

WESTERN
AUSTRALIAN
GOVERNMENT
Gazette

PERTH, TUESDAY, 11 FEBRUARY 1992 No. 20

PUBLISHED BY AUTHORITY G. L. DUFFIELD, GOVERNMENT PRINTER AT 3.30 PM

Publishing Details

The Western Australian *Government Gazette* is published by State Print for the State of Western Australia on Tuesday and Friday of each week unless disrupted by Public Holidays or unforeseen circumstances (changes to this arrangement will be advertised beforehand on the inside cover).

Special *Government Gazettes* and Extraordinary *Government Gazettes* are published periodically, only the special gazettes are included in the subscription price.

The following guidelines should be followed to ensure publication in the *Government Gazette*.

- Material submitted to the Executive Council for gazettal will require a copy of the signed Executive Council Minute Paper and the Parliamentary Counsel's Certificate.
- Copy should be received by the Manager, Law Publisher no later than 3.00 p.m. on Wednesday (Friday edition) or 3.00 p.m. on Friday (Tuesday edition).
- Lengthy or complicated notices should be forwarded several days before advertised closing date for copy. This is to ensure inclusion in current edition. Failure to observe this request could result in the notice being held over until the following edition.
- Proofs will be supplied only when requested.
- No additions or amendments to material for publication will be accepted by telephone.

Send copy to:

The Manager,
Law Publisher
State Print
Station Street, Wembley, 6014
Telephone: 383 8851 Fax: 383 8888

Advertisers should note:

- All Notices should be written in 'plain English'.
- Signatures (in particular) and proper names must be legible.
- All copy should be typed and double spaced.
- If it is necessary through isolation or urgency to communicate by facsimile, confirmation is not required by post. If original copy is forwarded later and published, the cost will be borne by the advertiser.
- Documents not clearly prepared and in the required format for gazettal, will be returned to the sender unpublished.
- Late copy received at Law Publisher will be placed in the following issue irrespective of any date/s mentioned in the copy.

IMPORTANT NOTICE

CHANGE OF PUBLISHING DETAILS FOR 1992

Commencing in January 1992 the Government Gazette will be published at 3.30 pm on Tuesday and Friday of each week.

Tuesday publication:

Copy to be lodged at State Print, Wembley by 3.00 pm the preceding Friday; or

Copy to be lodged at State Government Bookshop, 815 Hay Street, Perth by 3.00 pm the preceding Thursday.

Friday publication:

Copy to be lodged at State Print, Wembley by 3.00 pm the preceding Wednesday; or

Copy to be lodged at State Government Bookshop, 815 Hay Street, Perth by 3.00 pm the preceding Tuesday.

In the event of changes occurring due to Public Holidays, a notice will be published with the revised information.

Advertisers requiring more information should telephone 383 8851.

G. L. DUFFIELD, Director.

HERITAGE COUNCIL OF W.A.

HR401

HERITAGE OF WESTERN AUSTRALIA ACT 1990**NOTICE OF ENTRY OF A PLACE IN THE REGISTER OF HERITAGE PLACES**

The Heritage Council of Western Australia has provided advice to the Minister for Heritage in relation to entry in the Register of Heritage Places of the place referred to as the Old Swan Brewery Precinct and described in the attached schedule. Because the place is owned by the Government, the Council is required to publish its advice to the Minister.

The Heritage Council has advised that the Old Swan Brewery Precinct is a place of cultural heritage significance because of its aesthetic, historic, scientific and social values. These values can be ascribed to the site as well as to the buildings and are attributable to groups within the Aboriginal community as well as the broader community. Furthermore, the Council has advised that the Old Swan Brewery Precinct is of sufficient cultural heritage significance and value to the present community and future generations to warrant entry in the Register of Heritage Places and that the protection afforded by the Heritage of Western Australia Act is appropriate.

The Heritage Council of Western Australia hereby gives notice that the place referred to as the Old Swan Brewery Precinct and described in the attached schedule is entered in the Register of Heritage Places on an interim basis pursuant to section 50 (1) (b) of the Heritage of Western Australia Act.

Submissions on the proposed entry are invited from interested persons. Submissions must be in writing and should be forwarded to the following address:

The Director
Office of the Heritage Council
PO Box 6201
East Perth WA 6892

The Council will supply, on request, a statement giving details of the place including the assessment of its cultural heritage significance.

Submissions concerning the entry of the place must be lodged by 20th March 1992.

Schedule

Place	Location	Land Description
The Old Swan Brewery Precinct	Mounts Bay Road Perth	The whole of Reserve C39880 comprising Perth Lots 985, 986 & 708 and portion of Reserve A1720 being Perth Lots 469 & 470 on Original Plan 13905

Dated this 7th day of February 1992.

A. HOPKINS, Director, Office of the Heritage Council.

LAND ADMINISTRATION

LA101

CORRIGENDUM

File Ref: 845/1990.

MINES

MN301

MINES REGULATION ACT 1946**MINES REGULATION (EXEMPTION) ORDER 1992**

Made by His Excellency the Governor in Executive Council under section 5 (2).

Citation

1. This order may be cited as the *Mines Regulation (Exemption) Order 1992*.

Exemption

2. The Bounty Gold Mine in the Yilgarn Mineral Field and managed by Aztec Mining Company Limited is hereby exempted from the provisions of sections 36, 37, 38 (1), 39, 42, 43 and 45 of the *Mines Regulation Act 1946*, and regulations 14.6 (1) and 14.7 of the *Mines Regulation Act Regulations 1976* for a period ending 1 January 1995 on condition that —

- (a) a person shall not be employed to work underground for more than 12 hours in any day except as provided for under section 39 (3);
- (b) a person shall not be employed to work underground for more than 14 days or parts of days in any 20.5 day period;

- (c) each person required to work underground shall take a crib-break of not less than 30 minutes' duration at the underground crib-room or on surface, and the duration of that break shall not include the time necessary for travelling between the underground work-place and the crib-room or the surface.

The scheduled times for crib-breaks shall be established by mutual agreement, but shall not in any case be earlier than 5 hours after commencement of the shift or period of duty, nor later than 7 hours after commencement of the shift or period of duty. Two 15 minute rest breaks (one before crib and one after) shall be taken at mutually agreed times;

- (d) a code of practice on industrial hygiene with reference to silica and chemicals in the working environment is submitted for approval to the Ventilation Board established under section 23C within 3 months of the date of this order coming into force and that code of practice shall include, but not be limited to, the measures which will be taken to ensure the education of the workforce in the health effects of silica and chemicals used in the working environment;
- (e) the code of practice on industrial hygiene with reference to silica and chemicals in the working environment, after approval by the Ventilation Board, is implemented and enforced by the registered manager of the mine;
- (f) the chemicals required for the recovery of precious metals, and the chemicals on site used for analytical purposes, are included in the code of practice referred to in paragraph (d);
- (g) the Manager of the mine shall ensure that the volume of air required for the combined diesel power underground at any time, based on $0.085 \text{ m}^3/\text{sec}/\text{kW}$ of rated power, does not exceed the total volume of air being exhausted from the mine;
- (h) diesel equipment for use underground rated at less than 100 kW shall not require diesel exhaust treatment or cooling devices;
- (i) diesel equipment for use underground rated at 100 kW or more, but less than 140 kW shall not be permitted unless fitted with a catalytic purifier mounted as close as practicable to the exhaust manifold;
- (j) diesel equipment for use underground rated at 140 kW or greater shall not be permitted unless fitted with a diesel particulate filter or filters, mounted as close as practicable to the exhaust manifold, or an alternative device approved by the Senior Inspector of Mines;
- (k) any underground crib-room shall be designed and equipped as a refuge station and shall —
- (i) be constructed with materials having at least a one hour fire resistance rating;
 - (ii) be of sufficient size to accommodate all of the workers underground on any shift;
 - (iii) have connected to it a dedicated air supply line from the surface;
 - (iv) be capable of being sealed to prevent the entry of gas;
 - (v) have a means of voice communication with the surface; and
 - (vi) be equipped with fire extinguishers and appropriate first aid equipment including a stretcher;
- (l) fire doors shall be constructed of material having at least a one hour fire resistance rating, and shall be installed and maintained at strategic locations underground as specified by the Senior Inspector;

- (m) any emergency egress route from a mine shall be in fresh air and marked on all levels by signs and arrows pointing the way of exit in a manner to expedite escape;
- (n) where a blow torch is used, or welding, cutting or other hot work is carried out in a shaft, timbered area or fire hazard area (other than a workshop), the area adjacent to the particular workplace shall be wet down —
 - (i) before work is commenced;
 - (ii) when work is stopped and the person using hot work equipment intends to leave; and
 - (iii) again within 2 hours of stopping work;
- (o) any primary production blast shall be initiated from the surface and only after all personnel have been cleared and individually checked out of the mine. A separate mains firing line shall be installed for this purpose;
- (p) a disc or other individual identification system for checking in and checking out every person who travels or works underground shall be established, and shall be enforced without exception;
- (q) firing times for primary production blasting shall be established to provide for adequate fume clearance before re-entry of personnel and that those times shall first be approved by the District Inspector;
- (r) development blasting in barren waste and in any areas containing less than 20% sulphides in the face, and firing of smaller charges ("pops") for secondary breaking, may be carried out at crib-breaks without clearing the mine;
- (s) the blasting, or firing, referred to in paragraph (r) shall be restricted to prescribed times approved by the District Inspector and all personnel underground shall be withdrawn to the crib-room or other approved safe place and individually checked in by the responsible supervisor before blasting. That supervisor shall also clear any surface check point;
- (t) the manager of a mine shall devise and implement a comprehensive programme for induction and training of all employees, with a modular programme for progressive development of work skills for underground employees. This programme shall include provision for retaining and extension for any employee who is assigned a change in work system, plan or equipment. That manager shall supply copies of all training schedules to the District Inspector;
- (u) the manager of a mine shall ensure that close supervision is maintained on all underground operations and that at least one supervisor remains underground until all personnel are evacuated at the end of any shift. That supervisor shall be personally responsible for all mains firing; and
- (v) two persons qualified in first aid, and holding current qualifications in the use of oxygen reviving apparatus provided and approved by the District Inspector shall be available, on site at all times, unless the written permission of the District Inspector specifying the precise dates of a period of exemption has been obtained.

By His Excellency's Command,

L. M. AULD, Clerk of the Council.

MN302

MINES REGULATION ACT 1946

MINES REGULATION (EXEMPTION) ORDER (NO. 2) 1992

Made by His Excellency the Governor in Executive Council under section 5 (2).

Citation

1. This order may be cited as the *Mines Regulation (Exemption) Order (No. 2) 1992*.

Exemption

2. The mines comprising the mining operations known as the "Golden Grove" project in the Yalgoo Mineral Field and managed by Murchison Zinc Co Pty Ltd are hereby exempted from the provisions of sections 36, 37, 38 (1) (b) and (c), 39, 42, 43 and 45 of the *Mines Regulation Act 1946*, and regulations 14.6 (1) and 14.7 of the *Mines Regulation Act Regulations 1976* for a period ending 1 January 1995 on condition that —

- (a) a person shall not be employed to work underground for more than 12 hours in any day except as provided for under section 39 (3);
- (b) a person shall not be employed to work underground for more than 14 days or parts of days in any 20.5 day period;
- (c) each person required to work underground shall take one or more crib-breaks totalling 60 minutes duration at the underground crib-room or on surface, and the duration of that break shall not include the time necessary for travelling between the underground work-place and the crib-room or the surface.

The scheduled times for crib-breaks shall be determined by mutual agreement;
- (d) a code of practice on industrial hygiene with reference to silica and chemicals in the working environment is submitted for approval to the Ventilation Board established under section 23C within 3 months of the date of this order coming into force and that code of practice shall include, but not be limited to, the measures which will be taken to ensure the education of the workforce in the health effects of silica and chemicals used in the working environment;
- (e) the code of practice on industrial hygiene with reference to silica and chemicals in the working environment, after approval by the Ventilation Board, is implemented and enforced by the registered manager of each mine;
- (f) the chemicals nominated as being required for the metallurgical process in the document entitled "Notice of Intent, Scuddles Project, Zinc Copper Mine Development — May 1988", and chemicals on site used for analytical purposes, are included in the code of practice referred to in paragraph (d);
- (g) the manager of the mine shall ensure that the volume of air required for the combined diesel power underground at any time, based on 0.085 m³/sec/kW of rated power, shall not exceed the total volume of air being exhausted from the mine;
- (h) diesel equipment for use underground rated at less than 100 kW shall not require diesel exhaust treatment or cooling devices;
- (i) diesel equipment for use underground rated at 100 kW or more, but less than 140 kW shall not be permitted unless fitted with a catalytic purifier mounted as close as practicable to the exhaust manifold;

- (j) diesel equipment for use underground rated at 140 kW or greater shall not be permitted unless fitted with a diesel particulate filter or filters mounted as close as practicable to the exhaust manifold, or an alternative device approved by the Senior Inspector of Mines;
- (k) any underground crib-room shall be designed and equipped as a refuge station and shall —
 - (i) be constructed with materials having at least a one hour fire resistance rating;
 - (ii) be of sufficient size to accommodate all of the workers underground on any shift;
 - (iii) have connected to it a dedicated air supply line from the surface;
 - (iv) be capable of being sealed to prevent the entry of gas;
 - (v) have a means of voice communication with the surface; and
 - (vi) be equipped with fire extinguishers and appropriate first aid equipment including a stretcher;
- (l) fire doors shall be constructed of material having at least a one hour fire resistance rating, and shall be installed and maintained at strategic locations underground;
- (m) any emergency egress route from a mine shall be in fresh air and marked on all levels by signs and arrows pointing the way of exit in a manner to expedite escape;
- (n) where a blow torch is used, or welding, cutting or other hot work is carried out in a shaft, timbered area or fire hazard area (other than a workshop), the area adjacent to the particular workplace shall be wet down —
 - (i) before work is commenced;
 - (ii) when work is stopped and the person using the hot work equipment intends to leave; and
 - (iii) again within 2 hours of stopping work;
- (o) any primary production blast and any development blast in massive sulphide shall be initiated from the surface, and only after all personnel have been cleared and individually checked out of the mine. A separate mains firing line shall be installed for this purpose;
- (p) a disc or other individual identification system for checking in and checking out every person who travels or works underground shall be established, and shall be enforced without exception;
- (q) firing times for primary production blasting shall be established to provide for adequate fume clearance before re-entry of personnel, and that those times shall first be approved by the District Inspector;
- (r) development blasting in faces that do not contain massive sulphide, and firing of smaller charges ("pops") for secondary breaking, may be carried out at firing times prescribed and approved in accordance with paragraph (s);
- (s) the blasting, or firing, referred to in paragraph (r) shall be restricted to prescribed times approved by the District Inspector and all personnel underground shall be withdrawn to the crib-room or other approved safe place and individually checked in by the responsible supervisor before blasting. That supervisor shall also clear any surface check point;

- (t) the manager of a mine shall devise and implement a comprehensive programme for induction and training of all employees, with a modular programme for progressive development of work skills for underground employees. This programme shall include provision for retraining and extension for any employee who is assigned a change in work system, plan or equipment. That manager shall supply copies of all training schedules to the District Inspector; and
- (u) the manager of a mine shall ensure that close supervision is maintained on all underground operations and that at least one supervisor remains underground until all personnel are evacuated at end of any shift. That supervisor shall be personally responsible for all mains firing.

By His Excellency's Command,

L. M. AULD, Clerk of the Council.

MINES REGULATION ACT 1946

MINES REGULATION (EXEMPTION) ORDER (NO. 3) 1992

Made by His Excellency the Governor in Executive Council under section 5 (2).

Citation

1. This order may be cited as the *Mines Regulation (Exemption) Order (No. 3) 1992*.

Exemption

2. The Hill 50 Underground Mine (in this order referred to as "the mine") located at Mount Magnet and managed by Hill 50 Gold Mine NL is exempted from the provisions of sections 38, 39, 42, 43, 44 and 45 of the *Mines Regulation Act 1946* for a period of 2 years commencing on the day on which this order is published in the *Government Gazette* on condition that —

- (a) a person shall not be employed to work in or about the mine for more than 21 days in any 28 day period;
- (b) a person shall not be employed to work underground in the mine for more than 12 hours in any day;
- (c) a person in charge of winding machinery, or a person performing heavy manual work or work requiring exacting or sustained concentration, shall not be employed to work underground in the mine for more than 8 consecutive hours;
- (d) where a person is employed to work in or about the mine for 13 consecutive days, the person shall not be employed again to work in or about the mine until that person has taken a break of not less than 24 consecutive hours;
- (e) Hill 50 Gold Mine NL shall ensure that at all times sufficient staff and facilities are available to provide emergency services at the mine and in particular —
 - (i) first aid and ambulance services;

- (ii) mine rescue team services; and
 - (iii) fire fighting services (including services capable of handling a chemical spill);
- and
- (f) supervisors shall be rostered in a similar manner to work teams in order to provide adequate on-site supervision.

By His Excellency's Command,

L. M. AULD, Clerk of the Council.
