Schedule.

Town Planning and Development Act 1928 (as Amended).

Shire of Esperance Town Planning Scheme No. 16. Amendment 50.

THE Council of the Shire of Esperance under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act 1928 (as amended) hereby amends the above Town Planning Scheme by:—modifying the Scheme Text clause 5.2 by—

- (i) deleting the footnote to Table A;
- (ii) deleting the first sentence of the footnote to Table B;
- (iii) inserting the following as a footnote to both Tables A and B:—

Where a lot has frontage to more than one street, the Council may determine which of those streets shall be regarded as the front for the purpose of the setbacks specified in this table and, with the exception of sub-arterial and arterial roads, may, at its discretion, permit the setbacks to the secondary street frontage to be reduced to one half of the front setbacks as specified.

Moreover, where compliance with the setbacks specified in this Table would, in the Council's opinion, be unreasonable by virtue of the irregular shape of the lot, or some physical difficulty of the land or for aesthetic considerations, the Council may, at its discretion:—

- (a) reduce the front setback to 5 m;
- (b) approve the erection of dwellings where the average distance from the boundary or boundaries concerned is no less than those specified in this Table, and
- (c) where a lot has three or more street frontages, reduce the setbacks to one secondary street frontage to 1.5 m in respect of outbuildings required for purposes incidental to a dwelling.

Provided that Council is satisfied that such modification of the setback requirements would not adversely affect the amenity, privacy, development, or development potential of nearby land and/or the character and appearance of the street. In this regard the Council may consult with the owners or occupiers of any land or buildings likely to be affected by the proposal and afford them an opportunity to make representations. The Council, in making its decision, may take into account any representations so made.

Adopted by resolution of the Council of the Shire of Esperance at the Ordinary Meeting of the Council held on the 27th day of January, 1981.

 - (c) include means for readily reducing the output referred to in paragraph (b) to not more than 1 watt mean power.

Receiver.

3. The receiver of a VHF frequency modulated installation shall be capable of effectively receiving—
- (a) on the frequencies 156.80 MHz (Channel 16) and 156.375 MHz (Channel 67); and

- (a) one-half of the current required to operate the VHF frequency modulated radiotelephone transmitter for the transmission of speech;
 - (b) the current required to operate the VHF frequency modulated radiotelephone receiver; and
 - (c) the current required to operate the electric light referred to in regulation 11(1)(c).

Batteries.

 - (b) for testing the charge condition of those batteries; and
 - (c) in the case of batteries which supply electrical energy not only to that installation but also to other equipment on that seagoing ship—
 - (i) there shall be provided at that installation means for promptly cutting off the supply of electrical energy to that other equipment in an emergency; and
 - (ii) those batteries shall be capable of supplying adequate electrical energy to that other equipment for such period as the Department approves in addition to complying with the requirements of clause 5.
- (3) If, in the opinion of a radio surveyor, electrical generating devices in the seagoing ship concerned may cause damage to its VHF frequency modulated installation through voltage fluctuations, electrical energy shall be supplied to that installation by two banks of batteries which shall be—
- (a) charged and discharged through an interlocking isolating switch separating the battery on charge from the transmitter, and the combined or separate receiver, of that installation; and
 - (b) situated in or adjacent to the wheelhouse of that seagoing ship.

PART III—RADIATION SYSTEM.

Aerial.

7. (1) The aerial of the radiation system of a VHF frequency modulated installation shall—
- (a) be of such type and dimensions, and so erected and insulated, as to secure efficient radiation;
 - (b) be so placed and constructed that—

 - (ii) danger to personnel as a result of accidental contact is precluded;
 - (iii) it does not interfere with the safe navigation or working of the seagoing ship concerned; and
 - (iv) it is adequately protected from the adverse effects of salt water.
- (2) The aerial installation of a radiating system referred to in subclause (1) shall be of vertical polarization.
- (3) The product of the antenna gain and the power of the transmitter of a VHF frequency modulated installation, measured at the point of connection to the aerial terminal, shall not, in the case of an isotropic radiator, exceed 41 watts Effective Isotropic Radiated Power.

If any person fails to leave the specified part of the College lands as directed he shall commit a breach of these By-laws.

23. A police officer or an authorised officer may apprehend or remove or apprehend and remove from the College lands a person who is committing or has committed a breach of any of these By-laws.

Part III—Traffic By-laws.

24. No person shall without authority drive, or bring a vehicle on the College lands except on the established roadways or parking areas.

25. No person shall drive a vehicle on the College lands in a dangerous or careless manner or without all reasonable consideration for other persons and vehicles in the vicinity.

26. No person shall drive a vehicle at a speed exceeding 30 kilometres per hour or such lower maximum speed as may be specified by a traffic sign with respect to a particular area or stretch of roadway.

27. A person who is about to drive or is driving a vehicle into or out of a parking area shall give way to all other vehicles passing along a roadway.

28. A person driving or in charge of a vehicle shall obey every signal, order or direction addressed to him by a police officer or an authorised officer in relation to the movement or control of traffic.

29. A person driving a vehicle shall comply with all directions relating to traffic shown on traffic signs.

30. No person driving or in charge of a vehicle on a roadway shall commit or do any act which would be a breach of any Act or Regulation of the State of Western Australia if such roadway were a 'road' for the purposes of the Road Traffic Act 1974.

31. The Director or an authorised officer may set apart a place or places as a parking area for vehicles, and may by a traffic sign displayed on or near a parking area specify the hours during which it may be used for parking, the kinds of vehicles that may be parked there, the persons who are entitled to use it, the length of time a vehicle is permitted to be parked there, or otherwise regulate its use.

32. An authorised officer may by an authorised sign placed on or near a parking bay in a parking area, reserve that parking bay for a specific purpose or a specified person or class of persons.

33. A parking permit shall be in such form as may be approved by the Director from time to time signed by the Director or an authorised officer and unless the permit is varied, suspended or revoked, it shall be current until the date of expiry specified in the permit.

34. A parking permit affixed to a vehicle in accordance with these By-laws entitles the holder to park that vehicle during the currency of the permit in an unreserved parking bay in that section of any parking area set aside for such purposes or categories or classes of persons unless such permit is varied, suspended or revoked.

35. (1) If the holder of a parking permit changes the vehicle or the registration number of the vehicle in respect of which the permit has been issued, he shall forthwith give notice in writing to the Director or as he shall from time to time direct.

(2) Parking permits shall not be transferable.

36. Except as provided in By-law 38, no person shall park a vehicle unless he holds a parking permit or parks a vehicle on behalf of a person who holds a permit. The holder of a parking permit or a person who parks a vehicle on behalf of a person who holds a parking permit shall not park a vehicle except in accordance with the terms of the permit.

37. The holder of a parking permit shall affix the permit to the vehicle for which it was issued in such manner as shall be required by the permit.

38. A visitor to the College may park a vehicle only in an unreserved parking bay in an area marked by a traffic sign as a visitor's car park.

39. A holder of a parking permit is responsible for the vehicle for which the permit is issued notwithstanding that the vehicle is driven or parked by another person.

40. (1) Whenever—

- (a) a vehicle is driven by a person in a manner that is in alleged breach of these By-laws;
- (b) a vehicle is parked in a manner that is in alleged breach of these By-laws; or
- (c) there is otherwise an alleged breach of these By-laws with respect to a vehicle.

and a permit has been issued with respect to the vehicle which is current, the holder of the permit shall be deemed to have been the driver or person in charge of the vehicle at the time of the alleged breach of these By-laws. If no permit has been issued which is current, the owner of the vehicle shall be deemed to have been the driver or person in charge of the vehicle at the time of the alleged breach of these By-laws.

(2) It shall be a defence to a charge against any person deemed by paragraph (1) of this By-law to have been the driver or person in charge of a vehicle that the vehicle was stolen or was being unlawfully used at the time of the alleged breach.

(3) The owner and the permit holder, if any, of the vehicle referred to in paragraph (1) of this By-law shall, if required by a police officer or an authorised officer, inform him as to the identity and address of the actual driver or person in charge of the vehicle at the time the breach of these By-laws is alleged to have been committed, if known to him.

(4) The driver or person in charge of a vehicle shall, upon being required by a police officer or an authorised officer who alleges that he has committed a breach of these By-laws, furnish that police officer or authorised officer with his full name and address.

(5) Nothing in this By-law shall prevent action being taken against any person who actually commits any breach of these By-laws or prevent that person from being punished accordingly. If any person has been punished for the commission of a breach no action may be taken under the provisions of this By-law against any other person for commission of that breach.

41. No person shall without authority—

- (a) park a vehicle in a no parking area, or in a loading bay or other place reserved by an authorised sign for a particular purpose, except in accordance with that purpose;
- (b) park a vehicle other than wholly within the marked boundary of any parking bay marked on a parking area;
- (c) park a vehicle in such a position as to interfere with traffic or obstruct other vehicles;
- (d) park a motor cycle, motor scooter or bicycle on any roadway or other area on which there are marked parking bays of an area appropriate for the parking of four-wheel vehicles;
- (e) park a vehicle except during permitted hours and in a parking area set apart for parking by him pursuant to By-law 31.

42. (1) A vehicle parked in a breach of these By-laws or in such a position as to interfere with traffic or obstruct other vehicles, or apparently abandoned, may be removed by or under the authority of an authorised officer to any place on the College's land not being an authorised car parking area as the authorised officer shall determine.

(2) A person removing a vehicle under the authority of this By-law is entitled to take such action whether by way of unlocking, entering by any means, driving or towing the vehicle or otherwise as may be reasonably necessary for the purpose of effecting the removal.

(3) The owner of a vehicle so removed shall pay a charge of \$20 to recover his vehicle from the place to which it had been removed.

(4) Neither the College nor any officer, employee or agent of the College shall be liable to any person or owner of any vehicle removed for any loss or damage arising out of or in consequence of a vehicle being removed under the authority of this By-law.

(5) The College may retain possession of a vehicle so removed until the charge payable under paragraph (3) of this By-law is paid.

43. (1) If a person drives a vehicle in a manner that is in breach of these By-laws or there is otherwise a breach of these By-laws with respect to a vehicle, an authorised officer may affix on the vehicle or give to the driver or person in charge of the vehicle or post to the owner or permit holder a notice, in a form approved by the Director, which notice shall—

- (a) be identified by a serial number;
- (b) if the name of the person driving the vehicle, or the holder of a permit issued with respect to the vehicle or the owner of the vehicle is known to the authorised officer, be addressed by name to the driver, holder of the permit or owner, or otherwise be addressed to the driver, holder of the permit or owner by the registration number of the vehicle;
- (c) describe the vehicle by make and registration number;
- (d) state that it is alleged that a breach of a By-law with regard to the driving or parking, or otherwise with respect to the vehicle has been committed and in general terms the breach which it is alleged has been committed;
- (e) state that the breach will be reported and that further action may be taken unless within the time and manner stated in the notice—
 - (i) the modified penalty specified in By-law 49 (3) and indicated on the notice is paid and accepted; or
 - (ii) within fourteen days an explanation in writing addressed to the Director is given for the breach and accepted by the Director.
- (f) state the modified penalty payable.

(2) If the person to whom a notice under paragraph (1) of this By-law is given gives a written explanation to the Director in accordance with the terms of the notice, the Director may either accept the explanation or not accept it. If the explanation is not accepted then further notice will be given that the explanation is not accepted and either that further action will be taken or that further action will be taken failing payment of the modified penalty indicated on the notice within fourteen days after the date of the further notice.

44. On such days or nights and during such time or times as the Director may direct, police officers and authorised officers shall have complete control over all traffic within the College lands, whereupon every person in charge of any vehicle or animal within the College lands shall obey every order and direction of any police officer or authorised officer relating to the movement or control of such traffic, and shall stop or proceed or park in such manner and direction as the police officer or authorised officer may from time to time order. This By-law shall apply notwithstanding the terms of any issued permit.

45. The Council may from time to time prescribe parking fees to be paid by applicants for parking permits or by persons parking vehicles, whether holders of a permit or not, in specified parking bays or areas set aside for parking.

Part IV—Offences and Penalties.

46. A person who commits a breach of these By-laws shall be guilty of an offence and liable to a penalty not exceeding the amount from time to time prescribed by the Act as the maximum penalty that may be imposed for any breach of a By-law and to pay compensation for any damage done by him to College property.

47. Proceedings may be taken in any court of summary jurisdiction in accordance with the Justices Act 1902 in respect of any offence committed under these By-laws, and any penalty imposed or compensation made payable may be recovered in a summary manner in accordance with that Act.

48. Proceedings may be taken by any person authorised in writing by the Council or by any police officer who shall be reimbursed out of the funds of the College for all costs, charges, expenses or damages which he may incur or become liable for by reason of taking proceedings.

49. (1) A person who does not contest an allegation that he has committed a breach of these By-laws may pay to the Director or an authorised officer within the time prescribed by a notice given under By-law 43, the modified penalty prescribed for that breach by paragraph (3) of this By-law. The production of an acknowledgement from the Director or the authorised officer of the payment of the modified penalty shall be a defence to a charge of the breach in respect of which the modified penalty is paid.

(2) If it appears to the Director or the authorised officer that an alleged breach of these By-laws cannot be adequately punished by the payment of a modified penalty, the Director may refuse to accept payment of the modified penalty and an authorised officer may take proceedings against the alleged offender.

(3) The modified penalty shall be—
