INTERPRETATION ACT 1918-1975.

METROPOLITAN WATER AUTHORITY (RATES AND CHARGES)

(1) Subject to sub-bylaws (2) and (3), rates and prescribed charges (other than for water supplied by measure) in respect of the whole of the period from 1 July to 30 June in any rating year are ordinarily payable to the Authority in two halves, the first half by 31 July and the second half by 31 December, but a ratepayer may instead elect—
 (a) to pay in full by 31 July, in which case he will receive a discount of \$1.00 plus an amount calculated at 15% for a period of 5 months, on one half of the total due for the year; or
 (b) to pay in four equal instalments, by 31 July, 31 October, 31 December and 31 March respectively, in which case he will be liable for an additional charge of \$2.00 plus an amount calculated at 15% for a period of 3 months on one half of the total due for the year.
 (2) Where in a particular case the Authority is satisfied that there is proper cause, the Authority may agree to special arrangements for payment of rates and prescribed charges (other than for water supplied by measure) and any such arrangements shall provide for payment by regular quarterly, monthly, or semi-monthly instalments and for the ratepayer to be liable for an additional charge of \$1 for each instalment (excepting the first two instalments) plus an amount calculated at 15% on amounts deferred beyond the dates when such amounts are ordinarily payable under sub-by-law (1).
 (3) Where an account for rates or prescribed charges (other than for water supplied by measure) in respect of part only of the period from 1 July to 30 June in any rating year is served on the ratepayer the account is payable in full by the date stated in the account, which shall be a date not earlier than 28 days after the date of service of the account.

- Minimum rates. 6. Where the rate that would otherwise be payable to the Authority in relation to any land would be an amount less than the minimum rate prescribed in Schedule 3, the minimum rate so prescribed is payable instead of the rate that would otherwise be payable.
- Water allowance for rate, other than for residential properties, and excess water charges. 7. (1) Except where the Water Rates (Residential Properties) By-laws 1982-1983 apply, and subject to sub-by-law (2), a ratepayer is entitled to use, during the consumption year, on and for each separately assessed piece of land for which he pays rates, water in return for his water rates to a value that, when calculated at the charge for water supplied prescribed by Schedule 1, amounts to the equivalent of the water rate for that land for the rating year during which the consumption year terminates.
- (2) When, during the currency of the consumption year in respect of which a water rate has been levied, a meter is attached to a pipe on any land supplied with water, the ratepayer shall pay for the quantity of water supplied, as registered by the meter, from the time when the meter was attached, at the charge for water supplied per kilolitre prescribed by Schedule 1, so far as the water supplied is in excess of the quantity to which the ratepayer is entitled in respect of the rate under sub-by-law (1).
- (3) A ratepayer supplied with water in excess of the quantity to which he is entitled under this by-law in return for his water rates shall pay the charge prescribed by Schedule 1 in respect of the excess.

- Metering of water. 10. (1) Where water is supplied by measure, other than to rated premises, private residences, or non-rateable hospitals, meter rent in accordance with the scale in item 2 of Schedule 2 shall be payable by the person supplied.
- (2) Where a meter is read at any time between 10 days before and 10 days after any specified date the quantity registered at the time of reading may be taken as the quantity registered by the meter at the specified date.
- (3) During the time a meter is undergoing repair or should it cease to properly register the consumption of water, the Authority or an officer appointed by the Authority may estimate the quantity of water consumed, by taking an average of the quantity used during any previous period, or by adopting any other basis of adjustment, as the Authority may determine, and the quantity so ascertained may be charged to the owner or occupier.
- Testing of meters. 11. (1) If a consumer is dissatisfied with the reading of a meter and wishes to have the meter tested he may, within 21 days of the receipt of notice from the Authority of a reading of the meter, give notice to the Authority requesting that a test be made.
- (2) Where a consumer requests pursuant to this by-law that a meter be tested and pays the charge prescribed in item 3 of Schedule 2 for testing that kind of meter, the Authority shall test the meter by passing through it a predetermined (known) quantity of water.
- (3) Where upon testing under this by-law the meter shows an error of 5% or more, then the reading prior to the notice requesting the test shall be adjusted accordingly, the consumer informed of the result of the test and the amended reading, and the Authority shall bear the expense of testing.
- (4) If upon testing the meter the Authority is satisfied that the meter is correct or that any error is of less than 5%, the Authority shall determine the expense of the testing and charge the expense to the consumer.

- Installation costs etc. 12. Except where the Authority agrees that the land is rateable and that the works are to remain as a means for the provision of a permanent service, the cost of installing and maintaining a service to the boundary of the land and affixing a meter shall be chargeable to the applicant or person on whose behalf the service is, or is to be, provided by the Authority.
- Disconnection and reconnection fees. 13. (1) Where a person requests the Authority to disconnect any service the Authority may—
