LG601**BUSH FIRES ACT 1954***Shire of Brookton*

Firebreak Order 1995/96

Pursuant to the powers contained in section 33 of the Bush Fires Act 1954 owners and occupiers of property within the Shire of Brookton are hereby required on or before the 14th day of November 1995 to plough, cultivate, scarify, chemically spray or otherwise clear and thereafter maintain free of all flammable material until the 15th day of April 1995, firebreaks as stipulated in the following positions.

Schedule

On Land Outside of the Townsite Boundary

- 1.1 A firebreak, which is at least 5 metres wide, must be installed around, and within 15 metres of, the following—
a building, a haystack, a fuel drum, a fuel depot or any groupings of buildings, haystacks, fuel drums or fuel depots.

During Harvesting

- 1.2 During any period when harvesting operations are being conducted there shall be provided in the same paddock or within 50 metres of that paddock an operational independent mobile fire fighting unit having a water capacity of not less than 450 litres. The tank of the unit shall be kept full of water at all times during the harvest operations. The responsibility to supply the unit being that of the landholder.

Operation of Plant and Machinery

- 1.3 During the prohibited burning times all trucks, bulldozers and tractors shall not be operated on rural land unless fitted with a fire extinguisher.

A fire extinguisher means a device which comprises—

- (a) a container filled with at least 7.5 litres of water, and be capable of discharging that water under pressure and which is in a sound working condition, or
(b) an approved operative chemical extinguisher.
- 1.4 During the prohibited burning time, all internal combustion motors being stationary and unattended shall not be operated unless clear of all flammable material immediately surrounding the said motor for a distance of not less than five (5) metres.

Land Within the Brookton Townsite Boundary

- 2.1 All land with an area of less than 1 000 m² with no buildings, must be completely clear of all flammable material from the whole of the land.
- 2.2 All land with an area of less than 1 000 m² with buildings or groupings of buildings must have an area cleared of flammable material no less than 2 metres wide, not more than 15 metres from such building or groups of buildings or the external boundary of the land—whichever is the nearer.
- 2.3 All land with an area of greater than 1 000 m² with no buildings must be completely surrounded by a firebreak of not less than 2 metres wide as near as possible to the boundary.
- 2.4 All land with an area of greater than 1 000 m² with buildings or groupings of buildings must have an area cleared of flammable material no less than 2 metres wide, not more than 15 metres from the building or groups of buildings or the external boundary of the land—whichever is nearer.

The firebreaks may be inspected shortly after the 14th day of November, 1995, and the penalty for failing to comply with this Notice is a fine of not more than \$1 000 or a penalty of \$40 may be incurred by the issue of an infringement notice, and a person in default is also liable, whether prosecuted or not, to pay the cost of performing the work directed in this Notice, if it is not carried out by the owner or occupier by the date required by this Notice.

If it is considered to be impracticable for any reason to comply with the provisions of this Notice, application may be made not later than the 1st day of November, 1995, in writing to the Council or its authorised officer for permission to provide alternative fire protection measures. If permission is not granted the requirements of this Notice must be complied with.

If the requirements of this Notice are carried out by burning, such burning must be in accordance with the relevant provisions of the Bush Fires Act 1954, which includes the necessity for permits to burn during the restricted and prohibited burning season.

Failure to comply with these requirements renders the offenders to the penalties prescribed in the Bush Fires Act 1954, as amended.

By Order of the Council,

IAN CURLEY, Shire Clerk.

LG602**BUSH FIRES ACT 1954**

Shire of Collie

Firebreak Order

Important Information Relating to Your Responsibility as a Landholder in the Collie Shire

With reference to section 33 of the Bush Fires Act 1954 you are required to carry out fire prevention work on land owned or occupied by you in accordance with the provisions of this order.

This work must be carried out by 1 December 1995 and kept maintained throughout the summer months until 15 April 1996.

An inspection of firebreaks and hazard removal will be carried out in all areas of the Shire by an authorised officer.

Persons who fail to comply with the requirements of this order may be issued with an infringement notice (penalty \$100) or prosecuted with an increased penalty, and additionally, Council may carry out the required work at the cost to the owner or occupier.

If it is considered for any reason to be impracticable to clear firebreaks or remove flammable materials as required by the notice, or where—

- (a) compliance with this order may aggravate soil erosion problems, or
- (b) the owner or occupier of land considers a more effective system of fire protection can be obtained, or
- (c) natural features render firebreaks unnecessary.

You may apply to the Council or its duly authorised officer not later than 15 November 1995 for permission to provide firebreaks in alternative positions or to take alternative action to abate fire hazards on the land.

Approval of variations to this order must be endorsed by the duly authorised officer and such variation once approved shall have effect for the current fire season or if it is revoked by the Council.

If permission is not granted by the Council or its duly authorised officer, you shall comply with the requirements of this notice.

If the requirements of this notice are carried out by burning, such burning must be in accordance with the relevant provisions of the Bush Fires Act.

Forestry firebreaks will only be accepted if approved by the Department of Conservation and Land Management and the duly authorised officer in writing.

1. RURAL LAND

- (a) In respect of all lands owned or occupied by you (other than land within a townsite) you shall clear of all flammable material, firebreaks not less than 2 metres wide immediately inside all external boundaries of your land which is used for pasture.
- (b) Within 100 metres of the perimeter of all buildings and/or haystacks or groups of buildings and/or haystacks, provide firebreaks 3 metres wide so as to surround the buildings and haystacks.
- (c) 3 metre wide firebreaks be cleared around fuel drums, and that the land on which the fuel drums are stacked be kept clear of all flammable material.

2. TOWNSITE LAND (Includes Residential, Commercial and Industrial Land)

In respect of land owned or occupied by you within any townsite, you shall—

- (a) Where the area of land is 2 025 square metres (1/2 acre) or less, remove all flammable material on the land from the whole of the land.
- (b) Where the area of land exceeds 2 025 square metres, (1/2 acre) clear of all flammable material firebreaks not less than 2 metres wide immediately inside all external boundaries of your land and immediately surrounding all buildings and/or haystacks on the land.

3. FUEL AND/OR GAS DEPOTS

In respect of land owned by you on which is situated any container normally used to contain liquids or gas fuels, including the land on which any ramp or support is constructed, you shall have the land clear of all flammable materials.

4. PINE AND EUCALYPT PLANTATIONS

- (1) Plantations: Any area of planted pines or eucalyptus species exceeding 3 hectares.
- (2) Windbreaks: Are defined as planted areas not exceeding 15 metres in depth with an unrestricted length (windbreak plantings are not to be construed as plantations).

FIREBREAK STANDARDS—

- (a) Firebreaks not less than 15 metres in width around the perimeter of land on which pines or eucalypts are planted.
- (b) No less than 15 metres in width along those portions of pine or eucalypt plantations which enjoy a common border with sealed road reserves.
- (c) Not less than 10 metres in width along those portions of pine or eucalypt plantations which enjoy a common boundary with unsealed road reserves.
- (d) No less than 6 metres in width in such positions that no part or compartment of a pine or eucalypt plantation shall exceed 28 hectares in area.
- (e) All firebreaks must be maintained in a trafficable condition and trees on both sides of breaks progressively pruned to a minimum height of 4 metres to allow unrestricted access of maintenance and fire fighting equipment and so as to maintain an effective width of firebreaks.
- (f) Where power lines pass through plantation areas firebreaks as per State Energy Commission specifications must be provided.
- (g) Buffer zones between Special Rural Zones/Special Rural Policy Areas and any pine or eucalypt plantation—the plantation owner shall ensure that a minimum distance of 100 metres is maintained from the outside line of trees on the plantation to the nearest building envelope within the Special Rural Zone/Special Rural Policy Area.

PROHIBITED BURNING TIMES

The Prohibited Burning Times applying with this Shire are—

By Order of the Council,

I. H. MIFFLING, Shire Clerk.

LG603**BUSH FIRES ACT 1954**

City of Geraldton

Notice to All Owners and/or Occupiers of Land in the City of Geraldton

Pursuant to the powers contained in section 33 of the above Act, you are hereby required, on or before the 15th day of November 1995, or within 14 days of the date of your becoming owner or occupier should this be after the 15th day of November 1995, to remove from the land owned or occupied by you, all inflammable materials or to clear firebreaks in accordance with the following and thereafter to maintain the land or the firebreaks clear of inflammable material up to and including the 31st day of March 1996—

- (i) Where the area of the land is 0.202 hectares or less, all inflammable material on the land shall be removed from the whole of the land;
- (ii) Where the land exceeds 0.202 hectares in area, firebreaks at least 3 metres wide shall be cleared of all inflammable material immediately inside all external boundaries of the land and also immediately surrounding all buildings situated on the land.

If it is considered to be impracticable for any reason to clear firebreaks by this notice, you may apply to Council or its duly authorised officer, no later than 1st day of November 1995, for permission to provide firebreaks in alternative positions or to take alternative action to abate fire hazards on the land. If permission is not granted by Council or its duly authorised officer, you are to comply with the requirements of this notice.

Inflammable material is defined for the purpose of this notice to include bush, timber, boxes, cartons, paper and like inflammable materials, rubbish and also any combustible matter, but does not include green standing trees or growing bushes and plants in gardens or lawns.

The penalty for failing to comply with this notice is either an \$80.00 infringement fine or a court fine to a maximum of \$1 000. A person in default is also liable, whether prosecuted or not, to pay the cost of performing the work directed in this notice if it is not carried out by the owner or occupier by the date required by this notice.

Burning of all rubbish or refuse is not permitted within the City of Geraldton without Council permission; therefore burning of vegetation for clearing purposes is not a permitted method, except in special circumstances approval may be authorised by the Manager of Health and Essential Services on receipt of a written application.

By Order of the Council,

G. K. SIMPSON, City Manager.

12. Where the area of the land is 0.2 hectares or less, all inflammable material on the land shall be removed from the whole of land.
13. Where the land exceeds 0.2 hectares in area, firebreaks at least 2.4 metres wide shall be cleared of all inflammable material immediately inside all external boundaries of the land and also immediately surrounding all buildings situated on the land.

If it is considered impracticable for any reason to clear or remove inflammable material from the land in Rural areas as required by this Notice, you may apply to the Council or its duly authorized officer, no later than 15th September 1995 for permission to provide firebreaks in alternative positions or to take alternative action to abate the fire hazards on the land. If permission is not granted by Council or its duly authorized officer, you are to comply with the requirements of this Notice. Inflammable material is defined for the purposes of this Notice to include bush, dry grasses, timber, boxes, cartons, paper and like inflammable materials, rubbish and also any combustible matters, but does not include green standing trees, or growing bushes and plants in gardens or lawns.

The penalty for failing to comply with this Notice is a fine not exceeding \$1 000 and a person in default is liable, whether prosecuted or not, to pay the cost of performing the work directed in this Notice if it is not carried out by the owner or occupier by the date required by this Notice. If the requirements of this Notice are carried by burning, such burning must be in accordance with the relevant provisions of the Bush Fires Act.

Dated 15 August 1995.

By Order of the Council,

W. T. PERRY, Shire Clerk,
PO Box 21, Geraldton 6530.

LG605**BUSH FIRES ACT 1954***Shire of Tammin*

Firebreak Order

Notice to All Owners and/or Occupiers of Land in the Shire of Tammin

Pursuant to the powers contained in section 33 of the above Act, you are hereby required on or before 1 November 1995 to plough, scarify, spray, cultivate or otherwise clear and thereafter, maintain free of all flammable material until 1 March 1996 firebreaks in the following position and of the following dimensions, on the land owned or occupied by you.

1. **RURAL LAND**

- (i) Construct firebreaks of not less than 2.5 metres in width around the boundary of all standing crops and that the maximum area of standing crop to 200 hectares and around the external boundary of each property, such break to be not more than 20 metres inside the boundary fence.
- (ii) Clear and maintain firebreaks at least 2.5 metres wide within 20 metres of the perimeter of any building or group of buildings or hay stacks, in such a manner as to completely encircle the building or hay stack.
- (iii) Where remnant vegetation and replanting of vegetation is evident a break may be located more than 20 metres inside the boundary fence.

2. **TOWNSITE**

All townsite lots within the Shire of Tammin are required to be cleared and maintained free of all inflammable material.

For the purpose of this season inflammable material means dead grass and timber, boxes, cartons, paper and any combustible material or rubbish but does not include living trees, bushes, shrubs and plants in gardens.

3. **FUEL DUMPS AND/OR DEPOTS**

All grass or inflammable materials to be cleared from areas where drum ramps are located and where drums, full or empty are stored and such areas are to be maintained free of grass and similar inflammable material until 1 March 1996.

For the purpose of this section inflammable material means dead grass and timber, boxes, cartons, paper and any combustible material or rubbish but does not include living trees and bushes.

Prohibited burning, period from 1 November 1995 to 7 February 1996.

Restricted burning from 10 October 1995 to 31 October 1995 and 8 February 1996 to 22 March 1996.

GENERAL PROVISIONS

If it is considered to be impractical for any reason to provide fire breaks in the position or adhere to the provisions required by this notice, the approval of the Council must be obtained to prepare such firebreaks in an alternative position. Approval to any such variation will only be granted where the Bush Fire Control Officer for the area has first signified approval for the variation. (Example of reasons to relocate firebreaks include where there are natural firebreaks or areas liable to soil erosion).

The penalty to failing to comply with this notice is a fine of not more than \$1 000 and a person in default is also liable, whether prosecuted not, to pay the cost of performing the work directed in this notice if it is not carried out by the owner or occupier and by the date required by this notice.

If the requirements of this notice are carried out by burning such burning must be in accordance with the relevant provisions of the Bush Fires Act.

Dated 18 August 1995.

By Order of the Council,

G. L. KEEFFE, Shire Clerk.

APPROVED TOWN PLANNING SCHEME AMENDMENT*Shire of Murray*

Town Planning Scheme No. 4—Amendment No. 61

Ref: 853/6/16/7, Pt. 61.

It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act 1928 that the Hon Minister for Planning approved the Shire of Murray Town Planning Scheme Amendment on August 19, 1995 for the purpose of—

1. Amending Clause “5.1 Zones” to add a new zone as follows:

“16. Hills Landscape Protection”

2. Amending Table No. 1—Zoning Table—by adding a new zone entitled:

“Hills Landscape Protection”; and

specifying the following “Uses and Development Uses” for that Zone:

| | |
|-------------------|----|
| Single House | P |
| Home Occupation | AA |
| Public Utility | P |
| Veterinary Clinic | AA |
| Stables | X |
| Rural Pursuit | AA |

All other uses as described in Table No. 1 shall be listed as “X” uses.

3. Amending the Scheme Maps to add a new zone to be entitled;

“Hills Landscape Protection Zone”,

as depicted on the Scheme Amendment Plan

4. Rezoning Murray Locations 913, 1141 and 149 East Coolup Road, from “Rural” zone to “Hills Landscape Protection” zone as depicted on the Scheme Amendment Plan.

5. Adding a new Section to the Scheme numbered 6.11 to read as follows:

6.11 Hills Landscape Protection Zone

- 6.11.1 Objectives of the Zone—It is Council’s intention, through the judicious application of this zoning on and east of the Darling Range escarpment as defined on the Scheme Maps, to create a unique rural living lifestyle opportunity on larger hills lots, which is fully compatible with the environment and amenity characteristics of the Darling Range escarpment. To achieve this goal, Council shall, in assessing the suitability of land for inclusion within the “Hills Landscape Protection” zone, have due regard to the following objectives of the zone:

- (i) to ensure the subject land can be readily integrated into the existing local road network without generating the need for substantial improvements of that network;
- (ii) to ensure subdivision and development will not compromise the environmental integrity of the site as established through a comprehensive environmental assessment procedure;
- (iii) to ensure subdivision and development will not compromise any landscape, scenic or amenity values which are deemed to be an integral trait of the land as viewed from major tourist routes and adjoining properties;
- (iv) to promote land management and landuse practices which will enhance environmental and amenity features where possible or deemed appropriate;
- (v) to ensure the approved subdivision design is sensitive to landscape qualities and site characteristics, and provides for an efficient bush fire management regime to be implemented for the subdivision.

- 6.11.2 Procedure for Rezoning—Having due regard to the objectives described in Section 6.11.1, Council shall require that all submissions for rezoning shall include a comprehensive assessment of all planning, engineering, environmental and landscape considerations which are deemed to be relevant to the subdivision and development of the land. These shall include:

- (i) a description of natural site conditions, including topography, slope, aspect, soils, hydrology and vegetation;
- (ii) a description of existing and proposed landuses;
- (iii) land capability assessment to determine the suitability of the land to accommodate the proposed landuses;
- (iv) accurate plans at a metric scale depicting both cadastral and topographical information. The use of aerial photographs shall be encouraged;
- (v) a description of the land planning context within which the new zone is located, including reference to any relevant studies or planning policies;
- (vi) visual amenity assessment to determine the visual impact of development on the western face of the escarpment;
- (vii) a description of the services available to the land and how these are to be utilised in the subdivision;

- (viii) plans to be produced at a scale of 1:5,000 which depict;
 - (a) the proposed ultimate subdivision of the land including approximate lot sizes and dimensions;
 - (b) road access to each new lot and the connection of the road system within the subdivision to the road system in the locality;
 - (c) land to be set aside for other uses including pedestrian accessways, right of ways and reserves for recreation.
 - (ix) discussion of the manner in which bush fire management will be undertaken for the subdivision.
- 6.11.3 In determining the suitability of land for inclusion within the "Hills Landscape Protection Zone" Council will be mindful of the following selection criteria;
- (i) The land shall be capable of being connected into the local road system;
 - (ii) The subdivision shall have good access to existing infrastructure and services, such as existing townsites;
 - (iii) It must be demonstrated that the subdivision and ensuing development will generate no significant adverse intrusion upon the existing amenity of the immediate and local area;
 - (iv) Subdivision should generate no additional management burdens upon existing reserves;
 - (v) Internal road networks and the general configuration of lots and building envelopes must be capable of being positioned to recognise topographic, land capability and visual amenity constraints;
- 6.11.4 Subdivision, Development & Landuse—the following provisions shall apply to all land within the "Hills Landscape Protection" zone. Provisions which apply to specific areas are described in Schedule 7 to the Scheme. All subdivision development and use of land within the "Hills Landscape Protection" zone shall comply with the Special Provisions contained in Schedule 7 of the Scheme which relate to the particular parcel or parcels of land, in addition to any other provisions contained within this Scheme.
1. A "Plan of Subdivision" for each specific area within the Hills Landscape Protection zone shall be endorsed by the Shire Clerk.
 2. Permitted Land Uses are listed in Table 1—Zoning Table of the Scheme. Notwithstanding any provision contained within the Scheme to the contrary, not more than 1 dwelling house shall be erected upon any new lot created.
 3. No building shall be constructed within the zone of materials the nature and colour or texture of which, in the opinion of the Council, is undesirable for the locality. In reaching any decision, Council will be mindful of the need to protect the visual amenity of the Darling Range escarpment.
 4. Except with the special approval of the Council, no fencing within any of the lots shall be constructed of the following materials:
 - (i) asbestos
 - (ii) fibro cement
 - (iii) metal sheeting
 - (iv) wooden pickets,or any other material deemed to be inconsistent with the rural character of the area.
 5. The Council shall, in the interests of landscape preservation, require building envelopes to be shown on the lots in the subdivision guide plans which form part of the Scheme. Where a building envelope is defined for a lot on the "Plan of Subdivision", no building shall be constructed on that lot unless it is within a defined building envelope, except where it is demonstrated to the satisfaction of the Council at the time of the application for development approval or for a building permit, that an alternative location will be less detrimental to the preservation of the landscape or to the environment, than if it was sited within the building envelope.
 6. (a) Council shall require the subdivider to prepare a Bush Fire Management Plan to the satisfaction of the Council and the Bush Fires Board. Such a plan will be used as the basis for ongoing bush fire management over the property.
 - (b) Individual landowners shall be responsible for the maintenance of strategic fire breaks where they cross the landowners lot as depicted on the Bush Fire Management Plan.
 - (c) The clearing of firebreaks other than for strategic fire break purposes will not be permitted unless for safety reasons to comply with Council and Bush Fire Board requirements. Selective clearing of low fuel areas to a minimum of 20m around each building shall be required by Council. Such low fuel zones should be kept free of debris and shrubs, and maintained to a standard approved by Council in accordance with the Bush Fire Management Plan.
 - (d) Council shall require the establishment and retention of a 10m "drip line" between buildings and trees over 4m in height, to ameliorate the effects of a Crown fire.

- (e) The subdivider shall make arrangements to the satisfaction of Council to ensure prospective purchasers in the transfer of lots are aware of the fire management guidelines of the Home Owners Bush Fire Survival Manual and the Australian Standard 3959-1991 Construction of Buildings in Bush Fire Prone Areas.
 - (f) No building is to be established within 100 metres of an existing or proposed plantation in the area.
 - (g) All fire breaks shall be provided to the specification and satisfaction of the Local Authority and the Bush Fires Board.
7. No lot shall display any sign, hoarding or bill board without the prior consent of the Council and, in any event, the Council should not give approval to the display on any lot of a sign, hoarding or bill board other than a single sign advertising activities conducted on-site, and any such sign shall not exceed 0.2m² in area.
 8. With the intention of preventing over-stocking or other practices detrimental to the amenity of the zone, the breeding or keeping of animals shall not be permitted without the approval in writing of Council. In considering any applications for breeding or keeping of stock, Council will be guided by advice from the Department of Agriculture. Notwithstanding the above, in cases where stocking approval has been given, but where environmental problems develop, Council may, after consultation with the Department of Agriculture, take appropriate action to ban or reduce the stocking of animals. Individual landowners shall be responsible for organising and meeting all costs associated with obtaining advice from the Department of Agriculture where the keeping of any stock is proposed. Notwithstanding the above, no horses shall be kept or stabled on any lot.
 9. No vegetation on any part of the proposed lots, including those areas nominated on the Subdivision Guide Plan for "Agreement to Reserve", for vegetation protection as specified by the Department of Agriculture, may be cleared for any purpose other than the construction of fire breaks and for road construction associated with the subdivision development of the property. All improvements within building envelopes shall be sited and located such that the removal of vegetation within the building envelope is not required. The Council may also, at its discretion, vary the position of any required firebreak to avoid destruction of vegetation or other ways to take account of the physical features of the subject land.
 10. Notwithstanding what may be shown on the "Plan of Subdivision", the Council and the State Planning Commission may approve variations to the Plan where it is determined that such a change is consistent with the overall objectives and intent of the Zone. A further breakdown of lot sizes shown on the "Plan of Subdivision" is deemed to be contrary to the Scheme.
 11. No dwelling shall be constructed or approved for construction unless an approved method of effluent disposal and water storage tank (minimum of 92,000 litres) have been incorporated into the approved plan. All domestic water supply tanks shall be fitted with a gate valve to enable fire brigade appliances to allow water to be drawn to the specifications of the Bush Fires Board.
 12. Landowners shall be responsible for the maintenance and replacement of any trees or other vegetation to the satisfaction of Council. Council may require that areas subject to tree planting or revegetation are fenced to prevent any damage by stock.
 13. On-site effluent disposal systems shall be provided in accordance with the requirements of the Local Authority and shall be designed and positioned to ensure there is no export of nutrients into ground water supplies or waterway systems. All storm water drainage shall be designed to the specification and satisfaction of the Council. The developer shall obtain the approval of the Water Authority and Council for drainage proposals prior to commencement of site works.
 14. When considering Rural Pursuits, Council shall apply the following criteria:
 - Cultivation and cropping of the land for annual horticulture or cereals shall not be permitted;
 - Grazing, orcharding, agriculture or silviculture would generally be permitted but only in areas where the slope gradient did not exceed 20%; and
 - Not forsaking the above, a minimal number of stock would be permitted to graze within existing cleared areas on slopes greater than 20% but only for the purpose of grass suppression and fire control and that such stock, in these areas, shall exclude horses.

6. Adding a new Schedule No. 7 to the Scheme to read as follows:

Schedule 7

TOWN PLANNING AND DEVELOPMENT ACT 1928
APPROVED TOWN PLANNING SCHEME AMENDMENT

Shire of Serpentine-Jarrahdale

Town Planning Scheme No. 2—Amendment No. 55

Ref: 853/2/29/3, Pt. 55.

It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act 1928 that the Hon Minister for Planning approved the Shire of Serpentine-Jarrahdale Town Planning Scheme Amendment on August 19, 1995 for the purpose of amending the Scheme Text by—

1. Adding after "Farmlet" in sub-clause 3.1.1 the following additional zone "Conservation Zone"
2. Adding after Clause 5.13.7 "Farmlet Zone" the following clause:

5.14 CONSERVATION ZONE

- 5.14.1 The purpose and intent of the Conservation Zone is described within the Council's Rural Strategy as amended and adopted by Council and the State Planning Commission dated April 1994.

- 5.14.2 A Conservation Zone is intended to identify land that has a high conservation significance which includes private land with large stands of relatively intact remnant vegetation, all recognised wetlands of significance and some areas covered by the Department of Environmental Protection System 6 recommendations.
- 5.14.3 The private lands identified for conservation in the Rural Strategy are not intended for acquisition by the Council or State Government Agencies. Rather the general aim is to encourage and make it easier for landowners to protect and manage the conservation values present.
- 5.14.4 Before including land within the Conservation Zone Council will require the owners of the land to prepare a submission in support of its inclusion and any submission shall include those matters set down in sub-clause 5.9.3. of this Scheme.
- 5.14.5 A description of the land included in the Conservation Zone together with the uses permitted and any special provisions relating to the land are set out in Appendix 4D. Such uses will generally be in accordance with the Rural Zone uses but will depend upon site survey and reference to land capability and other planning data.
Land uses selected will be on the basis that they will not conflict with, or they will contribute to the significance of conservation values present.
- 5.14.6 In addition to the provisions contained in Appendix 4D and other such provisions of the Scheme as may affect it any land which is included in the Conservation Zone shall be subject to the following conditions:
- The relevant guidelines contained within the Councils Planning Guidelines for Nutrient Management dated May 1994 (as amended) shall apply to the use and development of land.
 - A management plan for each Conservation Zone shall be drafted to Council's satisfaction by the landowner with input from other relevant organisations and the land owners consultant where necessary.
 - The management plan shall establish the limits for land use and the criteria that any development will have to satisfy. The plan will form the basis for site management and future management decisions.
 - The management plan shall, as appropriate, identify setbacks, buffer zones, and the required conservation management practices and other measures as deemed necessary to achieve a satisfactory standard of protection relative to the significance of conservation values present.
- 5.14.7 The implementation of a management plan by the land owner is a means of longer term protection for the site and will be accompanied by a reduced Council rating on the land. The incentives for these conservation measures will be a reduction in the general rural rate which shall be set at 50% unless otherwise amended by Council.
3. Adding a new Appendix 4D as follows:
APPENDIX 4D CONSERVATION ZONE
Provisions relating to Specified Areas.
4. Adding to the list of Zones in Table 1 CONSERVATION ZONE and inserting in the columns of Use Classes under Zones the words "see Appendix 4D".
5. Adding to the notation to the Scheme Map by including the following notation under the heading Zones—
Conservation zone—light green fill, red border and a red letter "C".
