- (a) To provide a location for diverse industries that would otherwise have a detrimental impact on the other uses in the town.
- (b) To provide a location where separate vehicular access is provided.
- (c) To provide a location for depots, warehouses, and large vehicle parking and servicing areas.

3.2.4 Special Use Zone

The use of land in the Special Use Zone shall be consistent with the following objectives—

- (a) To provide a zone where special uses can be operated under the specific control of Council in order to maintain the safety, health and welfare of surrounding users.
- (b) To enable the Council to impose specific conditions to restrict the use and operation of any development that would normally not fit within the ambit of any other zone in this Scheme.

3.2.5 Rural Zone

The use of land in the Rural Zone shall be consistent with the following objectives—

- (a) The zone shall consist of predominantly rural uses.
- (b) To protect land from urban uses that may jeopardise the future use of that land for other planned purposes which are compatible with the Rural Zoning.
- (c) To protect the land from closer development which would detract from the rural character and amenity of the area.
- (d) To prevent any development which may affect the viability of a rural holding.

3.3 Zoning Table

3.3.1 The Zoning Table indicates, subject to the provisions of the Scheme, the several uses permitted in the Scheme Area in the various zones, such uses being determined by cross reference between the list of use classes on the left hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

3.3.2 The symbols used in the cross reference in the Zoning Table have the following meanings—

'P' means that the use is permitted provided it complies with the relevant standards and requirements laid down in the Scheme and all conditions (if any) imposed by the Council in granting planning consent.

'AA' means that the Council may, at its discretion, permit the use.

'SA' means that the Council may, at its discretion, permit the use after notice of application has been given in accordance with Clause 6.2.

3.3.3 Where no symbol appears in the cross reference of a use class against a zone in the Zoning Table a use of that class is not permitted in that zone.

3.3.4 Where in the Zoning Table a particular use is mentioned it is deemed to be excluded from any other use class which by its more general terms might otherwise include such particular use.

- 3.3.5 If the use of land for a particular purpose is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the interpretation of one of the use classes, the Council may—
- determine that the use is not consistent with the objectives and purpose of the particular zone and is therefore not permitted; or
 - determine by absolute majority that the proposed use may be consistent with the objectives and purposes of the zone and thereafter follow the advertising procedures of Clause 6.2 in considering an Application for Planning Consent.

PART IV NON-CONFORMING USES

4.1 Non-Conforming Use Rights

No provision of the Scheme shall prevent—

- (a) the continued use of any land or building for the purpose for which it was being lawfully used at the time of coming into force of the Scheme; or
- (b) the carrying out of any development thereon for which, immediately prior to that time, a permit or permits, lawfully required to authorise the development to be carried out, were duly obtained and are current.

4.2 Extension of Non-Conforming Use

A person shall not alter or extend a non-conforming use or erect, alter or extend a building used in conjunction with a non-conforming use without first having applied for and obtained the planning consent of the Council under the Scheme and unless in conformity with any other provisions and requirements contained in the Scheme.

4.3 Change of Non-Conforming Use

Notwithstanding anything contained in the Zoning Table the Council may grant its planning consent to the change of use of any land from one non-conforming use to another use if the proposed use is, in the opinion of the Council, less detrimental to the amenity of the locality than the non-conforming use and is, in the opinion of the Council, closer to the intended uses of the zone or reserve.

4.4 Discontinuance of Non-Conforming Use

4.4.1 When a non-conforming use of any land or building has been discontinued for a period of six months or more such land or building shall not thereafter be used otherwise than in conformity with the provisions of the Scheme.

4.4.2 The Council may effect the discontinuance of a non-conforming use by the purchase of the affected property, or by the payment of compensation to the owner or the occupier or to both the owner and the occupier of that property, and may enter into an agreement with the owner for that purpose.

4.5 Destruction of Buildings

If any building is, at the gazettal date, being used for a non-conforming use, and is subsequently destroyed or damaged to an extent of 75% or more of its value, the land on which the building is built shall not thereafter be used otherwise than in conformity with the Scheme, and the buildings shall not be repaired or rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner or position not permitted by the Scheme.

PART V DEVELOPMENT REQUIREMENTS

Prior to considering any development or subdivision in the Special Design Area the Council will prepare, or require to be prepared, a plan of the overall proposed development for the area. Approval of Council and the Commission must be sought with regard to a plan prepared within a Special Design Area.

This plan shall include—
