## ENVIRONMENTAL PROTECTION AUTHORITY

## Draft Environmental Protection Policy 1989 (Ozone-depleting Substances)

THE Environmental Protection Authority (EPA) has prepared a draft Environmental Protection Policy to control the release into the environment of specific ozone-depleting chlorofluorocarbons used as refrigerants in refrigeration and air-conditioning equipment—trichlorofluoromethane (CCl<sub>3</sub>F) otherwise known as “refrigerant R11”.

dichlorodifluoromethane (CCl<sub>2</sub>F<sub>2</sub>) otherwise known as “refrigerant R12”.

The Policy will—

require that releases of R11 and R12 be minimised whilst servicing refrigeration or air-conditioning equipment.

prohibit the transfer of R11 and R12 between transportable containers outside premises licensed by the EPA.

prohibit the mixing of different refrigerants.

require those who import into the State to notify the EPA of such quantities imported.

In combination with other legislative changes, a likely effect of the Policy will be that a recycling operation for R11 and R12 is established in Western Australia.

Copies of the Draft Policy and explanatory notes may be obtained free of charge from the following Environmental Protection Authority offices—

1 Mount Street, Perth, 6000 Tel (09) 222 7000, or 57 Murray Street, Perth 6000.

SGIO Building, Welcome Road, Karratha 6000 Tel (091) 86 8292.

165 Gilmore Avenue, Kwinana, 6167 Tel (09) 419 5500.

The Court House Building, 65 Wittenoom Street, Bunbury 6230

Interested persons and organisations are invited to submit written comments by 5pm, Monday, 3 July 1989 to—

Chief Executive Officer, Environmental Protection Authority, 1 Mount Street WA 6000, Attention: Mr David Pitt.

## ENVIRONMENTAL PROTECTION ACT 1986

ENVIRONMENTAL PROTECTION (OZONE-DEPLETING  
SUBSTANCES) POLICY 1989

APPROVED by the Minister under section 31 (d).

## Part I—Preliminary

**Citation**

1. This environmental protection policy may be cited as the *Environmental Protection (Ozone-depleting Substances) Policy 1989*.

**Purpose of environmental protection policy**

2. The purpose of this environmental protection policy is to minimize the emission into the environment of ozone-depleting substances—

(a) used in cooling equipment; or

(b) transferred between containers and cooling equipment elsewhere than in licensed premises,

and, in so doing, to help to protect the living environment from being harmed by increasing amounts of ultraviolet radiation reaching the surface of the Earth as a result of the reduction of the quantity of ozone present in the upper atmosphere caused by the release of ozone-depleting substances.

**Interpretation**

3. In this environmental protection policy, unless the contrary intention appears—

“cooling equipment” means device which uses the recirculation of an ozone-depleting substance through an evaporation and condensation cycle in order directly or indirectly to cool—

(a) the ambient environment within wholly or partly enclosed spaces; or

(b) any object or objects;

“licensed premises” means premises in respect of which a licence relating to the repackaging or sale of ozone-depleting substances is in force;

“ozone-depleting substance” means—

(a) trichlorofluoromethane (CCl<sub>3</sub>F) (otherwise known as “refrigerant R11”) alone or in a mixture comprising more than 15% by mass of trichlorofluoromethane; or

(b) dichlorodifluoromethane (CCl<sub>2</sub>F<sub>2</sub>) (otherwise known as “refrigerant R12”) alone or in a mixture comprising more than 15% by mass of dichlorodifluoromethane;

“reclamation equipment” means device—

(a) designed to remove an ozone-depleting substance from cooling equipment with little or no emission of the ozone-depleting substance into the environment; and

(b) available in Australia to persons carrying on the business of servicing cooling equipment;

“service” means any form of action in respect of cooling equipment (other than normal use of cooling equipment for the purpose for which it was designed) that leads, or is capable of leading, to the emission of an ozone-depleting substance into the atmosphere.

**Application**

4. This environmental protection policy applies throughout the State.

## Part II—Protection of Ozone Layer

**Servicing of cooling equipment**

5. (1) A person who services an item of cooling equipment shall—
- (a) in so doing, if the design and operability of that item are capable of preventing the emission of the ozone-depleting substance contained in that item into the environment (whether with or without the use of reclamation equipment), ensure that that emission is prevented; and
  - (b) in transferring an ozone-depleting substance to or from that item, ensure that none of the ozone-depleting substance is emitted into the environment.
- (2) A person does not contravene subclause (1) if the relevant ozone-depleting substance is emitted into the environment—
- (a) when reclamation equipment is being used, only in amounts to be expected with—
    - (i) the reclamation equipment working properly and being used in accordance with the instructions of its manufacturer; and
    - (ii) the cooling equipment working properly and in accordance with its design specifications;
  - (b) when reclamation equipment is not being used, only in amounts to be expected with the cooling equipment working properly and in accordance with its design specifications;
  - (c) during the transfer of an ozone-depleting substance to or from the cooling equipment, only in amounts to be expected during the execution, in accordance with good current cooling equipment servicing practice relating to the minimization of the emission of ozone-depleting substances into the environment, of such a transfer; or
  - (d) through leaks caused by the failure, which cannot reasonably be foreseen or prevented, of the cooling equipment or reclamation equipment.
- (3) A person who—
- (a) contravenes subclause (1); or
  - (b) services cooling equipment otherwise than in accordance with good current cooling equipment servicing practice relating to the minimization of the emission of ozone-depleting substances into the environment,
- commits an offence.

**Filling of transportable containers with ozone-depleting substances**

6. A person who fills a transportable container with an ozone-depleting substance otherwise than in accordance with Australian Standard AS 2030.1—1985 entitled "The Approval, Filling, Inspection, Testing and Maintenance of Cylinders for the Storage and Transport of Compressed Gases: Part 1—Cylinders for Compressed Gases other than Acetylene" commits an offence.

**Filling of containers with incorrect substances**

7. (1) A person who fills a container, the label attached to which indicates (whether in writing, by use of a colour code, pictorially or in some other manner) that the container should contain only a particular ozone-depleting substance—
- (a) in pure form, with a substance other than that ozone-depleting substance in that form; or
  - (b) in contaminated form, with a substance other than that ozone-depleting substance in pure or contaminated form,
- commits an offence.
- (2) In subclause (1) (b)—
- "contaminated" means contaminated through use in cooling equipment operated normally.

**Transfers of ozone-depleting substances between certain containers**

8. A person who transfers an ozone-depleting substance from one container to another container commits an offence if—
- (a) neither container forms part of cooling equipment; and
  - (b) the premises on which that transfer takes place are not licensed premises.

## Part III—General

**Certain importers of ozone-depleting substances to furnish returns**

9. (1) A person (not being a licensee in respect of the repackaging or sale of ozone-depleting substances) who imports into the State—
- (a) within the period of 3 months commencing on 1 October 1989 an ozone-depleting substance for use in cooling equipment shall furnish to the Chief Executive Officer on or before 31 January 1990; or
  - (b) within the period of 6 months commencing on—
    - (i) 1 January in each successive year after 1989 an ozone-depleting substance for use in cooling equipment shall furnish to the Chief Executive Officer on or before 31 July in that year; or
    - (ii) 1 July in each successive year after 1989 an ozone-depleting substance for use in cooling equipment shall furnish to the Chief Executive Officer on or before 31 January of the year next following that year,
- a return in writing specifying the quantity of the ozone-depleting substance so imported within that period.
- (2) A person who contravenes subclause (1) commits an offence.

**Penalties**

10. (1) An individual who is convicted of an offence under clause 5, 6, 7, 8 or 9 is liable to a maximum penalty not exceeding \$5 000 and, if the offence is a continuing offence, to a daily penalty not exceeding \$1 000.
