PART 4—DEVELOPMENT.

4.1 Council's Approval Necessary.

Except as hereinafter provided no development shall be carried out without the prior consent of Council.

4.2 Applications for Approval.

Applications for approval to commence development pursuant to Clause 4.1 shall be in the form set out in Schedule No. 3 to this Scheme and where necessary shall be accompanied by such plans and/or other explanatory material as the Council may require to gain a complete understanding of the proposal concerned and shall fully describe the extent and nature of any proposed use and fully show the siting, design and external appearance of any new or altered building and the treatment of any open portions of the site.

4.3 Council's Approval.

In considering any such application the Council shall have regard to the provisions of this Scheme and to the orderly and proper planning of land within the Scheme area and may take into account any observations or recommendations of interested parties or authorities with which it may confer. The Council may refuse to grant its approval to any such application, giving its reasons or it may grant its approval with or without such conditions as it deems fit.

4.4 The Council shall convey its decision on any such application to the applicant in the form set out on Schedule 3 to this Scheme within 60 days of the date upon which it was received at the Council's offices unless the Council shall have first obtained the applicant's approval in writing for an extension of that period and in the event that a decision has not been made within that period or extended period, the application shall be deemed to have been refused.

4.5 Any applicant who is aggrieved by the decision made or deemed to have been made by Council exercising any of the discretionary powers available to it under this Scheme may appeal to the Hon. Minister for Urban Development and Town Planning in accordance with Part V of the Act.

4.6 Failure to comply with the conditions imposed by the Council in the granting of its approval to a development application or failure to carry out the development in strict accordance with the plans approved by Council in respect to a particular proposal shall constitute a contravention of the Scheme for the purposes of section 10 of the Act and the Council may:—

4.6.1 By written notice served on the owner of the land require the development to be carried out in accordance with the approved plans or conditions of approval within the period specified in the notice failing which the Council may enter the land and carry out the work itself and recover any expenses so incurred from the owner, or occupier of the land as a civil debt.

4.6.2 Prosecute the owner or occupier of the land as the case may be pursuant to section 10 of the Act.

4.6.3 Revoke the approval so granted and require the removal of the development carried out as set out in section 10 of the Act.

4.7 Permitted development without approval of Council.

The following classes of development may be undertaken without the approval of the Council and is referred to as permitted development:—

4.7.1 The construction, widening, repair, maintenance or other works within a gazetted road reserve or similar works within any right of way or pedestrian accessway.

4.7.2 The replacement, maintenance or repair by a Government Agency or Statutory undertaking of any equipment necessary to maintain a public service.

4.7.3 The maintenance and repair of any building provided that no works of a structural nature are undertaken and no material change in the external appearance of the building is involved.

4.7.4 The change of use of land or buildings from one use to another use within the same zone provided that the new use is one which is a permitted use under this Scheme and shown "P" on Table No. 1.

PART 5—BUILDING STANDARDS AND PARTICULAR ZONING REQUIREMENTS.

5.1 Minimum Development Requirements.

Subject to the provisions of this Scheme, no person shall develop any land or use any building for any of the purposes mentioned in Column No. 1 of Table No. 2, in Column No. 1 of Table No. 5, or in Column No. 1 of Table No. 6, unless such development or building is in accordance with the standards set against such purpose in the said Tables.

5.2 If it is established to the satisfaction of the Council that a particular requirement or standard specified in Part 5 of the Scheme is unreasonable or undesirable in the particular circumstances of the case, the Council may at its discretion modify the requirement or standard subject to such conditions as it thinks fit. Before modifying any requirement or standard the Council may require that the owner or developer enter into an agreement to use or develop the building or land in a particular manner, and in case of a breach of the agreement or of any conditions imposed by the Council the Council shall enforce the requirements of the Scheme.

5.3 Where a particular requirement is not readily determined from a study of the Tables and this Text, such requirement shall be determined by the Council.

5.4 Where, in the opinion of the Council, a rigid adherence to the definitions of Duplex, Triplex, Quadriplex, Patio, Row, Terrace or Town Housing would preclude the erection of housing reasonably in keeping with those definitions and of a high architectural and environmental standard, the Council may modify the definitions accordingly.

5.5 In Industrial and Light Industrial Zones where the area of the lot does not exceed 2 000 m², if, in the opinion of the Council, it is unreasonable to insist on the car parking requirements set down in Table No. 6, the Council may reduce those requirements.

5.6 In a Local Shopping Zone and Office Zone, the Council may permit a departure from the setback provisions of Part 5 of the Scheme, under the following circumstances:—

5.6.1 Where in respect of any parcel of land, buildings have been erected on the lots adjoining on both sides and both of these buildings are in front of the setback line, the Council may reduce the setback to that of the rearmost of the two buildings.

5.6.2 Where it is considered that a variation would increase road safety, reduce traffic hazard, increase the number of parking spaces and would not reduce environmental and amenity standards either for the new shops or for the adjoining properties.

5.7 Subject to the provisions of this Scheme not more than one residential dwelling is permitted on any one lot within the Scheme area without prior approval of the Council, unless specific approval has been given by Council for the erection of more than one dwelling house.

5.8 Residential Zones 1 and 2—Lot Coverage and Dispersed Buildings.

Subject to the particular provisions of Tables 3 and 4 and subject to Clause 5.8, the following provisions shall apply to all residential buildings and flat buildings in residential zones 1 and 2.

(A) Lot Coverage by Buildings.

A residential building or flat building shall not occupy a greater percentage of a lot than is shown in the following table—

On lots subject to a maximum plot ratio of:	Maximum percentage of lot which may be covered by buildings:
Up to and including 0.7	35%
From 0.7 up to and including 0.9	20%

(B) Distances Between Buildings on the Same Lot.

Where more than one building is erected on the same lot, all standards shall be observed as though the development were a single structure. In addition, the minimum distance between any two buildings shall be 9 metres, or the minimum distance required under the formula set out below, whichever is the greater. The formula regulating the minimum distance between any two buildings (referred to as "Building a" and "Building b") is as follows:—

$$D = \frac{L_a + L_b + 2(H_a + H_b)}{6}$$

Where:

- D is the required minimum horizontal distance between any wall of Building a and any wall of Building b, or the vertical prolongation of either.
- L_a is the total length of Building a. The total length of Building a is the length of that portion or portions of a wall or walls of Building a, from which, when viewed from directly above, lines drawn perpendicular to Building a will intersect any wall of Building b.
- L_b is the total length of Building b. The total length of Building b is the length of that portion or portions of a wall or walls of Building b, from which, when viewed from directly above, lines drawn perpendicular to Building b will intersect any wall of Building a.
- H_a is the height of Building a. The height of Building a is the height above natural ground level of any portion or portions of a wall or walls along the length of Building a. Natural ground level is the mean level of the ground immediately adjoining the portion or portions of the wall or walls along the total length of the building.
- H_b is the height of Building b. The height of building b is the height above natural ground level of any portion or portions of a wall or walls along the length of Building b. Natural ground level is the mean level of the ground immediately adjoining the portion or portions of the wall or walls along the total length of the building.

5.9 Discretionary Powers of Council in Relation to Dispersed Buildings.

Duplex, Triplex, Quadruplex Houses, Flats, and Town Houses may be constructed as dispersed units separated by a lesser distance than that laid down in subclause 5.8 (B) where Council is of the opinion that the quality of the proposed development and the environmental standards resulting therefrom are of a sufficiently high standard to warrant a departure from the requirements of subclause 5.8 (B).

5.10 General Appearance of Buildings and Preservation of Amenities.

The Council may refuse to approve the construction of any building or appurtenances thereto if, in its opinion, the proposed building would have an adverse effect on the amenity of existing or future buildings in the locality.

It is not the intention of this Clause to preclude the adoption of a particular design, nor to prevent the use of particular materials of construction, nor to enforce uniformity of appearance; but

rather to ensure that design and construction will result in a building in keeping and in harmony with its surroundings.

To this effect, in exercising its discretion under this Clause, the Council shall have regard to:—

5.10.1 The external appearance of the building.

5.10.2 The dimensions and proportions of the building.

5.10.3 The effect on existing or future buildings, on nearby properties, and on the occupants of those buildings.

5.10.4 The environment resulting from the building itself and the effect of this environment on the occupants of the building.

5.10.5 The effect on the landscape and environment generally.

5.11 Setbacks for Lots with Multiple Street Frontages.

Setbacks from all effective street frontages shall conform to the standards for front boundaries, except in the case of a lot at a corner of intersecting streets, where the minimum setback from not more than one secondary street is reduced to one-half the minimum setback from the effective frontage to the primary street or streets.

5.12 Size and Location of Car Spaces and Loading Facilities.

The minimum dimensions of a car parking space shall, unless the Council approves otherwise, be as shown in the Second Schedule for the type of parking layout adopted.

When considering any development application, the Council shall have regard to and may impose conditions on the details of locating and designing the required car parking spaces, natural planting and pedestrian spaces on the lot. In particular the Council shall take into account and may impose conditions concerning:—

5.12.1 The proportion of car spaces to be roofed or covered.

5.12.2 The means of access to each car space and the adequacy of any vehicular manoeuvring area.

5.12.3 The location of the car spaces on the site and their effect on the amenity of adjoining development, including the potential effect if those spaces should later be roofed or covered.

5.12.4 The extent to which car spaces are located within required building setback areas.

5.12.5 The location of proposed public footpaths, vehicular crossings of private footpaths within the lot, and the effect on both pedestrian and vehicular traffic movement and safety.

5.12.6 The suitability and adequacy of proposed screening or natural planting.

5.12.7 The location of refuse bin areas.

5.13 Cash Payment in Lieu of Providing Parking Spaces.

The Council may accept a cash payment in lieu of the provision of paved car parking spaces, but subject to the requirements of this Clause.

5.13.1 A cash-in-lieu payment shall be not less than the estimated cost to the owner of providing and constructing the parking spaces required by this Scheme, plus the value, as estimated by the Council, of that area of his land which would have been occupied by the parking spaces.

5.13.2 Before the Council agrees to accept a cash payment in lieu of the provision of parking spaces, the Council must either have already provided a public parking station nearby, or must have firm proposals for providing a public station nearby within a period of not more than eighteen months from the time of agreeing to accept the cash payment.

5.13.3 Payments made under this Clause shall be paid into a special fund to be used to provide public parking stations and the Council may use this fund to provide public parking stations anywhere in its district.

5.14 Traffic Entrances.

The Council may refuse to permit more than one vehicular entrance or exit to or from any lot. The Council may require separate entrances and exits; or may require that entrances and exits be placed in positions nominated by it, if it considers such provision necessary to avoid or to reduce traffic hazards.

5.15 Building Lines and New Street Alignments.

This Clause is inserted to draw attention to the fact that pursuant to section 364 (1) of the Local Government Act, 1960-1973, the Council has by by-law prescribed certain new street alignments for the purpose of widening certain streets. These details are not contained in this Text.

5.16 Use of Setback Areas.

No person shall in a Local Shopping Zone, Office Zone, Residential Zone, and General Industrial Zone use the land between the building setback line and the street alignment for any purpose other than one or more of the following:—

5.16.1 A means of access.

5.16.2 The daily parking of vehicles used by employees and customers.

5.16.3 The loading and unloading of vehicles.

5.16.4 Trade display, but not more than one-fifth of the area and not within 3 metres of the street.

5.16.5 Lawns and gardens.

5.16.6 The said area shall not be used for the parking of vehicles displayed for sale or which are being wrecked or repaired; nor for the stacking of storage of fuel, raw materials, products or by-products or wastes of manufacture.

5.17 Disposal of Wastes.

No person shall without the approval of the Council use any privately owned land for any of the following purposes:—

5.17.1 The disposal of factory wastes.

5.17.2 The disposal or dumping of rubbish.

5.17.3 The disposal or dumping of building materials or materials from demolished or partly demolished buildings.

5.17.4 The disposal or dumping of organic waste matter.

5.18 Existing Building Lines as Prescribed by Council under the Uniform Building By-laws, 1974.

Those building lines as prescribed by Council under the Uniform Building By-laws, 1974 Clause 11.2 (1) (2) remain as detailed on the plan and schedule held in the Office of the Council, and shall not be over-riden by the provisions of this Scheme.

PART 6—NON-CONFORMING USE OF LAND.

6.1 Non-conforming Use Permitted.

No provision of the Scheme shall prevent:—

6.1.1 The continued use of any land or building for the purpose for which it was being lawfully used at the time of the coming into force of the Scheme; or

6.1.2 The carrying out of any development thereon for which immediately prior to that time, a permit or permits required under the Town Planning and Development Act, 1928 (as amended), and any other law authorising the development to be carried out have been duly obtained and was current.

6.2 Council Approval Prior to Development.

6.2.1 Where in respect of land reserved under Part 2 of the Scheme a non-conforming use exists, or was authorised as mentioned in Clause 6.1 of this Part, on that land, all or any erections, alterations or extensions of the buildings thereon or use thereof shall not be carried out unless the approval of the Council has been obtained in writing.

6.2.2 Where in respect of land zoned under Part 3 of the Scheme a non-conforming use exists, or was authorised as mentioned in Clause 6.1 of this Part, on that land, and provided that the prior consent of the Council has been obtained in writing buildings may be extended to the limits prescribed by the Uniform Building By-laws, made under the Local Government Act, 1960 (as amended), or by any other By-laws made under that Act for the purpose of limiting the size, location and distance from boundaries and any other matter required by law for that class of use within the boundary of the lot or lots on which the use was carried on immediately prior to the coming into force of the Scheme.

6.3 Change of Non-conforming Use.

The Council may permit the use of any land to be changed from one non-conforming use to another non-conforming use, provided the proposed use is, in the opinion of the Council, less detrimental to the amenity of the neighbourhood, than the existing use, or is in the opinion of the Council, closer to the intended uses of the zone.

6.4 Discontinuance of Non-conforming Use.

6.4.1 Notwithstanding the preceding provisions of this Part, except where a change of non-conforming use has been permitted by the Council under Clause 6.3, when a non-conforming use of land or building has been dis-

continued for such a period greater than six months such land or building shall not thereafter be used other than in conformity with the provisions of the Scheme.

6.4.2 The Council may effect the discontinuance of a non-conforming use, by the purchase of the affected property, or by the payment of compensation to the owner or the occupier or to both the owner and the occupier of that property, and may enter into an agreement with the owner for that purpose.

6.5 Destruction of Buildings.

If any building or structure is, at the gazettal date, being used for a non-conforming use, and is subsequently destroyed or damaged to an extent of more than seventy-five per cent of its value, no such land use shall be altered except to conform with the Scheme, and the buildings shall not be repaired or rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner or position not permitted by the Scheme, unless approval to do so is granted by the Council.

PART 7—FINANCE AND ADMINISTRATION.

7.1 Disposal of Land.

The Council may deal with or dispose of any land which it owns or which it has required pursuant to the provisions of the Scheme, in accordance with the Act and in conformity with the provisions of the Scheme, and for such purpose may make such agreements with other owners as it deems fit.

7.2 Compensation.

Claims for compensation by reason of the Scheme other than for the purpose of Part 2 shall be made not later than six months from the date on which notice of approval of the Scheme is published in the *Government Gazette*, except in the case of reserved land where the provisions of Part 2 shall apply.

7.3 Entry to Premises.

The Council may, by an Authorised Officer, enter at all reasonable times any building or land for the purpose of ascertaining whether the provisions of the Scheme are being observed.

7.4 Penalties.

Any person who fails to comply with any of the provisions of the Scheme is guilty of an offence and without prejudice to any other remedy given herein is liable to such penalties as are prescribed by the Act.

7.5 Enforcement of Provisions.

7.5.1 If any person contravenes or fails or neglects to comply with any of the provisions of the Scheme, the Council may by notice in the manner set out in Clause 7.6 thereof, order such person to discontinue forthwith any such contravention, and within thirty days after the service of such notice to remove, pull down, take up, alter or otherwise make good any work which contravenes the Scheme, or carry into effect any provisions of the Scheme which are not being complied with and at the same time it may pursuant to subsection 1 of section 10 of the Act advise such person that in the event of him failing to comply with the provisions thereof in the time limited for compliance then the Council by its agents will enter such person's property and cause to be done such works and things as shall be specified in such notice.

7.5.2 Any expense incurred by the Council in doing such works pursuant to any default under Paragraph (1) hereof may be recovered from the person in default by action for a civil debt recoverable summarily in any court having jurisdiction in respect of the amount involved.

7.6 Notices.

Any notice under Clause 7.5 hereof

3.4.2 The accessway shall be so constructed that vehicles using it may return to a street in forward gear.

3.4.3 If there exists a right-of-way to the side or rear of the lot, an area shall be paved on the lot so that vehicles when loading or unloading shall not remain in the right-of-way and the area shall be of such a size that if no alternative route exists vehicles may manoeuvre so as to return to a street in forward gear.

3.4.4 Except as hereinafter mentioned the accessway shall be not less than four and one half metres in width; if the size of the lot makes the provision of a four and one half metres wide accessway impracticable or unreasonable the Council may permit an accessway of a narrower width but in no case less than three metres in width.

3.4.5 The Council may vary the requirement of Clauses 3.4.1 to 3.4.4 if all buildings are set back from the street frontage in accordance with Appendix III.

3.5 Special Zones.

Additional Use Zones.

3.5.1 Those portions of the Scheme Area which are specified in the Appendix IV are classified as Additional Use Zones.

3.5.2 Notwithstanding that a parcel of land described in Appendix IV is within another zone the land or any building or structure thereon may be used for the purpose set against that parcel of land in Appendix IV in addition to the other uses permitted in the Zone in which the land is situated.

Restricted Use Zones.

3.5.3 Those portions of the Scheme Area which are specified in Appendix V are classified as Restricted Use Zones for the uses or purposes set against such lands respectively in Appendix V.

3.5.4 No person shall use any land any building or any structure thereon in a Restricted Use Zone except for the use or purpose set against such land in Appendix V.

PART IV.—MISCELLANEOUS.

4.1 Car Parking.

4.1.1 Car parking requirements are set out in the Development Table for the land uses shown therein. In addition the following general requirements shall apply.

4.1.2 The parking space required under the provisions of the Scheme shall measure not less than the dimensions shown in Appendix VI for the type of parking layout adopted.

4.1.3 All car parking spaces, and all necessary access ways shall unless the Council agrees otherwise and except as hereinafter provided be paved.

4.1.4 Where the maximum dimension of any open car parking area exceeds twenty metres in length or width, one car parking space in every ten shall be used for garden and tree planting to provide visual relief and so long as the garden and tree planting areas shall be maintained in good order, those car parking spaces shall be included in calculations as car parking and not as landscaping.

4.1.5 Where the owner can demonstrate to the satisfaction of the Council that there is not the demand for the number of parking spaces specified in the Development Table landscaping may be provided in lieu of car parking spaces not constructed and the said landscaping shall be included in calculations as car parking but not as landscaping; provided that the Council may from time to time require that the additional parking spaces be provided.

4.1.6 In Business Zones where a developer can satisfy the Council that the minimum car parking requirements cannot be provided on the site the Council may accept a cash payment in lieu of the provision of car parking spaces but subject to the requirements of this clause:

- (a) A cash-in-lieu payment shall be not less than the estimated cost to the owner of providing and constructing the parking spaces required by the Scheme, plus the value, as estimated by the Chief Valuer of the Department of State Taxation, of that area of his land which would have been occupied by the parking spaces.
- (b) Before the Council agrees to accept a cash payment in lieu of the provision of parking spaces, the Council must either have already provided a public car park nearby, or must have firm proposals for providing a public car park area nearby within a period of not more than eighteen months from the time of agreeing to accept the cash payment.
- (c) Payments made under this clause shall be paid into a special fund to be used to provide public car parks.

4.1.7 When considering an application to commence development the Council shall have regard to and may impose conditions in respect of the location and design of the required car parking spaces, natural planting and pedestrian spaces on the lot. In particular, the Council shall take into account and may impose conditions concerning—

- (a) the proportion of car spaces to be roofed or covered;
- (b) the proportion of car spaces to be below natural ground level;
- (c) the means of access to each car space and the adequacy of any vehicular manoeuvring area;
- (d) the location of the car spaces on the site and their effect on the amenity of adjoining development, including the potential effect if those spaces should later be roofed or covered;
- (e) the extent to which car spaces are located within required building setback areas;
- (f) the locations of proposed public footpaths, vehicular crossings, or private footpaths within the lot, and the effect on both pedestrian and vehicular traffic movement and safety;
- (g) the suitability and adequacy of elevated structural decks for development and service as a proportion of the required area for natural planting and pedestrian space.

4.2 Landscaping.

4.2.1 The landscaping requirement shown in the Development Table or referred to in the Scheme means an open area designed, developed and maintained as garden planting and areas for pedestrian use and at the discretion of the Council it may include natural bushland, swimming pools and areas under covered ways; garbage collection and handling spaces, and other open storage areas shall not be included.

4.2.2 Access driveways between a street alignment and any buildings may be included in the landscaping requirement but otherwise car parking areas and driveways shall not be included.

4.2.3 The Council may in a landscaped area restrict the use of concrete, gravel, pebble and similar hard materials and require the planting of lawns, trees or shrubs in lieu thereof.

4.2.4 Where a proposed development utilizes less than fifty per cent of the allowable plot ratio, the Council may reduce the landscaping requirement, provided that the landscaping requirement shall be required proportionately as subsequent development occurs.

4.2.5 A requirement of the landscaping is that one tree capable of growing to a height of three metres or more shall be planted for every ten square metres of landscape area but the Council may relax this requirement in the case of residential land uses.

4.2.6 No person shall unless the Council otherwise approves occupy any buildings forming part of an approved development until the required landscaping has been constructed and planted.

4.3 Protection of Shores.

4.3.1 Notwithstanding any provisions of the Scheme no person shall carry out any development within one hundred metres of the winter flood line of a lake swamp or of a water course unless with the special approval of the Council in accordance with Clauses 7.2.1 and 7.2.2.

4.3.2 In the event of a dispute as to the position of the winter flood line the decision of the Council acting on the advice of the Under Secretary for Works shall be final.

4.4. Development of Lots With More Than One Street Frontage.

4.4.1 Where development is proposed on a lot which has more than one street frontage the Council shall decide which street shall be the street frontage for the purposes of the Development Table and the other provisions of the Scheme.

4.5 General Appearance of Buildings.

4.5.1 No person shall without the written approval of the Council erect a building which by virtue of colour or type of materials, architectural style, height or bulk, ornamental or general appearance, has an exterior design which is out of harmony with existing buildings or the landscape character of the area.

4.5.2 No person shall without the written approval of the Council adorn any building with flags, bunting and such devices designed to attract the attention of passers by.

PART V.—PRESERVATION AND CONSERVATION OF PLACES OF NATURAL BEAUTY AND HISTORIC BUILDINGS AND OBJECTS OF HISTORICAL OR SCIENTIFIC INTEREST.

5.1.3 If the Council shall pass one of the resolutions mentioned in the clauses immediately preceding (hereinafter called "the preliminary resolution") it shall forthwith give written notice of the resolution to—

5.1.4 The said notice shall inform the person to whom it is directed that the matter will be reconsidered by the Council after the expiration of two calendar months from the date of the passing of the said resolution and that any submissions made in writing to the Council before that time will be considered. The notice shall also contain a copy of Clause 5.1 of Part V of the Scheme.

5.1.5 The Council shall cause a copy of the preliminary resolution to be published in a newspaper circulating in the Scheme Area and in the State of Western Australia asking that submissions from the public on the proposal be made to the Council before a date specified not being earlier than one calendar month after the date of the last advertisement.

5.1.6 The Council shall within two calendar months after the date specified in the preceding clause reconsider the preliminary resolution.

5.1.7 The Council shall consider all written submissions made to it and may resolve that the place of natural beauty or the historic building or object of historical or scientific interest should be conserved or preserved as the case may be. If the Council shall pass the said resolution (hereinafter called "the preservation resolution") it shall give written notice thereof to all persons mentioned in Clause 5.1.3 hereof.

5.1.8 If the Council shall not within a period of six months from the passing of the preliminary resolution pass the preservation resolution the Council shall be deemed to have abandoned the proposal contained in the preliminary resolution and shall not pass a preservation resolution unless and until the procedure mentioned in this Part of the Scheme shall have again been followed.

5.1.9 The Council may purchase or subject to the Act resume the parcel of land on which the place of natural beauty or the historic building or object of historical or scientific interest mentioned in the preservation resolution passed by the Council is situated or so much thereof as is in the opinion of the Council necessary for the preservation of the said object or building.

5.1.10 The Council may—

- (b) enter into agreements with any of the organisations named in paragraphs (d), (e), (f) or (g) of Clause 5.1.3 hereof or with any other person for the preservation or conservation of any building or object mentioned in a preservation resolution passed by the Council; or if the owner thereof so agrees, notwithstanding that no preservation resolution has been passed;
- (c) enter into agreements relating to the determination and settling of compensation.

5.1.11 Any person who is injuriously affected by the passing of a preservation resolution may within six months from the passing of the said resolution claim compensation from the Council.

5.1.12 No person shall without the written consent of the Council—

- (a) within six months from the passing of a preliminary resolution; or
- (b) after the passing of a preservation resolution, make any alteration or addition to, damage, deface, demolish or remove any object of natural beauty, historic building or object of historical or scientific interest referred to in any such resolution.

5.2 Historic Places.

5.2.1 The places described in Appendix VII and situated on the lands shown as Historic Places on the Scheme Map according to the legend thereon are considered by the Council to be of historical interest.

5.2.4 The Council may give its special approval to the restoration of an historic place notwithstanding that the work involved does not comply with the Uniform Building By-laws.

5.2.5 The Council may relax the requirements of the Development Table and the Zoning Table in respect of the retention or restoration of historic places but shall not relax the requirements of the Zoning Table unless it is satisfied that the proposed use will materially assist in the preservation of the historic place and unless notice has been given to ratepayers likely to be affected in accordance with Clauses 7.2.1 and 7.2.2.

5.2.6 Any person who is injuriously affected by a decision of the Council refusing an application for its consent to do any of the things mentioned in Clause 5.2.2 or granting its consent subject to conditions not acceptable to the applicant may if such refusal or conditions relate to the preservation of the historic place and if the claim is made within six months of the decision of the Council claim compensation.

PART VI.—NON-CONFORMING USES OF LAND.

6.1 If at the gazettal date any land, building or structure is being lawfully used for a purpose or in a manner not permitted by the Scheme (hereinafter called "a non-conforming use") the non-conforming use may continue subject to the following restrictions:

- (a) The non-conforming use shall not be extended beyond the boundaries of the lot or lots upon which it was carried on at the gazettal date;

- (b) If the buildings in which the non-conforming use is carried on are wholly within one lot only then such buildings shall not be extended beyond the limits of that lot;
- (c) If the building or buildings in which the non-conforming use is carried on are constructed on more than one lot such non-conforming use shall be restricted to the land on which the building stands or the buildings stand and such land which is adjacent to the building or buildings and not being used for any other purpose authorised by the Scheme as is reasonably required for the purpose for which the building or buildings is or are being used;
- (d) No building which is subject to any of the provisions in Part III shall be altered or extended unless it conforms to the relevant provisions of Parts III and IV or unless with the approval of the Council.

6.2 If a non-conforming use shall after the gazettal date be discontinued or changed no person shall subject to the following clause thereafter use the land or any building or structure thereon which the non-conforming use was carried on for any purpose not permitted by the Scheme.

6.3 The Council may upon such conditions as it thinks fit permit the change of a non-conforming use to another non-conforming use if in its opinion the latter use is less prejudicial to the amenity of the area.

6.4 The Council may for the purpose of discontinuing any particular non-conforming use acquire the land and buildings (if any) on or in which the use is or is permitted to be carried on or make agreements relating to the payment of compensation or moneys to persons willing to discontinue a non-conforming use.

6.5 If a non-conforming use shall be changed to another use all the requirements of the Scheme relating to the new use and to the buildings used in respect thereof shall be complied with by the owner and by the occupier of the land on which the use is carried on.

6.6 Any person carrying on a non-conforming use shall when required by the Council give to the Council in writing full information of the nature and extent of the non-conforming use.
