EXCEPTIONS

There are a number of exceptions to the above.

The other exceptions relate to persons who are being considered for certain positions (for example, police or prison officers, school teachers and other school staff) or who have applied for certain licences (for example, security agents, child care providers, casino employees). These exceptions are in Schedule 3 to the Act which was added by the *Spent Convictions Regulations 1992*. This should be referred to for particulars.

Part 10 repealed and a Part substituted

6. Part 10 of the principal regulations is repealed and the following Part is substituted —

" **PART 10 — PRIVATE SWIMMING POOLS**
Building Code

38. G1.1 (b) of the Building Code does not apply.

Definitions

38A. In this Part —

"disabled person" means a person who is able to produce a certificate given by ACROD Limited (Western Australian Division), a company limited by guarantee incorporated under the Corporations Law, certifying that the person has a disability that makes it difficult for the person to use a gate of the kind that would be required by these regulations in a swimming pool fence;

"pre-July 1992 pool" means a swimming pool that —

- (a) was installed before 1 July 1992; or
- (b) was installed on or after 1 July 1992 in accordance with plans, drawings and specifications that were submitted to the council for approval before that day;

"swimming pool" means a swimming pool, within the meaning of section 245A (1) of the Act, in which there is water that is more than 300mm deep;

"young child" means a child under the age of 5 years.

Enclosure of pool

38B. (1) The owner or occupier of premises on which there is a swimming pool shall instal or provide around the pool an enclosure suitable to restrict access by young children to it and its immediate surrounds.

Penalty: \$5 000 and a daily penalty of \$250.

(2) If the pool is at the rear of the premises, a person does not fail to comply with subregulation (1) only because the area enclosed includes, as well as the pool and its immediate surrounds, any other part of the rear portion of the premises.

(3) Except as otherwise provided by this Part, the enclosure is not suitable for the purposes of subregulation (1) unless —

- (a) it consists of a fence, wall, or other barrier, or a combination of them;
- (b) any wall that it includes contains no means of access between the enclosed area and a part of a building to which there is direct or indirect access from outside the enclosure; and
- (c) any fence, wall, or barrier included in, or gate in, the enclosure is in accordance with the requirements of Australian Standard AS 1926 or such alternative requirements as the council approves.

(4) If a boundary fence of the premises is a part of the enclosure of a pool, the boundary fence satisfies the requirements of clauses 2.3, 2.5, and 2.6 (a) and (b) of Australian Standard AS 1926 if all those requirements are satisfied in relation to either side of the fence.

(5) A gate in the enclosure of a pool may —

- (a) if the pool was installed before 28 July 1989, open in any direction;
- (b) if the pool was not installed before 28 July 1989, open in any direction other than towards the pool.

Access to pool from building

38C. (1) If a swimming pool is a pre-July 1992 pool, its enclosure may include a wall that contains a door or window permitting access between the enclosed area and a part of a building to which there is direct or indirect access from outside the enclosure, but only if the building is not a Class 10 building under the Building Code.

(2) Although a swimming pool is not a pre-July 1992 pool, its enclosure may include a wall that contains a door or window permitting access as described in subregulation (1) if —

- (a) the council declares that it would not be practicable to enclose the pool in accordance with regulation 38B; and
- (b) every possible means of access by a young child to the pool from the building is fitted with a suitable device to restrict such access.

(3) For the purpose of restricting access by a young child through a window —

- (a) a fixed grill that totally encloses the window and would prevent any sphere having a diameter greater than 100mm from passing through it; or
- (b) a fixed device that prevents the window from opening more than 100mm,

satisfies the requirement in subregulation (2) (b), but this subregulation does not limit the other devices that may satisfy that requirement.

(4) For the purpose of restricting access by a young child through an exterior doorway, a door does not satisfy subregulation (2) (b) unless —

- (a) it is self-closing and self-latching; and
- (b) it does not open towards the pool, or the council has approved of it opening in that direction.

Declarations by council

38D. (1) A council shall not make a declaration under regulation 38C (2) (a) unless —

- (a) in the opinion of the council, to instal between the building and the pool a fence or barrier satisfying regulation 38B would involve —
 - (i) a sufficient problem of a structural nature; or
 - (ii) a sufficient problem of any other nature, the cause of which is neither within the control of the owner nor the occupier;
- (b) the pool is totally enclosed by a building; or
- (c) in the opinion of the council, the existence between the building and the pool of a fence or barrier satisfying regulation 38B would create a sufficient problem for a disabled person who is resident at the premises and wishes to have access to the pool.

(2) In deciding whether to make a declaration under regulation 38C (2) (a) a council shall place particular weight on whether or not a young child resides at the premises.

Delegation

38E. The power of a council —

- (a) to make a declaration under regulation 38C (2) (a); or
- (b) to give approval under regulation 38C (4) (b),

shall not be delegated by the council but a council may delegate the power to refuse to make such a declaration or give such approval.

Maximum inspection charge

38F. For the purposes of section 245A (8) (b) of the Act, the maximum charge is \$50.

Transitional

38G. Regulation 6 (2) does not apply in relation to the requirements of this Part. ”.

M. C. WAUCHOPE, Clerk of the Council.

The lands shown as Scheme Reserves on the Scheme Map, hereinafter called "Reserves" are lands reserved under the Scheme for the purpose shown on the Scheme Map.

2.2 Matters to be Considered

Where an application for planning consent is made with respect to land within a reserve, the Council shall have regard to the ultimate purpose intended for the reserve and the Council shall, in the case of land reserved for the purposes of a public authority, confer with that authority before granting its consent.

2.3 Compensation

2.3.1 Where the Council refuses planning consent for the development of a reserve on the ground that the land is reserved for Local Authority purposes or for the purposes shown on the Scheme Map, or grants consent subject to conditions that are unacceptable to the applicant, the owner of

2.3.2 Claims for such compensation shall be lodged at the Office of the Council not later than six months after the date of the decision of the Council refusing planning consent or granting it subject to conditions that are unacceptable to the applicant.

2.3.3 In lieu of paying compensation the Council may purchase the land affected by such decision of the Council at a price representing the value of the land at the time of refusal of planning consent or of the grant of consent subject to conditions that are unacceptable to the applicant.

Part III—Zones

3.1 Zones

3.1.1 There are hereby created the several zones set out hereunder:

Urban
Special Use

3.2 Zoning Table

3.2.1 The Zoning Table, indicates, subject to the provisions of the Scheme, the several uses permitted in the scheme area in the various zones such uses being determined by cross reference between the list of Use Classes on the left hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

3.2.2 The symbols used in the cross reference in the Zoning Table have the following meanings:

‘P’ means that the use is permitted provided it complies with the relevant standards and requirements laid down in the Scheme and all conditions (if any) imposed by the Council in granting planning consent;

‘AA’ means that the Council may, at its discretion, permit the use;

‘SA’ means that the Council may, at its discretion, permit the use after notice of application has been given in accordance with Clause 6.2.

3.2.3 Where no symbol appears in the cross reference of a Use Class against a zone in the Zoning Table a use of that class is not permitted in the zone.

3.2.4 Where in the Zoning Table a particular use is mentioned it is deemed to be excluded from any other use class which by its more general terms might otherwise include such a particular use.

3.2.5 If the use of land for a particular purpose is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the interpretation of one of the use categories the Council may:

- (a) determine that the use is not consistent with the objectives and purpose of the particular zone and is therefore not permitted, or
- (b) determine by absolute majority that the proposed use may be consistent with the objectives and purpose of the zone and thereafter follow the advertising procedures of Clause 6.2 in considering an application for planning consent.

3.3 Additional Uses

Notwithstanding anything contained within the Zoning Table the land specified in Schedule 2 may, subject to compliance with any condition specified in the schedule with respect to the land, be used for the purpose set against that land. The use so specified is in addition to the other uses permitted in the zone in which the land is situated unless any of those uses are excluded or modified by a condition specified in that schedule.

Part IV—Non-Conforming Uses

4.1 Non-Conforming Use Rights

No provision of the Scheme shall prevent:

- (a) The continued use of any land or building for the purpose for which it was being lawfully used at the time of coming into force of the Scheme: or
- (b) the carrying out of any development thereon for which, immediately prior to that time, a permit or permits, lawfully required to authorise the development to be carried out, were duly obtained and are current.

4.2 Extension of Non-Conforming Use

A person shall not alter or extend a non-conforming use or erect, alter or extend a building used in conjunction with a non-conforming use without first having applied for and obtained the planning consent of the Council under the Scheme and unless in conformity with any other provisions and requirements contained in the Scheme.

4.3 Change of Non-Conforming Use

Notwithstanding anything contained in the Zoning Table the Council may grant its planning consent to the change of use of any land from a non-conforming use to another use if the proposed use is, in the opinion of the Council, less detrimental to the amenity of the locality than the non-conforming use and is, in the opinion of the Council, closer to the intended uses of the zone or reserve.

4.4 Discontinuance of Non-Conforming Use

4.4.1 When a non-conforming use of any land or building has been discontinued for a period of six months or more such land or building shall not thereafter be used otherwise than in conformity with the provisions of the Scheme.

4.4.2 The Council may effect the discontinuance of a non-conforming use by the purchase of the affected property, or by the payment of compensation to the owner or the occupier or to both the owner and the occupier of that property, and may enter into an agreement with the owner for that purpose.

4.5 Destruction of Buildings

If any building is, at the gazettal date, being used for a non-conforming use, and is subsequently destroyed or damaged to an extent of 75% or more of its value the land on which the building is built shall not thereafter be used otherwise than in conformity with the Scheme, and the buildings shall not be repaired or rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner or position not permitted by the Scheme.

Part V—Development Requirements

5.1 Development of Land

5.1.1 Subject to Clause 5.1.2 a person shall not commence or carry out development of any land zoned or reserved under the Scheme without first having applied for and obtained the planning consent of the Council under the Scheme.

5.1.2 The planning consent of the Council is not required for the following development of land:

- (a) The erection of a boundary fence except as otherwise required by the Scheme.

- (b) The erection on a lot of a single dwelling house, including ancillary outbuildings, in a zone where the proposed use is designated with the symbol 'P' in the cross-reference to that zone in the Zoning Table.
- (c) The carrying out of any works on, in, over or under a street or road by a public authority acting pursuant to the provisions of any Act.
- (d) The carrying out of works for maintenance, improvement or other alteration of any building, being works which affect only the interior of the building or which do not materially affect the external appearance of the building.
- (e) The carrying out of works urgently necessary in the public safety or for the safety or security of plant or equipment or for the maintenance of essential services.

5.2 Discretion to Modify Development Standards

If a development, other than a residential development, the subject of an application for planning consent, does not comply with a standard or requirement prescribed by the Scheme with respect to that development the Council may, notwithstanding that non-compliance, approve the application unconditionally or subject to such conditions as the Council thinks fit. The power conferred by this clause may only be exercised if the Council is satisfied that:

- (a) approval of the proposed development would be consistent with the orderly and proper planning of the locality and the preservation of the amenities of the locality;
- (b) the non-compliance will not have any adverse effect upon the occupiers or the users or the development of the inhabitants of the locality or upon the likely future development of the locality; and
- (c) the spirit and purpose of the requirement or standard will not be unreasonably departed from thereby.

5.3 Residential Development: Residential Planning Codes

5.3.1 For the purpose of this Scheme "Residential Planning Codes" means the Residential Planning Codes set out in Appendices 2 and 3 to the statement of Planning Policy No.1, together with any amendments thereto.

5.3.2 A copy of the Residential Planning Codes, as amended, shall be kept and made available for public inspection at the offices of the Council.

5.3.3 Unless otherwise provided for in the Scheme the development of land for any of the residential purposes dealt with by the Residential Planning Codes shall conform to the provisions of those codes.

5.3.4 The R code density applicable to land within the residential zone shall be determined by reference to the R code density numbers superimposed on the areas within that zone shown on the scheme map as being contained within the outer edges of the black borders or, where such an area abuts on another area having an R code density, as being contained within the control lines of those borders.

5.4 Site Requirement

The site building requirements for land in various zones shall be as set out in Table 1.

Zone	Table 1 Site Requirements		
	Minimum Setbacks from Boundaries		
	Front	Rear	Side
Residential	As in the R codes		
Commercial	Setbacks subject to Council approval		
Industrial (Note 1)	11m or 22m	7.5 m	4.5 m
Rural/Residential	10.0 m	10.0 m	5.0 m

Note: (1) An 11 metre front setback shall be applied where loading and unloading facilities are provided at the rear of buildings.

A 22 metre front setback shall be applied where loading and unloading facilities are provided at the front of buildings.

5.5 Car Parking

5.5.1 (1) The minimum number of car spaces to be provided on a residential lot shall be as follows:

- single houses: 2 spaces per dwelling
- attached houses: 2 spaces per dwelling
- grouped dwellings: 2 spaces per dwelling for the first 4 dwellings and 1.5 spaces per dwelling for each subsequent dwelling
- multiple dwellings: 0.35 spaces per dwelling plus 0.015 spaces per square metre of gross floor area (for the purpose of this clause "gross floor area" shall be determined in the same manner as "plot ratio")
- aged or dependent persons' dwellings: 0.5 spaces per dwellings

(2) In all grouped and multiple developments comprising 3 or more dwellings, at least 10% of all car parking spaces required, with a minimum of 2 spaces, shall be set aside for visitors' parking

marked permanently as such and located so as to be easily accessible or their location visible from the entrance to the lot.

(3) Car parking bays shall be of minimum dimensions of 5.5m x 2.5m.

(4) The Council, when considering attached houses, grouped and multiple dwellings, may impose conditions on the location and screening of car parking spaces on site, including the extent to parking areas, number and location of access points, manoeuvring spaces, the extent of screening and landscaping required, and the maximum extent of roofing of car parking spaces.

(5) A person shall not develop or use any land or erect, use or adopt any building in the Commercial, Industrial, Rural-Residential and Special Industrial zones unless car parking spaces specified by the Council are provided and such spaces are constructed and maintained in accordance with the Scheme.

5.5.2 The parking space required under the provisions of the Scheme shall measure not less than the dimensions shown in Appendix 1 for the type of parking layout adopted.

5.5.3 All car parking spaces, and all necessary access ways shall unless the Council agrees otherwise and except as hereinafter provided be paved.

5.5.4 Where the maximum dimension of any open car parking area exceeds twenty metres in length or width, one car parking space in ten shall be used for garden and tree planting to provide visual relief and so long as the garden and tree planting areas shall be maintained in good order, those car parking spaces shall be included in calculations as car parking and not as landscaping.

5.5.5 Where the owner can demonstrate to the satisfaction of the Council that there is not the demand for the number of parking spaces specified in Clause 5.5.1, landscaping may be provided in lieu of car parking spaces not constructed and the said landscaping shall be included in the calculations as car parking but not as landscaping; provided that the Council may from time to time require that the additional parking spaces be provided.

5.5.6 In a commercial zone where a developer can satisfy the Council that the maximum car parking requirements cannot be provided on the site the Council may accept a cash payment in lieu of the provision of car parking spaces but subject to the requirements of this clause:

- (a) A cash-in-lieu payment shall be not less than the estimated cost to the owner of providing and constructing the parking spaces required by the Scheme, plus the value, as estimated by the Chief Valuer of the Department of State Taxation, of that area of his land which would have been occupied by the parking spaces.
- (b) Before the Council agrees to accept a cash payment in lieu of the provision of parking spaces, the Council must either have already provided a public car park nearby, or must have firm proposals for providing a public car park area nearby within a period of not more than eighteen months from the time of agreeing to accept the cash payment.
- (c) Payments made under this clause shall be paid into a special fund to be used to provide public car parks.

5.5.7 When considering an application to commence development the Council shall have regard to and may impose conditions in respect of the location and design of the required car parking spaces, natural planting and pedestrian spaces on the Lot. In particular, the Council shall take into account and may impose conditions concerning—

- (a) the proportion of car spaces to be roofed or covered;
- (b) the proportion of car spaces to be below natural ground level;
- (c) the means of access to each car space and the adequacy of any vehicular manoeuvring area;
- (d) the location of the car spaces on the site and their effect on the amenity of adjoining development, including the potential effect if those spaces should later be roofed or covered;
- (e) the extent to which car spaces are located within required building setback areas;
- (f) the locations of proposed public footpaths, vehicular crossings, or private footpaths within the lot, and the effect on both pedestrian and vehicular traffic movement and safety;
- (g) The suitability and adequacy of elevated structural decks for development and service as a proportion of the required area for natural planting and pedestrian space.

5.6 Home Occupation

5.6.1 A person shall not carry on a home occupation as defined in Schedule No.1 of this Scheme unless:

- (a) an approval in respect of the home occupation has been issued in writing by the Council and is current.
- (b) the person concerned is the occupier of the dwelling in which the home occupation is carried on.

5.6.2 An application for approval to carry on a home occupation shall comprise an application in accordance with the provisions of Schedule No.4 of the Scheme together with a letter addressed to the Shire Clerk describing the nature of the proposed home occupation and demonstrating the proposed use falls within the terms of the definition under this Scheme of Home Occupation.

5.6.3 An approval to carry on a home occupation:

- (a) is valid only for a period of 12 months after the date of issue thereof but may be renewed upon application in writing to the Council.

- (b) relates only to the premises for which a person for whom the application was made and the approval subsequently issued.
- (c) is not capable of being transferred or assigned to any other person and does not run with the land in respect of which it was granted.

5.6.4 In granting an approval to carry on a home occupation the Council may impose any condition it thinks fit.

5.6.5 If in the opinion of the Council a home occupation is causing a nuisance or annoyance to neighbours or to other persons within the neighbourhood or if any condition imposed by the Council is not complied with the Council may revoke an approval granted by it in respect of the home occupation.

5.7 Landscaping

5.7.1 The landscaping requirement shown in the Scheme means an open area designed, developed and maintained as garden planting and areas for pedestrian use and at the discretion of the Council it may include natural bushland, swimming pools and areas under covered ways; garbage collection and handling spaces, and other open storage areas shall not be included.

5.7.2 Access driveways between a street alignment and buildings may be included in the landscaping requirement but otherwise car parking areas and driveways shall not be included.

5.7.3 The Council may in a landscaped area restrict the use of concrete, gravel, pebble and similar hard materials and require the planting of lawns, trees or shrubs in lieu thereof.

5.7.4 Where a proposed development utilises less than fifty per cent of the allowable plot ratio, the Council may reduce the landscaping requirement, provided that the landscaping requirement shall be required proportionately as subsequent development occurs.

5.7.5 No person shall, unless the Council otherwise approves, occupy any buildings forming part of an approved development until the required landscaping has been constructed and planted.

5.8 Rural/Residential Zone

5.8.1 The land uses permitted in the zone are set down in the Zoning Table and the following provisions shall apply in addition:

- (a) The minimum lot size for subdivision shall be 3000 sq.m
- (b) A subdivision guide plan for the whole of any contiguous zone shall be prepared and adopted by Council and subdivision shall be generally in accordance with that plan.
- (c) Where areas of trees have been marked on the Subdivision Guide Plan as Tree Protection Areas, no person shall remove any tree in that area without the prior approval of Council.
- (d) No person shall remove trees from the road reserves abutting the zoned area without the prior approval of Council.
- (e) No building shall be constructed within 10 metres of the front or rear boundary of a lot nor within five metres of a side boundary.
- (f) No building shall be constructed of such a design or materials as would prejudice the attractive semi-rural landscape character of the area.
- (g) Not more than one single dwelling house per lot shall be erected.

5.9 General Appearance of Buildings

5.9.1 No person shall without the written approval of the Council erect a building which by virtue of colour or type of materials, architectural style, height or bulk, ornamental or general appearance, has an exterior design which is out of harmony with existing buildings or the landscape character of the area.

5.10 Commercial Zone

5.10.1 Development Guidelines: All development within the Commercial Zone shall comply with the following provision:

- (a) Where the construction of a new building is proposed, Council shall be satisfied that the external appearances of the proposed development including the overall design and finish of the building and the layout and landscaping of the car parking area will be compatible with the existing character of the locality.

5.11 Industry Zone

5.11.1 Development Guidelines: The development of industry in the Industrial Zone shall be subject to the following requirements:

- (a) Screening of work and service areas shall be subject to the development application and the discretion of Council.
- (b) All unloading and loading of materials, parking and the operation of all business associated with any industry shall take place within the boundaries of the site;

- (c) Minimum fencing standard shall be 1.8m security fence.

- (e) Minimum building setback from any street shall be 7.5m.

5.12 Special Industrial

5.12.1 The minimum lot size shall be no less than 2 hectares.

5.12.2 Only one industry or use shall be permitted on each individual lot.
