- (a) Land set aside under this Scheme for the purposes of a reservation is deemed to be reserved for the purposes indicated on the Scheme Map.
- (b) Except as otherwise provided in this Part a person shall not carry out any development on land reserved under this Scheme, other than the erection of a boundary fence, without first applying for and obtaining the written approval of the Council.
- (c) In giving its approval the Council shall have regard to the ultimate purposes intended for the reserve and shall in the case of land reserved for the purposes of a public authority confer with that authority before giving its approval.
- (d) No provision of this Part shall prevent the continued use of land for the use for which it was being lawfully used immediately prior to the Scheme having the force of law, or the repair and maintenance, for which the prior consent in writing of the Council has been obtained, of buildings or works lawfully existing on the land.

2.2 Compensation:

- (a) Where a Council refuses approval for the development of land reserved under the Scheme on the ground that the land is reserved for public purpose, or grants approval subject to conditions that are unacceptable to the applicant the owner of the land may, if the land is injuriously affected thereby, claim compensation for such injurious affection.
- (b) Claims for such compensation shall be lodged at the office of the Council not later than six months after the date of the decision of the Council refusing approval or granting it subject to conditions that are unacceptable to the applicant.

- (c) In lieu of paying compensation the Council may purchase the land affected by such decision of the Council at a price not exceeding the value of the land at the time of refusal or approval or of the grant of approval subject to conditions that are unacceptable to the applicant.

PART III—Zones and Policy Areas

3.1 Scheme Zones and Policy Areas: The Scheme area is divided into eight zones set out hereunder:

- Rural 1—Agriculture.
- Rural 2—General Farming.
- Rural 3—Chittering Valley.
- Special Rural.
- Residential.
- Special Residential.
- Commercial.
- Industrial.

The Scheme also defines Policy Areas within which Council will consider the establishment of Special Rural Zones if Council is satisfied that a proposal for subdivision and development will achieve the Scheme Objectives.

3.2 Objectives and Policies: The Scheme sets out against each zone a general statement of Council's development objectives for that zone, and development will be in accordance with the Policies and Land Use controls adopted for that zone by the Council.

3.3 Zoning Tables.

3.3.1 The Zoning Table which is set out for each zone lists the uses which are permitted within the zone, and where applicable the conditions if any under which such uses will be permitted.

3.3.2 Where in the zoning tables a particular use is mentioned it is deemed to be excluded from any use class which by its more general terms might otherwise include such particular use.

3.3.3 If the use of land for a particular purpose is not specifically mentioned in the zoning tables and cannot reasonably be determined as falling within the interpretation of one of the use categories the Council may:

- (a) Determine that the use is not consistent with the objectives and purpose of the particular zone and is therefore not permitted, or
- (b) Determine by absolute majority that the proposed use is consistent with the objectives and purpose of the zone and thereafter follow the procedures of Clause 4.2.2 in considering an application for Planning Consent and inclusion as a Special Use in Schedule 2.

3.4 Development of Zoned Land.

3.4.1 Subject to Clause 3.4.2 a person shall not commence or carry out development of any land zoned under this scheme without first having applied for and obtained the planning consent of the Council under this Scheme.

3.4.2 The Planning Consent of the Council is not required for the following development of land zoned under this Scheme:

- (a) Rural pursuits and works ancillary thereto;
- (b) The erection on a lot of a single dwelling house, including ancillary outbuildings, where that single dwelling house will be the only single dwelling house on that lot;
- (c) The carrying out of any works on, in, over or under a street or road by a public authority acting pursuant to the provisions of any Act;
- (d) The carrying out of works for the maintenance, improvement or other alteration of any building, being works which affect only the interior of the building or which do not materially affect the external appearance of the building;
- (e) The use of any buildings or land within the curtilage of a dwelling for any purpose incidental to the enjoyment of the dwelling as such;
- (f) The carrying out of works urgently necessary in the public safety or for the safety or security of plant or equipment or for the maintenance of essential services;
- (g) The erection of a boundary fence.

3.5 Rural 1 Zone—Agriculture.

3.5.1 Objectives and Policies: Council's objective is to ensure continuation of the basic rural use, whilst recognising that, because of proximity to the Metropolitan Area and to the district's transportation system, some development of non-rural uses, and some measure of more intensive settlement may be appropriate and should be supported in the interests of the Shire's overall economy.

Council Policy will therefore be to:

- (a) Support the utilisation of land for more intensive rural use where topography and soils are such as to be appropriate for this use;
- (b) Consider granting planning consent to non-rural uses where these can be demonstrated to be of benefit to the district and not detrimental to the area's water resources and environment generally;
- (c) Permit, subject to planning consent, development providing facilities for tourists and travellers, and for recreation.

3.5.2 Permitted Uses: Within the zone, no use will be permitted other than those listed in Table 1 hereunder, and permitted uses will be subject to the conditions set out opposite the use.

Table 1—Zoning Table

Use	Conditions
Rural Pursuit Dwelling Public Utility	Subject to compliance with any conditions of the Scheme relevant to the use.

3.5.3 Muchea Townsite: On any lot zoned Rural 1 within the Muchea Townsite:

- (a) The Council may take any action necessary to reduce or eliminate adverse effects on the environment caused solely or partly by stocking of animals or development, and any costs incurred by Council in taking such action shall be recoverable by Council from the landowner.
- (b) Unless the Consent of Council is first obtained, no indigenous trees may be felled or removed except as hereunder:
 - Trees which are dead, diseased or are dangerous, or
 - For the purpose of a firebreak required by a regulation or by-law,
 - For the purpose of access to a lot or for a boundary fence.

3.6 Rural 2 Zone—General Farming.

3.6.1 Objectives and Policies: Council's objective is to ensure that agricultural use remains the primary activity within the zone whilst recognising that some measure of tourist and recreational activity may be desirable to fully utilise the District's potential.

Council Policies will therefore be to permit, subject to planning consent, development providing facilities for tourists, travellers and recreation.

3.6.2 Within the zone, no use will be permitted other than those listed in Table 2 hereunder, and permitted uses will be subject to the conditions set out opposite the use.

Table 2

Use	Conditions

Caravan Park Holiday Accommodation Transport Depot Fuel Depot	Subject to Planning Consent and to advertisement under the provisions of Clause 4.2.2.
Extractive Industry	Subject to Planning Consent and to advertisement under the provisions of Clause 4.2.2 and to the provisions of Clause 6.3.
Special Use	Restricted to the use, and to the conditions approved by Council, listed in Schedule 2.

3.7 Rural 3 Zone—Chittering Valley.

3.7.1 Objectives and Policies: Council's objective is to support continued use of land within the zone for rural production and horticulture in particular, and to protect the area as a valuable water resource, whilst recognising the importance of the Chittering Valley, because of its specific landscape value, for tourism and recreational activity.

Council Policies will therefore be to:

- (a) Encourage retention and expansion, where appropriate, of present agricultural uses.
- (b) Consider granting Planning Consent to non-agricultural development or use which may be necessary or desirable to assist in agriculture or provide facilities for tourists and for recreation.
- (c) Critically assess any future development in the light of its possible effect on the zone's water resources and landscape.

3.7.2 Within the zone, no use will be permitted other than those listed in Table 3 hereunder and permitted uses will be subject to the conditions set out opposite the use.

Table 3—Zoning Table

Use	Conditions
Rural Pursuit Dwelling Public Utility Civic Use	Subject to compliance with any conditions of the Scheme relevant to the use.
Rural Industry Wayside Stall	Subject to Planning Consent.
Transport Depot Fuel Depot	Subject to Planning Consent and to advertisement under the provisions of Clause 4.2.2.
Extractive Industry	Subject to Planning Consent and advertisement under the provisions of Clause 4.2.2, and to the provisions of Clause 6.3.
Special Use	Restricted to the use, and to the conditions approved by Council, listed in Schedule 2.

3.8 Special Rural Zone.

3.8.1 Objectives and Policies: Council's Objective is to ensure that development within Special Rural Zones, resulting in increased residential, rural and recreational use, takes place with the least possible detrimental effect on the Shire's social and economic structure, its rural landscape and the environment generally.

Council's Policy will therefore be to:

- (a) Restrict Special Rural development to Policy Areas located within the District so as to minimise the effect on the rural economy and character, to be clearly associated with an existing adequate road system, and to assist in consolidation of established closed settlement patterns;
- (b) Require that submissions for re-zoning achieve the Scheme Objectives by:

Achieving satisfactory development within the Policy Area as a whole by showing the way in which the proposal will conform to an overall road and access structure and to an overall system of reserves and tree protection areas.

Protecting the environment of the Brockman River, Lake Needonga and Lake Chittering by, where appropriate, providing additional reserves associated with the lakes, by ensuring that pollution of the lake system will be minimised, or by other measures if the environment of the lakes seems likely to be affected by the proposed development.

Protecting the character of the landscape by closely relating matters such as the range of lot sizes and lot layout to a close and critical analysis of the landforms, soil types, topography, tree cover and visual characteristics.

Minimising the difficulties of fire control by demonstrating that the subdivision and development by its design and/or its management policies can satisfactorily ameliorate fire risk and allow adequate control of bushfire.

Ensuring adequate conditions for occupation of individual holdings by demonstrating the means by which it is proposed that each lot may obtain a supply of water adequate for domestic use and for such stock or other uses reasonably consistent with occupation appropriate to good land management practice.

Preserving the visual amenity of the area by nominating tree preservation areas and building envelopes for each lot within a subdivision.

Avoiding deterioration of the land by identifying areas of actual or incipient soil erosion or soil salinity and proposing measures which should be taken to rectify or ameliorate such problems.

- (c) Ensure that submissions for rezoning or development conform to the requirements of Schedule 4.
- (d) Prepare, or cause to be prepared, and adopt a structure plan for a Policy Area or for any portion of a Policy Area where it considers that orderly planning of an area requires this to be done, and upon adoption by the Council and the State Planning Commission of a structure plan, proposals for subdivision and development shall conform to the requirements of the plan or any variation therefrom as may be acceptable to the Council and the Commission.

3.8.2 Rezoning and Subdivision Applications: Following receipt of an application for rezoning or subdivision in a Policy Area the Council will:

- (a) Consider whether development on other subdivisions (if any) within the Policy Area is satisfactory.
- (b) Consider whether the requirements of Schedule 4 have been adequately covered in the submission.
- (c) Consider whether Council's objectives and policies have been achieved.
- (d) If it considers desirable refer the applications or so much of it as is considered necessary to adjoining land-owners who may be affected by the proposal.

- (e) If it considers desirable refer the application to any Local Group or Society or Statutory Authority who may in the opinion of Council be competent by reason of specialised knowledge to offer advice or comment.
- 3.8.3 Determination of Application:**
- (a) Upon determination of any of the matters or on receipt of any advice or comment referred to in Clause 3.8.2 Council may require a submission to be amended or if a proposal is considered to be satisfactory Council may resolve to initiate a rezoning to Special Rural with or without any conditions which Council consider necessary or desirable.
- (b) Following its agreement to initiate rezoning under the provisions of this clause, Council will require application to be made to the State Planning Commission for approval to subdivision of the proposal upon which its agreement was based including any amendments which may be required.
- (c) If an application to subdivide under the provisions of this clause is not lodged with the State Planning Commission or if an application so made differs materially from the proposals on which Council agreed to initiate rezoning, Council will during the advertisement period of the rezoning lodge an objection to the rezoning or at the appropriate time resolve not to proceed with the rezoning.
- 3.8.4 Adoption of Plan:**
- (a) Prior to final approval of a plan of subdivision Council will require the applicant to lodge with the Council a copy of the plan of subdivision on which are shown the building envelopes and tree preservation areas previously proposed and agreed to by the Council.
- (b) Upon lodging of the plan Council will adopt such plan as part of this Scheme in order to implement controls over the area which is the subject of the plan.
- 3.8.5 Variation to Plan:** Notwithstanding the provisions of this Scheme and what may be shown on a plan of subdivision submitted in accordance with Clause 3.8.4, the State Planning Commission may after consultation with the Council approve a minor variation to a subdivisional design but further breakdown of lots so created shall be deemed to be contrary to the provisions of the Scheme.
- 3.8.6 Tree Preservation:**
- (a) Land within the zone adjoining roads shown on the Scheme Map as Highways or Major Roads is for the purpose of this Scheme designated as Tree Preservation Area to a depth of:
From Highways—50 metres from road frontage.
From Major Roads—20 metres from road frontage.
- (b) Areas proposed for Tree Preservation Areas must be shown on the Maps lodged with Council under the provisions of Clause 3.8.4 of this Scheme and in addition to those areas referred to in the preceding clause should include areas contiguous to creeks and water courses and critical landscape elements and skylines.
- (c) Within land designated on a plan lodged with the Council under the provisions of this clause as Tree Preservation Area no indigenous trees or scrub or other substantial vegetation may be felled or removed except as hereunder:
Trees which are dead, diseased or are dangerous, or
For the purpose of a firebreak required by a regulation or by-law except that in order to preserve the amenity of the area Council may at its discretion vary the position of any required firebreak to avoid destruction of vegetation.
- (d) Elsewhere within a Policy Area no trees or indigenous vegetation shall be removed without consent of Council who in considering approval to clearing of trees or vegetation will consider the purpose to which the land is to be put and the possible effects on the area's amenity and soil stability.
- 3.8.7 Buildings:** Notwithstanding the provisions of the Uniform Building By-laws 1974, not more than one dwelling house will be permitted on a lot within the zone.
- 3.8.8 Building Setbacks:** No building on a lot may be erected closer to the frontage of that lot than:
- (a) From the frontage to roads shown on the Scheme Map as Highways—50 metres.
- (b) From the frontage to roads shown on the Scheme Map as Major Roads—30 metres.
- (c) From the frontage of other roads—20 metres.
- 3.8.9 Building Envelopes:**
- (a) Any buildings on a lot in a Special Rural Zone must be erected within the Building Envelope defined on plan lodged with the Council under the provisions of this Scheme.
- (b) Notwithstanding the provisions of this clause Council may permit the erection of buildings on a lot in areas other than those contained within the building Envelope if it is shown to the satisfaction of Council at the time of application for a building permit that the proposed location will be less detrimental to the preservation of the landscape or to the environment than if it were sited within the Building Envelope.
- 3.8.10 Occupation of Buildings:**
- (a) No building on a lot within a zone may be occupied as a residence unless such building has been approved by Council as a residence in conformity with its by-laws currently in force or any variation therefrom approved by Council.
- (b) Notwithstanding the provision of this clause the Council may permit temporary occupation of a building which does not conform to its building by-laws under such conditions as it thinks fit provided that the Council has at the same time approved construction of a residence on the lot.
- 3.8.11 Water Supply:** All buildings within the zone intended for residence except those occupied on a temporary basis under the provisions of Clause 3.8.10 must provide for the catchment of water from the roof of buildings in suitable storage tanks of minimum capacity of 86 000 litres, or be connected to a reticulated water supply system, or other supply of potable water of satisfactory quality approved by Council.
- 3.8.12 Amenity:**
