1. The test must be carried out inside a draft free chamber constructed from suitable non-flammable material. The flame height must be measured to the nearest 10 millimeters.
2. Adjustable lighters must be tested with the lighter adjusted to produce the maximum flame height and then with the lighter adjusted to produce the minimum flame height.
3. The lighter must produce a flame for a continuous 5 second period and the flame height must be determined by measuring from the tip of the flame to the top of the flameguard or to the base of the flame (in the case of a lighter that does not have a flame guard) by means of a board positioned at least 25 millimeters behind the lighter which is marked with 10 millimeter increments.

##### PART 3—INVERSION TEST PROCEDURES

1. The test apparatus must consist of a device capable of producing gauge pressure of 2 (MPa).
2. The lighter must be emptied of fuel.
3. The fuel reservoir of the lighter must be subjected to an internal pressure equal to twice the vapour pressure at 54 degrees Celsius of the fuel normally used in the lighter. The pressure rise must not exceed a rate of 69 kPa per second.

**AVAILABLE FOR INSPECTION**  
**TOWN OF VICTORIA PARK**  
**TOWN PLANNING SCHEME No. 1**

Ref: 853/2/32/1, Vol 3.

Notice is hereby given that the following modifications have been made to the abovementioned town planning scheme—

**SCHEDULE OF SUBSTANTIAL MODIFICATIONS REQUIRING ADVERTISING**  
**FOR A PERIOD OF 28 DAYS**

**SCHEME TEXT**

1. Clause 14 (Types of Uses) and Clause 16 (Use of Land in a Scheme Use Area) should be modified for consistency with the model scheme text and advertised for 28 days. The scheme was not previously advertised with a zoning table however Council has since modified the scheme to include a Scheme Use Areas Table. The permissibility of the uses should be modified for consistency with the model scheme text prior to advertising (i.e. P for permitted, AA for discretionary and X for prohibited uses).

*Reason—The scheme (Clause 14) currently distinguishes between appropriate uses, prohibited uses and discretionary uses. The Council has also recommended including provisions for additional and non conforming uses. The Scheme Use Area Table now included in the scheme has not been advertised for public comment and will require doing so. The symbols used in this table should be based on the symbols set out in the model scheme text and are necessary for consistency between schemes in the metropolitan region and to ensure that the core land use provisions are easy to interpret both by applicants and the Council.*
