BUSH FIRES ACT 1954

Shire of Boyup Brook

Firebreak Order, 1987-1988

IMPORTANT information relating to your responsibility as a landholder in the Boyup Brook Shire.

With reference to section 33 of the Bush Fires Act 1954, you are required to carry out fire prevention work on land owned or occupied by you in accordance with the provisions of this Order.

This work must be carried out by 30 November 1987 unless approved otherwise, and kept maintained throughout the summer months until 15 April 1988.

An inspection of firebreaks will be carried out in all areas of the Shire by an authorised Officer.

Persons who fail to comply with the requirements of this order may be issued with an infringement notice (Penalty \$40) or prosecuted, and additionally, council may carry out the required work at cost to the owner or occupier.

If it is considered for any reason to be impractical to clear firebreaks or remove flammable materials, as required by this notice, or if natural features render firebreaks unnecessary, you may apply to the council in writing not later than 1 November 1987, for permission to provide firebreaks in alternative positions or to take alternative action to abate fire hazards on the land, if permission is not granted by the Council, you shall comply with the requirements of this notice.

Rural Land—

- (a) Firebreaks are to be installed with 100 metres of the crop perimeter, unless alternative positioning has been approved by using either of the following methods when crops are to be harvested for grain:—

- 1. a 2.5-metre firebreak inside the crop paddock.
- 2. a 2.5-metre firebreak in the adjoining paddock.

Persons not intending to harvest crops must notify the Council Officer in writing by 30 November, 1987.

- (b) firebreak 2.5 metres wide shall be cleared not less than 20 metres and not more than 100 metres from the perimeter of all homesteads, buildings, haystacks and fuel storage areas by 30 November 1987, and the area between the firebreaks and the building or haystack cleared of all flammable material by 15 November 1987.

Pine Plantations.

Any pines planted for commercial purposes constitutes a pine plantation and you are hereby required to clear of all flammable materials, firebreaks not less than 50 metres wide around the perimeter of each plantation, and any plantation exceeding 50 hectares will also require a subdivisional firebreak of 50 metres in width for each 50 hectares.

Townsites.

On or before 15 December 1987, all town lots other than those zoned Rural or Special Rural under the Shire of Boyup Brook Town Planning Scheme No. 1, 4 000 square metres or less in area and all Fuel Depots within the Shire are required to be cleared of all debris and flammable material. Lots 4 000 square metres and over not zoned Rural or Special Rural are to have a minimum 2.5-metre firebreak installed around all external boundaries.

Lots zoned Rural or Special Rural under the Shire of Boyup Brook Town Planning Scheme No. 1 must comply to the Rural Land Firebreak Order.

Special Note to Landowners and Occupiers.

The Council forwards a copy of this firebreak order with rate assessments each year. The notice is also published in *The Warren Blackwood Times* and *Government Gazette* and additional copies are obtainable at the shire office counter.

The requirements of this Order are considered to be the minimum standard of fire prevention work required to protect not only individual properties, but the district generally. In addition to the requirements of this Order, Council may issue separate special orders on owners or occupiers if hazard removal is considered necessary in some specific areas.

By Order of the Council,
A. J. R. DOUST,
Shire Clerk.

- (b) Where the area of land exceeds 2 100 square metres (approximately ½ acre), clear firebreaks not less than three metres wide, immediately inside and along all external boundaries of the property.
