I Samuel George Ernest Cash, the Minister for Mines in the State of Western Australia acting pursuant to sections 30(1) and 43A of the Petroleum Act 1967 hereby invite applications for the grant of exploration permits (Permit) and drilling reservations (DR) within Western Australia's Perth and Carnarvon sedimentary basins under the jurisdiction of the Petroleum Act 1967.

Applications will be received up until 4.00pm on Thursday, 28 March 1996.

For the purpose of this advertisement the vacant areas available for application are depicted on plans of the 1:1 000 000 series entitled "Invitation for Petroleum Title Applications" dated 21 November 1995 which are available for inspection at the Public Counter located on the first floor of the Department of Minerals and Energy.

This invitation does not include blocks which at the time of this notice being published are the subject of Permits, DR's production licences, retention leases or applications thereof.

For permits, applications shall identify a single area of up to 400 contiguous blocks. DR's shall be for a minimum number of contiguous blocks covering a drillable prospect.

As the areas which may be applied for include waters internal to the State ie: between the coast and the baseline from which the three nautical mile Territorial Sea is measured, applicants interested in such areas should familiarise themselves with the Government's "New Horizons in Marine Management" policy document, copies of which are available from the Department of Minerals and Energy.

Where appropriate, permit applications shall specify a work program (wells, geophysical, geochemical surveys etc) to be carried out, and estimated expenditures for each of the six years.

Drilling Reservations requires the drilling of a well within twelve (12) months of being granted.

Applications are to be made in accordance with sections 31 and 43B as appropriate. Wells referred to in the work program should not include development wells. Consideration of an application for the grant of a Permit or DR shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program and the applicant's technical and financial ability to undertake the work.

Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

The approved application forms are available upon request.

Any applications over the above area may be subject to the provisions of the Commonwealth Native Title Act.
