4.1 With the intention of preventing land degradation and practices detrimental to the environmental amenity of the zone, the keeping of stock such as horses, cattle, sheep or goats shall only be considered on Lots 1, 2 & 3 (as shown on the Subdivision Guide Plan), subject to the Specific Approval of Council, fencing of revegetation and significant vegetation and stocking rates in accordance with Agriculture WA guidelines based on cleared and fenced areas.

4.2 Where in the opinion of Council the continued presence of animals on any portion of land is likely to contribute, or is contributing to the dust nuisance, soil degradation and/or damage to revegetation, notice may be served on the owner of the land, requiring immediate removal of those animals specified in the notice.

4.3 Where notice has been served on a landowner in accordance with this Clause the Council may also require the land to be rehabilitated to its satisfaction within three (3) months of serving the notice.
