Hazard Reduction:

Landowners are advised that inspections of properties shall be carried out prior to 15 October each year and Orders for Hazard Reduction will be served by 1 November each year requiring that the necessary work be undertaken prior to 15 November.

Failure to comply with Hazard Reduction Orders will result in the work being undertaken by Council or the local Bush Fire Brigade at the landowners expense.

Hazard reduction may be effected by stocking, clearing, slashing, burning or firebreaks to the Fire Control Officers satisfaction.

Rural:

- (a) Zone 4—Wannamal not less than a three (3) metre wide firebreak and Zone 6—South not less than a two (2) metre firebreak around all buildings, haystacks and fuel storage areas situated on the land not more than 20 metres from the perimeter of these areas and around the entire property boundary or strategically positioned on the property according to a plan agreed to by the Fire Control Officer for the area and recorded by the Shire of Chittering. If the local Fire Control Officer does not approve the proposed alternative firebreak plan the landowner may appeal to the Chief Fire Control Officer. If agreement is not reached the firebreak must be installed around the perimeter as above.
- (b) Where the construction of firebreaks may cause hardship or be impractical the landowner may appeal to a Fire Control Officer for the area for a variation subject to any approved variation being recorded by the Shire of Chittering.
- (c) For unimproved land, unless approval is granted for alternative locations as items (a) or (b) three (3) metre firebreaks shall be positioned so as to divide the land into areas not in excess of 120 hectares each completely surrounded by a firebreak.

Special Rural Subdivisions**Landowners or Occupiers Shall:**

- (a) Clear firebreaks not less than two (2) metres completely surrounding and not more than twenty (20) metres from the perimeter of all buildings, haystacks and fuel storage areas situated on the land.

- (c) Landowner/Occupier not wishing to conform to Section (B) will clear firebreaks not less than two (2) metres wide immediately inside all external boundaries of their land, as well as precautions detailed in Section (A).

Bindoon, Wannamal and Muchea Townsites:

- (a) Lots greater in area than 2 hectares used for grazing purposes or in agricultural pursuits the landowner or occupier shall clear firebreaks:
 - (i) not less than two (2) metres wide inside and along those portions of the boundaries of all cleared or part cleared land having common boundaries with land of other owners or with public roads.
 - (ii) not less than two (2) metres wide immediately surrounding all buildings and haystacks and fuel storage areas situated on the land.
- (b) All other lots shall have firebreaks around the perimeter of all buildings cleared of all flammable material to a width not less than two (2) metres and in the case of vacant land the firebreak shall be on the perimeter of the property.

If it is considered impracticable for any reason to clear firebreaks as required by this notice, you may apply direct to the Bush Fire Control Officer for the area in which the land is situated not later than 15th October 1994, for permission to provide firebreaks in alternative positions.

When permission has been obtained from the Fire Control Officer to provide firebreaks in alternative positions it is your responsibility to advise the Council in writing that such approval was given.

If permission is not granted by the FCO to vary the requirements, you shall comply with this notice.

The Penalty for failing to comply with this notice is a fine of not less than \$40.00 nor more than \$400.00 and a person in default is also liable, whether prosecuted or not, to pay the cost of performing the work directed in this notice.
