- 2.2 In order to achieve this Objective, Council's Policies will be to:
 - (a) consider rezoning land to Special Rural on the basis of adequately prepared submissions for rezoning and development;
 - (b) ensure that applications for rezonings conform to the requirements of Schedule 2;

- (c) require that applications for rezoning be accompanied by a plan of proposed subdivision prepared in accordance with the provisions of the Scheme Map and any other relevant conditions of the Scheme;
- (d) support applications which demonstrate an adequate concern for sound environmental and land management principles;
- (e) control land uses within Special Rural Zones in accordance with sound land management principles so as to prevent detrimental effects on the environment.

Part 3—Reserves

3.1 Local Authority Scheme Reserves

The lands shown as Local Authority Scheme Reserves on the Scheme Map, hereinafter called "Local Reserves" are lands reserved under the Scheme for Local Authority purposes or for the purposes shown on the Scheme Map.

3.2 Matters to be Considered by Council

3.3 Compensation

3.3.1 Where the Council refuses Planning Consent for the development of a Local Reserve on the ground that the land is reserved for Local Authority purposes or for the purposes shown on the Scheme Map, or grants consent subject to conditions that are unacceptable to the applicant the owner of the land may, if the land is injuriously affected thereby, claim compensation for such injurious affection.

3.3.2 Claims for such compensation shall be lodged at the office of the Council not later than six months after the date of the decision of the Council refusing Planning Consent or granting it subject to conditions that are unacceptable to the applicant.

3.3.3 In lieu of paying compensation the Council may purchase the land affected by such decision of the Council at a price representing the unaffected value of the land at the time of refusal of Planning Consent or of the grant of consent subject to conditions that are unacceptable to the applicant.

Part 4—Policy Areas and Zones

4.1 Policy Areas

- (b) consider whether Council Objectives and Policies will be achieved;
- (c) consider whether the requirements of Schedule 2 and any other Scheme requirements have been adequately covered in the submission;
- (d) require that a subdivision proposal forming part of a submission be prepared in accordance with the provisions of this part and showing thereon:
 - proposed roads and lots;
 - proposed tree preservation areas where required by Council;
 - proposed building envelope for each lot where required by Council;
 - proposed access points to each lot from the road system;
 - strategic firebreaks or other bush fire control measures;
 - the name of the estate which is the subject of the application and the proposed lot number as agreed by Council for each lot within the subdivision;
 - any other requirement of Council.

5.1.2 Upon determination of any of the matters referred to in Clause 5.1.1 Council may require a submission to be amended or if a proposal is considered to be satisfactory Council may resolve to initiate a rezoning to Special Rural with or without any conditions which Council consider necessary or desirable.

5.1.3 Following its resolution to initiate rezoning under the provisions of this part Council will require application to be made to the State Planning Commission for approval to any subdivision upon which its agreement was based including any amendments which may be required.

5.1.4 If an application for approval to subdivide made under the provisions of the preceding clause is not lodged with the State Planning Commission or if an application so made differs materially from the proposal on which Council agreed to initiate rezonings, Council may during the advertisement period of the rezoning lodge an objection to the rezoning or at the appropriate time resolve not to proceed with the rezoning.

5.1.5 Prior to final approval of a plan of subdivision Council will require the applicant to lodge with the Council a copy of the plan of subdivision on which is shown any tree preservation areas, building envelopes, lot access points, and effective Fire Management Provisions which have been previously agreed to by Council.

5.1.6 Upon lodgement of the plan Council will adopt such plan as part of the Scheme in order to implement controls over the area which is the subject of the plan.

5.1.7 Notwithstanding the provisions of this Scheme and what may be shown on a plan of subdivision lodged in accordance with this clause, the State Planning Commission may after consultation with the Council approve a minor variation to the subdivision. Further breakdown of lots shall be deemed to be contrary to the provisions of the Scheme.

Each lot in a subdivision proposal made as part of a rezoning submission or made subsequent to rezoning must be shown to:

- (a) be of a size and shape to adequately provide for proper utilisation of the lot for the purpose envisaged;

- (b) have boundaries adequately related to the topography and the environment so as to permit fencing which will not be unduly intrusive onto the landscape or result in unnecessary destruction of trees or cause problems of soil erosion and site deterioration;
 - (c) allow an appropriate building envelope to be defined on the lot so as to give adequate site flexibility, suitable building conditions, protection of the landscape, adequate visual screening, and consideration of visual exposure from the general environs of the area.
- 5.3 Tree Preservation and Enhancement
- 5.3.1 Tree preservation areas shown on the plan of subdivision required under the provisions of Clause 5.1.5 must be defined so as to:
 - (a) protect and preserve areas of landscape significance, ridge lines and stream lines, as defined on the Scheme Map;

- 5.4 Building Envelopes
- 5.4.1 Building envelopes shown on a plan of subdivision, required under the provision of Clause 5.1.5, must be designed and located so as to:

 - (b) exclude areas which for reasons of slope, soil type or other ground conditions may cause instability of buildings or erosion;
 - (c) be capable of suitable screening by trees or vegetation either existing or established if required under the provisions of the Scheme;
 - (d) be defined on the plan by measurement from the boundaries of a lot.
- 5.4.2 Building envelopes may be located so as to promote the clustering of buildings on adjoining lots if it is considered that by such means additional protection of the landscape may be achieved.
- 5.4.3 Buildings on a lot in the Special Rural Zone must be contained within the Building Envelope defined on the adopted plan for that lot, but notwithstanding the provisions of this clause, Council may permit a variation in the requirements of the approved plan if it is shown to the satisfaction of Council at the time of application for Planning Consent that a proposed relocation of a building envelope is desirable or necessary.
- 5.5 Lot Access
- 5.5.1 Lot access points shown on a plan of subdivision, required under the provisions of Clause 5.1, must be located so as to:
 - (a) provide adequate access to the lot which it serves and in this respect a common access point may be provided to two adjoining lots;
 - (b) provide a safe relationship to the geometric characteristics of the road pavement adjoining and in the immediate vicinity of the lot.
- 5.5.2 Access to a lot shall be confined to the access point shown on the approved plan of subdivision, but notwithstanding the provisions of this clause Council may permit a variation in the requirements of the approved plan if it is shown to the satisfaction of Council that a proposed relocation of an access point is desirable or necessary while still providing adequate and safe access.
- 5.6 Control of Bush Fires
- Bush fire control measures shown on a plan of subdivision required under the provisions of Clause 5.1.5, or supporting documents shall be prepared after consultation with the Bush Fires Board and:

- (a) Land within areas shown as watercourses or stream lines shall be protected by means of either a reservation or a tree preservation area, of a width to be determined by Council at the time of application.
- (b) Areas shown as being of Landscape Importance must, if Council so require, be the subject of a specific detailed landscape study to ensure that development may be located and controlled so as to minimally intrude onto the landscape and Council may require specific measures of landscape augmentation to be carried out.
- (c) Subdivision proposals over ridge lines shown on the Scheme Map must be designed such that buildings or other improvements can be excluded from areas within a vertical distance of 20 metres from the ridge line, unless Council agrees to a variation therefrom.
- (d) Within areas shown on the Scheme Map as requiring landscape augmentation or in areas which Council considers to be deficient in tree cover Council may require the planting and maintenance for a period not less than two years of trees of approved species and to a landscape plan based on a proposed subdivision and approved by Council.
- (e) Notwithstanding any other requirement of the State Planning Commission concerning the size of lots within any Special Rural Zone, in areas so marked on the Scheme Map overlays the minimum lot size shall be 4 hectares.

5.8 Reservations and Open Space

- 5.8.1 Upon subdivision, reservations may be required to be set aside over areas of environmental significance including stream lines, areas of particular landscape importance or prominence or as extension to existing reserves where these abut the subdivision.
- 5.8.2 In accordance with the requirements of Schedule 2 it will be the responsibility of an applicant for rezoning and subdivision to identify clearly areas of environmental significance and to show that such areas have been satisfactorily incorporated into the overall development.
- 5.8.3 Within a proposed subdivision Council may require areas of land of size and dimensions adequate for the required purpose to be set aside for recreation and other public purposes and adequate access provided thereto.
