| Citation. | 1. These regulations may be cited as the Seeds Regulations 1981. |
| Commencement. | 2. These regulations operate on and from the day on which the Act comes into operation. |
| Interpretation. | 3. In these regulations unless the contrary intention appears—
“Schedule”, preceded by a designation, refers to the Schedule to these regulations so designated;
“seed certification scheme” means a scheme prepared and conducted under section 26 (1) (g) of the Act;
“subregulation” means subregulation of the regulation in which the word is used;
“the Act” means the Seeds Act 1981. |
| Exempted sales. | 4. The classes of persons prescribed for the purposes of section 4 (1) of the Act are—

| Crop seeds. | 5. (1) The seeds of the plants referred to in the First Schedule are crop seeds.
(2) Where a seed lot sold contains crop seed and the mass of the seed lot is less than the mass set out in column 3 of the First Schedule in respect of each crop seed contained in the seed lot, Part II of the Act does not apply in relation to the seed lot. |
| Chemical additives. | 6. The chemical additives information of which is required by paragraph (b) of subsection (2) of section 7 of the Act to be included in a statement in accordance with that subsection are those set out in the Second Schedule. |
| Weed seeds. | 7. The seeds of the plants referred to in the Third Schedule are weed seeds. |
| What constitutes a seed. | 8. (1) In determining, for the purposes of the Act, the proportion in which a seed is contained, or the proportion of seed that is germinable—
(a) intact seeds;
(b) achenes and similar fruits, schizocarps, and mericarps, with or without perianth and whether or not containing a true seed (unless it is readily apparent that no true seed is present);
(c) pieces of seeds, achenes, mericarps, and caryopses, resulting from breakage, that are more than one half their original size; |

- (d) clusters of seeds, other than of the family *Poaceae*; and
 (e) florets and one-flowered spikelets of the family *Poaceae* with an obvious caryopsis containing endosperm,
 are to be taken as being seeds of the species to which they belong, notwithstanding that they may be immature, undersized, shrivelled, diseased, or germinated, unless they are incapable of being identified as being of the species or they are transformed into fungal sclerotia, smut balls, or nematode galls.
- (2) For the purposes of determining, in connection with a seed certification scheme, the proportion in which seed of a particular cultivar or having resistance to a particular disease or other adverse factor is contained, subsection (1) shall apply as if a reference to seeds of the species were a reference to seeds of the cultivar or having the relevant resistance, as the case may be.
- Germination tests.** 9. (1) The test conditions to be used in ascertaining whether crop seed is germinable are as referred to in Part 1 of the Fourth Schedule.
 (2) The growth characteristics to be exhibited by germinable crop seed, when subjected to the test conditions referred to in subregulation (1), are as described in Part 2 of the Fourth Schedule.
- Tolerances.** 10. In the statement required by section 7 of the Act in respect of a seed lot, the tolerances applicable to—
 (a) the proportion in which a crop seed is contained in the seed lot, are as prescribed in Part 1 of the Fifth Schedule;
 (b) the minimum proportion of a crop seed that is germinable, are as prescribed in Part 2 of the Fifth Schedule;
 (c) the maximum proportion in which a weed seed is contained in the seed lot, are as prescribed in Part 3 of the Fifth Schedule; and
 (d) the maximum proportion in which seed not named under section 7 (2) (d) of the Act is contained in the seed lot, are as prescribed in Part 4 of the Fifth Schedule.
- Select quality.** 11. (1) The minimum proportion of a particular crop seed that a seed lot is required by section 9 of the Act to contain before a claim may be made that the crop seed is of "select quality" is as set out in column 4 of the First Schedule in respect of that crop seed.
 (2) The minimum proportion of a particular crop seed contained in a seed lot that is required by section 9 of the Act to be germinable seed before a claim may be made that the crop seed is of "select quality" is as set out in column 5 of the First Schedule in respect of that crop seed.
 (3) The maximum proportion of seed other than a particular crop seed that a seed lot is permitted by section 9 of the Act to contain if a claim is to be made that the crop seed is of "select quality" is 0.1%.
- Sampling and analysis.** 12. (1) Where a sample is taken in accordance with Part 1 of the Sixth Schedule, the sample is, for the purposes of the Act, taken in the prescribed manner.
 (2) The method prescribed, for the purposes of the Act, for making an analysis of a sample of seed or material containing seed is a method in accordance with Part 2 of the Sixth Schedule.
- Fees.** 13. The fees payable under this Act, other than—
 (a) the fees payable in connection with a seed certification scheme by the participants in the seed certification scheme; or

 (d) the proportion of any crop seed contained in any material tested;
 (e) the proportion of any crop seed that is germinable;
 (f) the proportion of any weed seed contained in any material tested; and
 (g) that the material tested is of such quality that, upon its sale, it may, in accordance with section 9 (1) of the Act, be described as crop seed of "select quality".
 (2) A person participating in a seed certification scheme who knowingly makes any statement in relation to a matter associated with the scheme that is false or misleading in any material particular commits an offence and is liable to a penalty not exceeding \$500.

FOURTH SCHEDULE

GERMINATION TESTS.

Part 1.—Test Conditions.

The test conditions to be used in ascertaining whether crop seed is germinable are those printed in chapter 5, and in Annexes to chapter 5, of "Seed Science and Technology" Volume 4, Number 1, 1976, published by the International Seed Testing Association, as added to and amended in—

(a) the "Report of the Rules Committee 1974-1977", printed in "Seed Science and Technology" Volume 6, Number 1, 1978; and

(b) the "Report of the Rules Committee 1977-1980", printed in "Seed Science and Technology" Volume 9, Number 1, 1981,

each published by the International Seed Testing Association.

Part 2.—Growth Characteristics of Germinable Seed.

(1) Germinable seeds are seeds which, when tested under the conditions referred to in Part 1 of this Schedule, produce seedlings which—

(a) possess—

(i) a well-developed root system including a primary root, except for those plants normally producing seminal roots;

(ii) a well-developed and intact hypocotyl and/or epicotyl without damage to the conducting tissues and in dicotyledons, a normal plumule;

(iii) in the case of plants of the family *Poaceae*, a well-developed primary leaf within or emerging through the coleoptile; and

(iv) one cotyledon for seedlings of monocotyledons and two cotyledons for seedling of dicotyledons; or

(b) although having one or more of the following slight defects, otherwise show vigorous and balanced development of the structures referred to in paragraph (a) of this item and show the capacity for continued development into normal plants when grown in good quality soil, and under favourable conditions of water supply, temperature and light—

(i) being seedlings of the *Zea* species, a species of the family *Malvaceae* or *Cucurbitaceae*, or of a large-seeded legume, have a damaged primary root, but several adventitious and lateral roots of sufficient length and vigour to support the seedling in soil;

(ii) are seedlings having superficial damage or decay to the essential structures of the seedling which is limited in area and does not affect the conducting tissues;

(iii) are seedlings of dicotyledons with only one cotyledon.

(2) Where seedlings are decayed by fungi or bacteria, and it is clearly apparent that—

(a) the parent seed is not the source of infection; and

(b) but for the decay, the seedlings would have been in accordance with paragraph (a) or (b) of item 1 of this Part of this Schedule,

the seedlings are deemed to be in accordance with that paragraph.
