- (e) To protect the rights of existing and future residents of the Scheme Area so far as it is reasonably possible.

## **PART III—IMPLEMENTATION**

### **3.1 SUBDIVISION AND DEVELOPMENT**

**3.1.1** The Scheme Map forms a basis for subdivision and development of the Scheme Area providing for a range of residential accommodation, commercial uses, public purposes and community facilities. Any subdivision or development in the Scheme area should generally be in accordance with the Scheme Map.

**3.1.2** The WAPC may on advice from the Council permit alterations or variations to the subdivision pattern shown on the Scheme Map.

**3.1.3** Council may permit alterations or variations to the development pattern shown on the Scheme Map.

**3.1.4** Any alteration or variation to the Scheme Map should not impede the subdivision or development of the Scheme Area as a whole and should not be prejudicial to the amenity of the Scheme Area or be contrary to the general objectives of the Scheme.

**3.1.5** In considering a proposed alteration or variation to the Scheme Map, the Council shall notify any owner of land it considers is affected by the proposed alteration or variation and shall invite each owner to make a submission to the Council regarding the proposal.

**3.1.6** To clarify the intent of the Scheme, subdivision for the purpose of the Scheme is defined to include subdivision under the Town Planning and Development Act, 1928 (as amended), and all strata subdivision requiring the certification of the Council under Sections 23 and 24 of the Strata Titles Act 1985.

### **3.2 ROADS, WAYS AND PEDESTRIAN ACCESS WAYS**

**3.2.1** Subject to the following clauses all roads, ways and pedestrian access ways created by subdivision or development in the Scheme Area shall be constructed and drained at the expense of the owners of the land on which the roads, ways and pedestrian access ways are situated and each owner shall when subdividing his land make the land available for the roads, ways and pedestrian access ways and pay the costs of the construction and drainage of the roads, ways and pedestrian access ways within the land owned by him.

**3.2.2** Except as provided for in S28A of the Act, in cases where the situation of a road, way or pedestrian access way within the Scheme Area is such that in the opinion of the Council it would be fair and equitable that the owners of land served or capable of being served should each contribute to the cost of the construction and/or drainage of that road, way or pedestrian access way and contribute to the value of the land made available for that road, way and pedestrian access way and such owners are unable to agree upon the proportion of the costs payable by each of them the amount (if any) payable by each such owner shall be determined by arbitration in the manner hereinafter provided.

**3.2.3** In cases where Council is of the opinion that the provision of a pedestrian access way is of more benefit to the community at large than to the subdivider from whose land the pedestrian access way is to be provided, the Council may assume responsibility for all or part of the cost of construction and drainage thereof. The remaining costs, if any, shall be the responsibility of the subdivider.

**3.2.4** The Council may construct and drain any roads, ways and pedestrian access ways within the Scheme Area and acquire the land necessary for that purpose. If the Council shall do so prior to the subdivision or development of the lands served or capable of being served by such road, way or pedestrian access way the costs of the construction and drainage of the said road, way or pedestrian access way and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by each respective owner of land in accordance with the foregoing provisions immediately prior to the clearance by Council of the plan/diagram of survey for the subdivision or the issue by

Council of the Certificate of Local Government under the Strata Titles Act 1985 or after having been served with not less than three calendar months' notice from the Council calling upon the said owner to make such payment whichever shall first happen.

3.2.5 If an owner shall subdivide his land and if he or his predecessors in title shall have claimed or shall have been paid compensation by reason of the resumption by the Council of the land for a road, way or pedestrian access way within the Scheme Area he shall immediately prior to clearance by Council of the plan/diagram of survey for the subdivision or the issue by Council of the Certificate of Local Government under the Strata Titles Act 1985 release the Council from the payment of compensation or repay to the Council the compensation paid by it to the said owner or his predecessors in title as the case may be.

3.2.6 All existing roads within the Scheme Area may where the Council considers it to be in the interest of the community to do so be constructed and drained by the Council at no cost to the Scheme.

3.2.7 Should the Council form the opinion that rear service vehicle access is required for the future development of lots fronting Sevenoaks Street between Mallard Way and Stockman Way the owners of such lots shall be required at the time of subdivision or development to cede the land required for such access and to contribute to the costs of construction and drainage of such access in a fair and equitable manner as determined by Council unless such access is to be provided by agreement over private land. In the case of any dispute regarding the Council's determination of costs the matter shall be determined by arbitration in the manner hereinafter provided.

### **3.3 PUBLIC OPEN SPACE**

3.3.1 It is intended that the land shown on the Scheme Map as "Public Open Space" shall ultimately be reserved under the zoning scheme of the City for that purpose.

3.3.2 Subject to subclause 3.3.3 the Council may as and when it deems fit acquire the land shown on the Scheme Map for the purpose of public open space or any part thereof either by purchase, exchange or compulsory taking or partly by one method and partly by any of the others.

3.3.3 Subject to subclause 3.3.4 each owner when subdividing the owner's land shall contribute towards public open space in the following manner:

- (a) The owner shall transfer to the Crown at no cost to the Crown so much of the owner's land as is shown on the Scheme Map as "Public Open Space".
- (b) If no part of the owner's land is shown as "Public Open Space" on the Scheme Map the owner shall pay to the Council five per centum (5%) of the value of the land the subject of subdivision.
- (c) If the value of the land to be transferred to the Crown pursuant to paragraph (a) hereof is greater or less than five per centum (5%) of the value of the land the subject of the subdivision the Council shall adjust the contribution by a payment of money or if the owner(s) so agree transfer of land or both so as to achieve the 5% level of contribution.

3.3.4 For the purpose of the application of this clause any portion of an owner's land provided by the owner for any public utility shall be excluded from the area of land the subject of the subdivision in making the calculation of five per centum (5%) public open space.

3.3.5 For the purpose of this Clause 3.3, where the Council is of the opinion that a proposed subdivision will not facilitate an increase in residential density the Council may, subject to the approval of the Commission, waive the requirement for a public open space contribution for the subject subdivision under the preceding subclauses. The provisions of this subclause may be applied retrospectively, in any case, where it is appropriate in the opinion of the Council to do so.

3.3.6 All monies received by the Council pursuant to this clause shall be paid into a special trust fund known as the "Scheme 17 Public Open Space Trust Fund".

3.3.7 The Council shall apply moneys standing to the credit of the Scheme 17 Public Open Space Trust Fund in repaying any loan moneys or finance made available to it and interest thereon expended on the acquisition and development of public open space in the Scheme Area. The Council may in the same way refund moneys advanced from its municipal fund together with interest at the rate payable on moneys borrowed from the Council's bank or overdraft from time to time.

3.3.8 In the event of the moneys standing to the credit of the Scheme 17 Public Open Space Trust Fund being insufficient to repay the said loan and other moneys and interest the Council shall repay the balance thereof from its municipal fund.

3.3.9 In the event of the moneys in the Scheme 17 Public Open Space Trust Fund being greater than the amount necessary to repay the said loans and other moneys and interest the balance thereof shall be applied by the Council in providing improvements to public open space or drainage areas in or near the Scheme Area.

3.3.10 Where an owner of land in the Scheme Area has fulfilled obligations for contributions of land or moneys for Public Open Space pursuant to the provisions of this Scheme, no further contribution shall be required if that land is the subject of further subdivision.
