25. If any consumer shall at any time be dissatisfied with any particular reading of a meter, and be desirous of having the meter tested, they shall give written notice thereof to the Board or its officer of such reading and thereupon the said meter shall be tested by passing through it a predetermined quantity of water or known quantity of water, and if upon such testing it shall appear to the satisfaction of the Board or its officer that the meter registered more than five per cent in excess of the quantity that shall actually pass through it at testing, then the Board shall bear the expenses of and incidental to such testing, and shall also adjust the charge to the said consumer, but if the meter upon testing shall not register more than five per cent in excess of the quantity that shall actually pass through it, then the consumer shall pay to the Board all the expenses of and incidental to such testing, provided that the expenses of every test shall be fixed by the Board, subject to a minimum charge as prescribed by the Board from time to time for each test; provided also, that the consumer shall not be at liberty to avail themselves of the right to test the registration of the meter for any period other than the period of the registration next preceding the date of reading in respect of which they shall be given notice as aforesaid.

Gratuities Prohibited.

26. Officers, workers, or agents of the Board shall not solicit or receive any fee or gratuity whatever.

Junction or Interference with Pipes and Fittings.

27. Any person shall not make any connection or interference with any pipe or fitting of the Board or with any water pipe or fitting communicating therewith, at any other place than shall be approved of by the Board, and the mains shall only be tapped by the workers of the Board.

Division III.

Rates and Charges.

Rating.

28. (a) Within the Busselton Water Area the water rate charged shall be at a rate not exceeding that prescribed in Section 93 of the Act. A minimum rate in accordance with Section 92 of the Act shall be payable on each separately assessed piece of land.

(b) In making rates a distinction may be made between occupied and vacant land, and in the event of a dispute as to whether or not land shall be regarded as vacant, the decision of the Board shall be final in every case.

(c) Where a fee or charge calculated in accordance with these By-laws is an amount which is not a whole number multiple of 5 cents the amount shall be rounded up or down as the case may be, to the nearest whole number multiple of 5 cents.

Rates—How Payable.

29. Rates shall become due and payable yearly in advance on the first day of January. Provided that in all cases where a rate is made after the first day of January in any year the notice of the order for the making and levying of such rate, published in the *Government Gazette* and a newspaper, as provided by Section 94 of the said Act, shall specify a minimum basic rate payable as rate as aforesaid, and the date or dates when the rates shall be due and payable, and such rate shall be and become due and payable in accordance with the terms of such notice.

Allowance for Rates.

30. Every ratepayer shall be entitled to consume on each separately assessed piece of land of which he/she is owner or occupier that quantity of water which is calculated at the price specified in the annual budget as that at which water is supplied for rates payable on properties in the Water Board area by applying such price per kilolitre to the amount of rates raised provided that such water is taken during the period between the final meter reading dated immediately prior to the approval of the budget of one year and the final meter reading of the next year.

Payment for Excess Water.

31. Every ratepaying consumer taking water in excess of the quantity to which he/she is entitled in respect of the rate shall pay for the excess in accordance with prices set by the Board, with the approval of the Minister.

Fees for Additional Services.

32. In any case where the owner or occupier of any separately rated piece of land requires more than one service to be installed for supplying water to such land, such additional service or services shall, at the discretion of the Board, be installed. The owner or occupier shall pay an annual fee as determined by the Board from time to time, for each additional service installed.

Disconnection/Reconnection of Service.

33. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or by reason of a defective service, or by request of the occupier owner, or when, in the opinion of the Board, necessary to prevent waste of water, or for other reasons, a minimum fee of twenty five dollars shall be charged for disconnection and re-connection, provided that where the cost exceeds the minimum fee the actual cost of the disconnection and re-connection, as determined by the Board, shall be charged, and shall be payable by the owner or occupier for the time being, on demand. The service shall not be restored until such fee has been paid.

Private Fire Services.

34. Private fire services will be allowed, but every service shall be sealed, except in cases where the Board may decide that sealing is unnecessary. For each such service there shall be paid the actual cost of installation, and an annual fee of an amount as determined by the Board from time to time. No water shall be taken from any sealed portion except for extinction of fire. In the event of the seal having been broken in case of fire or by accident, or otherwise, the occupier shall give notice, and pay the cost of resealing.

Building Fees.

35. Where water is required for building purposes, builders and plumbers shall be provided with complete upstand units which will include copper piping, tap and star picket for a cost assessed by the Board from time to time. At the completion of works the Board will buy back the upstand, provided it is returned to the Board in workable condition, at a price assessed by the Board from time to time.

When Accounts Due and Payable.

36. Where water is supplied by measure to the owner or occupier of land, whether rated under the Act or otherwise, payment for same shall become due and payable within 30 days after service of the account, unless otherwise agreed upon.

Entry Private Premises by Officers of the Board.

37. It shall be lawful for the Inspector or any assistants acting under the directions of the Inspector or other authorised officer, at their discretion, at any reasonable hour, with or without notice, to enter any land, house, or premises for the purpose of ascertaining whether any act or thing is being done or permitted on such land, house or premises in breach of the by-laws, and to remove or cause to be removed anything thereon in breach of these by-laws, or take such steps as they may deem necessary for carrying out these provisions. The cost of such removal or such other necessary act shall be borne by the owner or occupier of the premises upon which such breach will occur.

Period for Compliance of Notices.

38. Unless otherwise provided for, the time which may elapse between the giving of a notice and doing of a thing required to be done by any Inspector or other authorised officer shall be determined by the Board according to the nature of the case.

Penalty for Breach of these By-laws

39. (1) A person who contravenes or commits a breach of any provision of these by-laws, whether by act or omission, for which a penalty is not expressly prescribed, is liable, on conviction, to a penalty not exceeding \$2 000.00 and in the case of a continuing contravention or breach, to a further penalty not exceeding \$200.00 for each day during which the offence continues after notice of the contravention or breach is given by or on behalf of the Board to that person.

(2) In addition to any penalty provided by these by-laws, any expense, loss or damage incurred by the Board in consequence of the breach of any by-law shall be paid by the person committing the breach.
