Yale Road.

## 1.—Citation.

This Town Planning Scheme may be cited as the Town of Gosnells Town Planning Scheme No. 7 "YALE ROAD SCHEME" (hereinafter called "the Scheme") and shall come into operation on the publication of notice of the Hon. Minister for Town Planning's final approval thereof in the *Government Gazette*.

## 2.—Responsible Authority.

The authority responsible for enforcing the observance of the Scheme shall be the Council of the Town of Gosnells (hereinafter referred to as "the Council").

## 3.—Maps.

The following maps are attached to this text and form part of the Scheme.

- (i) Land Use Map.
- (ii) Scheme Map.

## 4.—Scheme Area.

The Scheme shall apply to the land contained within the inner edge of the broken black line as shown on the Scheme Map. The said land is hereinafter referred to as "the Scheme Area".

## 5.—General Objects.

The general objects of the Scheme are:—

- (a) To facilitate and co-ordinate progressive subdivision and development of the land within the Scheme Area.
- (b) To plan within the Scheme Area suitable roads and accessways.
- (c) To plan within the Scheme Area and make provision for Public Open Space.
- (d) To ensure the proper drainage of the roads and of those parts of the Scheme Area which require drainage or other such works.
- (e) To make provision for the creation of drainage reserves and easements.
- (f) To ensure the provision of reticulated water to and throughout the Scheme Area.
- (g) To have land within the Scheme Area connected to a sewer and to provide for sewerage works and facilities both within and outside the Scheme Area where these are necessary to the proper sewerage of the Scheme Area.

## 6.—Method of Carrying out Objectives.

The Scheme Map forms a basis for subdivision and development of the Scheme Area but the Council may with the consent of the Town Planning Board permit alterations or variations to the Scheme Map where in its opinion circumstances

justify such action, provided that no such alteration or variation shall be permitted if in the opinion of the Council it would impede the subdivision and development of the Scheme as a whole.

6.1 As and when owners of land within the Scheme Area subdivide or develop their land such subdivision or development shall not only be according to a plan which is capable of forming part of an overall plan of subdivision for the Scheme Area but shall also comply with the conditions of development for the Scheme Area as contained within the Scheme.

## 7.—Subdivision.

An owner of land within the Scheme Area who desires to subdivide his land either alone or in conjunction with other owners shall submit a plan of proposed subdivision to the Town Planning Board as required by the Town Planning and Development Act, 1928 (as amended).

7.1 The Town Planning Board may refuse to permit subdivision and the Council may refuse to permit development in certain sections of the Scheme Area until Scheme works can be carried out or until other sections have been subdivided and/or developed.

## 8.—Roads.

8.1 Where a proposed subdivision as shown on the Scheme Map creates lots fronting an unconstructed existing road reserve, whether within or outside the Scheme Area, then the construction and drainage of that road shall be at the expense of the owners of the land abutting that road.

8.2 Subject to the following clauses all new roads within the Scheme Area shall be constructed and drained at the expense of the owners of the land therein and each owner shall when subdividing his land make the land available for the roads and pay the cost of the construction and drainage of the roads within the land owned by him.

8.3 The Council may construct and drain any subdivisional roads within the Scheme Area and acquire the land necessary for that purpose. If the Council shall do so prior to the subdivision of the lands adjoining such road the costs of the construction and drainage of the said road and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by the respective owners of land in accordance with the foregoing provisions as and when they subdivide their land or after having received not less than three calendar months' notice from the Council whichever shall first happen.

8.4 If an owner shall claim compensation for the resumption from him of land to be used as a road there shall be set off against the amount of compensation payable to him, the amount by which the value of the remainder of his land has been or will be increased by the construction of the roads within the Scheme Area and by the operation of the Scheme.

8.5 If an owner shall subdivide his land and if he or his predecessors in title shall have claimed or shall have been paid compensation by reason of the resumption by the Council of the land for a new road within the Scheme Area he shall before the approval of his plan of subdivision release the Council from the payment of compensation or if payment has been made by the Council then the owner shall refund to Council the amount of compensation paid by it to him or his predecessors in title as the case may be.

8.6 In cases where the situation of a new road within the Scheme Area is such that it would be fair and equitable that the owners of adjoining land should each contribute to the cost of the construction or drainage of that road and apportion the value of the land made available for roads and such owners are unable to agree upon the amount (if any) payable by each of them the amount (if any) payable by each such owner shall be determined by arbitration in the manner hereinafter provided.

### 9.—Filling and Levelling of Land.

All filling and levelling of land and other earth works necessary for subdivision shall be carried out by or at the expense of the owner whose land is being subdivided.

### 10.—Native Trees.

So far as is practicable and consistent with the economic subdivisional development of land, existing trees and shrubs are to be retained. The Council may mark specific trees or groups of trees and these trees are to be retained unless approval is given by Council, in writing, for their removal.

### 11.—Public Open Space.

11.1 It is intended that the land coloured green on the Scheme Map shall be reserved for public Recreation.

11.2 The Council may as and when it deems fit acquire the said lands coloured green or any parts thereof whether by purchase or resumption or partly by one method and partly by the other.

11.3 Each owner of land within the Scheme Area, when subdividing his land and subject as hereinafter provided, shall vest in the Crown or, with approval of the Town Planning Board, transfer to the Council all the land shown as Public Open Space within the parcel(s) of land being subdivided by him, or such other areas as the Board requires.

11.4 If the owner or a previous owner of a parcel or parcels of land the subject of subdivision has as a condition of a previous subdivision transferred to Council land for public open space, then the area of land required to be transferred to the Council under Clause 11.5 shall be reduced to the extent that the total contribution does not exceed 10% of the original gross area.

11.5 If, within a parcel of land the subject of subdivision, the Scheme requires either no public open space, or requires a lesser amount than the normal 10% provision, the Council and the owner shall agree on a land transfer or a cash equivalent, or a combination of land and cash, so that the owners contribution equals one tenth of the value of the land the subject of the subdivision.

11.6 If within a parcel of land the subject of subdivision and development more than one-tenth is required by the Scheme for Public Open Space the Council shall pay to the owner by way of compensation the value of the land exceeding the said one-tenth. If the Council and the owner so agree the Council may transfer to the said owner other land in or near the Scheme Area either owned by the Council or acquired by it for that purpose to compensate him for the land in excess of the said one-tenth required by the Scheme in which case the amount payable by the Council to the owner shall be reduced accordingly.

11.7 If the Council shall have compulsorily purchased land for Public Open Space, roads, drainage and Local Authority purposes it shall be reimbursed all compensation and costs paid by it from moneys received by it from the sale of land or under preceding clauses hereof and upon the owner from whom the land was compulsorily purchased subdividing his land the value of one-tenth of his land to be made available for Public Open Space or Local Authority purposes hereunder shall be assessed on the basis that such land had not been compulsorily purchased.

### 12.—Scheme Costs.

12.1 The costs, or estimated costs of the following items are hereinafter referred to as "Scheme Costs".

- (i) Any costs or expenses incurred by Council in the preparation, adoption, administration, conduct, management and development of the Scheme including consultants fees.

- (ii) All compensation payable and all the costs and expenses of determining and settling compensation in respect of matters under the Scheme.
- (iii) The cost of the acquisition of any land within or near the Scheme Area for Scheme purposes in the event of such land being acquired other than by resumption.
- (iv) "Sewerage Headworks" as described in clause 12.6.
- (v) "Drainage Headworks" as described in clause 12.7.
- (vi) (a) The full cost of the upgrading, construction and drainage of that portion of Yale Road as shown on the Scheme Map as "Scheme Cost—Roads" to standard equivalent to a normal 7.4 m subdivisional road.
- (b) Half cost of the upgrading, construction and drainage of those portions of Berehaven Avenue, Murdoch Road, James Road, Yale Road and Storey Road as shown on the Scheme Map as "Scheme Cost—Roads" to a residential equivalent to a 7.4 m subdivisional road.
- (c) The cost of providing for a footpath in the verge on one side of all roads within the Scheme Area and for those roads mentioned in (vi) (a) and (b) above.
- (vii) Any costs incurred by the Council in conducting an arbitration.
- (viii) The relocation of any existing services caused by Scheme works.
- (ix) Any interest charges on moneys raised by Council for the purpose of the Scheme.
- (x) Interest charges on outstanding arbitration which are not reimbursed to the Council by terms of the Scheme.

12.2 In the event of a landowner providing funds or construction works after the date of the resolution to prepare the Scheme and before the gazettal of the final approval of the Scheme in respect of any Scheme works including the extension of any main drain, sewer or water main to serve and expedite development in the Scheme Area provided that the cost of such works would otherwise be a Scheme Cost, the Council may reimburse the landowner from Scheme funds as and when funds are available to the extent that it considers to be fair and equitable and include such sum in Scheme Costs Provided that such reimbursement shall not exceed an amount which represents the proportion of such works which would not be the landowner's cost under the Scheme.

12.3 The amount for Scheme Costs shall be calculated at the time of total payment or revised at the time of pro-rata payments and shall be the lesser of—

- (a) the actual cost of the works compounded annually at 15% as an inflationary factor;
- (b) the estimated cost of the works at the time of full or part payment determined by an independent expert and in default of agreement, by arbitration.

12.4 The areas shown on the Scheme Map as "Area 'A'" shall not contribute towards Scheme Costs as they are existing residential lots not capable of further subdivision under the Scheme.

12.5 The areas shown as "Area 'B'" on the Scheme Map cannot be serviced by the Sewer Pump Station within the Scheme Area and therefore shall not be liable for contribution towards sewer headworks in the Scheme Costs.

#### Sewerage Headworks.

In a small average subdivisional area sewers are usually not more than 150 mm diameter and laid at a depth of less than three metres. Because of the area and the level nature of the ground in the Scheme Area certain lengths of sewers will be more than three metres deep and some lengths of pipe will require to be of greater diameter than

the normal 150 mm diameter to conform to capacity requirements. The additional costs of construction of sewers more than three metres deep and for pipes of more than 150 mm in diameter are to be classified as "Sewerage Headworks".

"Sewerage Headworks" shall also include the cost of pump station, rising main and any other headworks cost contribution required by the Metropolitan Water Board to service the Scheme Area, whether these works were installed before final approval of the Scheme or after final approval and the extent of these works shall be determined by Council.

12.7 Drainage Headworks: The main drainage lines are required to provide proper drainage within the Scheme Area. These lines are two metres deep or deeper with a pipe size of 300 mm and greater. All other drainage required on subdivision of land whether main drainage or otherwise shall be carried out at the cost of the individual subdivider.

Where Scheme main drains are not servicing adjacent lots the total costs of those sections will be part of the Scheme costs.

Where Scheme main drains are servicing adjacent lots the average cost of a 230 mm pipe up to two metres depth will be deducted from the cost and paid by the subdivider; the balance is a Scheme cost.

12.8 Land Requirements: 10% of the total Scheme Area is required for Public Open Space purposes.

Each owner as a condition of subdivision in addition to the Public Open Space requirement shall cede an extra 2% of his land under subdivision being proportional contribution of land required for Scheme purposes as follows:

- (i) The area of land required for the widening of Yale Road, as shown on the Scheme Map, shall be vested in the Crown.
- (ii) The area of land required for local authority purposes is shown on the Scheme Map and this will be transferred to Council in fee simple.
- (iii) The area of land required for the Sewerage Pump Station shall be transferred to the M.W.S.S. and D.B. in fee simple.

12.9 Council will endeavour to obtain a contribution to sewer headworks from the Metropolitan Water Supply, Sewerage and Drainage Board through the "back-log sewer programme" and any moneys obtained will be used for improvements to Public Open Spaces and/or Local Authority purposes within the Scheme Area.

### 13.—Payment of Scheme Costs.

13.1 Subject to the provisions of this Scheme each owner shall, prior to the final approval by the Town Planning Board to the subdivision of his land or after having been given not less than three months' notice from Council whichever shall first happen, pay to the Council an amount which bears the same proportion to the total Scheme Costs as the area of the owner's land being subdivided bears to the whole of the land that is privately owned within the Scheme Area, excluding Areas "A" and "B".

13.2 If an owner disagrees with Council's determination of his proportion of Scheme costs, that owner may within 30 days of receiving notice of his costs appeal to the Minister for Urban Development and Town Planning, who may appoint an arbitrator. The decision of the Minister or the arbitrator will be final.

13.3 If Scheme Costs have not been paid in accordance with clause 13 hereof and Council has expended a sum of money for any items of Scheme Costs, it shall be entitled to charge interest on the sum of money expended at the rate negotiated by Council to fund the Scheme.

### 14.—Estimate of Scheme Costs.

If any of the items of Scheme costs have not been paid or ascertained prior to the Town Planning Board final approval of a Plan or Diagram of Survey for a parcel of land or at the time of giving of a notice by the Council as aforesaid, they may be estimated by the Council. Such estimate may be revised from time to time and the owners advised accordingly. The owners will be responsible for the payment of any additional moneys as and when required by Council.

### 15.—Valuation.

15.1 Where it is necessary to ascertain the value of any land for the purpose of the Scheme, the value shall be assessed by the Chief Valuer of the State Taxation Department, one of his officers or such other valuer being a member of the Australian Institute of Valuers (Inc.) as Council determines.

15.2 If an owner objects to the value so determined, he may give notice of such objection to the Council within twenty-eight (28) days after having been informed of the said value. If the valuer does not agree to change the value to a figure acceptable to the owner, the value shall be determined by arbitration.

15.3 When it becomes necessary to make a valuation by reason of an application for consent to a subdivision or development, the costs of the valuation shall be paid by the person making the application.

15.4 If a valuation made by the valuer shall be changed as the result of an objection the valuer may reconsider the values placed on the other land and make such revaluations as he considers just and equitable. The owners affected by such revaluation shall forthwith be notified of any change in value.

### 16.—Money Received by Council.

All money received by the Council under the provisions of this Scheme shall be held by Council and used for the purpose of this Scheme and shall not form part of its general revenue.

### 17.—Arbitration.

Any dispute or difference between the owners as to their respective rights under the Scheme and any matter which by the terms of this Scheme may be determined by arbitration may be referred to the arbitration of a single arbitrator in manner provided by the Arbitration Act, 1895, or any statutory modification thereof for the time being in force and if the parties fail to agree upon any one single arbitrator he will be nominated by the President of the Australian Institute of Valuers (Inc.) W.A. Division.

### 18.—Finance.

18.1 The Council may if it so desires, raise loans or provide funds from other sources for the purpose of providing the finance necessary for the implementation of the Scheme. If Council shall be unable to arrange the necessary finance it shall be under no obligation to the owners of the land within the Scheme Area or to any other person by reason of its failure to acquire lands or carry out works.

18.2 In the event of money received by Council pursuant to the provisions of the Scheme being greater than the amount necessary to repay any loans and interest thereon or other money and to carry out the general objects of the Scheme, the balance thereof shall be applied by the Council in further improvements and facilities within the Scheme Area.

### 19.—Powers of the Council.

19.1 In carrying out the provisions of the Scheme the Council shall have the following powers and authorities:—

- (a) To enter and inspect any land within the Scheme Area and to carry out works either by itself, its agents, employees or nominees that are pertinent to the Scheme.
