- (b) Incorporating the land within the "Schedules relating to additional requirements and modifications to the Provisions of the Scheme Text for Special Rural Zones" at Appendix 1 of the Scheme as follows.

Area No. Wheatley Coast Road, Northcliffe.

Special Provisions

- (i) Subdivision of Special Rural Zone No. 9 shall be generally in accordance with "Plan of Subdivision No. 9" as endorsed by the Shire Clerk.
- (ii) (a) The following use is permitted—
'P' within Special Rural Zone No. 9 Dwelling House and Outbuildings.
- (b) The following uses are not permitted unless approval is granted by Council 'AA'—
Home Occupation; Rural Pursuit; Private Recreation; Public Utility; Cottage Industry
- (c) All other uses not mentioned in (a) and (b) are not permitted 'X'.
- (iii) The plan of subdivision shows building envelopes. No habitable building shall be built outside the area defined by the building envelope.
- (iv) The subdivision also shows effluent disposal areas where these are not contiguous with the building envelopes. No septic tank or leach drain shall be constructed outside the effluent disposal area.
- (v) Council permit a building envelope to be relocated provided Council is satisfied that the relocation maintains high standards of environmental planning including the maintenance of trees, the siting of effluent disposal systems and spatial separation from neighbouring envelopes.
- (vi) No building, outbuilding or fence shall be constructed of materials or be of a colour which in the opinion of Council is detrimental to the character or natural landscape of the locality.
- (vii) All buildings constructed shall by virtue of materials and design be reasonably fire resistant. The Council shall from time to time specify its standards for fire resistant buildings.
- (viii) No soil, rock or gravel reasonably suspected of being affected by plant disease and no declared plant or animal shall be introduced into the Special Rural Zone.
- (ix) Plan of Subdivision No. 9 shows the location of crossover entries to properties relying on Wheatley Coast Road for access. Access to Wheatley Coast Road shall not be provided at any other location. Where lots have alternative access available (other than Wheatley Coast Road) such access shall be used to the exclusion of all access to Wheatley Coast Road.
- (x) The Plan of Subdivision shows the location of Strategic Firebreaks which shall be developed and maintained in accordance with the Fire Management Plan.

- (xi) No dwelling house shall be constructed unless a domestic water supply consisting of at least an adequate roof catchment area, and a water storage tank of not less than ninety two thousand (92 000) litres is incorporated in the plans and specifications of the building and constructed at the same time as the building provided that the Shire may relax this requirement if it is satisfied that there is an adequate natural supply of potable water available on the site.
- (xii) A well licence must be obtained from the Water Authority of Western Australia prior to construction of a well or bore to draw groundwater.
- (xiii) The land is to be managed in such a manner so as to avoid the land being laid bare of vegetation resulting in loose, wind erodable conditions. For the said vegetation that has to be removed to make way for housing, fences, fire breaks, outbuildings and access way construction, the Council's approval shall be deemed as Council's written consent to remove vegetation. Clearing for all other purposes is to be contained within the building envelope.
- (xiv) The keeping of livestock will not be permitted unless the applicant can demonstrate to Council that the animals are correctly yarded and lots will be managed in a manner to ensure that the soil and vegetation are not denuded.
- (xv) It is considered essential that the following Stream Protection Area provisions be applied as a means of watercourse and water resource management of the stream which traverses the lot in question. The provisions are to apply to an area with the minimum width of 10 metres, measured outwards from the top of both banks of the watercourses as marked on the Plan of Subdivision No. 9.
 - (a) No new dams, artificial retention of flow, pumping, diversion of water or modification of stream course, bed or banks without Water Authority approval.
 - (b) The activities of stock to be controlled such that the problems of erosion, pollution and vegetation degradation do not occur.
 - (c) A no spray (pesticide/herbicide), non-cultivation and non-nitrogenous fertiliser application buffer of 50 metres from the watercourse, shall be established on all land within the amendment area.
