of determining and settling compensation in connection with the Scheme.
- (c) The acquisition of any land within or near the Scheme area in the event of such land being acquired other than by resumption for the purpose of the Scheme.
- (d) The drainage works necessary for the proper drainage of the Scheme area for the purpose of the Scheme.
- (e) The acquisition of land for roads within the Scheme area for the purpose of the Scheme.
- (f) The provision of reticulated water to the Scheme area for the purpose of the Scheme.
- (g) The cost of such other works as the Council shall consider necessary for the proper planning of the Scheme area and the implementation of the Scheme.
- (h) All costs of raising moneys in connection with the Scheme.
- (i) Any deficit that may arise by virtue of Clause 27 (f) of the Scheme.

Payment of Scheme Costs.

17. Subject to the provisions of this scheme each owner shall pay to the Council his proportion of Scheme costs prior to the final approval of the Town Planning Board to the subdivision of his land or prior to Council granting approval to any development application or building permit upon the expiration of not less than three calendar months notice from the Council requiring payment, whichever shall first happen.

18. Following notice of the final approval of the Scheme in the *Government Gazette* the Council shall as soon as practicable prepare a Schedule of Scheme costs and forward to each land owner by certified post at his address as appearing in the Council's rate book details regarding the estimated cost of the Scheme, the basis of calculation, the estimated amount payable by that owner and shall advise when the amount will become due and payable.

The Council shall also advise landowners of the date upon which owners within the Scheme area or their representatives shall be given if they so desire the opportunity of discussion with Council the question of Scheme costs and payment thereof.

If an owner is unable to reach agreement with Council on the method of payment, the manner of assessing and/or the time within which payments are to be made that owner may appeal to the Minister for Town Planning or the Court as provided in Part V of the Town Planning and Development Act (as amended).

Estimate of Scheme Costs.

19. The Council may from time to time revise the estimate of Scheme costs and shall advise the owners accordingly.

Valuations.

20. Where it is necessary to ascertain the value of any land for the purposes of the Scheme the value shall be determined by either the Chief Valuer of the Taxation Department of Western

Australia or at the option of the Council by a disinterested and competent valuer appointed by the Council.

21. If an owner objects to the value so determined, he may give notice of such objection to the Council within twenty-eight days after having been informed of the said value or the revised value. If the valuer does not agree to change the value to a figure acceptable to the owner the value shall be determined by arbitration in accordance with the provisions hereinafter contained.

22. If a valuation made by the valuer shall be changed as the result of an objection the valuer may reconsider the values placed on other land and make such revaluations as he considers just and equitable. The owners affected by such revaluation shall forthwith be notified of any change in value.

Land Owned or Acquired by the Council.

23. All or any of the land now owned by or subsequently acquired by the Council but not land acquired for Scheme purposes, within or near the Scheme area may be used by the Council for any purposes appropriate to the Scheme. If such purpose is one for which an owner is required to make land available or for which land may be acquired by the Council pursuant to this Scheme, the Council shall be compensated for the value of the land so used by the Council. If the Council shall subdivide or develop any land owned by it, the provisions of this Scheme shall apply to the Council.

Finance.

24. The Council shall do all things necessary in order to raise loans or to provide funds from other sources for the purpose of providing the finance necessary for the implementation of the Scheme. If Council shall be unable to arrange the necessary finance or is of the opinion that the works are not essential to the proper working of the Scheme it shall be under no liability to the owners of land within the Scheme area or to any other person by reason of its failure to acquire lands or carry out works.

25. In the event of money received by Council including profits from the sale of its own land pursuant to the provisions of the Scheme being greater than the amount necessary to repay the said loans and interest thereon or other moneys and to carry out the General Objects of the Scheme the balance thereof shall be applied by the Council in further acquisition and development of land within or near the Scheme area. Money received by Council pursuant to this Scheme shall not form part of its general revenue.

Arbitration.

26. Any dispute or difference between the owners as to their respective rights under the Scheme and any matter which by the terms of this Scheme may be determined by arbitration may be referred to the arbitration of a single arbitrator in manner provided by the Arbitration Act 1895 or any statutory modification thereof for the time being in force and if the parties fail to agree upon any one single arbitrator he may be nominated by the Chief Valuer of the Taxation Department of Western Australia.

Powers and Authorities of Council.

27. In carrying out the provisions of the Scheme the Council shall have the following powers and authorities:—

- (a) To make agreements with the owners or occupiers of any land within the Scheme area.
- (b) To enter into agreements with purchasers or prospective purchasers or prospective occupiers of land within the Scheme area.
- (c) To compulsorily acquire, develop and sell land within the Scheme Area.
- (d) To enter and inspect any land within the Scheme area.
- (e) If any owner of land within the Scheme area does not proceed with the subdivision or development of his land in accordance with the terms of the Scheme or by reason of the nature of his land title is unable to subdivide or develop it and his failure to do so in the opinion of the Council will

unduly delay the subdivision and development of the Scheme area, the Council may compulsorily purchase the land of such owner or owners or any part or parts thereof and proceed with the subdivision and development of the said land in accordance with the provisions of the Scheme.

- (f) In the event of the Council exercising its powers under paragraph (c) it shall have all the powers of an owner in the subdivision development and disposal of the said land; and if the prior owner shall not have been paid compensation by reason of the compulsory purchase the Council before selling the land so subdivided and developed shall offer the new lots to the prior owner upon his paying to the Council all costs and expenses consequent upon the compulsory purchase, subdivision or development of the said land, his making a contribution to the Scheme of 5% of the original lot in land in fee simple or equivalent cash value, and upon his releasing the Council from all claims for compensation in respect of such compulsory purchase. The 5% referred to in this subclause is additional to any requirement under Clause 14. The said offer shall be made in writing and if not accepted within one calendar month of the service thereof the Council may proceed with the sale of the subdivided lots. All moneys received by it from such sale shall be applied firstly in payment of all costs and expenses consequent upon such subdivision and secondly in payment of all compensation in respect of the compulsory purchase of the said land. The balance of any of such moneys may be retained by the Council as part of the Scheme fund and the Council shall make good any deficit.
- (g) If the offer mentioned in clause (f) hereof be not accepted the Council may retain all or any part of the said land but if it does so it shall be responsible to pay such costs of subdivision of the said land and compensation for its compulsory purchase as are then unpaid.
- (h) Excepting land transferred to it for public open space, or in lieu thereof, Council may dispose of any lots to which it becomes entitled whether under Clause (e) or (f) hereof or otherwise upon such terms and conditions as it may think fit and without limiting the generality of the foregoing the Council may sell the lots singly or in groups and on the conditions that buildings of a specified character with specified parking or other facilities shall within a limited period be constructed thereon or that the land and buildings be used for a specified purpose.
- (i) Extend the time within which payments are to be made to the Council and agree to the securing of such payments.

28. Twenty-eight days written notice is hereby prescribed as the notice to be given pursuant to section 10 of the Act. The Municipality of the Shire of Kojonup.

By-Laws Relating to Long Service Leave.

KO. 7-13.

IN pursuance of the powers conferred upon it by the abovementioned Act and of all other powers enabling it, the Council of the abovementioned Municipality hereby records having resolved on the 15th December, 1975 to revoke the By-laws governing the conditions of Long Service Leave to be granted to Employees of the Kojonup Road Board, published in the *Government Gazette* of 25th November, 1949, and make and submit for confirmation by the Governor the following by-laws:—

1. In the interpretation of these by-laws the following words shall have the meaning assigned to them hereunder:—

(a) "Council" means the Council of the Shire of Kojonup.

(b) "Continuous Service" means service in the employment of the Council during which an employee has not been absent from the service of the Council for a continuous period of more than two days or an aggregate period of more than ten days without leave of absence being granted by the Council.

2. All employees of the Council shall after a period of 10 years continuous service as permanent full-time employees hereof commencing 1st day of June, 1965, be entitled to three months' long service leave. Long service leave is to be taken at the convenience of the Council, which will, as far as possible, meet the wishes of the employee, but the Council may require the employee to take his leave by giving him not less than three months' notice.

3. Absence on account of sickness shall not be deemed to be a break in the continuous service, providing the period of absence shall not be longer than three months in any year, unless otherwise decided by the Council.

4. (a) Employees due to take long service leave shall be paid their salary or wage for the period thereof at the rate equivalent to the salary or wage paid in the week immediately preceding the taking of Long Service Leave.

(b) The Council may at its discretion either:—

(1) pay to the employee his salary or wages periodically during long service leave or

(2) pay to the employee in advance a sum representing the amount of his salary or wages for the period of his long service leave.

(c) Should any wage increase occur while an employee is on long service leave the Council shall pay to that employee an adjustment to his pay accordingly, either when he returns to work or while he is on leave.

5. Employees shall not be entitled to Long Service Leave until the completion of 10 years service except that where an employee has completed an initial 5 years of continuous service and such service is terminated because of death, physical disability or having reached the retiring age, the Council may grant Long Service Leave *pro rata* and if they do Council shall grant on a *pro rata* basis long service leave according to the number of years completed service not less than 75% of the full *pro rata* amount.

6. Employees shall after the completion of the initial or subsequent ten years of continuous service be entitled to a *pro rata* payment if they leave the service of the Council before the next period is completed so long as at least five years additional service has been completed and Council should pay at least 75% of the *pro rata* entitlement and may pay the full *pro rata* entitlement.

7. In the event of the resignation, retirement, or death of an employee, the Council shall pay to such employee (or in the case of death, to his personal representative or if there be none, to his dependants), a sum of money equal to his salary or wages for the period of long service leave which the Council was empowered under these by-laws to grant such employee at the date of his retirement, resignation, or death, or if the Council, after consideration of all circumstances, direct that the death of the employee be presumed, the Council shall authorise the payment to the dependents of the employee a sum equivalent to the amount of salary or wages which would under this by-law have been granted to the employee immediately prior to the date of his death, such date to be determined by the Council.

8. All annual leave to which an employee is entitled or will become entitled before the expiration of his long service leave shall be taken by the employee in conjunction with his long service leave, but any public holidays which may occur during the taking of his long service leave are not to be paid for over and above the long service leave, but are to form part of such long service leave.

9. An employee dismissed by the Council, except in the matter of retrenchment, shall not be paid any sum in pursuance of the preceding by-law.

10. Employees of the Council who have been continuously employed in a part-time capacity shall be entitled to long service leave in accordance with these by-laws, but the payment made to them shall be based upon the same proportion as the weekly part-time wage relates to the weekly full time rate.

11. Leave without pay for a period in excess of two weeks shall not be deemed a break in continuous service, but shall not be counted as qualifying service for long service leave purposes.

12. Long service leave shall be considered as a special period of recuperation after a lengthy term of service, with a view to fitting the employee for a further term, and during such leave no employee shall undertake any form

of employment for hire or reward, unless by special permission of the Council. Any contravention of this by-law shall entitle the Council to dismiss the employee from its service and to cease paying and recover any amounts paid in advance on account of long service leave.
