Ref: 853/2/29/3 Pt 61.

It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act 1928, that the Hon Minister for Planning approved the Shire of Serpentine-Jarrahdale Town Planning Scheme Amendment on June 13, 1997 for the purpose of—

TOWN PLANNING AND DEVELOPMENT ACT 1928

The Shire of Serpentine-Jarrahdale under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act 1928 hereby amends the above Town Planning Scheme No. 2 by—

Amending the Scheme Text by—

1. Renumbering clause 7.13 as 7.14
2. Inserting a new clause 7.13 in relation to tree preservation and planting as follows—

7.13 TREE PRESERVATION AND PLANTING

7.13.1 Definitions

For the purpose of this clause:

"damage" in relation to a tree includes lopping, topping, ringbarking or other significant removal of bark, poisoning by any means, burning, exposure of the roots, or deprivation of natural moisture or nutrient;

"naturally growing" means indigenous to the district or any part of the district;

"Tree" includes a shrub or other perennial plant of any indigenous species;

"Watercourse" means a stream of water, a river or brook, and does include water flowing in an artificial channel.

7.13.2 Objectives

The objectives of the tree preservation and planting provisions are—

- (a) to preserve the landscape attributes within the District and to protect significant and sensitive areas from the negative effects of clearing of the naturally growing vegetation;
- (b) to enhance the amenity, convenience and natural beauty of various parts of the District by facilitating:
 - (i) reduction in soil salinity;
 - (ii) prevention of erosion;
 - (iii) provision of habitats for native fauna;
 - (iv) provision for aesthetic pleasure; and
 - (v) retention of the landscape quality.
- (c) to encourage or require planting or replanting of areas considered by the Council to be deficient in tree cover;
- (d) where appropriate to provide for visual screening of buildings or other development;
- (e) with a view to achieving the preceding objectives, to control the removal or destruction of or damage to trees.

7.13.3 Prescribed Requirements for Tree Preservation

- (1) No person shall remove, destroy or damage any tree within the District having at least one well defined stem or trunk of a height greater than 4 metres or diameter greater than 150mm measured at a height of 1.2 metres above the natural ground level, except with the prior planning consent of the Council given on an application under sub-clause 6.1.1, or unless the tree is exempted pursuant to subclause 7.13.4.
- (2) The Council may declare an area of land to be a tree preservation area if in the opinion of the Council—
 - a) the area by reason of its trees; or
 - b) a group of trees in the area; or
 - c) any particular tree or trees in the area—has or have historical or cultural heritage significance or other scientific interest.
- (3) Without affecting the generality of the control contained in paragraph (1) of this sub-clause, no tree or other natural growing vegetation shall be removed, destroyed or damaged except with the prior planning consent of the Council given on an application under sub-clause 6.1.1.
 - (a) within 100 metres of a watercourse;
 - (b) which has a slope in excess of 1 in 5; or
 - (c) which has been designated by the Council as a tree preservation area.
- (4) Notwithstanding the generality of paragraphs (1) and (3) of this sub-clause, the Council may additionally, by notice in writing served upon the owner of the land, require the preservation of a particular tree or species of tree or group of trees, and thereafter the owner shall not remove, destroy or damage, or permit any person to remove, destroy or damage the tree, species of tree or group of trees the subject of the notice unless or until the Council rescinds or withdraws the notice.
- (5) An owner of land upon whom a notice referred to in the preceding paragraph is served may request the Council in writing to rescind or withdraw the notice. If the Council fails to make a determination on the request for rescission or withdrawal of a notice within sixty (60) days of the Council receipt of the same, the request shall be deemed to be refused in the same way as if the request was an application for planning consent under this Scheme.

7.13.4 Exemptions from Tree Preservation

Notwithstanding the provisions of subclause 7.13.3, the Council's planning consent is not required for the removal, destruction or damaging of trees or naturally growing vegetation in the following cases:

- (a) any tree or other vegetation which is not naturally growing and has a height of less than 4 metres and/or trunk diameter less than 150mm measured at a height of 1.2 metres above natural ground level;
- (b) any tree which constitutes an immediate threat to life or property, the proof of which threat lies upon the person who removes, destroys, or damages the tree;
- (c) any tree within:
 - (i) three metres of any buildings;
 - (ii) a building envelope defined or accepted by the Council;
 - (iii) the perimeter line of a proposed building for which a building licence has been issued;
 - (iv) a firebreak required by a Regulation or By-law;
 - (v) a one metre wide corridor for the purpose of erecting and maintaining a fence;
 - (vi) the area required for the construction of an effluent disposal system approved by Council; and
 - (vii) a vehicle accessway to a property.
- (d) any tree having branches directly overhanging the roof of any building, but in that case the exemption applies only to the lopping of an overhanging branch;
- (e) any tree within 2 metres of a sewer, water-main, effluent disposal system, stormwater or power network, where the tree has caused damage or blockage to the installation or equipment in question, proof of which damage lies upon the person removing, destroying or damaging the tree;
- (f) trees grown for commercial purposes;
- (g) where the removal, cutting down, destruction or damaging of the trees or naturally growing vegetation must necessarily be carried out to comply with conditions of subdivision approval; and;
- (h) where the removal, destruction or damaging of the trees or naturally growing vegetation is unavoidable in the lawful undertaking of a public work by a public authority referred to in s.13 of the Act.

7.13.5 Application Procedures

An application involving a proposal for removal, destruction or damaging any tree should incorporate a statement indicating the reason for the proposed removal, destruction or damage, a general description of the tree or trees involved, and should show on a plan the location of the tree or trees involved.

7.13.6 Criteria for Assessing Applications for Tree Removal or Damage

In considering and making a determination on any application for or involving the removal, destruction or damage of any tree or group of trees, Council should take into consideration and may (without limiting the generality of the Council's power) impose conditions relating to the following:

- (a) that there should be a minimum disturbance to the landscape characteristics of the locality;
- (b) generally that a realistic need should be demonstrated for the removal of any tree or trees for the purpose of facilitating appropriate development or agricultural use of the land;
- (c) the intrinsic value of the tree or trees in terms of physical state, rarity and variety, and particularly whether or not the tree is naturally growing;
- (d) reflecting upon the adequacy of the information supplied as to the general description of the tree or trees and the character of the locality;
- (e) giving effect to any proposals made for replacement of trees removed, for planting or replanting generally, and any comprehensive proposal for landscaping;
- (f) preservation of the existing and future amenity of the adjoining land and the natural environment of the locality;
- (g) minimising the effect of removing trees and naturally growing vegetation on the environment and in particular erosion and salination effects.

7.13.7 Tree Planting

Where the Council considers that a lot is deficient in tree cover, it may require as a condition of planning consent, and in the case of a single dwelling in respect of which no planning consent is required, as a condition of the issue of a building licence, that trees up to a maximum of 50 native trees per hectare be planted and maintained on the land the subject of the development or building licence application.

7.13.8 Special Rural and Special Residential Land

Where any provision is made in this Scheme for tree preservation or planting in relation to any Special Rural, Rural Living A, Rural Living B, Farmlet, Conservation or Special Residential zone or subdivision, in the case of any inconsistency, the provisions relating to the Special Rural or Special Residential zone or subdivision shall prevail over the provisions of this clause.

7.13.9 Application of this Clause

This clause applies only to land falling within one (1) of the zones referred to in clause 3.1.

N. D. FIMMANO, Chief Executive Officer.
