7. No buildings, caravan park bays, fixtures or obstructions which could restrict access to the water mains shall be located within the confines of the original right of way.

8. If any road or path made along or across the original right of way which contains the water main, and the Public Works Department needs to excavate through or otherwise disturb the road or path in order to effect maintenance or repairs to the water main, then that Department shall not be liable to carry out or meet the costs of any restoration work other than to backfill with soil to ground level.
9. The lessee shall be liable for all cost of repairs to the water main through the original right of way where such repairs are necessitated by damage occasioned by his development or use of the site.
