- (i) Claims for compensation for injurious affection by reason of the Scheme shall be made to the Council not later than six months from the date on which notice of approval of the Scheme is published in the *Government Gazette*.
- (ii) In lieu of paying compensation the Council may acquire the land injuriously affected in accordance with the provisions of the Act.

2.19. Entry to Premises: The Council may, by an authorised officer, enter at all reasonable times any building or land for the purpose of ascertaining whether the provisions of the Scheme are being observed.

PART 3—Zone Development Controls.

3.1. The Scheme Area is divided into five Zones set out hereunder:

- Residential.
- Commercial.
- Industrial.
- Community.
- Rural.

3.2. All development shall be in accordance with the provisions of the Zoning Indicator appended to this Part and such development must accord with the Policy Statement and Regulatory Controls set forth under Clause 3.5. of this Part together with the provisions contained in Part 2 and Part 4 of this Scheme.

3.3. The Zoning Indicator appended to this Part indicates the several uses permitted by this Scheme in the various zones, such uses being determined by cross reference between the list of uses on the left hand side of the Zoning Indicator and the list of zones on the top of the Zoning Indicator.

3.4. The symbols used in the cross reference in the Zoning Indicator appended to this Part have the following meanings:—

“P”—A use that is permitted under the Scheme.

“AA”—A use that is not permitted unless approval is granted by the Council.

“X”—A use that is not permitted.

3.5. Regulatory Controls: The following shall be deemed minimum acceptable standards for development:—

Residential—

- (a) Effective Frontage—single family house—18 m; duplex—20 m.
- (b) Parking 2 spaces per unit.
- (c) Setbacks 7.5 m front; 7.5 m rear; side setback 2.5 m each storey provided that on single storey dwellings the setback may be 1.5 m on one side.

Other Forms of Residential Building—

Where comprehensive architectural plans for triplex, quadruplex or multi unit developments are proposed, in addition to ensuring that the proposal meets the above setback and parking standards the Council shall also require that adequate landscaping shall be provided.

Commercial—

- (a) Area 200 m².
- (b) Lot Frontage 6 m.
- (c) Parking—
 - Shops 1 space per 10 m² of floor area.
 - Hotel 1 space per bedroom plus 1 space per 5 m² of bar space.
 - Tavern 1 space per 3.5 m² of bar area.
 - Motel 1 space per bedroom plus 3 additional spaces.
 - Other in accordance with the Council's requirements.

Industrial—

- (a) Area 1 000 m².
- (b) Lot Frontage 20 m.
- (c) Parking 3 spaces plus 1 per every 20 m² of production and storage floor space, or as directed by the Council.
- (d) Landscaped Area 30 per cent of the lot.
- (e) Setbacks 15 m front; 3.5 m side; 2 m rear.

3.6. Policy Statement:

(a) Residential Zone:—

- (i) All new subdivisions intended for residential development shall be permitted with provision for septic sewerage disposal until such time as a comprehensive deep sewerage headworks/reticulation system is available and whereby connection from the proposed development is feasible.

(b) Commercial:—

- (i) Because within the context of this Commercial Zoning it is not possible or necessary to predetermine the availability of particular lots for specific uses, it is the intention of the Scheme that any of the uses permitted or uses permitted subject to approval by Council, shall be able to locate anywhere within the Zone.
- (ii) When considering proposed development involving a use at the discretion of the Council, the Responsible Authority shall have regard to the physical effect of the proposed use on adjoining existing or approved development and shall also satisfy itself that such proposed development shall not in any way cause any detrimental effect on the enjoyment and occupation of the existing or proposed adjacent development: providing that such control shall not be construed as to give the Responsible Authority the power to consider such matters as would affect only the business

prospects of nearby premises by reason of close proximity of competition from a like business, as such matter is not within the authority of the Council.

- (iii) All additional major future retail development should be within the major commercial area. Any diversification of retail outlets will prejudice the viability of the existing centre. Any proposal for small developments of the corner shop variety may be permitted if the Council consider such development appropriate.
- (iv) When considering car parking requirements Council shall have proper regard to the existing nature of the commercial area and any proposal for the co-ordinated development of the centre for the time being, together with the existing availability or deficiency of adequate car parking facilities.

(c) Industrial:—

- (i) It is the intention of the Scheme that no industry of a noxious or hazardous variety should be permitted within an Industrial Zone owing to the proximity of these zones within the built up town area.

(d) Community:—

- (i) Except as otherwise provided in this Part, a person shall not carry out any development on land zoned Community under the Scheme, other than the erection of a boundary fence, without first applying for and obtaining the written approval of the Council.
- (ii) In giving its approval the Council shall have regard to the ultimate purpose intended for the land.
- (iii) No provision of this Part shall prevent the continued use of land for the use for which it was being lawfully used immediately prior to the Scheme having the force of law, or the repair and maintenance for which the prior consent in writing of the Council has been obtained, of buildings or works lawfully existing on the land.
- (iv) Where the Council refuses approval for the development of land zoned Community under the Scheme on the ground that the land is set aside for a public purpose, or grants approval subject to conditions that are unacceptable to the applicant, the owner of the land may, if the land is affected thereby, claim compensation for such injurious affection.
- (v) Claims for such compensation shall be lodged at the office of the Council not later than six months after the date of the decision of the Council refusing approval or granting it subject to conditions that are unacceptable to the applicant.
- (vi) In lieu of paying compensation, the Council may purchase the land affected by such decision of the Council at a price not exceeding the value of the land at the time of refusal of approval or of the grant of approval subject to conditions that are unacceptable to the applicant.
- (vii) When considering a proposal to establish a use within the Community zoning, owing to the diversified locations of the sites, special regard shall be had to the effect of the proposal and the general suitability of the site for the use, when compared with other sites with the same zoning.

(e) Rural:—

It is envisaged that all normal rural pursuits shall be considered within this zone, including the keeping of horses and other domesticated animals.

PART 4—General Development Controls.

4.1 Carparking:

- The minimum dimension of any parking space required under the provisions of the Scheme, shall be 5.5 m x 2.75 m excluding all access drives.
- The carparking layout on any lot within the proposed town centre commercial area shall be designed in conjunction with layouts on adjoining lots so that the total area may ultimately function as an integrated car parking and access area.
- Where the developer can demonstrate to the satisfaction of the Council that there is not the demand for the number of parking spaces specified under the development controls, landscaping may be provided in lieu of carparking spaces not constructed; provided that the Council may at any time require that the additional parking spaces be provided.

4.2 Landscaping:

- The Council may require the provision of any amount of landscaping that it considers reasonable and desirable in the circumstances.
- As a guide to the Council and developer, landscaping may include natural bushland, swimming pools and areas under covered ways; laundries, drying yards and garbage collection spaces shall not be included.

- Access driveways between street alignment and setback line may be included in the landscaping requirement but otherwise carparking areas and driveways shall not be included.
- Council may restrict the use of concrete, gravel, pebble and similar hard materials and require planting of lawns, trees or shrubs in lieu thereof.
- No person shall occupy any buildings forming part of an approved development until the required landscaping has been constructed and/or planted, unless the Council otherwise approves.

4.3. Storage of Craypots etc.:

- No person shall store crayfish pots or fishing gear within a residential zone unless such craypots or fishing gear are stored at the rear of a dwelling house or if stored at the front or side of a dwelling house, shall be so screened from the view of adjacent houses and from any public place.
- Where there is no house on a residential lot the Council may approve the storage of crayfish pots and other gear providing they are satisfied that the storage area is adequately screened.
- In any event crayfish pots and other fishing gear shall not be stacked to a height exceeding 2 m and shall at all times be stacked in a neat and tidy manner to the satisfaction of the Council.

PART 5.—Non-Conforming Uses.

5.1. Right to continue use: No provision of the Scheme shall prevent:—

- The continued use of any land or building for the purpose for which it was being lawfully used at the date of gazettal of the Scheme, or
- the carrying out of any development thereon for which, immediately prior to that time, a permit or permits required under the Act, and any other law authorising the development to be carried out has been duly obtained and was current.

5.2. Extension of non-conforming use:—

- Where in respect of land zoned community under Part 3 of the Scheme as mentioned in Clause 5.1 of this Part on that land all or any buildings, alterations or extensions of the buildings thereon or use thereof shall not be carried out unless the approval of the Council has been obtained in writing.
- Where in respect of land zoned for any other purpose under Part 2 of the Scheme a non-conforming use exists or was authorised as mentioned in Clause 5.1 of this Part on that land, and provided the prior consent in writing of the Council has been obtained buildings may be extended to the limits prescribed by the Uniform Building By-laws made under the Local Government Act 1960 (as amended), or by any other by-laws made under the Act for the purpose of limiting the size, location and distance from boundaries and any other matter required by law for that class of use within the boundary of the lot or lots on which the use was carried on immediately prior to the coming into force of the Scheme.
- The Council shall not permit any aspect of the non-conforming use which is inconsistent with the provisions of the Scheme to become more inconsistent but may allow physical extensions to the use under the provisions of this clause.

5.3. Change of non-conforming use: The Council may permit the use of any land to be changed from one non-conforming use to another non-conforming use, provided the proposed use is, in the opinion of the Council, less detrimental to the amenity of the neighbourhood than the existing use, or in the opinion of the Council is closer to the intended uses of the area.

5.4. Discontinuance of Non-Conforming Use:—

- Notwithstanding the preceding provisions of this Part, except where a change of non-conforming use has been permitted by the

Council under Clause 5.3 when a non-conforming use of any land or building has been discontinued, such land or building shall not thereafter be used other than in conformity with the provisions of the Scheme.

- (b) The Council may effect the discontinuance of a non-conforming use by the purchase of the affected property or by the payment of compensation to the owner or the occupier or both and may enter into an agreement with the owner for that purpose.

(iii) By adding after Clause 4.34 the following new clauses and provisions contained therein.

"4.35 Urban Development Zone"

(a) It is the intention of the Council to ensure that development of land within the Urban Development Zone takes place only after comprehensive planning ensures the maximum possible benefits or urban design and servicing.

(b) In this regard the Council, before recommending approval of subdivisional proposals for land within the zone may require the preparation of an Outline Development Plan for the whole of the Urban Development Zone or for any particular part or parts as is considered appropriate by Council with regard to the primary intent of the zone.

(c) An Outline Development Plan required under paragraph (b) above shall be prepared by either the owner/s of the subject land or by Council.

(d) The Outline Development Plan shall have regard to:

- (i) the topography of the area;
- (ii) the vegetation of the area;

(iii) the existing and proposed major road systems;

(iv) the approximate location and quantity of shopping, civic and public facilities proposed;

(v) the location of recreation and open space areas proposed;

(vi) the population and residential densities proposed; and

(vii) land holdings adjacent to and included in the area the subject of the Outline Development Plan.

(e) When an Outline Development Plan has been prepared to the satisfaction of Council, the Council shall notify in writing each owner of land affected by the Plan of the existence of the Plan and invite each owner to make a submission to Council regarding any aspect of the Plan of interest to or affecting the owner.

(f) The Council shall specify a time within which submissions will be received, but the time will not be less than 28 days from the date of the notification described in (e) above.

(g) The Council shall consider any submissions made under Subclauses (e) and (f) of this Clause and may amend the Outline Development Plan after consideration of such submissions.

(h) The Council shall subsequently forward the Outline Development Plan to the Town Planning Board, together with a precis of, and Council's decision in relation to, each submission received in respect of the Plan, and request the Board to adopt the Plan submitted as the basis for approval of subdivision applications within the area covered by the Plan.

(i) Any departures from or alterations to the Outline Development Plan may, subject to the approval of the Board, be permitted if it is considered the proposed departure or alteration will not prejudice the progressive development of the area the subject of the Plan."

4.36 Development Sequence of Shopping Facilities in the Urban Development Zone.

Intent:

It is the intention of Council to encourage the provision of shopping facilities to serve the community of the Urban Development Zone as soon as it is economically feasible so to do.

Approval:

Shopping facilities will only be approved in a staged sequence and only then in the normally accepted structural order of centres. It is Council's intention to ensure that each structural order will be economically viable before considering the approval of development/s related to a higher structural order. Council will therefore only consider shopping centre development on the basis of the following:

(a) Shopping facilities will be provided in "Neighbourhood", "Minor District" and "District" level centres as allocated in the approved Outline Development Plan.

(b) Development shall not proceed until the Urban Development zoning applicable to these sites has been rezoned to the appropriate classification;

(c) the total amount of gross leaseable commercial floor space in any shopping centre shall not exceed that area prescribed in Council's adopted Retail Structure Plan.

(d) When considering the initiation of appropriate rezonings Council will give every consideration to:

- (i) establishing Neighbourhood level centres as a priority over other types of centres; and
- (ii) satisfying itself whether higher order centres are warranted by demand at any particular time and whether, if approved, would unreasonably affect the viability of established centres.

K. T. CADEE,
Acting Under Secretary for Water

COUNTRY AREAS WATER SUPPLY ACT 1947-1980.

(b) In the case of a holding or part of a holding the area of which exceeds 2 500 square metres the maximum amount of the basic water rate shall, subject to paragraph (a) of this item, be an amount that is 50% greater than the amount of the basic water rate chargeable for the whole of the year ending on 30 June 1981, but if the land was improved or subdivided in that year the maximum shall, subject to paragraph (a) of this item, be an amount that is 50% greater than the amount of the rate which would have been payable if the land had been assessed for rates for the full year having regard to that improvement or subdivision, and if the land is improved or subdivided in the year ending on 30 June 1982 the additional rates assessed

ANDREW MENSAROS,
Minister for Water Resources.

COUNTRY AREAS WATER SUPPLY ACT 1947-1980.

Notice of Order to make and levy Basic Water Rate
for the year ending 30 June 1982 and of a determination under section 54 (2) increasing rateable value.

NOTICE is hereby given under section 66 (1) of the Country Areas Water Supply Act 1947-1980 that the Minister for Water Resources, being the Minister charged with the administration of that Act, acting under that Act, has ordered that the basic water rate to be made and levied within each country water area in respect of the financial year ending on 30 June 1982 for holdings or parts of holdings classified under the Act as for the following purposes shall be as set out hereunder:

1. Domestic Purposes:

In the case of a holding or part of a holding the gross rental value of which is set out in the relevant rate book in accordance with—

- (a) a general valuation under the Valuation of Land Act 1978-1979 or an interim valuation under that Act superseding, in relation to the holding or part of a holding, a valuation in accordance with such a general valuation—4½ cents in the dollar of the rateable value of the holding or part of a holding;
- (b) a valuation other than a valuation referred to in paragraph (a) of this item—7½ cents in the dollar of the rateable value of the holding or part of a holding.

but in any case where the basic water rate computed on the rateable value of the holding or, as the case may be, part of the holding, would be an amount less than \$20 the basic water rate applicable thereto shall be \$20.

2. Commercial, Industrial, Building Construction and Vacant Land:

In the case of a holding or part of a holding the gross rental value of which is set out in the relevant rate book in accordance with—

- (a) a general valuation under the Valuation of Land Act 1978-1979 or an interim valuation under that Act superseding, in relation to the holding or part of a holding, a valuation in accordance with such a general valuation—6 cents in the dollar of the rateable value of the holding or part of a holding;
- (b) a valuation other than a valuation referred to in paragraph (a) of this item—10 cents in the dollar of the rateable value of the holding or part of a holding,

but in any case where the basic water rate computed on the rateable value of the holding or, as the case may be, part of a holding, would be an amount less than \$20 the basic water rate applicable thereto shall be \$20.

3. Farm land:

The basic water rate shall be 4.942 cents per hectare of the land rated or 3% of the unimproved value of the land, whichever is the lesser, but where in respect of any holding of farm land the amount of the basic water rate assessed at the rate fixed and computed on the basis of the area of the holding would be less than \$20 the basic water rate shall be \$20.

And whereas in respect of the financial year ending on 30 June 1981 the gross rental value set against rateable land in a rate book kept under the Country Areas Water Supply Act 1947-1979, other than rateable land the value of which had been altered for that financial year pursuant to a general valuation under the Valuation of Land Act 1978-1979, was increased under section 54 (2) of the Country Areas Water Supply Act 1947-1979 by 10%:

And whereas in respect of the financial year ending on 30 June 1982 it is intended that the gross rental value set against rateable land in a rate book kept under the Country Areas Water Supply Act 1947-1980, other than rateable land the value of which has been altered for that year pursuant to a general valuation under the Valuation of Land Act 1978-1979, shall—

- (a) where that gross rental value was so increased by 10% in respect of the financial year ending on 30 June 1981—be so increased by a further 10% of the increased amount, being a total increase of the gross rental value by 21%;
- (b) where that gross rental value was not so increased in respect of the financial year ending on 30 June 1981—be so increased by 10%:

It is now notified that the Minister for Water Resources, being the Minister charged with the administration of the Country Areas Water Supply Act 1947-1980, acting under section 54 (2) of that Act, has determined in respect of the financial year ending on 30 June 1982 that the gross rental value set against rateable land in a rate book kept by him under that Act, other than rateable land the value of which has been altered for that year pursuant to a general valuation under the Valuation of Land Act 1978-1979, shall—

- (a) where that gross rental value was increased under section 54 (2) of the Country Areas Water Supply Act 1947-1979 by 10% in respect of the financial year ending on 30 June 1981—be increased by 21%; and
- (b) where that gross rental value was not increased under section 54 (2) of the Country Areas Water Supply Act 1947-1979 in respect of the financial year ending on 30 June 1981—be increased by 10%.

K. T. CADEE,
Acting Under Secretary for Works.

COUNTRY TOWNS SEWERAGE ACT 1948-1978.

NOTICE is hereby given that the rate books for all land in each of the areas, liable to be rated under the abovementioned Act for the financial year ending on the 30th day of June, 1982, have been made up and are open to inspection by any ratepayer at all reasonable times.
