**LG602****BUSHFIRES ACT, 1954***Shire of Albany***FIREBREAK NOTICE**

Notice to all owners and/or occupiers of land in the Shire of Albany

Pursuant to the powers contained in Section 33 of the Bushfires Act, 1954, you are required to have ploughed, scarified, cultivated, burned, chemically sprayed or otherwise cleared and maintained clear on inflammable matter all firebreaks as are required and specified by this notice.

North East Sector: (See plan). A minimum of three (3) metre wide firebreak (\*) to be installed on or by the 15th day of November, 1995 and maintained clear of all inflammable matter to and including the 30th day of March 1996 (or as otherwise gazetted).

South & South West Sector: (See plan). A minimum of two (2) metre wide firebreak (\*) to be installed on or by the 15th day of December, 1995 and maintained clear of all inflammable matter to and including the 30th day of March, 1996 (or as otherwise gazetted).

1. Land having an area of 2100 square metres (1/2 acre) or less:

A firebreak is not required—however—

- (a) The land will be inspected by a Fire Control Officer appointed by the Shire of Albany and notice may be served if action is deemed necessary to reduce a fire hazard existing on the land;

2. All other land exceeding 2100 square metres (1/2 acre) in area:

- (a) Firebreaks shall be constructed as otherwise specified in this notice and—
  - (i) Immediately inside all external boundaries, or within 19.8 metres (1 chain) of those boundaries if so determined by the conditions; whether the land be cleared, partly cleared, bulldozed, chained, used for pasture or undeveloped;
  - (ii) Immediately surrounding all buildings that may be erected thereon.
- (b) Firebreaks shall be constructed as otherwise specified in this notice on all land being under crop during the period 15th November, 1995 to 30th March, 1996 immediately inside the external boundary and a round the standing crop so that the crops are broken up into areas not exceeding approximately 200 hectares. Owners and/or occupiers of land in the North Eastern Sector only have the option of providing a 6 metre width of crop cut and raked for hay as a firebreak around the standing crop.
- (c) A suitable operational fire fighting unit comprising a minimum of a 400 litre tank with motorised pump shall be placed inside the boundary of any land where the harvesting of a crop is taking place. Such equipment is to be adjacent to the harvest and in place for the entire period of the harvest.

(\*) Firebreak width is considered to include a vertical plane to a height of five (5) metres, i.e. all scrub must be cut back so as not to overhang a firebreak.

Applications to vary the above requirements:

If it is considered to be impractical for any reason whatever to carry out works as required by this notice, you may apply through the Fire Control Officer of your Local Bush Fire Brigade no later than 21 days prior to the date by which the firebreaks are required by this notice for permission to provide firebreaks in an alternative position, to take alternative action to abate the fire hazards on the land or to alter or vary this notice in any other way.

Late applications or those not on the current form will not be accepted:

Application forms for this purpose are available from all Bush Fire Control Officers or the Shire Office.

It should be noted that residential and minimum equipment level requirements apply where total exemptions from firebreaks are sought for areas in excess of 2ha. Full details are available from the Shire Council or your local Fire Control Officer.

Note:

Council, or its duly authorised officer will consider approval of other than firebreaks immediately inside the external boundaries where a more suitable alternative can be provided. Approval of such alternatives will only be considered if submitted with the endorsement of the Fire Control Officer for the area concerned and will be on a yearly basis. If permission to vary this order is not granted by the Council or its duly authorised officer, you must comply with the requirements of this notice.

Strategic Firebreaks:

Landowners and/or occupiers or groups of landowners and/or occupiers may apply to the Council of the Shire of Albany for permission to install strategic firebreaks in a specific area, rather than breaks as otherwise specified in this notice. Such strategic firebreaks must be maintained by the landowners/occupiers in accordance with the specifications of this notice.

Optional Perimeter Firebreaks—Kalgan, Kojaneerup, Wellstead, South Stirling and Gnowellen Brigade Areas:

Owners and/or occupiers of land in the Kalgan (previously Lower Kalgan section only), Kojaneerup, Wellstead, South Stirling and Gnowellen brigade areas only, have the option of installing perimeter firebreaks on their land for a 3 year period expiring on 30th June, 1996.

These approvals apply only to areas of these Brigades that are within the boundaries of the Shire of Albany and are for perimeter firebreaks only. Removal of fire hazards around buildings, etc. and all other requirements of this notice remain in force.
