PUBLIC SECTOR MANAGEMENT ACT 1994 CHIEF EXECUTIVE OFFICER APPOINTMENTS

The Government of Western Australia is keen to ensure that chief executive officers of all public service departments and agencies, are the most suitable for the position. I have therefore decided that it is generally preferable to advertise chief executive officer positions at the expiry of existing appointments, to ensure that competitive and merit-based appointments are made. This approach should not, however, be seen as a reflection upon the capacity of current chief executive officers whose terms of appointment have expired. I expect that present occupants will, in most cases, wish to apply for appointment to advertised positions.

Having received and considered relevant advice in respect of the chief executive officer listed below, I, Richard Fairfax Court, Minister for Public Sector Management, notify that I have not recommended the reappointment of—

Agency	Title	Name of Current Occupant
WorkCover WA	Executive Director	Harry Neesham

I shall soon be requesting the Commissioner for Public Sector Standards to act to enable the filling of this vacancy.

RICHARD COURT, Premier and Minister for
Public Sector Management.

Manjimup Treated Wastewater Disposal Scheme

NOTICE TO CONSTRUCT A 250MM (APPROX.) DIAMETER PRESSURE PIPELINE, IRRIGATED WOODLOT AND STORAGE DAM

This notice of intent is for the construction of a pressure main from the Manjimup wastewater treatment plant to a woodlot on Pozzi Road. The Water Corporation is currently developing the woodlot so that treated wastewater may be irrigated and stored at the site. The project is proposed to improve the environmental impact due to wastewater disposal by re-using all the wastewater instead of disposing of it in Manjimup Creek.

The Water Corporation proposes to construct a 250mm (approx) diameter pressure pipeline. The pipe will be underground with at least 600mm cover. The pipe is approximately 9km in length, with valves at all low and high points. The proposed location of the pipeline is shown on the plan.

The pipe is generally located:

- 3m from existing fencelines
- 2.5m from Telecom lines
- 20m from the electrical transmission line.

Construction of the pipeline will be by open trench excavation that will be backfilled and the surface restored. Any fences or services affected by the construction will be made good.

A clay lined 330ML storage dam will be constructed at the Woodlot Site. The treated wastewater from the dam will be irrigated to bluegum through a trickle irrigation system. The Woodlot Site and dam location are shown on the plan.

Construction is due to commence in January 1998 and will continue through to June 1998.

A copy of this Notice of Intent (referred to as EP45-0-1) is available at the Water Corporation Office, Rose Street, Manjimup during office hours.

Further information may be obtained from Steve Baker (Telephone 08-9420-2163).

Objections to the proposed works will be considered if lodged in writing to Project Manager, Mr Steve Baker, Water Corporation, 629 Newcastle St, Leederville, WA 6007 before the close of business on the 5th January, 1998.
