**BUSH FIRES ACT 1954**  
*Shire of Pingelly*  
**FIREBREAKS ORDER 1993/94**

Pursuant to the powers contained in section 33 of the Bush Fires Act 1954, owners and occupiers of property within the Shire of Pingelly are hereby required to provide and maintain firebreaks as follows—

“Excluded Areas” means an area of rural land not exceeding 30 hectares, where it is physically impossible to install a firebreak, or where in the owner’s or occupier’s opinion, the installation of firebreaks would be detrimental to the conservation of remnant or natural vegetation or the establishment of re-afforested areas.

“Firebreak” means ground from which all flammable material has been removed and on which no inflammable material is permitted during the firebreak period.

“Firebreak Period” means the time between 1st November and 15th April in the following year.

“Inflammable Material” means bush (as defined by the Bush Fires Act 1954), timber, boxes, cartons, paper and the like inflammable materials, rubbish and any combustible matter, but does not include buildings, standing trees or growing bushes or plants in gardens or lawns.

“Rural Land” means all land within the Shire of Pingelly not defined as townsite land.

All owners or occupiers of land within the Shire of Pingelly shall provide and maintain firebreaks during the firebreak period. On rural land, other than excluded areas, firebreaks are to be not less than two metres wide as follows—

- (a) Inside all external boundaries of the land.
- (b) Within fifteen metres of the perimeter of all buildings and remove all inflammable material from within the two metres of all such buildings.
- (c) So as to divide the land into areas not exceeding 400 hectares.

All excluded areas remain the owner’s or occupier’s responsibility and any variation as permitted by this Order does not render null and void any duty otherwise required by law.

Every haystack or hayshed is to be surrounded by a firebreak not less than five metres in width. Around fuel depots, all inflammable material must be removed for a continuous distance of fifteen metres from the depot or to the external boundary of the land whichever is nearer.

Where there is a stationary pump or engine, all inflammable material must be cleared for a distance of five metres completely surrounding the site.

On townsite land, where a property or adjoining properties having the same ownership or control and are used as a single holding, the owner or occupier, shall—

- (a) provide and maintain firebreaks not less than 2 metres in width inside all external boundaries of the land, or
- (b) be cleared by burning, of all inflammable material likely to be conducive to the outbreak, spread or extension of a fire, from the whole of the land, or
- (c) have all inflammable material likely to be conducive to the outbreak, spread or extension of a fire removed, and the grass maintained to a height not greater than 10 cms.

If it is considered, impracticable to clear fireworks or remove inflammable material from the land as required, application may be made in writing to the Council or its duly authorised officer for permission to put in place alternative fire hazard reduction. If permission is not granted by the Council or its duly authorised officer the requirements of this Order shall be complied with. Failure to comply with these requirements renders the offenders to penalties prescribed in the Bush Fires Act 1954.

By Order of the Council,

N. MITCHELL, Shire Clerk.
