It is hereby notified for public information, in accordance with section 7 of the Town Planning and Development Act 1928, that the Hon Minister for Planning approved the Shire of Albany Town Planning Scheme Amendment on 24 December 1992, for the purpose of:

Town Planning Scheme No. 3—Scheme Text

SPECIAL RURAL ZONES

Provisions Relating to Specified Areas

Area	Locality	Lots	Location
7	Panorama Road, Little Grove	Lots 11 and 12	Plantagenet Location 106

**SPECIAL PROVISIONS**

- (i) Lot Sizes and Subdivision

The minimum lot size shall be 2 hectares. No further subdivision of Lots 11 and 12 will be permitted other than a minor variation of the common boundary, provided that other provisions of the Scheme are complied with.

- (ii) Purpose of Zone

The purpose of Special Rural Zone No. 7 is to create two rural-residential living areas which preserve vegetation, landscape and visual amenity of the locality.

- (iii) Land Use

Within Special Rural Zone No. 7,

- (a) The following uses are permitted—

“Residential Dwelling House”

- (b) The following uses are not permitted unless specific approval is granted by Council—

“Home Occupation”

- (c) Livestock on either lot shall be restricted to a maximum of either—

- (a) four dry sheep
- or (b) two dairy goats
- or (c) four cashmere goats

or an equivalent as assessed and approved by the Department of Agriculture.

- (d) All other uses not included in (a), (b) or (c) above are not permitted.

- (iv) Building Location

No dwelling house shall be constructed so as to necessitate the need for removal of vegetation or shall be constructed within 15 metres of side or rear boundaries of either lot or within 50 metres of Panorama Road, unless Council approves a lesser distance, on the basis that—

- (a) Council is of the opinion that the topography or flora on the lot makes it desirable to alter this provision, and
- (b) that the location of the building will not detract from the environmental quality of the area or from the amenity of existing or future residences on adjoining lot.

- (v) Water Supply

Water supply for any dwelling may be provided as follows—

- either (a) constructed of a well or bore in the underground supply and to the satisfaction of the Council and duly licenced by the Water Authority of WA provided that the well or bore is at least 60 metres from any effluent disposal system.
- or (b) provision of a minimum capacity 92 000 litre water storage tank and roof catchment with a secondary supply from a well or bore located at least 20 metres from any effluent disposal system.

No dwelling shall be constructed or approved for construction unless either of the above options are included in the approved plans and no dwelling shall be considered fit for human habitation unless such a supply has been installed and is operating.

## (vi) Building Standard

No building shall be constructed unless the colour and texture of external materials are of natural non-reflective colour and in accordance with Council's requirements.

## (vii) Grazing Control

Notwithstanding anything else contained in the scheme, Council may take any appropriate action necessary to reduce or eliminate adverse effects on the environment caused solely or partly by overstocking of animals or any development on any lot.

## (viii) Clearing Control

In order to conserve the rural environment all existing trees shall be retained unless Planning Scheme Consent under Clause 5.1 of Scheme Text is granted for their removal, except in the case of trees to be removed for approved firebreaks. Owners will be encouraged to undertake a comprehensive tree planting programme to develop a parkland setting.

Prior to Council granting a building licence for any structure on either of the lots the landowner shall ensure that a 30 metre setback area from the frontage of each lot is fenced off and rehabilitated with native vegetation to Council's satisfaction.

## (ix) Signage Control

No signs, hoardings or billboards shall be erected without Planning Scheme Consent under Clause 5.1 of the Scheme Text.

## (x) Effluent Disposal

Effluent disposal shall be the responsibility of the individual landholder and shall be effected by the use of an on-site effluent disposal system designed for long term usage with a minimum vertical separation of 2 metres from its base to the highest known groundwater level or bedrock and a minimum 100 metre horizontal separation between the disposal system and the nearest open water body as approved by the Health Department of WA and installed to the specifications of Council. No more than one effluent disposal system will be permitted on one lot.

## (xi) Fire Control

Council shall require that a prospective purchaser of a lot is aware of his/her responsibility to maintain firebreaks as required by Council regulation or by-laws.

2. Rezoning Lots 11 and 12 Panorama Road, Little Grove from "Motel" Zone to "Special Rural" Zone as shown on the amending map.

3. Amending the face of the Scheme Map accordingly.
