Schedule

(The references hereunder are to the names of map sheets of the 1:1 000 000 series and to the number of graticular sections shown thereon)

Area W92-1

Map Sheet SE-50 (Cape Keraudren) (also known as Rowley Shoals)

Applications for Areas W92-1 and W92-2

Applications for the award of a permit over area W92-1 or W92-2 are required to be made in an approved form and must cover all blocks on offer in the specified area.

The application must include details of—

- the company or consortium making the application, and in the case of the latter the percentage participating interest of each company;
- in a sealed envelope, the amount that the applicant is prepared to pay in a single payment to the Commonwealth of Australia for the award of the permit;

- the technical qualifications of the applicant and of its employees;
- the technical advice available to the applicant;
- the financial resources available to the applicant as well as a statement of existing exploration plans and commitments over the next 6 years, and a copy of the latest annual report for each applicant company; and

Assessment of Applications

The Joint Authority may reject applications where it is satisfied that the applicant has insufficient technical or financial resources to effectively carry out exploration operations in the permit area. In addition, applications may be rejected if the Joint Authority is of the view that bids are inadequate because of insufficient competition, including any situation where it is satisfied that there has been collusive bidding.

Conditions

A permit awarded under this invitation will be for one 6 year term and will not be able to be renewed. Special provisions in the Act will allow the permit to continue in force where an application for a location, retention lease or production licence has been lodged.

Permittees will be required to comply with the provisions of the Act and Acts with which it is incorporated, and with the Regulations and Directions issued under the Act.

Further details of the cash bidding system, including the criteria for assessment of applications and the conditions to apply following the award of a permit, are available from the Director, Petroleum Division, Department of Mines in Perth and from the Petroleum Division, Department of Primary Industries and Energy in Canberra.
